#	ARTICLE	IF	CITATIONS
1	Effectiveness of Pneumococcal Vaccines on Otitis Media in Children: A Systematic Review. <i>Value in Health</i> , 2022, 25, 1042-1056.	0.3	5
2	Effects of non-pharmaceutical interventions on social distancing during the COVID-19 pandemic: Evidence from the 27 Brazilian states. <i>PLoS ONE</i> , 2022, 17, e0265346.	2.5	4
3	Declines in Pneumonia Mortality Following the Introduction of Pneumococcal Conjugate Vaccines in Latin American and Caribbean Countries. <i>Clinical Infectious Diseases</i> , 2021, 73, 306-313.	5.8	24
4	Comparison of static and dynamic models of maternal immunization to prevent infant pertussis in Brazil. <i>Vaccine</i> , 2021, 39, 158-166.	3.8	4
5	Direct effects of pneumococcal conjugate vaccines among children in Latin America and the Caribbean. <i>Lancet Infectious Diseases</i> , The, 2021, 21, 306-308.	9.1	3
6	Assessment of the implementation of a nurse-initiated pain management protocol in the emergency department. <i>Revista Brasileira De Enfermagem</i> , 2021, 74, e20201303.	0.7	0
7	The data used to build the models: Pertussis morbidity and mortality burden considering various Brazilian data sources. <i>Vaccine</i> , 2021, 39, 137-146.	3.8	3
8	Evaluating the cost-effectiveness of maternal pertussis immunization in low- and middle-income countries: A review of lessons learnt. <i>Vaccine</i> , 2021, 39, 121-124.	3.8	3
9	Cost-effectiveness of maternal pertussis immunization: Implications of a dynamic transmission model for low- and middle-income countries. <i>Vaccine</i> , 2021, 39, 147-157.	3.8	6
10	Modeling the cost-effectiveness of maternal acellular pertussis immunization (aP) in different socioeconomic settings: A dynamic transmission model of pertussis in three Brazilian states. <i>Vaccine</i> , 2021, 39, 125-136.	3.8	6
11	Impact of pneumococcal conjugate vaccine on pneumonia hospitalization and mortality in children and elderly in Ecuador: Time series analyses. <i>Vaccine</i> , 2020, 38, 7033-7039.	3.8	10
12	Medidas de distanciamento social para o enfrentamento da COVID-19 no Brasil: caracterizaç�o e an�lise epidemiol�gica por estado. <i>Cadernos De Saude Publica</i> , 2020, 36, e00185020.	1.0	62
13	Perspectives on Battling COVID-19 in Countries of Latin America and the Caribbean. <i>American Journal of Tropical Medicine and Hygiene</i> , 2020, 103, 593-596.	1.4	36
14	Impact of pneumococcal conjugate vaccine uptake on childhood pneumonia mortality across income levels in Brazil, Colombia, and Peru. <i>Gates Open Research</i> , 2020, 4, 136.	1.1	4
15	Improved calibration estimators for the total cost of health programs and application to immunization in Brazil. <i>PLoS ONE</i> , 2019, 14, e0212401.	2.5	6
16	Annual Direct Medical Costs of Diabetic Foot Disease in Brazil: A Cost of Illness Study. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 89.	2.6	50
17	Disease and Economic Burden of Hospitalizations Attributable to Diabetes Mellitus and Its Complications: A Nationwide Study in Brazil. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 294.	2.6	31
18	Response to comment on: Impact of pneumococcal conjugate vaccine in children morbidity and mortality in Peru: Time series analyses. <i>Vaccine</i> , 2017, 35, 4826-4827.	3.8	0

#	ARTICLE	IF	CITATIONS
19	Reduction in all-cause otitis media-related outpatient visits in children after PCV10 introduction in Brazil. PLoS ONE, 2017, 12, e0179222.	2.5	22
20	Direct and indirect impact of 10-valent pneumococcal conjugate vaccine introduction on pneumonia hospitalizations and economic burden in all age-groups in Brazil: A time-series analysis. PLoS ONE, 2017, 12, e0184204.	2.5	39
21	Cost of management of severe pneumonia in young children: systematic analysis. Journal of Global Health, 2016, 6, 010408.	2.7	65
22	Impact and Effectiveness of 10 and 13-Valent Pneumococcal Conjugate Vaccines on Hospitalization and Mortality in Children Aged Less than 5 Years in Latin American Countries: A Systematic Review. PLoS ONE, 2016, 11, e0166736.	2.5	102
23	Impact of pneumococcal conjugate vaccine in children morbidity and mortality in Peru: Time series analyses. Vaccine, 2016, 34, 4738-4743.	3.8	42
24	Pneumococcal conjugate vaccine introduction in Latin America and the Caribbean: progress and lessons learned. Expert Review of Vaccines, 2016, 15, 1295-1304.	4.4	22
25	Effectiveness of the 10-Valent Pneumococcal Conjugate Vaccine (PCV-10) in Children in Chile: A Nested Case-Control Study Using Nationwide Pneumonia Morbidity and Mortality Surveillance Data. PLoS ONE, 2016, 11, e0153141.	2.5	33
26	Cost-effectiveness of a national population-based screening program for type 2 diabetes: the Brazil experience. Diabetology and Metabolic Syndrome, 2015, 7, 95.	2.7	16
27	Impact of Kasai portoenterostomy on liver transplantation outcomes: A retrospective cohort study of 347 children with biliary atresia. Liver Transplantation, 2015, 21, 922-927.	2.4	43
28	ProVac Global Initiative: a vision shaped by ten years of supporting evidence-based policy decisions. Vaccine, 2015, 33, A21-A27.	3.8	24
29	Identification of Serologic Markers for School-Aged Children With Congenital Rubella Syndrome. Journal of Infectious Diseases, 2015, 212, 57-66.	4.0	13
30	Sepsis-related deaths in Brazil: an analysis of the national mortality registry from 2002 to 2010. Critical Care, 2014, 18, 608.	5.8	31
31	Systematic review of pneumococcal disease costs and productivity loss studies in Latin America and the Caribbean. Vaccine, 2013, 31, C33-C44.	3.8	10
32	Multi-institutional outbreak of Burkholderia cepacia complex associated with contaminated mannitol solution prepared in compounding pharmacy. American Journal of Infection Control, 2013, 41, 1038-1042.	2.3	19
33	Using standardized tools to improve immunization costing data for program planning: The cost of the Colombian Expanded Program on Immunization. Vaccine, 2013, 31, C72-C79.	3.8	20
34	Rubella virus genotype 1G and echovirus 9 as etiologic agents of exanthematous diseases in Brazil: insights from phylogenetic analysis. Archives of Virology, 2013, 159, 1445-51.	2.1	5
35	Systematic documentation of new vaccine introduction in selected countries of the Latin American Region. Vaccine, 2013, 31, C114-C122.	3.8	24
36	Cost analysis of an integrated vaccine-preventable disease surveillance system in Costa Rica. Vaccine, 2013, 31, C88-C93.	3.8	12

#	ARTICLE	IF	CITATIONS
37	Establishing a regional network of academic centers to support decision making for new vaccine introduction in Latin America and the Caribbean: The ProVac experience. <i>Vaccine</i> , 2013, 31, C12-C18.	3.8	14
38	Systematic review of studies on rotavirus disease cost-of-illness and productivity loss in Latin America and the Caribbean. <i>Vaccine</i> , 2013, 31, C45-C57.	3.8	10
39	Bacterial Meningitis in Brazil: Baseline Epidemiologic Assessment of the Decade Prior to the Introduction of Pneumococcal and Meningococcal Vaccines. <i>PLoS ONE</i> , 2013, 8, e64524.	2.5	35
40	Performing Country-led Economic Evaluations to Inform Immunization Policy: ProVac Experiences in Latin America and the Caribbean. <i>Value in Health Regional Issues</i> , 2012, 1, 248-253.	1.2	12
41	Strengthening the technical capacity at country-level to make informed policy decisions on new vaccine introduction: Lessons learned by PAHO's ProVac Initiative. <i>Vaccine</i> , 2011, 29, 1099-1106.	3.8	51
42	Pneumococcal disease manifestation in children before and after vaccination: What's new?. <i>Vaccine</i> , 2011, 29, C2-C14.	3.8	20
43	Cost-effectiveness of Sick Leave Policies for Health Care Workers with Influenza-like Illness, Brazil, 2009. <i>Emerging Infectious Diseases</i> , 2011, 17, 1421-9.	4.3	15
44	Etiologies of Rash and Fever Illnesses in Campinas, Brazil. <i>Journal of Infectious Diseases</i> , 2011, 204, S627-S636.	4.0	26
45	Historical Analysis of Birth Cohorts Not Vaccinated Against Rubella Prior to National Rubella Vaccination Campaign, Brazil. <i>Journal of Infectious Diseases</i> , 2011, 204, S608-S615.	4.0	7
46	Cost effectiveness of OptiMal <sup>®</sup> rapid diagnostic test for malaria in remote areas of the Amazon Region, Brazil. <i>Malaria Journal</i> , 2010, 9, 277.	2.3	27
47	Gram-negative bloodstream infections in hematopoietic stem cell transplant patients: The roles of needless device use, bathing practices, and catheter care. <i>American Journal of Infection Control</i> , 2009, 37, 327-334.	2.3	20
48	Initial impact and cost of a nationwide population screening campaign for diabetes in Brazil: A follow up study. <i>BMC Health Services Research</i> , 2008, 8, 189.	2.2	25
49	Reprocessing and Reuse of Single-Use Medical Devices Used During Hemodynamic Procedures in Brazil: A Widespread and Largely Overlooked Problem. <i>Infection Control and Hospital Epidemiology</i> , 2008, 29, 854-858.	1.8	18
50	A Model for Enhancing Evidence-Based Capacity to Make Informed Policy Decisions on the Introduction of New Vaccines in the Americas: Paho's Provac Initiative. <i>Public Health Reports</i> , 2007, 122, 811-816.	2.5	70
51	Measles transmission during commercial air travel in Brazil. <i>Journal of Clinical Virology</i> , 2006, 36, 235-236.	3.1	21
52	A nationwide population screening program for diabetes in Brazil. <i>Revista Panamericana De Salud Publica/Pan American Journal of Public Health</i> , 2004, 16, 320-7.	1.1	20
53	Infection due to extended-spectrum $\beta$ -lactamase-producing <i>Salmonella enterica</i> subsp. <i>enterica</i> serotype infantis in a neonatal unit. <i>Journal of Pediatrics</i> , 2002, 141, 381-387.	1.8	53
54	Ocular myositis and diffuse meningoencephalitis from <i>Trypanosoma cruzi</i> in an AIDS patient. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , 1999, 93, 535-536.	1.8	13

#	ARTICLE	IF	CITATIONS
55	Sexually transmitted diseases in Latin America and the Caribbean. Revista Panamericana De Salud Publica/Pan American Journal of Public Health, 1999, 6, 362-370.	1.1	8
56	Bacterial etiology of pneumonia in children up to 2 months of age: a systematic review. Gates Open Research, 0, 6, 15.	1.1	1
