## Gang-cai Liu

## List of Publications by Year in Descending Order

Source: https://exaly.com/author-pdf/6934338/gang-cai-liu-publications-by-year.pdf

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

36	542	12	<b>22</b>
papers	citations	h-index	g-index
36 ext. papers	693 ext. citations	3.8 avg, IF	3.69 L-index

#	Paper	IF	Citations
36	Environmental drivers of soil microbial activity and diversity along an elevational gradient. <i>Journal of Mountain Science</i> , <b>2022</b> , 19, 1336-1347	2.1	Ο
35	PlantBoil feedback effects on the performance and functional traits of Dodonaea viscosa in a dry-hot valley, China. <i>Plant Ecology</i> , <b>2021</b> , 222, 1209-1224	1.7	
34	Vegetation rehabilitation increases soil enzyme activities in degraded land via carbon supply and nitrogen retention. <i>European Journal of Soil Biology</i> , <b>2020</b> , 98, 103186	2.9	6
33	Response of the soil bacterial community to reciprocal soil translocation along an elevation and temperature landscape gradient. <i>Applied Soil Ecology</i> , <b>2020</b> , 147, 103357	5	2
32	Experimental investigations of the evolution of step-pools in rills with heterogeneous soils in Yuanmou Dry-Hot Valley, SW China. <i>Catena</i> , <b>2020</b> , 194, 104690	5.8	3
31	Determination of nitrogen and phosphorus fertilisation rates for tobacco based on economic response and nutrient concentrations in local stream water. <i>Agriculture, Ecosystems and Environment</i> , <b>2020</b> , 304, 107136	5.7	6
30	Variation of rill cross-sections with gravel and aggregating soil in the Dry-Hot Valley (SW China). <i>Modeling Earth Systems and Environment</i> , <b>2019</b> , 5, 1239-1252	3.2	3
29	Estimating individual- and stand-level stem CO2 efflux in a subalpine forest: assessment of different extrapolation methods. <i>Trees - Structure and Function</i> , <b>2019</b> , 33, 1603-1613	2.6	2
28	Spatio-temporal trends and causes of variations in runoff and sediment load of the Jinsha River in China. <i>Journal of Mountain Science</i> , <b>2019</b> , 16, 2361-2378	2.1	4
27	Hydrochemistry of waters in snowpacks, lakes and streams of Mt. Dagu, eastern of Tibet Plateau. <i>Science of the Total Environment</i> , <b>2018</b> , 610-611, 641-650	10.2	8
26	Temperature and soil microorganisms interact to affect Dodonaea viscosa growth on mountainsides. <i>Plant Ecology</i> , <b>2018</b> , 219, 759-774	1.7	4
25	Impacts of simulated acid solution on the disintegration and cation release of purple rock (mudstone) in Southwest China. <i>Geomorphology</i> , <b>2018</b> , 316, 35-43	4.3	9
24	Responses of Dodonaea viscosa growth and soil biological properties to nitrogen and phosphorus additions in Yuanmou dry-hot valley. <i>Journal of Mountain Science</i> , <b>2018</b> , 15, 1283-1298	2.1	3
23	Morphology and controlling factors of the longitudinal profile of gullies in the Yuanmou dry-hot valley. <i>Journal of Mountain Science</i> , <b>2017</b> , 14, 674-693	2.1	10
22	Modeling the morphology of gully cross sections in the Yuanmou Dry-hot Valley. <i>Physical Geography</i> , <b>2017</b> , 38, 448-469	1.8	3
21	Spatiotemporal variation of soil organic carbon in the cultivated soil layer of dry land in the South-Western Yunnan Plateau, China. <i>Journal of Mountain Science</i> , <b>2017</b> , 14, 2484-2497	2.1	1
20	A quantitative determination of the effect of moisture on purple mudstone decay in Southwestern China. <i>Catena</i> , <b>2016</b> , 139, 28-31	5.8	12

## (2005-2016)

Plants adapted to nutrient limitation allocate less biomass into stems in an arid-hot grassland. <i>New Phytologist</i> , <b>2016</b> , 211, 1232-40	9.8	28	
Quantitative determination of the effect of temperature on mudstone decay during wet <b>d</b> ry cycles: A case study of <b>p</b> urple mudstonelfrom south-western China. <i>Geomorphology</i> , <b>2015</b> , 246, 1-6	4.3	19	
Nitrogen and phosphorus associating with different size suspended solids in roof and road runoff in Beijing, China. <i>Environmental Science and Pollution Research</i> , <b>2015</b> , 22, 15788-95	5.1	24	
Planar morphology and controlling factors of the gullies in the Yuanmou Dry-hot Valley based on field investigation. <i>Journal of Arid Land</i> , <b>2015</b> , 7, 778-793	2.2	9	
Characterizing the morphology of gully cross-sections based on PCA: A case of Yuanmou Dry-Hot Valley. <i>Geomorphology</i> , <b>2015</b> , 228, 703-713	4.3	44	
Spatial prediction of soil organic matter content integrating artificial neural network and ordinary kriging in Tibetan Plateau. <i>Ecological Indicators</i> , <b>2014</b> , 45, 184-194	5.8	134	
Effect of moisture and temperature conditions on the decay rate of a purple mudstone in southwestern China. <i>Geomorphology</i> , <b>2013</b> , 182, 125-132	4.3	12	
Experimental study on the development of collapse of overhanging layers of gully in Yuanmou Valley, China. <i>Catena</i> , <b>2013</b> , 109, 177-185	5.8	22	
Identification and application of amino acids as chelators in phytoremediation of rare earth elements lanthanum and yttrium. <i>Plant and Soil</i> , <b>2013</b> , 373, 329-338	4.2	20	
Effects of vegetation restoration types on soil quality in Yuanmou dry-hot valley, China. <i>Soil Science and Plant Nutrition</i> , <b>2013</b> , 59, 347-360	1.6	30	
The effects of agricultural management on selected soil properties of the arable soils in Tibet, China. <i>Catena</i> , <b>2012</b> , 93, 1-8	5.8	19	
Physico-chemical properties and enzyme activities of the arable soils in Lhasa, Tibet, China. <i>Journal of Mountain Science</i> , <b>2012</b> , 9, 558-569	2.1	10	
Laboratory investigation of disintegration characteristics of purple mudstone under different hydrothermal conditions. <i>Journal of Mountain Science</i> , <b>2012</b> , 9, 127-136	2.1	23	
A quantification of the effects of erosion on the productivity of purple soils. <i>Journal of Mountain Science</i> , <b>2012</b> , 9, 96-104	2.1	9	
Temporal variation of soil organic matter content and potential determinants in Tibet, China. <i>Catena</i> , <b>2011</b> , 85, 288-294	5.8	21	
Assessment of regional ecological security based on ecological footprint and influential factors analysis: a case study of Chongqing Municipality, China. <i>International Journal of Sustainable Development and World Ecology</i> , <b>2010</b> , 17, 390-400	3.8	16	
Spatial and temporal dynamics of soil moisture after rainfall events along a slope in Regosols of southwest China. <i>Hydrological Processes</i> , <b>2007</b> , 21, 2778-2784	3.3	8	
Characteristics of surface runoff and throughflow in a purple soil of Southwestern China under various rainfall events. <i>Hydrological Processes</i> , <b>2005</b> , 19, 1883-1891	3.3	11	
	Phytologist, 2016, 211, 1232-40  Quantitative determination of the effect of temperature on mudstone decay during wetilry cycles: A case study of Burple mudstoneffrom south-western China. Geomorphology, 2015, 246, 1-6  Nitrogen and phosphorus associating with different size suspended solids in roof and road runoff in Beijing, China. Environmental Science and Pollution Research, 2015, 22, 15788-95  Planar morphology and controlling factors of the gullies in the Yuanmou Dry-hot Valley based on field investigation. Journal of Arid Land, 2015, 7, 778-793  Characterizing the morphology of gully cross-sections based on PCA: A case of Yuanmou Dry-Hot Valley. Geomorphology, 2015, 228, 703-713  Spatial prediction of soil organic matter content integrating artificial neural network and ordinary kriging in Tibetan Plateau. Ecological Indicators, 2014, 45, 184-194  Effect of moisture and temperature conditions on the decay rate of a purple mudstone in southwestern China. Geomorphology, 2013, 182, 125-132  Experimental study on the development of collapse of overhanging layers of gully in Yuanmou Valley, China. Catena, 2013, 109, 177-185  Identification and application of amino acids as chelators in phytoremediation of rare earth elements lanthanum and yttrium. Plant and Soil, 2013, 373, 329-338  Effects of vegetation restoration types on soil quality in Yuanmou dry-hot valley, China. Soil Science and Plant Nutrition, 2013, 59, 347-360  The effects of agricultural management on selected soil properties of the arable soils in Tibet, China. Catena, 2012, 93, 1-8  Physico-chemical properties and enzyme activities of the arable soils in Lhasa, Tibet, China. Journal of Mountain Science, 2012, 9, 958-569  Laboratory investigation of disintegration characteristics of purple mudstone under different hydrothermal conditions. Journal of Mountain Science, 2012, 9, 96-104  A quantification of the effects of erosion on the productivity of purple soils. Journal of Mountain Science, 2012, 9, 96-104  A quantification of the effects of eros	Aphytologist, 2016, 211, 1232-40  Quantitative determination of the effect of temperature on mudstone decay during wetflry cycles: A case study of purple mudstonelfrom south-western China. Geomorphology, 2015, 246, 1-6  Nitrogen and phosphorus associating with different size suspended solids in roof and road runoff in Beijing, China. Environmental Science and Pollution Research, 2015, 22, 15788-95  Planar morphology and controlling factors of the gullies in the Yuanmou Dry-hot Valley based on field investigation. Journal of Arid Land, 2015, 7, 778-793  Characterizing the morphology of gully cross-sections based on PCA: A case of Yuanmou Dry-Hot Valley. Geomorphology, 2015, 228, 703-713  Spatial prediction of soil organic matter content integrating artificial neural network and ordinary kriging in Tibetan Plateau. Ecological Indicators, 2014, 45, 184-194  Effect of moisture and temperature conditions on the decay rate of a purple mudstone in southwestern China. Geomorphology, 2013, 182, 125-132  Experimental study on the development of collapse of overhanging layers of gully in Yuanmou Valley, China. Catena, 2013, 109, 177-185  Identification and application of amino acids as chelators in phytoremediation of rare earth elements lanthanum and yttrium. Plant and Soil, 2013, 373, 329-338  Effects of vegetation restoration types on soil quality in Yuanmou dry-hot valley, China. Soil Science and Plant Nutrition, 2013, 59, 347-360  The effects of agricultural management on selected soil properties of the arable soils in Tibet, China. Catena, 2012, 93, 1-8  Physico-chemical properties and enzyme activities of the arable soils in Lhasa, Tibet, China. Journal of Mountain Science, 2012, 9, 558-569  Laboratory investigation of disintegration characteristics of purple mudstone under different hydrothermal conditions. Journal of Mountain Science, 2012, 9, 127-136  A quantification of the effects of erosion on the productivity of purple soils. Journal of Mountain Science, 2012, 9, 96-104  Temporal variation of Soil organic ma	Phytologist, 2016, 211, 1232-40  Quantitative determination of the effect of temperature on mudstone decay during wettling cycles. A case study of Plurple mudstonelfrom south-western China. Geomorphology, 2015, 246, 1-6  Nitrogen and phosphorus associating with different size suspended solids in roof and road runoff in Beijing, China. Environmental Science and Pollution Research, 2015, 22, 15788-95  Planar morphology and controlling factors of the gullies in the Yuanmou Dry-hot Valley based on field Investigation. Journal of Ard Land, 2015, 7, 778-793  Characterizing the morphology of gully cross-sections based on PCA: A case of Yuanmou Dry-Hot Valley. Geomorphology, 2015, 228, 703-713  Spatial prediction of soil organic matter content integrating artificial neural network and ordinary kirging in Tibetan Plateau. Ecological Indicators, 2014, 45, 184-194  Effect of moisture and temperature conditions on the decay rate of a purple mudstone in southwestern China. Geomorphology, 2013, 182, 125-132  Experimental study on the development of collapse of overhanging layers of gully in Yuanmou Valley, China. Catena, 2013, 199, 177-185  Identification and application of amino acids as chelators in phytoremediation of rare earth elements lanthanum and yttrium. Plant and Soil, 2013, 373, 329-338  Effects of vegetation restoration types on soil quality in Yuanmou dry-hot valley, China. Soil Science and Plant Nutrition, 2013, 59, 347-360  The effects of agricultural management on selected soil properties of the arable soils in Tibet, China. Journal of Mountain Science, 2012, 9, 558-569  Laboratory investigation of disintegration characteristics of purple mudstone under different hydrothermal conditions. Journal of Mountain Science, 2012, 9, 558-569  Laboratory investigation of disintegration characteristics of purple mudstone under different hydrothermal conditions. Journal of Mountain Science, 2012, 9, 958-569  Laboratory investigation of disintegration characteristics of purple soils. Journal of Mountain Science, 2012, 9,

The effects of land uses on purplish soil erosion in hilly area of Sichuan Province, China. *Journal of Mountain Science*, **2005**, 2, 68-75

2.1 7
