#	Article	IF	CITATIONS
1	Graded Chronic Pain Scale. Clinical Journal of Pain, 2022, 38, 119-131.	1.9	12
2	Temporomandibular Disorders: Priorities for Research and Care. Journal of Dental Research, 2022, 101, 742-743.	5.2	4
3	Management of painful temporomandibular disorders. Journal of the American Dental Association, 2022, 153, 144-157.	1.5	6
4	Diagnostic criteria for temporomandibular disorders in children and adolescents: An international Delphi studyâ€Part 2â€Đevelopment of Axis II. Journal of Oral Rehabilitation, 2022, 49, 541-552.	3.0	18
5	New curriculum standards for teaching temporomandibular disorders in dental schools. Journal of the American Dental Association, 2022, 153, 395-398.	1.5	2
6	The prevalence of comorbid chronic pain conditions among patients with temporomandibular disorders. Journal of the American Dental Association, 2022, 153, 241-250.e10.	1.5	28
7	Commentary on Temporomandibular Disorders: Priorities for Research and Care. Journal of the American Dental Association, 2022, 153, 295-297.e3.	1.5	1
8	Renaming burning mouth syndrome: implications and use for the Research Diagnostic Criteria for Burning Mouth Syndrome. Pain, 2022, 163, e691-e692.	4.2	4
9	Ratio of Omega-6/Omega-3 Polyunsaturated Fatty Acids Associated With Somatic and Depressive Symptoms in People With Painful Temporomandibular Disorder and Irritable Bowel Syndrome. Journal of Pain, 2022, 23, 1737-1748.	1.4	4
10	Commentary on "Temporomandibular Disorders: Priorities for Research and Care― Implications for the readership of the Journal of Prosthetic Dentistry. Journal of Prosthetic Dentistry, 2022, , .	2.8	0
11	Circulating Omega-6 and Omega-3 Polyunsaturated Fatty Acids in Painful Temporomandibular Disorder and Low Back Pain. Journal of Pain, 2022, 23, 1724-1736.	1.4	5
12	Developing a research diagnostic criteria for burning mouth syndrome: Results from an international Delphi process. Journal of Oral Rehabilitation, 2021, 48, 308-331.	3.0	24
13	<i>COMT</i> Genotype and Efficacy of Propranolol for TMD Pain: A Randomized Trial. Journal of Dental Research, 2021, 100, 163-170.	5.2	10
14	Effect of comorbid migraine on propranolol efficacy for painful TMD in a randomized controlled trial. Cephalalgia, 2021, 41, 839-850.	3.9	10
15	Diagnostic criteria for temporomandibular disorders (DC/TMD) for children and adolescents: An international Delphi study—Part 1â€Đevelopment of Axis I. Journal of Oral Rehabilitation, 2021, 48, 836-845.	3.0	45
16	Clinical, psychological, and sensory characteristics associated with headache attributed to temporomandibular disorder in people with chronic myogenous temporomandibular disorder and primary headaches. Journal of Headache and Pain, 2021, 22, 42.	6.0	10
17	Association between wakingâ€state oral behaviours, according to the oral behaviors checklist, and TMD subgroups. Journal of Oral Rehabilitation, 2021, 48, 996-1003.	3.0	25
18	Are oral overuse behaviours associated with painful temporomandibular disorders? A crossâ€sectional study in Portuguese university students. Journal of Oral Rehabilitation, 2021, 48, 1099-1108.	3.0	11

#	Article	IF	CITATIONS
19	Phenotypic profile clustering pragmatically identifies diagnostically and mechanistically informative subgroups of chronic pain patients. Pain, 2021, 162, 1528-1538.	4.2	19
20	Temporomandibular Disorders Core Curriculum for Predoctoral Dental Education: Recommendations from the American Academy of Orofacial Pain. Journal of Oral and Facial Pain and Headache, 2021, 35, 271-277.	1.4	2
21	Premorbid and concurrent predictors of TMD onset and persistence. European Journal of Pain, 2020, 24, 145-158.	2.8	26
22	Challenges in the clinical implementation of a biopsychosocial model for assessment and management of orofacial pain. Journal of Oral Rehabilitation, 2020, 47, 87-100.	3.0	26
23	Biopsychosocial assessment and management of persistent orofacial pain. Oral Surgery, 2020, 13, 349-357.	0.2	3
24	Attributes Germane to Temporomandibular Disorders and Their Associations with Five Chronic Overlapping Pain Conditions. Journal of Oral and Facial Pain and Headache, 2020, 34, s57-s72.	1.4	7
25	Authors' Response: When You Come to the Fork in the Road, Take It! Future Research into Chronic Pain as a General Condition. Journal of Oral and Facial Pain and Headache, 2020, 34, s12-s14.	1.4	2
26	Efficacy and safety of propranolol for treatment of temporomandibular disorder pain: a randomized, placebo-controlled clinical trial. Pain, 2020, 161, 1755-1767.	4.2	26
27	Associations of Psychologic Factors with Multiple Chronic Overlapping Pain Conditions. Journal of Oral and Facial Pain and Headache, 2020, 34, s85-s100.	1.4	40
28	A cross-sectional study of temporomandibular joint coronal plane disk position: imaging reliability and clinical utility. Oral Surgery, Oral Medicine, Oral Pathology and Oral Radiology, 2020, 130, 161-168.	0.4	1
29	Pain Sensitivity Modifies Risk of Injury-Related Temporomandibular Disorder. Journal of Dental Research, 2020, 99, 530-536.	5.2	14
30	Effect of Treatment Expectation on Placebo Response and Analgesic Efficacy. JAMA Network Open, 2020, 3, e202907.	5.9	12
31	Clinical predictors of persistent temporomandibular disorder in people with first-onset temporomandibular disorder. Journal of the American Dental Association, 2019, 150, 572-581.e10.	1.5	33
32	Biopsychosocial Aspects of Orofacial Pain. , 2019, , 1797-1817.		3
33	Clinical Evaluation. , 2019, , 121-142.		0
34	The Role of Trauma and Whiplash Injury in TMD. , 2019, , 13-32.		0
35	AAPT Diagnostic Criteria for Chronic Painful Temporomandibular Disorders. Journal of Pain, 2019, 20, 1276-1292.	1.4	31
36	Anatomical selectivity in overlap of chronic facial and bodily pain. Pain Reports, 2019, 4, e729.	2.7	12

#	Article	IF	CITATIONS
37	Incident injury is strongly associated with subsequent incident temporomandibular disorder: results from the OPPERA study. Pain, 2019, 160, 1551-1561.	4.2	32
38	Genome-wide association reveals contribution of MRAS to painful temporomandibular disorder in males. Pain, 2019, 160, 579-591.	4.2	37
39	Development and preliminary evaluation of a new screening instrument for atypical odontalgia and persistent dentoalveolar pain disorder. International Endodontic Journal, 2019, 52, 279-287.	5.0	4
40	Characteristics Associated With High-Impact Pain in People With Temporomandibular Disorder: A Cross-Sectional Study. Journal of Pain, 2019, 20, 288-300.	1.4	19
41	Cultural equivalence, reliability and utility of the Portuguese version of the Oral Behaviours Checklist. Journal of Oral Rehabilitation, 2018, 45, 924-931.	3.0	20
42	The Role of Stress in the Etiology of Oral Parafunction and Myofascial Pain. Oral and Maxillofacial Surgery Clinics of North America, 2018, 30, 369-379.	1.0	55
43	Crossâ€cultural differences in types and beliefs about treatment in women with temporomandibular disorder pain. Journal of Oral Rehabilitation, 2018, 45, 659-668.	3.0	5
44	Long-term changes in biopsychosocial characteristics related to temporomandibular disorder: findings from the OPPERA study. Pain, 2018, 159, 2403-2413.	4.2	70
45	GWAS Identifies New Loci for Painful Temporomandibular Disorder: Hispanic Community Health Study/Study of Latinos. Journal of Dental Research, 2017, 96, 277-284.	5.2	31
46	Influence of culture on pain comorbidity in women with and without temporomandibular disorderâ€pain. Journal of Oral Rehabilitation, 2017, 44, 415-425.	3.0	10
47	Temporal change in headache and its contribution to the risk of developing first-onset temporomandibular disorder in the Orofacial Pain: Prospective Evaluation and Risk Assessment (OPPERA) study. Pain, 2017, 158, 120-129.	4.2	51
48	Causal Mediation in the Development of Painful Temporomandibular Disorder. Journal of Pain, 2017, 18, 428-436.	1.4	25
49	Longitudinal Stability of Common TMJ Structural Disorders. Journal of Dental Research, 2017, 96, 270-276.	5.2	51
50	Biopsychosocial Aspects of Orofacial Pain. , 2017, , 1-21.		4
51	Epiregulin and EGFR interactions are involved in pain processing. Journal of Clinical Investigation, 2017, 127, 3353-3366.	8.2	85
52	The effect of culture on pain sensitivity. Journal of Oral Rehabilitation, 2016, 43, 81-88.	3.0	47
53	Executive summary of the Diagnostic Criteria for Temporomandibular Disorders for clinical and research applications. Journal of the American Dental Association, 2016, 147, 438-445.	1.5	138
54	Selfâ€management programmes in temporomandibular disorders: results from an international <scp>D</scp> elphi process. Journal of Oral Rehabilitation, 2016, 43, 929-936.	3.0	48

#	Article	IF	CITATIONS
55	Approaches to Demonstrating the Reliability and Validity of Core Diagnostic Criteria for Chronic Pain. Journal of Pain, 2016, 17, T118-T131.	1.4	16
56	Assessment of Psychosocial and Functional Impact of Chronic Pain. Journal of Pain, 2016, 17, T21-T49.	1.4	231
57	Self-Report of Waking-State Oral Parafunctional Behaviors in the Natural Environment. Journal of Oral and Facial Pain and Headache, 2016, 30, 107-119.	1.4	44
58	Identification of clusters of individuals relevant to temporomandibular disorders and other chronic pain conditions. Pain, 2016, 157, 1266-1278.	4.2	104
59	Next steps in development of the diagnostic criteria for temporomandibular disorders (DC/TMD): Recommendations from the International RDC/TMD Consortium Network workshop. Journal of Oral Rehabilitation, 2016, 43, 453-467.	3.0	37
60	Painful Temporomandibular Disorder. Journal of Dental Research, 2016, 95, 1084-1092.	5.2	413
61	The Evolution of TMD Diagnosis. Journal of Dental Research, 2016, 95, 1093-1101.	5.2	190
62	Effect of somatosensory amplification and trait anxiety on experimentally induced orthodontic pain. European Journal of Oral Sciences, 2016, 124, 127-134.	1.5	36
63	Perspectives on next steps in classification of oroâ€facial pain–Âpart 2: role of psychosocial factors. Journal of Oral Rehabilitation, 2015, 42, 942-955.	3.0	20
64	Perspectives on next steps in classification of oroâ€facial pain – part 1: role of ontology. Journal of Oral Rehabilitation, 2015, 42, 926-941.	3.0	24
65	Achieved competences in temporomandibular disorders/orofacial pain: a comparison between two dental schools in <scp>E</scp> urope. European Journal of Dental Education, 2015, 19, 161-168.	2.0	9
66	Perspectives on next steps in classification of oroâ€facial pain – Part 3: biomarkers of chronic oroâ€facial pain – from research to clinic. Journal of Oral Rehabilitation, 2015, 42, 956-966.	3.0	19
67	<scp>OHIP</scp> â€ <scp>TMD</scp> s: a patientâ€reported outcome measure for temporomandibular disorders. Community Dentistry and Oral Epidemiology, 2015, 43, 461-470.	1.9	42
68	Psychological Considerations. , 2015, , 49-61.		3
69	COMT Diplotype Amplifies Effect of Stress on Risk of Temporomandibular Pain. Journal of Dental Research, 2015, 94, 1187-1195.	5.2	34
70	Pressure pain thresholds fluctuate with, but do not usefully predict, the clinical course of painful temporomandibular disorder. Pain, 2014, 155, 2134-2143.	4.2	63
71	The ACTTION-American Pain Society Pain Taxonomy (AAPT): An Evidence-Based and Multidimensional Approach to Classifying Chronic Pain Conditions. Journal of Pain, 2014, 15, 241-249.	1.4	159
72	Expanding the taxonomy of the diagnostic criteria for temporomandibular disorders. Journal of Oral Rehabilitation, 2014, 41, 2-23.	3.0	266

#	Article	IF	CITATIONS
73	Diagnostic Criteria for Temporomandibular Disorders (DC/TMD) for Clinical and Research Applications: Recommendations of the International RDC/TMD Consortium Network* and Orofacial Pain Special Interest Groupâ€. Journal of Oral and Facial Pain and Headache, 2014, 28, 6-27.	1.4	2,581
74	Pain Sensitivity and Autonomic Factors Associated With Development of TMD: The OPPERA Prospective Cohort Study. Journal of Pain, 2013, 14, T63-T74.e6.	1.4	91
75	Facial pain with localized and widespread manifestations: Separate pathways of vulnerability. Pain, 2013, 154, 2335-2343.	4.2	31
76	Signs and Symptoms of First-Onset TMD and Sociodemographic Predictors of Its Development: The OPPERA Prospective Cohort Study. Journal of Pain, 2013, 14, T20-T32.e3.	1.4	176
77	Temporomandibular joint diagnosis: striking a balance between the sufficiency of clinical assessment and the need for imaging. Oral Surgery, Oral Medicine, Oral Pathology and Oral Radiology, 2013, 116, 124-125.	0.4	7
78	Multivariable Modeling of Phenotypic Risk Factors for First-Onset TMD: The OPPERA Prospective Cohort Study. Journal of Pain, 2013, 14, T102-T115.	1.4	79
79	General Health Status and Incidence of First-Onset Temporomandibular Disorder: The OPPERA Prospective Cohort Study. Journal of Pain, 2013, 14, T51-T62.	1.4	91
80	Clinical Orofacial Characteristics Associated With Risk of First-Onset TMD: The OPPERA Prospective Cohort Study. Journal of Pain, 2013, 14, T33-T50.	1.4	142
81	Psychological Factors Associated With Development of TMD: The OPPERA Prospective Cohort Study. Journal of Pain, 2013, 14, T75-T90.	1.4	321
82	Study Protocol, Sample Characteristics, and Loss to Follow-Up: The OPPERA Prospective Cohort Study. Journal of Pain, 2013, 14, T2-T19.	1.4	59
83	Genetic Variants Associated With Development of TMD and Its Intermediate Phenotypes: The Genetic Architecture of TMD in the OPPERA Prospective Cohort Study. Journal of Pain, 2013, 14, T91-T101.e3.	1.4	76
84	Preclinical episodes of orofacial pain symptoms and their association with health care behaviors in the OPPERA prospective cohort study. Pain, 2013, 154, 750-760.	4.2	37
85	Summary of Findings From the OPPERA Prospective Cohort Study of Incidence of First-Onset Temporomandibular Disorder: Implications and Future Directions. Journal of Pain, 2013, 14, T116-T124.	1.4	189
86	Muscle Organization in Individuals with and without Pain and Joint Dysfunction. Journal of Dental Research, 2012, 91, 568-573.	5.2	24
87	Diagnostic criteria for headache attributed to temporomandibular disorders. Cephalalgia, 2012, 32, 683-692.	3.9	66
88	Influence of temple headache frequency on physical functioning and emotional functioning in subjects with temporomandibular disorder pain. Journal of Orofacial Pain, 2012, 26, 83-90.	1.7	12
89	Development of a brief and effective temporomandibular disorder pain screening questionnaire. Journal of the American Dental Association, 2011, 142, 1183-1191.	1.5	197
90	Study Methods, Recruitment, Sociodemographic Findings, and Demographic Representativeness in the OPPERA Study. Journal of Pain, 2011, 12, T12-T26.	1.4	130
