#	ARTICLE	IF	CITATIONS
1	Evidence-based national guidelines for the management of suspected fetal growth restriction: comparison, consensus, and controversy. American Journal of Obstetrics and Gynecology, 2018, 218, S855-S868.	0.7	290
2	INTERGROWTH-21st vs customized birthweight standards for identification of perinatal mortality and morbidity. American Journal of Obstetrics and Gynecology, 2016, 214, 509.e1-509.e7.	0.7	136
3	Gestational weight gain and adverse pregnancy outcomes in a nulliparous cohort. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2013, 167, 149-153.	0.5	92
4	Maternal obesity and postpartum haemorrhage after vaginal and caesarean delivery among nulliparous women at term: a retrospective cohort study. BMC Pregnancy and Childbirth, 2012, 12, 112.	0.9	66
5	Risk of First-Stage and Second-Stage Cesarean Delivery by Maternal Body Mass Index Among Nulliparous Women in Labor at Term. Obstetrics and Gynecology, 2011, 117, 1315-1322.	1.2	61
6	Maternal and pathological pregnancy characteristics in customised birthweight centiles and identification of at-risk small-for-gestational-age infants: a retrospective cohort study. BJOG: an International Journal of Obstetrics and Gynaecology, 2012, 119, 848-856.	1.1	47
7	An Individual Participant Data Meta-analysis of Maternal Going-to-Sleep Position, Interactions with Fetal Vulnerability, and the Risk of Late Stillbirth. EClinicalMedicine, 2019, 10, 49-57.	3.2	46
8	The impact of maternal body mass index on the phenotype of pre-eclampsia: a prospective cohort study. BJOG: an International Journal of Obstetrics and Gynaecology, 2012, 119, 589-595.	1.1	35
9	Independent risk factors for infants who are small for gestational age by customised birthweight centiles in a multiethnic New Zealand population. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2013, 53, 136-142.	0.4	34
10	Ethnicity, body mass index and risk of pre-eclampsia in a multiethnic New Zealand population. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2012, 52, 552-558.	0.4	33
11	Neonatal morbidity and small and large size for gestation: a comparison of birthweight centiles. Journal of Perinatology, 2020, 40, 732-742.	0.9	16
12	Association of Supine Going-to-Sleep Position in Late Pregnancy With Reduced Birth Weight. JAMA Network Open, 2019, 2, e1912614.	2.8	13
13	Placental growth factor as an indicator of fetal growth restriction in late-onset small-for-gestational age pregnancies. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2019, 59, 89-95.	0.4	12
14	Ethnicity and risk of caesarean section in a term, nulliparous New Zealand obstetric cohort. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2013, 53, 258-264.	0.4	7
15	Ethnic disparities in repeat caesarean rates at Auckland Hospital. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2013, 53, n/a-n/a.	0.4	6
16	Reduction in perinatal mortality among small for gestational age babies in New Zealand. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2021, 61, 505-512.	0.4	1
17	Accuracy of ultrasound in the estimation of customised birth weight in a public hospital service. Journal of Medical Imaging and Radiation Oncology, 2022, 66, 1044-1051.	0.9	1
18	Re: Diagnosis and management of late-onset fetal growth restriction. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2015, 55, 405-406.	0.4	0
