#	ARTICLE	IF	CITATIONS
1	Predictors of emotional distress in people with multiple sclerosis: A systematic review of prospective studies. <i>Journal of Affective Disorders</i> , 2020, 276, 752-764.	2.0	19
2	The questionable efficacy of manualized psychological treatments for distressed breast cancer patients: An individual patient data meta-analysis. <i>Clinical Psychology Review</i> , 2020, 80, 101883.	6.0	7
3	Cardiac Rehabilitation Patients's Accounts of Their Emotional Distress and Psychological Needs: A Qualitative Study. <i>Journal of the American Heart Association</i> , 2019, 8, e011117.	1.6	26
4	Specialist call handlers' perspectives on providing help on a cancer helpline: A qualitative interview study. <i>European Journal of Cancer Care</i> , 2019, 28, e13081.	0.7	3
5	Warranting the decision-maker, not the decision: How healthcare practitioners evaluate the legitimacy of patients' unprompted requests for risk-reducing mastectomy. <i>Patient Education and Counseling</i> , 2019, 102, 1446-1451.	1.0	2
6	How could we know if communication skills training needed no more evaluation? The case for rigour in research design. <i>Patient Education and Counseling</i> , 2019, 102, 1401-1403.	1.0	2
7	Qualitative Evaluation of Cancer Survivors' Experiences of Metacognitive Therapy: A New Perspective on Psychotherapy in Cancer Care. <i>Frontiers in Psychology</i> , 2019, 10, 949.	1.1	10
8	Reflections on a Health Psychology Service for Patients with Uveal Melanoma: The Challenge of Psychological Screening and Intervention When Distress is "Normal". <i>Journal of Clinical Psychology in Medical Settings</i> , 2019, 26, 421-429.	0.8	7
9	Brief Metacognitive Therapy for Emotional Distress in Adult Cancer Survivors. <i>Frontiers in Psychology</i> , 2019, 10, 162.	1.1	26
10	Reconciling the theory and reality of shared decision-making: A "matching" approach to practitioner leadership. <i>Health Expectations</i> , 2019, 22, 275-283.	1.1	26
11	A systematic review of the quality of randomized controlled trials of psychological treatments for emotional distress in breast cancer. <i>Journal of Psychosomatic Research</i> , 2018, 108, 22-31.	1.2	7
12	The association of metacognitive beliefs with emotional distress and trauma symptoms in adolescent and young adult survivors of cancer. <i>Journal of Psychosocial Oncology</i> , 2018, 36, 545-556.	0.6	7
13	Predictors of anxiety and depression 2 years following treatment in uveal melanoma survivors. <i>Psycho-Oncology</i> , 2018, 27, 1727-1734.	1.0	16
14	Predictors of emotional distress a year or more after diagnosis of cancer: A systematic review of the literature. <i>Psycho-Oncology</i> , 2018, 27, 791-801.	1.0	91
15	Improving the effectiveness of psychological interventions for depression and anxiety in the cardiac rehabilitation pathway using group-based metacognitive therapy (PATHWAY Group MCT): study protocol for a randomised controlled trial. <i>Trials</i> , 2018, 19, 215.	0.7	37
16	Perspectives of patients with haematological cancer on how clinicians meet their information needs: "Managing" information versus "giving" it. <i>Psycho-Oncology</i> , 2018, 27, 1719-1726.	1.0	8
17	Patient-reported Outcomes and Quality of Life After Treatment of Choroidal Melanoma: A Comparison of Enucleation Versus Radiotherapy in 1596 Patients. <i>American Journal of Ophthalmology</i> , 2018, 193, 230-251.	1.7	37
18	Training in communication of oncology clinicians: a position paper based on the third consensus meeting among European experts in 2018. <i>Annals of Oncology</i> , 2018, 29, 2033-2036.	0.6	28

#	ARTICLE	IF	CITATIONS
19	A case study of the challenges for an integrative practitioner learning a new psychological therapy. <i>Counselling and Psychotherapy Research</i> , 2018, 18, 369-376.	1.7	3
20	Metacognitive therapy home-based self-help for cardiac rehabilitation patients experiencing anxiety and depressive symptoms: study protocol for a feasibility randomised controlled trial (PATHWAY) Tj ETQq0 0 0 rgB0,0 Overlock 10 Tf 50 0		
21	Qualitative methods can test and challenge what we think we know about clinical communication â€“ if they are not too constrained by methodological â€“brandsâ€™. <i>Patient Education and Counseling</i> , 2018, 101, 1515-1517.	1.0	19
22	Qualitative Analysis of Emotional Distress in Cardiac Patients From the Perspectives of Cognitive Behavioral and Metacognitive Theories: Why Might Cognitive Behavioral Therapy Have Limited Benefit, and Might Metacognitive Therapy Be More Effective?. <i>Frontiers in Psychology</i> , 2018, 9, 2288.	1.1	21
23	When trust is threatened: Qualitative study of parents' perspectives on problematic clinical relationships in child cancer care. <i>Psycho-Oncology</i> , 2017, 26, 1301-1306.	1.0	12
24	Surveillance or Engagement: Children's Conflicts During Health Maintenance Visits. <i>Academic Pediatrics</i> , 2017, 17, 739-746.	1.0	1
25	A new paradigm for clinical communication: critical review of literature in cancer care. <i>Medical Education</i> , 2017, 51, 258-268.	1.1	48
26	How do women at increased breast cancer risk perceive and decide between risks of cancer and risk-reducing treatments? A synthesis of qualitative research. <i>Psycho-Oncology</i> , 2017, 26, 1254-1262.	1.0	11
27	The inseparability of emotional and instrumental care in cancer: Towards a more powerful science of clinical communication. <i>Patient Education and Counseling</i> , 2017, 100, 2138-2140.	1.0	8
28	Metacognitive Therapy for Emotional Distress in Adult Cancer Survivors: A Case Series. <i>Cognitive Therapy and Research</i> , 2017, 41, 891-901.	1.2	25
29	A descriptive survey of cancer helplines in the United Kingdom: Who they are, the services offered, and the accessibility of those services. <i>Psycho-Oncology</i> , 2017, 26, 1140-1146.	1.0	3
30	Is clinical communication the one area of clinical oncology that needs no new ideas?. <i>Medical Education</i> , 2017, 51, 1291-1293.	1.1	2
31	Qualitative analysis of how patients decide that they want risk-reducing mastectomy, and the implications for surgeons in responding to emotionally-motivated patient requests. <i>PLoS ONE</i> , 2017, 12, e0178392.	1.1	15
32	CHOICE: Choosing Health Options In Chronic Care Emergencies. <i>Programme Grants for Applied Research</i> , 2017, 5, 1-272.	0.4	5
33	The intensity of breast cancer patients' relationships with their surgeons after the first meeting: Evidence that relationships are not â€“builtâ€™ but arise from attachment processes. <i>European Journal of Surgical Oncology</i> , 2016, 42, 679-684.	0.5	12
34	Two-year patient-reported outcomes following treatment of uveal melanoma. <i>Eye</i> , 2016, 30, 1598-1605.	1.1	28
35	Towards understanding problems in the parent-practitioner relationship when a child has cancer: meta-synthesis of the qualitative literature. <i>Psycho-Oncology</i> , 2016, 25, 1252-1260.	1.0	2
36	â€“Getting back to normalâ€™ or â€“a new type of normalâ€™? A qualitative study of patients' responses to the existential threat of cancer. <i>European Journal of Cancer Care</i> , 2016, 25, 180-189.	0.7	47

#	ARTICLE	IF	CITATIONS
37	“I wouldn't push that further because I don't want to lose her”: a multiperspective qualitative study of behaviour change for long-term conditions in primary care. <i>Health Expectations</i> , 2015, 18, 1995-2010.	1.1	13
38	The association of metacognitive beliefs with emotional distress after diagnosis of cancer.. <i>Health Psychology</i> , 2015, 34, 207-215.	1.3	44
39	Alleviating Emotional Distress in Adolescent and Young Adult Cancer Survivors: An Open Trial of Metacognitive Therapy. <i>Journal of Adolescent and Young Adult Oncology</i> , 2015, 4, 64-69.	0.7	20
40	Are patient-nurse relationships in breast cancer linked to adult attachment style?. <i>Journal of Advanced Nursing</i> , 2015, 71, 2305-2314.	1.5	11
41	How do patients with uveal melanoma experience and manage uncertainty? A qualitative study. <i>Psycho-Oncology</i> , 2015, 24, 1485-1491.	1.0	18
42	Phantom Eye Syndrome. <i>Ophthalmology</i> , 2015, 122, 1585-1590.	2.5	17
43	A Prospective Study of the Association of Metacognitive Beliefs and Processes with Persistent Emotional Distress After Diagnosis of Cancer. <i>Cognitive Therapy and Research</i> , 2015, 39, 51-60.	1.2	44
44	Screening for psychological distress in cancer: renewing the research agenda. <i>Psycho-Oncology</i> , 2015, 24, 262-268.	1.0	60
45	Argumentation and persuasion in patient-centred communication. <i>Patient Education and Counseling</i> , 2015, 98, 543-544.	1.0	9
46	How do surgeons think they learn about communication? A qualitative study. <i>Medical Education</i> , 2015, 49, 408-416.	1.1	10
47	Measuring Metacognition in Cancer: Validation of the Metacognitions Questionnaire 30 (MCQ-30). <i>PLoS ONE</i> , 2014, 9, e107302.	1.1	39
48	Breast cancer survivors' perspectives on whether clinical staff should ask breast cancer patients about childhood abuse. <i>Annals of the Royal College of Surgeons of England</i> , 2014, 96, 364-368.	0.3	3
49	A motivational intervention for patients with COPD in primary care: qualitative evaluation of a new practitioner role. <i>BMC Family Practice</i> , 2014, 15, 164.	2.9	14
50	Comparing doctors' and nurses' accounts of how they provide emotional care for parents of children with acute lymphoblastic leukaemia. <i>Psycho-Oncology</i> , 2013, 22, 260-267.	1.0	20
51	How QOF is shaping primary care review consultations: a longitudinal qualitative study. <i>BMC Family Practice</i> , 2013, 14, 103.	2.9	69
52	Why do patients with long-term conditions use unscheduled care? A qualitative literature review. <i>Health and Social Care in the Community</i> , 2013, 21, 339-351.	0.7	35
53	A qualitative study of patient choices in using emergency health care for long-term conditions: The importance of candidacy and recursivity. <i>Patient Education and Counseling</i> , 2013, 93, 335-341.	1.0	61
54	Risk, worry and cosmesis in decision-making for contralateral risk-reducing mastectomy: Analysis of 60 consecutive cases in a specialist breast unit. <i>Breast</i> , 2013, 22, 179-184.	0.9	41

#	ARTICLE	IF	CITATIONS
55	The validity of education and guidance for clinical communication in cancer care: Evidence-based practice will depend on practice-based evidence. <i>Patient Education and Counseling</i> , 2013, 90, 193-199.	1.0	25
56	Education for clinical relationships: pedagogy and play. <i>Medical Education</i> , 2013, 47, 122-123.	1.1	1
57	Assessing the quality of qualitative research. <i>Patient Education and Counseling</i> , 2013, 90, 1-3.	1.0	36
58	Universal Mental Health Screening in Pediatric Primary Care: A Systematic Review. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2013, 52, 1134-1147.e23.	0.3	132
59	“You’re putting thoughts into my head”: a qualitative study of the readiness of patients with breast, lung or prostate cancer to address emotional needs through the first 18 months after diagnosis. <i>Psycho-Oncology</i> , 2013, 22, 1402-1410.	1.0	37
60	Patient evaluation of early discharge after hip arthroplasty: development of a measure and comparison of three centres with differing durations of stay. <i>Clinical Rehabilitation</i> , 2013, 27, 854-863.	1.0	5
61	Treatment-seeking for alcohol problems: The influence of mirroring events and windows of opportunity. <i>Addiction Research and Theory</i> , 2013, 21, 479-488.	1.2	11
62	Alleviating Emotional Distress in a Young Adult Survivor of Adolescent Cancer. <i>Clinical Case Studies</i> , 2013, 12, 22-38.	0.5	11
63	The “information spectrum”: a qualitative study of how breast cancer surgeons give information and of how their patients experience it. <i>Psycho-Oncology</i> , 2013, 22, 2364-2371.	1.0	10
64	Is communication guidance mistaken? Qualitative study of parent-“oncologist communication in childhood cancer. <i>British Journal of Cancer</i> , 2013, 109, 836-843.	2.9	39
65	Operationalising unscheduled care policy: a qualitative study of healthcare professionals’ perspectives. <i>British Journal of General Practice</i> , 2013, 63, e192-e199.	0.7	12
66	Faith and Protection: The Construction of Hope by Parents of Children with Leukemia and Their Oncologists. <i>Oncologist</i> , 2012, 17, 398-404.	1.9	45
67	How patients evaluate breast reconstruction after mastectomy, and why their evaluation often differs from that of their clinicians. <i>Journal of Plastic, Reconstructive and Aesthetic Surgery</i> , 2012, 65, 1064-1071.	0.5	43
68	The psychological processes involved in patient empowerment. <i>Orphanet Journal of Rare Diseases</i> , 2012, 7, A31.	1.2	10
69	LUCAS: a theoretically informed instrument to assess clinical communication in objective structured clinical examinations. <i>Medical Education</i> , 2012, 46, 267-276.	1.1	30
70	Reattribution reconsidered: Narrative review and reflections on an educational intervention for medically unexplained symptoms in primary care settings. <i>Journal of Psychosomatic Research</i> , 2011, 71, 325-334.	1.2	83
71	Sexual abuse in childhood and postoperative depression in women with breast cancer who opt for immediate reconstruction after mastectomy. <i>Annals of the Royal College of Surgeons of England</i> , 2011, 93, 106-110.	0.3	16
72	Reconciling the principle of patient autonomy with the practice of informed consent: decision-making about prognostication in uveal melanoma. <i>Health Expectations</i> , 2011, 14, 383-396.	1.1	30

#	ARTICLE	IF	CITATIONS
73	Creativity in clinical communication: from communication skills to skilled communication. <i>Medical Education</i> , 2011, 45, 217-226.	1.1	164
74	Is clinical communication pedagogy really as good as itâ€™s going to get?. <i>Medical Education</i> , 2011, 45, 961-962.	1.1	0
75	Examining the validity of the unitary theory of clinical relationships: Comparison of observed and experienced parentâ€™doctor interaction. <i>Patient Education and Counseling</i> , 2011, 85, 60-67.	1.0	24
76	Ten years of EACH (European Association for Communication in Healthcare) and priorities for the next ten years. <i>Patient Education and Counseling</i> , 2011, 85, 1-3.	1.0	7
77	The influence of childhood abuse and adult attachment style on clinical relationships in breast cancer care. <i>General Hospital Psychiatry</i> , 2011, 33, 579-586.	1.2	27
78	Telling â€œEverythingâ€ but not â€œToo Muchâ€: The Surgeonâ€™s Dilemma in Consultations about Breast Cancer. <i>World Journal of Surgery</i> , 2011, 35, 2187-2195.	0.8	24
79	Predicting long-term recovery from depression in community settings in Western Europe: evidence from ODIN. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2011, 46, 119-126.	1.6	22
80	Patientsâ€™ sense of relationship with breast cancer surgeons: The relative importance of surgeon and patient variability and the influence of patientsâ€™ attachment style. <i>Patient Education and Counseling</i> , 2011, 83, 125-128.	1.0	18
81	Integrative qualitative communication analysis of consultation and patient and practitioner perspectives: Towards a theory of authentic caring in clinical relationships. <i>Patient Education and Counseling</i> , 2011, 82, 448-454.	1.0	66
82	Experiencing positive change after a diagnosis of breast cancer: a grounded theory analysis. <i>Psycho-Oncology</i> , 2011, 20, 1116-1125.	1.0	28
83	Development of the Verona coding definitions of emotional sequences to code health providersâ€™ responses (VR-CoDES-P) to patient cues and concerns. <i>Patient Education and Counseling</i> , 2011, 82, 149-155.	1.0	165
84	Coding patient emotional cues and concerns in medical consultations: The Verona coding definitions of emotional sequences (VR-CoDES). <i>Patient Education and Counseling</i> , 2011, 82, 141-148.	1.0	207
85	Parents' Experiences of Their Children's Presence in Discussions With Physicians About Leukemia. <i>Pediatrics</i> , 2011, 127, e1230-e1238.	1.0	34
86	Predictors of onset of depression and anxiety in the year after diagnosis of breast cancer. <i>Psychological Medicine</i> , 2011, 41, 1429-1436.	2.7	96
87	Challenging behaviour: An action plan for education and training. <i>Contemporary Nurse</i> , 2010, 34, 110-118.	0.4	51
88	Facilitating understanding of mental health problems in GP consultations: a qualitative study using taped-assisted recall. <i>British Journal of General Practice</i> , 2010, 60, 837-845.	0.7	24
89	Anger and childhood sexual abuse are independently associated with irritable bowel syndrome. <i>British Journal of Health Psychology</i> , 2010, 15, 389-399.	1.9	31
90	The ethics of responsibility and ownership in decision-making about treatment for breast cancer: Triangulation of consultation with patient and surgeon perspectives. <i>Social Science and Medicine</i> , 2010, 70, 1904-1911.	1.8	74

#	ARTICLE	IF	CITATIONS
91	Balancing high accrual and ethical recruitment in paediatric oncology: a qualitative study of the 'look and feel' of clinical trial discussions. <i>BMC Medical Research Methodology</i> , 2010, 10, 101.	1.4	24
92	Positive adjustment to breast cancer: development of a disease-specific measure and comparison of women diagnosed from 2 weeks to 5 years. <i>Psycho-Oncology</i> , 2010, 19, 1187-1194.	1.0	9
93	Facing up to "challenging behaviour": a model for training in staff-client interaction. <i>Journal of Advanced Nursing</i> , 2010, 66, 1644-1655.	1.5	52
94	Randomized trial of reattribution on psychosocial talk between doctors and patients with medically unexplained symptoms. <i>Psychological Medicine</i> , 2010, 40, 325-333.	2.7	24
95	O-89 The influence of childhood abuse on clinical relationships in breast cancer: Perceived professional support, clinician-rated "difficulty" and insecure attachment. <i>European Journal of Cancer, Supplement</i> , 2010, 8, 33-34.	2.2	1
96	The Perception of Support Received from Breast Care Nurses by Depressed Patients Following a Diagnosis of Breast Cancer. <i>Annals of the Royal College of Surgeons of England</i> , 2009, 91, 43-45.	0.3	14
97	The consequences of early discharge after hip arthroplasty for patient outcomes and health care costs: comparison of three centres with differing durations of stay. <i>Clinical Rehabilitation</i> , 2009, 23, 1067-1077.	1.0	35
98	What Do Patients Choose to Tell Their Doctors? Qualitative Analysis of Potential Barriers to Reattributing Medically Unexplained Symptoms. <i>Journal of General Internal Medicine</i> , 2009, 24, 443-449.	1.3	134
99	Primary Care Consultations About Medically Unexplained Symptoms: How Do Patients Indicate What They Want?. <i>Journal of General Internal Medicine</i> , 2009, 24, 450-456.	1.3	53
100	Psychological aspects of cytogenetic testing of uveal melanoma: preliminary findings and directions for future research. <i>Eye</i> , 2009, 23, 581-585.	1.1	62
101	Early discharge following hip arthroplasty: patients' acceptance masks doubts and concerns. <i>Health Expectations</i> , 2009, 12, 130-137.	1.1	32
102	The analysis of verbal interaction sequences in dyadic clinical communication: A review of methods. <i>Patient Education and Counseling</i> , 2009, 75, 169-177.	1.0	40
103	Dependence and caring in clinical communication: The relevance of attachment and other theories. <i>Patient Education and Counseling</i> , 2009, 74, 331-338.	1.0	93
