#	Article	IF	CITATIONS
1	Effects of the lockdown on the mental health of the general population during the COVID-19 pandemic in Italy: Results from the COMET collaborative network. European Psychiatry, 2020, 63, e87.	0.2	252
2	The Impact of Quarantine and Physical Distancing Following COVID-19 on Mental Health: Study Protocol of a Multicentric Italian Population Trial. Frontiers in Psychiatry, 2020, 11, 533.	2.6	171
3	Do patient and ward-related characteristics influence the use of coercive measures? Results from the EUNOMIA international study. Social Psychiatry and Psychiatric Epidemiology, 2014, 49, 1619-1629.	3.1	122
4	A Specific Inflammatory Profile Underlying Suicide Risk? Systematic Review of the Main Literature Findings. International Journal of Environmental Research and Public Health, 2020, 17, 2393.	2.6	116
5	The Impact of Social Marketing Campaigns on Reducing Mental Health Stigma: Results From the 2009–2014 Time to Change Programme. European Psychiatry, 2017, 40, 116-122.	0.2	109
6	Use of coercive measures in mental health practice and its impact on outcome: a critical review. Expert Review of Neurotherapeutics, 2014, 14, 131-141.	2.8	95
7	Risk of burnout among early career mental health professionals. Journal of Psychiatric and Mental Health Nursing, 2014, 21, 774-781.	2.1	70
8	Priorities for mental health research in Europe: A survey among national stakeholders' associations within the ROAMER project. World Psychiatry, 2013, 12, 165-170.	10.4	66
9	Efficacy of psychoeducational family intervention for bipolar I disorder: A controlled, multicentric, real-world study. Journal of Affective Disorders, 2015, 172, 291-299.	4.1	61
10	The family in Italy: Cultural changes and implications for treatment. International Review of Psychiatry, 2012, 24, 149-156.	2.8	54
11	The role of shared decision-making in improving adherence to pharmacological treatments in patients with schizophrenia: a clinical review. Annals of General Psychiatry, 2020, 19, 43.	2.7	54
12	Reducing Stigma in Media Professionals: Is there Room for Improvement? Results from a Systematic Review. Canadian Journal of Psychiatry, 2017, 62, 702-715.	1.9	53
13	Improving physical health of patients with severe mental disorders: a critical review of lifestyle psychosocial interventions. Expert Review of Neurotherapeutics, 2017, 17, 667-681.	2.8	51
14	Bridging the gap between education and appropriate use of benzodiazepines in psychiatric clinical practice. Neuropsychiatric Disease and Treatment, 2015, 11, 1885.	2.2	47
15	Maternal stress, prenatal medical illnesses and obstetric complications: Risk factors for schizophrenia spectrum disorder, bipolar disorder and major depressive disorder. Psychiatry Research, 2019, 271, 23-30.	3.3	46
16	The role of relatives in pathways to care of patients with a first episode of psychosis. International Journal of Social Psychiatry, 2015, 61, 631-637.	3.1	42
17	What Is the Role of Resilience and Coping Strategies on the Mental Health of the General Population during the COVID-19 Pandemic? Results from the Italian Multicentric COMET Study. Brain Sciences, 2021, 11, 1231.	2.3	41
18	Challenges for trainees in psychiatry and early career psychiatrists. International Review of Psychiatry, 2013, 25, 431-437.	2.8	39

#	Article	IF	Citations
19	Depression, Hopelessness, and Complicated Grief in Survivors of Suicide. Frontiers in Psychology, 2018, 9, 198.	2.1	38
20	The pharmacological management of agitated and aggressive behaviour: A systematic review and meta-analysis. European Psychiatry, 2019, 57, 78-100.	0.2	38
21	Mental health and wellbeing among Italian medical students: a descriptive study. International Review of Psychiatry, 2019, 31, 569-573.	2.8	31
22	Impaired glucose metabolism in bipolar patients and response to mood stabilizer treatments. Journal of Affective Disorders, 2019, 245, 174-179.	4.1	31
23	The impact of Covid-19 on unemployment across Italy: Consequences for those affected by psychiatric conditions. Journal of Affective Disorders, 2022, 296, 59-66.	4.1	31
24	COVID-19-Related Social Isolation Predispose to Problematic Internet and Online Video Gaming Use in Italy. International Journal of Environmental Research and Public Health, 2022, 19, 1539.	2.6	31
25	Psychometric validation of the Italian version of the Reported and Intended Behaviour Scale (RIBS). Epidemiology and Psychiatric Sciences, 2016, 25, 485-492.	3.9	30
26	Validation of the brief TEMPS-M temperament questionnaire in a clinical Italian sample of bipolar and cyclothymic patients. Journal of Affective Disorders, 2020, 260, 458-462.	4.1	29
27	Pathways to mental health care in Italy: Results from a multicenter study. International Journal of Social Psychiatry, 2014, 60, 508-513.	3.1	28
28	Stigma in the context of schools: analysis of the phenomenon of stigma in a population of university students. BMC Psychiatry, 2016, 16, 29.	2.6	28
29	Clozapine versus other antipsychotics during the first 18 weeks of treatment: A retrospective study on risk factor increase of blood dyscrasias. Psychiatry Research, 2017, 256, 275-282.	3.3	25
30	Loneliness in Young Adults During the First Wave of COVID-19 Lockdown: Results From the Multicentric COMET Study. Frontiers in Psychiatry, 2021, 12, 788139.	2.6	25
31	Participation in medical decision-making across Europe: An international longitudinal multicenter study. European Psychiatry, 2016, 35, 39-46.	0.2	24
32	A Randomized Controlled Trial on the Efficacy of a Psychosocial Behavioral Intervention to Improve the Lifestyle of Patients With Severe Mental Disorders: Study Protocol. Frontiers in Psychiatry, 2018, 9, 235.	2.6	23
33	Efficacy of the interpersonal and social rhythm therapy (IPSRT) in patients with bipolar disorder: results from a real-world, controlled trial. Annals of General Psychiatry, 2020, 19, 15.	2.7	22
34	Did we learn something positive out of the COVID-19 pandemic? Post-traumatic growth and mental health in the general population. European Psychiatry, 2021, 64, 1-27.	0.2	22
35	Feasibility of a psychoeducational family intervention for people with bipolar I disorder and their relatives: Results from an Italian real-world multicentre study. Journal of Affective Disorders, 2016, 190, 657-662.	4.1	20
36	Assessment and Management of Cognitive and Psychosocial Dysfunctions in Patients With Major Depressive Disorder: A Clinical Review. Frontiers in Psychiatry, 2018, 9, 493.	2.6	20

#	Article	IF	Citations
