#	ARTICLE	IF	CITATIONS
1	Stillbirths: rates, risk factors, and acceleration towards 2030. Lancet, The, 2016, 387, 587-603.	13.7	1,220
2	National, regional, and worldwide estimates of stillbirth rates in 2015, with trends from 2000: a systematic analysis. The Lancet Global Health, 2016, 4, e98-e108.	6.3	671
3	Stillbirths: recall to action in high-income countries. Lancet, The, 2016, 387, 691-702.	13.7	481
4	Stillbirths: ending preventable deaths by 2030. Lancet, The, 2016, 387, 703-716.	13.7	282
5	Migration to western industrialised countries and perinatal health: A systematic review. Social Science and Medicine, 2009, 69, 934-946.	3.8	268
6	Preterm birth time trends in Europe: a study of 19 countries. BJOG: an International Journal of Obstetrics and Gynaecology, 2013, 120, 1356-1365.	2.3	252
7	Customized versus population-based birth weight standards for identifying growth restricted infants: A French multicenter study. American Journal of Obstetrics and Gynecology, 2006, 194, 1042-1049.	1.3	245
8	Black-white differences in severe maternal morbidity and site of care. American Journal of Obstetrics and Gynecology, 2016, 214, 122.e1-122.e7.	1.3	201
9	Wide differences in mode of delivery within Europe: risk-stratified analyses of aggregated routine data from the Euro-Peristat study. BJOG: an International Journal of Obstetrics and Gynaecology, 2016, 123, 559-568.	2.3	190
10	Global, regional, and national estimates and trends in stillbirths from 2000 to 2019: a systematic assessment. Lancet, The, 2021, 398, 772-785.	13.7	186
11	Fetal sex and preterm birth: are males at greater risk?. Human Reproduction, 2002, 17, 2762-2768.	0.9	173
12	Impact of Fetal Growth Restriction on Mortality and Morbidity in a Very Preterm Birth Cohort. Journal of Pediatrics, 2010, 157, 733-739.e1.	1.8	171
13	Site of delivery contribution to black-white severe maternal morbidity disparity. American Journal of Obstetrics and Gynecology, 2016, 215, 143-152.	1.3	168
14	Stillbirths and infant deaths among migrants in industrialized countries. Acta Obstetrica Et Gynecologica Scandinavica, 2009, 88, 134-148.	2.8	167
15	The relationship between intrauterine growth restriction and preterm delivery: an empirical approach using data from a European case-control study. BJOG: an International Journal of Obstetrics and Gynaecology, 2000, 107, 750-758.	2.3	166
16	Somali women and their pregnancy outcomes postmigration: data from six receiving countries. BJOG: an International Journal of Obstetrics and Gynaecology, 2008, 115, 1630-1640.	2.3	165
17	Employment, working conditions, and preterm birth: results from the Europop case-control survey. Journal of Epidemiology and Community Health, 2004, 58, 395-401.	3.7	146
18	International migration and adverse birth outcomes: role of ethnicity, region of origin and destination. Journal of Epidemiology and Community Health, 2010, 64, 243-251.	3.7	144

#	ARTICLE	IF	CITATIONS
19	Differences in Morbidity and Mortality Rates in Black, White, and Hispanic Very Preterm Infants Among New York City Hospitals. JAMA Pediatrics, 2018, 172, 269.	6.2	141
20	Variations in rates of severe perineal tears and episiotomies in 20 European countries: a study based on routine national data in EuroPeristat Project. Acta Obstetrica Et Gynecologica Scandinavica, 2016, 95, 746-754.	2.8	138
21	Are risk factors the same for small for gestational age versus other preterm births?. American Journal of Obstetrics and Gynecology, 2001, 185, 208-215.	1.3	130
22	General obstetrics: Preterm birth and multiple pregnancy in European countries participating in the PERISTAT project. BJOG: an International Journal of Obstetrics and Gynaecology, 2006, 113, 528-535.	2.3	127
23	Poor effectiveness of antenatal detection of fetal growth restriction and consequences for obstetric management and neonatal outcomes: a French national study. BJOG: an International Journal of Obstetrics and Gynaecology, 2015, 122, 518-527.	2.3	127
24	Differences in Rates and Short-term Outcome of Live Births Before 32 Weeks of Gestation in Europe in 2003: Results From the MOSAIC Cohort. Pediatrics, 2008, 121, e936-e944.	2.1	126
25	Use of evidence based practices to improve survival without severe morbidity for very preterm infants: results from the EPICE population based cohort. BMJ, The, 2016, 354, i2976.	6.0	122
26	Rates of Bronchopulmonary Dysplasia in Very Preterm Neonates in Europe: Results from the MOSAIC Cohort. Neonatology, 2011, 99, 112-117.	2.0	114
27	Indicators of fetal and infant health outcomes. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2003, 111, S66-S77.	1.1	112
28	Admission Hypothermia in Very Preterm Infants and Neonatal Mortality and Morbidity. Journal of Pediatrics, 2016, 175, 61-67.e4.	1.8	108
29	Investigating the variations in survival rates for very preterm infants in 10 European regions: the MOSAIC birth cohort. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2008, 94, F158-F163.	2.8	107
30	Association of Race/Ethnicity With Very Preterm Neonatal Morbidities. JAMA Pediatrics, 2018, 172, 1061.	6.2	106
31	Association of Short Antenatal Corticosteroid Administration-to-Birth Intervals With Survival and Morbidity Among Very Preterm Infants. JAMA Pediatrics, 2017, 171, 678.	6.2	101
32	Improving hospital quality to reduce disparities in severe maternal morbidity and mortality. Seminars in Perinatology, 2017, 41, 266-272.	2.5	90
33	Epidemiology of late preterm and early term births – An international perspective. Seminars in Fetal and Neonatal Medicine, 2019, 24, 3-10.	2.3	90
34	International comparisons of infant mortality and related factors: United States and Europe, 2010. National Vital Statistics Reports, 2014, 63, 1-6.	10.7	90
35	Variations in breastfeeding rates for very preterm infants between regions and neonatal units in Europe: results from the MOSAIC cohort. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2011, 96, F450-F452.	2.8	88
36	Fetal sex and indicated very preterm birth: results of the EPIPAGE study. American Journal of Obstetrics and Gynecology, 2004, 190, 1322-1325.	1.3	84

#	ARTICLE	IF	CITATIONS
37	Association Between Hospital-Level Obstetric Quality Indicators and Maternal and Neonatal Morbidity. JAMA - Journal of the American Medical Association, 2014, 312, 1531.	7.4	82
38	What contributes to disparities in the preterm birth rate in European countries?. Current Opinion in Obstetrics and Gynecology, 2015, 27, 133-142.	2.0	82
39	Race and Ethnicity, Medical Insurance, and Within-Hospital Severe Maternal Morbidity Disparities. Obstetrics and Gynecology, 2020, 135, 285-293.	2.4	82
40	Variations in Multiple Birth Rates and Impact on Perinatal Outcomes in Europe. PLoS ONE, 2016, 11, e0149252.	2.5	79
41	Severe Maternal Morbidity Among Hispanic Women in New York City. Obstetrics and Gynecology, 2017, 129, 285-294.	2.4	78
42	What about the mothers? An analysis of maternal mortality and morbidity in perinatal health surveillance systems in Europe. BJOG: an International Journal of Obstetrics and Gynaecology, 2012, 119, 880-890.	2.3	77
43	Temporal Trends in Late Preterm and Early Term Birth Rates in 6 High-Income Countries in North America and Europe and Association With Clinician-Initiated Obstetric Interventions. JAMA - Journal of the American Medical Association, 2016, 316, 410.	7.4	75
44	The second European Perinatal Health Report: documenting changes over 6 years in the health of mothers and babies in Europe. Journal of Epidemiology and Community Health, 2013, 67, 983-985.	3.7	72
45	Gestational Age Patterns of Fetal and Neonatal Mortality in Europe: Results from the Euro-Peristat Project. PLoS ONE, 2011, 6, e24727.	2.5	70
46	Out-of-hospital births and the supply of maternity units in France. Health and Place, 2011, 17, 1170-1173.	3.3	68
47	Declines in stillbirth and neonatal mortality rates in Europe between 2004 and 2010: results from the Euro-Peristat project. Journal of Epidemiology and Community Health, 2016, 70, 609-615.	3.7	66
48	Variation in rates of postterm birth in Europe: reality or artefact?. BJOG: an International Journal of Obstetrics and Gynaecology, 2007, 114, 1097-1103.	2.3	65
49	Obstetric Interventions for Low-Risk Pregnant Women in France: Do Maternity Unit Characteristics Make a Difference?. Birth, 2012, 39, 183-191.	2.2	65
50	Marital status, cohabitation, and the risk of preterm birth in Europe: where births outside marriage are common and uncommon. Paediatric and Perinatal Epidemiology, 2002, 16, 124-130.	1.7	64
51	Cause of Preterm Birth as a Prognostic Factor for Mortality. Obstetrics and Gynecology, 2016, 127, 40-48.	2.4	64
52	Perinatal health monitoring in Europe: results from the EURO-PERISTAT project. Informatics for Health and Social Care, 2010, 35, 64-79.	2.6	63
53	Quality of Care and Disparities in Obstetrics. Obstetrics and Gynecology Clinics of North America, 2017, 44, 13-25.	1.9	63
54	Room for improvement in breast milk feeding after very preterm birth in Europe: Results from the <sc>EPICE </sc>ohort. Maternal and Child Nutrition, 2018, 14, .	3.0	63

#	ARTICLE	IF	CITATIONS
55	The European Perinatal Health Report: comparing the health and care of pregnant women and newborn babies in Europe. <i>Journal of Epidemiology and Community Health</i> , 2009, 63, 681-682.	3.7	62
56	Obstetric interventions for babies born before 28 weeks of gestation in Europe: results of the MOSAIC study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2009, 116, 1481-1491.	2.3	61
57	Characteristics of Neonatal Units That Care for Very Preterm Infants in Europe: Results From the MOSAIC Study. <i>Pediatrics</i> , 2007, 120, e815-e825.	2.1	60
58	International migration and gestational diabetes mellitus: a systematic review of the literature and meta-analysis. <i>Paediatric and Perinatal Epidemiology</i> , 2011, 25, 575-592.	1.7	59
59	Neighborhood Racial And Economic Polarization, Hospital Of Delivery, And Severe Maternal Morbidity. <i>Health Affairs</i> , 2020, 39, 768-776.	5.2	58
60	Association of Very Preterm Birth or Very Low Birth Weight With Intelligence in Adulthood. <i>JAMA Pediatrics</i> , 2021, 175, e211058.	6.2	58
61	Regionalization of perinatal care in Europe. <i>Seminars in Fetal and Neonatal Medicine</i> , 2004, 9, 99-110.	2.7	57
62	Migration and perinatal health surveillance: An international Delphi survey. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2010, 149, 37-43.	1.1	56
63	Low breastfeeding continuation to 6 months for very preterm infants: <sc>A E</sc>uropean multiregional cohort study. <i>Maternal and Child Nutrition</i> , 2019, 15, e12657.	3.0	55
64	Selecting an indicator set for monitoring and evaluating perinatal health in Europe: criteria, methods and results from the PERISTAT project. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2003, 111, S5-S14.	1.1	54
65	Disparities in pre-eclampsia and eclampsia among immigrant women giving birth in six industrialised countries. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2014, 121, 1492-1500.	2.3	54
66	PERISTAT: Indicators for monitoring and evaluating perinatal health in Europe. <i>European Journal of Public Health</i> , 2003, 13, 29-37.	0.3	53
67	Termination of pregnancy among very preterm births and its impact on very preterm mortality: results from ten European population-based cohorts in the MOSAIC study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2008, 115, 361-368.	2.3	52
68	Differences in outcome between twins and singletons born very preterm: results from a population-based European cohort. <i>Human Reproduction</i> , 2010, 25, 1035-1043.	0.9	52
69	Variation in term birthweight across European countries affects the prevalence of small for gestational age among very preterm infants. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2017, 106, 1447-1455.	1.5	52
70	Wide variation in severe neonatal morbidity among very preterm infants in European regions. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2019, 104, F36-F45.	2.8	50
71	Preterm birth and maternal country of birth in a French district with a multiethnic population. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2004, 111, 849-855.	2.3	49
72	International Comparisons of Fetal and Neonatal Mortality Rates in High-Income Countries: Should Exclusion Thresholds Be Based on Birth Weight or Gestational Age?. <i>PLoS ONE</i> , 2013, 8, e64869.	2.5	49

#	ARTICLE	IF	CITATIONS
73	Variations in very preterm birth rates in 30 high-income countries: are valid international comparisons possible using routine data?. BJOG: an International Journal of Obstetrics and Gynaecology, 2017, 124, 785-794.	2.3	49
74	Perinatal health inequalities and accessibility of maternity services in a rural French region: Closing maternity units in Burgundy. Health and Place, 2013, 24, 225-233.	3.3	45
75	Rates of very preterm birth in Europe and neonatal mortality rates. Archives of Disease in Childhood: Fetal and Neonatal Edition, 2009, 94, F253-F256.	2.8	44
