

Rose Anne Kenny

List of Publications by Citations

Source: <https://exaly.com/author-pdf/6863071/rose-anne-kenny-publications-by-citations.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
193	The frailty index in Europeans: association with age and mortality. <i>Age and Ageing</i> , 2012 , 41, 684-9	3	138
192	Age-related normative changes in phasic orthostatic blood pressure in a large population study: findings from The Irish Longitudinal Study on Ageing (TILDA). <i>Circulation</i> , 2014 , 130, 1780-9	16.7	125
191	Reproducibility of orthostatic hypotension in symptomatic elderly. <i>American Journal of Medicine</i> , 1996 , 100, 418-22	2.4	123
190	Normative values of cognitive and physical function in older adults: findings from the Irish Longitudinal Study on Ageing. <i>Journal of the American Geriatrics Society</i> , 2013 , 61 Suppl 2, S279-90	5.6	114
189	Is inefficient multisensory processing associated with falls in older people?. <i>Experimental Brain Research</i> , 2011 , 209, 375-84	2.3	109
188	Polypharmacy including falls risk-increasing medications and subsequent falls in community-dwelling middle-aged and older adults. <i>Age and Ageing</i> , 2015 , 44, 90-6	3	108
187	Fall-Risk-Increasing Drugs: A Systematic Review and Meta-Analysis: I. Cardiovascular Drugs. <i>Journal of the American Medical Directors Association</i> , 2018 , 19, 371.e1-371.e9	5.9	97
186	Association between timed up-and-go and memory, executive function, and processing speed. <i>Journal of the American Geriatrics Society</i> , 2012 , 60, 1681-6	5.6	96
185	Health and aging: development of the Irish Longitudinal Study on Ageing health assessment. <i>Journal of the American Geriatrics Society</i> , 2013 , 61 Suppl 2, S269-78	5.6	88
184	Cohort Profile Update: The Irish Longitudinal Study on Ageing (TILDA). <i>International Journal of Epidemiology</i> , 2018 , 47, 1398-1398l	7.8	87
183	Nilvadipine in mild to moderate Alzheimer disease: A randomised controlled trial. <i>PLoS Medicine</i> , 2018 , 15, e1002660	11.6	87
182	Continuous noninvasive orthostatic blood pressure measurements and their relationship with orthostatic intolerance, falls, and frailty in older people. <i>Journal of the American Geriatrics Society</i> , 2011 , 59, 655-65	5.6	77
181	Impaired Orthostatic Blood Pressure Recovery Is Associated with Unexplained and Injurious Falls. <i>Journal of the American Geriatrics Society</i> , 2017 , 65, 474-482	5.6	76
180	Using timed up and go and usual gait speed to predict incident disability in daily activities among community-dwelling adults aged 65 and older. <i>Archives of Physical Medicine and Rehabilitation</i> , 2014 , 95, 1954-61	2.8	75
179	Fifty Plus in Ireland 2011: First Results from The Irish Longitudinal Study on Ageing 2011 ,		73
178	Negative perceptions of aging predict longitudinal decline in cognitive function. <i>Psychology and Aging</i> , 2016 , 31, 71-81	3.6	73
177	The Design of the Irish Longitudinal Study on Ageing		72

176	Epidemiology of syncope/collapse in younger and older Western patient populations. <i>Progress in Cardiovascular Diseases</i> , 2013 , 55, 357-63	8.5	71
175	The Association of Cardiovascular Disorders and Falls: A Systematic Review. <i>Journal of the American Medical Directors Association</i> , 2016 , 17, 193-9	5.9	65
174	Improving the efficiency of multisensory integration in older adults: audio-visual temporal discrimination training reduces susceptibility to the sound-induced flash illusion. <i>Neuropsychologia</i> , 2014 , 61, 259-68	3.2	65
173	Cognitive function is associated with impaired heart rate variability in ageing adults: the Irish longitudinal study on ageing wave one results. <i>Clinical Autonomic Research</i> , 2013 , 23, 313-23	4.3	60
172	Use of Medications with Anticholinergic Activity and Self-Reported Injurious Falls in Older Community-Dwelling Adults. <i>Journal of the American Geriatrics Society</i> , 2015 , 63, 1561-9	5.6	52
171	The impact of childhood sexual abuse on the mental and physical health, and healthcare utilization of older adults. <i>International Psychogeriatrics</i> , 2016 , 28, 415-22	3.4	49
170	Sustained attention and frailty in the older adult population. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2014 , 69, 147-56	4.6	48
169	Orthostatic hypotension is associated with lower cognitive performance in adults aged 50 plus with supine hypertension. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2014 , 69, 878-85	6.4	47
168	Do older pedestrians have enough time to cross roads in Dublin? A critique of the Traffic Management Guidelines based on clinical research findings. <i>Age and Ageing</i> , 2010 , 39, 80-6	3	45
167	GrimAge Outperforms Other Epigenetic Clocks in the Prediction of Age-Related Clinical Phenotypes and All-Cause Mortality. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2021 , 76, 741-749	6.4	45
166	Negative perceptions of aging and decline in walking speed: a self-fulfilling prophecy. <i>PLoS ONE</i> , 2015 , 10, e0123260	3.7	42
165	Orthostatic Blood Pressure Behavior in People with Mild Cognitive Impairment Predicts Conversion to Dementia. <i>Journal of the American Geriatrics Society</i> , 2015 , 63, 1868-73	5.6	41
164	Speed of Heart Rate Recovery in Response to Orthostatic Challenge. <i>Circulation Research</i> , 2016 , 119, 666-75	15.7	40
163	The factors associated with self-reported physical activity in older adults living in the community. <i>Age and Ageing</i> , 2015 , 44, 586-92	3	37
162	Strengths and Limitations of the MoCA for Assessing Cognitive Functioning: Findings From a Large Representative Sample of Irish Older Adults. <i>Journal of Geriatric Psychiatry and Neurology</i> , 2016 , 29, 18-24	2.8	36
161	A standing posture is associated with increased susceptibility to the sound-induced flash illusion in fall-prone older adults. <i>Experimental Brain Research</i> , 2014 , 232, 423-34	2.3	36
160	Plasma Lutein and Zeaxanthin Are Associated With Better Cognitive Function Across Multiple Domains in a Large Population-Based Sample of Older Adults: Findings from The Irish Longitudinal Study on Aging. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2017 , 72, 1431-1436	6.4	34
159	Relative association of processing speed, short-term memory and sustained attention with task on gait speed: a study of community-dwelling people 50 years and older. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2014 , 69, 1407-14	6.4	33

158	NILVAD protocol: a European multicentre double-blind placebo-controlled trial of nilvadipine in mild-to-moderate Alzheimer's disease. <i>BMJ Open</i> , 2014 , 4, e006364	3	33
157	Orthostatic Hypotension, Cardiovascular Outcomes, and Adverse Events: Results From SPRINT. <i>Hypertension</i> , 2020 , 75, 660-667	8.5	29
156	Environment and cognitive aging: A cross-sectional study of place of residence and cognitive performance in the Irish longitudinal study on aging. <i>Neuropsychology</i> , 2016 , 30, 543-57	3.8	29
155	Longitudinal Association Between Orthostatic Hypotension at 30 Seconds Post-Standing and Late-Life Depression. <i>Hypertension</i> , 2018 , 71, 946-954	8.5	27
154	Preventing vitamin D deficiency during the COVID-19 pandemic: UK definitions of vitamin D sufficiency and recommended supplement dose are set too low. <i>Clinical Medicine</i> , 2021 , 21, e48-e51	1.9	27
153	Baseline Association of Motoric Cognitive Risk Syndrome With Sustained Attention, Memory, and Global Cognition. <i>Journal of the American Medical Directors Association</i> , 2018 , 19, 53-58	5.9	24
152	Comparison of centre and home-based health assessments: early experience from the Irish Longitudinal Study on Ageing (TILDA). <i>Age and Ageing</i> , 2011 , 40, 85-90	3	24
151	Sedative load and frailty among community-dwelling population aged 85 years. <i>Journal of the American Medical Directors Association</i> , 2015 , 16, 282-9	5.9	23
150	Usage of unscheduled hospital care by homeless individuals in Dublin, Ireland: a cross-sectional study. <i>BMJ Open</i> , 2017 , 7, e016420	3	22
149	Polypharmacy in adults over 50 in Ireland: Opportunities for cost saving and improved healthcare		22
148	Brain-predicted age difference score is related to specific cognitive functions: a multi-site replication analysis. <i>Brain Imaging and Behavior</i> , 2021 , 15, 327-345	4.1	22
147	The impact of being the intermediate caring generation and intergenerational transfers on self-reported health of women in Ireland. <i>International Journal of Public Health</i> , 2014 , 59, 301-8	4	20
146	The relationship between syncope, depression and anti-depressant use in older adults. <i>Age and Ageing</i> , 2014 , 43, 502-9	3	20
145	The Over 50s in a Changing Ireland Economic Circumstances, Health and Well-Being 2014 ,		20
144	Individual differences in ageing, cognitive status, and sex on susceptibility to the sound-induced flash illusion: A large-scale study. <i>Psychology and Aging</i> , 2019 , 34, 978-990	3.6	20
143	Tilt testing remains a valuable asset. <i>European Heart Journal</i> , 2021 , 42, 1654-1660	9.5	19
142	Vitamin D deficiency in Ireland – implications for COVID-19. Results from the Irish Longitudinal Study on Ageing (TILDA)		18
141	Small vessel disease pathological changes in neurodegenerative and vascular dementias concomitant with autonomic dysfunction. <i>Brain Pathology</i> , 2020 , 30, 191-202	6	18

140	Time to Refocus Assessment of Vision in Older Adults? Contrast Sensitivity but Not Visual Acuity Is Associated With Gait in Older Adults. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2017 , 72, 1663-1668	6.4	16
139	Impairments in Hemodynamic Responses to Orthostasis Associated with Frailty: Results from The Irish Longitudinal Study on Ageing (TILDA). <i>Journal of the American Geriatrics Society</i> , 2018 , 66, 1475-1483	5.6	16
138	What is the Longitudinal Relationship between Gait Abnormalities and Depression in a Cohort of Community-Dwelling Older People? Data From the Irish Longitudinal Study on Ageing (TILDA). <i>American Journal of Geriatric Psychiatry</i> , 2018 , 26, 75-86	6.5	16
137	Vitamin D Deficiency Is Associated With an Increased Likelihood of Incident Depression in Community-Dwelling Older Adults. <i>Journal of the American Medical Directors Association</i> , 2019 , 20, 517-523	5.9	16
136	European multicentre double-blind placebo-controlled trial of Nilvadipine in mild-to-moderate Alzheimer's disease-the substudy protocols: NILVAD frailty; NILVAD blood and genetic biomarkers; NILVAD cerebrospinal fluid biomarkers; NILVAD cerebral blood flow. <i>BMJ Open</i> , 2016 , 6, e011584	3	15
135	Exploring differences in prevalence of diagnosed, measured and undiagnosed hypertension: the case of Ireland and the United States of America. <i>International Journal of Public Health</i> , 2014 , 59, 759-674	4	15
134	Predictors of Incident Fear of Falling in Community-Dwelling Older Adults. <i>Journal of the American Medical Directors Association</i> , 2020 , 21, 615-620	5.9	15
133	Objective Sleep Duration in Older Adults: Results From The Irish Longitudinal Study on Ageing. <i>Journal of the American Geriatrics Society</i> , 2020 , 68, 120-128	5.6	15
132	Is Fear of Falling Associated With Decline in Global Cognitive Functioning in Older Adults: Findings From the Irish Longitudinal Study on Ageing. <i>Journal of the American Medical Directors Association</i> , 2018 , 19, 248-254.e3	5.9	14
131	Factor structure for the frailty syndrome was consistent across Europe. <i>Journal of Clinical Epidemiology</i> , 2014 , 67, 1008-15	5.7	14
130	Social Disadvantage and Social Isolation Are Associated With a Higher Resting Heart Rate: Evidence From The Irish Longitudinal Study on Ageing. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2016 , 71, 463-73	4.6	13
129	Epigenetic Clocks and Allostatic Load Reveal Potential Sex-Specific Drivers of Biological Aging. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2020 , 75, 495-503	6.4	13
128	The effect of free health care on polypharmacy: a comparison of propensity score methods and multivariable regression to account for confounding. <i>Pharmacoepidemiology and Drug Safety</i> , 2014 , 23, 656-65	2.6	13
127	Systematic Review: The Association between Late Life Depression and Hypotension. <i>Journal of the American Medical Directors Association</i> , 2016 , 17, 1076-1088	5.9	12
126	Safety and tolerability of Tilt Testing and Carotid Sinus Massage in the octogenarians. <i>Age and Ageing</i> , 2016 , 45, 242-8	3	12
125	Linking death registration and survey data: Procedures and cohort profile for The Irish Longitudinal Study on Ageing (TILDA). <i>HRB Open Research</i> , 2020 , 3, 43	1.2	12
124	Loneliness, Social Isolation, and their Discordance among Older Adults. Findings from The Irish Longitudinal Study on Ageing (TILDA)		12
123	Effects of benzodiazepines on orthostatic blood pressure in older people. <i>European Journal of Internal Medicine</i> , 2020 , 72, 73-78	3.9	12

122	Fornix White Matter is Correlated with Resting-State Functional Connectivity of the Thalamus and Hippocampus in Healthy Aging but Not in Mild Cognitive Impairment - A Preliminary Study. <i>Frontiers in Aging Neuroscience</i> , 2015 , 7, 10	5.3	11
121	Syncope in the Elderly. <i>European Cardiology Review</i> , 2014 , 9, 28-36	3.9	11
120	Vitamin D and SARS-CoV-2 infection-evolution of evidence supporting clinical practice and policy development : A position statement from the Covid-D Consortium. <i>Irish Journal of Medical Science</i> , 2021 , 190, 1253-1265	1.9	11
119	Mortality risk associated with combinations of loneliness and social isolation. Findings from The Irish Longitudinal Study on Ageing (TILDA). <i>Age and Ageing</i> , 2021 , 50, 1329-1335	3	11
118	Concurrent use of drugs and supplements in a community-dwelling population aged 50 years or more: potential benefits and risks. <i>Drugs and Aging</i> , 2014 , 31, 527-40	4.7	10
117	Is phenotypical prefrailty all the same? A longitudinal investigation of two prefrailty subtypes in TILDA. <i>Age and Ageing</i> , 2019 , 49, 39-45	3	10
116	Obesity in an Ageing Society: Implications for health, physical function and health service utilisation		9
115	Impact of Standing Speed on the Peripheral and Central Hemodynamic Response to Orthostasis: Evidence From the Irish Longitudinal Study on Ageing. <i>Hypertension</i> , 2020 , 75, 524-531	8.5	9
114	Does the choice of Allostatic Load scoring algorithm matter for predicting age-related health outcomes?. <i>Psychoneuroendocrinology</i> , 2020 , 120, 104789	5	9
113	The association between frontal lobe perfusion and depressive symptoms in later life. <i>British Journal of Psychiatry</i> , 2019 , 214, 230-236	5.4	9
112	Kidney Function Estimated From Cystatin C, But Not Creatinine, Is Related to Objective Tests of Physical Performance in Community-Dwelling Older Adults. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2017 , 72, 1554-1560	6.4	8
111	Falls Risk, Orthostatic Hypotension, and Optimum Blood Pressure Management: Is It All in Our Heads?. <i>American Journal of Hypertension</i> , 2017 , 30, 115-117	2.3	8
110	Linking death registration and survey data: Procedures and cohort profile for The Irish Longitudinal Study on Ageing. <i>HRB Open Research</i> , 2020 , 3, 43	1.2	8
109	Age and sex differences in frontal lobe cerebral oxygenation in older adults-Normative values using novel, scalable technology: Findings from the Irish Longitudinal Study on Ageing (TILDA). <i>Archives of Gerontology and Geriatrics</i> , 2020 , 87, 103988	4	8
108	Altered lives in a time of crisis: The impact of the COVID-19 pandemic on the lives of older adults in Ireland. Findings from The Irish Longitudinal Study on Ageing		8
107	Orthostatic hypertension as a risk factor for age-related macular degeneration: Evidence from the Irish longitudinal study on ageing. <i>Experimental Gerontology</i> , 2018 , 106, 80-87	4.5	7
106	Cohort maintenance strategies used by The Irish Longitudinal Study on Ageing (TILDA)		7
105	Population-based palliative care planning in Ireland: how many people will live and die with serious illness to 2046?. <i>HRB Open Research</i> , 2019 , 2, 35	1.2	7

104	Understanding the aetiology of fear of falling from the perspective of a fear-avoidance model - A narrative review. <i>Clinical Psychology Review</i> , 2020 , 79, 101862	10.8	7
103	Low-blood pressure phenotype underpins the tendency to reflex syncope. <i>Journal of Hypertension</i> , 2021 , 39, 1319-1325	1.9	7
102	Do-not-attempt-resuscitation (DNAR) orders: understanding and interpretation of their use in the hospitalised patient in Ireland. A brief report. <i>Journal of Medical Ethics</i> , 2018 , 44, 201-203	2.5	7
101	Predictors of Incident Malnutrition in Older Irish Adults from the Irish Longitudinal Study on Ageing Cohort-A MaNuEL study. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2020 , 75, 249-256	6.4	7
100	Syncope, Fear of Falling and Quality of Life Among Older Adults: Findings From the Irish Longitudinal Study on Aging (TILDA). <i>Frontiers in Cardiovascular Medicine</i> , 2020 , 7, 7	5.4	6
99	Prevalence of age-related macular degeneration associated genetic risk factors and 4-year progression data in the Irish population. <i>British Journal of Ophthalmology</i> , 2018 , 102, 1691-1695	5.5	6
98	Phenotypes of orthostatic blood pressure behaviour and association with visual acuity. <i>Clinical Autonomic Research</i> , 2015 , 25, 373-81	4.3	6
97	WALKING TO WELLBEING: Physical Activity, Social Participation and Psychological Health in Irish adults aged 50 years and Older		6
96	High-risk categories for COVID-19 and their distribution by county in Republic of Ireland-evidence from the TILDA study		6
95	Transitions in frailty phenotype states and components over 8 years: Evidence from The Irish Longitudinal Study on Ageing. <i>Archives of Gerontology and Geriatrics</i> , 2021 , 95, 104401	4	6
94	Social Capital and Quality of Life among Urban and Rural Older Adults. Quantitative Findings from the Irish Longitudinal Study on Ageing. <i>Applied Research in Quality of Life</i> , 2021 , 16, 1399-1415	2.3	6
93	Discrepancies in self-reported and actigraphy-based sleep duration are associated with self-reported insomnia symptoms in community-dwelling older adults. <i>Sleep Health</i> , 2021 , 7, 83-92	4	6
92	Clinical clustering of eight orthostatic haemodynamic patterns in The Irish Longitudinal Study on Ageing (TILDA). <i>Age and Ageing</i> , 2021 , 50, 854-860	3	6
91	Depressive Symptoms Among Older Adults Pre- and Post-COVID-19 Pandemic. <i>Journal of the American Medical Directors Association</i> , 2021 , 22, 2251-2257	5.9	6
90	Cognitive decline associated with anticholinergics, benzodiazepines and Z-drugs: Findings from The Irish Longitudinal Study on Ageing (TILDA). <i>British Journal of Clinical Pharmacology</i> , 2021 , 87, 2818-2829	3.8	5
89	The accuracy of anatomical landmarks for locating the carotid sinus. <i>Age and Ageing</i> , 2016 , 45, 904-907	3	5
88	Physical activity partially mediates associations between "Big" personality traits and incident generalized anxiety disorder: Findings from the Irish longitudinal study on ageing. <i>Journal of Affective Disorders</i> , 2020 , 277, 46-52	6.6	5
87	Resilience does not mediate the association between adverse childhood experiences and later life depression. Findings from the Irish Longitudinal Study on Ageing (TILDA). <i>Journal of Affective Disorders</i> , 2020 , 277, 901-907	6.6	5

86	Informing patterns of health and social care utilisation in Irish older people according to the Clinical Frailty Scale. <i>HRB Open Research</i> , 2021 , 4, 54	1.2	5
85	Cortical covariance networks in ageing: Cross-sectional data from the Irish Longitudinal Study on Ageing (TILDA). <i>Neuropsychologia</i> , 2019 , 122, 51-61	3.2	5
84	Obesity is associated with reduced cerebral blood flow - modified by physical activity. <i>Neurobiology of Aging</i> , 2021 , 105, 35-47	5.6	5
83	Intergenerational Occupational Mobility and Objective Physical Functioning in Midlife and Older Ages. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2018 , 73, 279-291	4.6	4
82	Population-based palliative care planning in Ireland: how many people will live and die with serious illness to 2046?. <i>HRB Open Research</i> , 2 , 35	1.2	4
81	Physical And Behavioural Health Of Older Irish Adults 2011 , 73-154		4
80	The Contributions of the Over 70s to Irish Society: Results from Wave 5 of the Irish Longitudinal Study on Ageing		4
79	Internet access and use among adults aged 50 and over in Ireland: Results from Wave 5 of The Irish Longitudinal Study on Ageing		4
78	Collagens and elastin genetic variations and their potential role in aging-related diseases and longevity in humans. <i>Experimental Gerontology</i> , 2020 , 129, 110781	4.5	4
77	A High Prevalence of Vitamin D Deficiency Observed in an Irish South East Asian Population: A Cross-Sectional Observation Study. <i>Nutrients</i> , 2020 , 12,	6.7	4
76	Study protocol for TILDA COVID-19 survey. Altered lives in a time of crisis: preparing for recovery from the impact of the COVID-19 pandemic on the lives of older adults. <i>HRB Open Research</i> , 4 , 51	1.2	4
75	Dynamic associations between anxiety, depression, and tobacco use in older adults: Results from The Irish Longitudinal Study on Ageing. <i>Journal of Psychiatric Research</i> , 2021 , 139, 99-105	5.2	4
74	Admissions for orthostatic hypotension: an analysis of NHS England Hospital Episode Statistics data. <i>BMJ Open</i> , 2019 , 9, e034087	3	4
73	The Relationship Between Plasma Concentrations of Lutein and Zeaxanthin with Self-Reported and Actual Prevalence of AMD in an Irish Population-Based Sample. <i>Current Eye Research</i> , 2018 , 43, 383-390	2.9	4
72	Patterns in health service utilisation: Results from Wave 5 of The Irish Longitudinal Study on Ageing		3
71	Associations between Neurocardiovascular Signal Entropy and Physical Frailty. <i>Entropy</i> , 2020 , 23,	2.8	3
70	Loneliness and Social Isolation in the COVID-19 Pandemic among the over 70s: data from The Irish Longitudinal Study on Ageing (TILDA) and ALONE		3
69	Age-related normative changes in cerebral perfusion: Data from The Irish Longitudinal Study on Ageing (TILDA). <i>NeuroImage</i> , 2021 , 229, 117741	7.9	3

68	Gray matter volume in the right angular gyrus is associated with differential patterns of multisensory integration with aging. <i>Neurobiology of Aging</i> , 2021 , 100, 83-90	5.6	3
67	Circulating Micronutrient Biomarkers Are Associated With 3 Measures of Frailty: Evidence From the Irish Longitudinal Study on Ageing. <i>Journal of the American Medical Directors Association</i> , 2020 , 21, 240-247.	5.9	3
66	Rebuking the concept of ageing as a disease. <i>Lancet Diabetes and Endocrinology</i> , 2018 , 6, 768	18.1	3
65	Comparisons of disease cluster patterns, prevalence and health factors in the USA, Canada, England and Ireland. <i>BMC Public Health</i> , 2021 , 21, 1674	4.1	3
64	Orthostatic blood pressure variability is associated with lower visual contrast sensitivity function: Findings from The Irish Longitudinal Study on Aging. <i>Experimental Gerontology</i> , 2019 , 119, 14-24	4.5	2
63	The Role of the Syncope Management Unit. <i>Cardiology Clinics</i> , 2015 , 33, 483-96	2.5	2
62	Neurocardiovascular instability may modulate end-organ damage: A review of this hypothesis investigating the eye and manifestations of NCVI. <i>Medical Hypotheses</i> , 2015 , 85, 594-602	3.8	2
61	What Is the Relationship Between Orthostatic Blood Pressure and Spatiotemporal Gait in Later Life?. <i>Journal of the American Geriatrics Society</i> , 2020 , 68, 1286-1292	5.6	2
60	End-of-life experience for older adults in Ireland: results from the Irish longitudinal study on ageing (TILDA). <i>BMC Health Services Research</i> , 2020 , 20, 118	2.9	2
59	Is neurocardiovascular instability a risk factor for cognitive decline and/or dementia? The science to date. <i>Reviews in Clinical Gerontology</i> , 2007 , 17, 153-160		2
58	TILDA report to inform demographics for over 50s in Ireland for COVID-19 crisis		2
57	Receipt of care and caring in community-dwelling adults aged 50 years and over in Ireland		2
56	PROFILE OF THE SANDWICH GENERATION AND INTERGENERATIONAL TRANSFERS IN IRELAND		2
55	Associations between Cardiovascular Signal Entropy and Cognitive Performance over Eight Years. <i>Entropy</i> , 2021 , 23,	2.8	2
54	Risk Factors for Incident Dementia Among Older Cubans. <i>Frontiers in Public Health</i> , 2020 , 8, 481	6	2
