

Andrew P Yonelinas

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/6979491/andrew-p-yonelinas-publications-by-year.pdf>

Version: 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
166	Stress and memory encoding: What are the roles of the stress-encoding delay and stress relevance?. <i>Learning and Memory</i> , 2022 , 29, 48-54	2.8	1
165	Episodic memory processes modulate how schema knowledge is used in spatial memory decisions.. <i>Cognition</i> , 2022 , 225, 105111	3.5	0
164	The hippocampus supports high-precision binding in visual working memory.. <i>Hippocampus</i> , 2021 ,	3.5	4
163	Narratives bridge the divide between distant events in episodic memory. <i>Memory and Cognition</i> , 2021 , 1	2.2	6
162	Temporal proximity to the elicitation of curiosity is key for enhancing memory for incidental information. <i>Learning and Memory</i> , 2021 , 28, 34-39	2.8	3
161	Precision, binding, and the hippocampus: Precisely what are we talking about?. <i>Neuropsychologia</i> , 2020 , 138, 107341	3.2	22
160	Feel free to write this down: Writing about a stressful experience does not impair change detection task performance. <i>Emotion</i> , 2020 , 20, 317-322	4.1	1
159	The effects of face inversion on perceiving- and sensing-based change detection. <i>Journal of Experimental Psychology: General</i> , 2020 , 149, 79-93	4.7	5
158	The spatial distribution of attention predicts familiarity strength during encoding and retrieval. <i>Journal of Experimental Psychology: General</i> , 2020 , 149, 2046-2062	4.7	9
157	The role of the fornix in human navigational learning. <i>Cortex</i> , 2020 , 124, 97-110	3.8	12
156	Why do we retrace our visual steps? Semantic and episodic memory in gaze reinstatement. <i>Learning and Memory</i> , 2020 , 27, 275-283	2.8	5
155	Markers of a plant-based diet relate to memory and executive function in older adults. <i>Nutritional Neuroscience</i> , 2020 , 1-10	3.6	7
154	Conscious and unconscious memory differentially impact attention: Eye movements, visual search, and recognition processes. <i>Cognition</i> , 2019 , 185, 71-82	3.5	15
153	Reply to TActive and effective replay: systems consolidation reconsidered againT <i>Nature Reviews Neuroscience</i> , 2019 , 20, 507-508	13.5	2
152	Determining the biological associates of acute cold pressor post-encoding stress effects on human memory: The role of salivary interleukin-1□ <i>Brain, Behavior, and Immunity</i> , 2019 , 81, 178-187	16.6	8
151	Mild acute stress improves response speed without impairing accuracy or interference control in two selective attention tasks: Implications for theories of stress and cognition. <i>Psychoneuroendocrinology</i> , 2019 , 108, 78-86	5	16
150	A contextual binding theory of episodic memory: systems consolidation reconsidered. <i>Nature Reviews Neuroscience</i> , 2019 , 20, 364-375	13.5	113

149	Stress and the medial temporal lobe at rest: Functional connectivity is associated with both memory and cortisol. <i>Psychoneuroendocrinology</i> , 2019 , 106, 138-146	5	12
148	Pre-encoding stress induced changes in perceived stress, blood pressure and cortisol are differentially associated with recollection and familiarity. <i>Brain and Cognition</i> , 2019 , 133, 5-11	2.7	7
147	Greater lifetime stress exposure predicts blunted cortisol but heightened DHEA responses to acute stress. <i>Stress and Health</i> , 2019 , 35, 15-26	3.7	40
146	Visual working memory impairments for single items following medial temporal lobe damage. <i>Neuropsychologia</i> , 2019 , 134, 107227	3.2	10
145	Determining the mechanisms through which recent life stress predicts working memory impairments: precision or capacity?. <i>Stress</i> , 2019 , 22, 280-285	3	9
144	Dissociable medial temporal pathways for encoding emotional item and context information. <i>Neuropsychologia</i> , 2019 , 124, 66-78	3.2	17
143	Using acute stress to improve episodic memory: The critical role of contextual binding. <i>Neurobiology of Learning and Memory</i> , 2019 , 158, 1-8	3.1	10
142	The effects of post-encoding stress and glucocorticoids on episodic memory in humans and rodents. <i>Brain and Cognition</i> , 2019 , 133, 12-23	2.7	9
141	CA1 and CA3 differentially support spontaneous retrieval of episodic contexts within human hippocampal subfields. <i>Nature Communications</i> , 2018 , 9, 294	17.4	82
140	Close but no cigar: Spatial precision deficits following medial temporal lobe lesions provide novel insight into theoretical models of navigation and memory. <i>Hippocampus</i> , 2018 , 28, 31-41	3.5	32
139	Balancing precision with inclusivity in meta-analyses: A response to Roos and colleagues (2017). <i>Neuroscience and Biobehavioral Reviews</i> , 2018 , 84, 193-197	9	3
138	Reward anticipation modulates the effect of stress-related increases in cortisol on episodic memory. <i>Neurobiology of Learning and Memory</i> , 2018 , 147, 65-73	3.1	3
137	The hippocampus is particularly important for building associations across stimulus domains. <i>Neuropsychologia</i> , 2017 , 99, 335-342	3.2	14
136	The effects of acute stress on episodic memory: A meta-analysis and integrative review. <i>Psychological Bulletin</i> , 2017 , 143, 636-675	19.1	172
135	Recent life stress exposure is associated with poorer long-term memory, working memory, and self-reported memory. <i>Stress</i> , 2017 , 20, 598-607	3	31
134	Visual short-term memory for high resolution associations is impaired in patients with medial temporal lobe damage. <i>Hippocampus</i> , 2017 , 27, 184-193	3.5	30
133	Stress as a mnemonic filter: Interactions between medial temporal lobe encoding processes and post-encoding stress. <i>Hippocampus</i> , 2017 , 27, 77-88	3.5	13
132	The ROC Toolbox: A toolbox for analyzing receiver-operating characteristics derived from confidence ratings. <i>Behavior Research Methods</i> , 2017 , 49, 1399-1406	6.1	43

131	The medial temporal lobe supports sensing-based visual working memory. <i>Neuropsychologia</i> , 2016 , 89, 485-494	3.2	12
130	Exposure to acute stress enhances decision-making competence: Evidence for the role of DHEA. <i>Psychoneuroendocrinology</i> , 2016 , 67, 51-60	5	21
129	Recollection, not familiarity, decreases in healthy ageing: Converging evidence from four estimation methods. <i>Memory</i> , 2016 , 24, 75-88	1.8	47
128	Distinguishing between the success and precision of recollection. <i>Memory</i> , 2016 , 24, 114-27	1.8	37
127	The effects of acute stress on core executive functions: A meta-analysis and comparison with cortisol. <i>Neuroscience and Biobehavioral Reviews</i> , 2016 , 68, 651-668	9	296
126	Acute stress impairs cognitive flexibility in men, not women. <i>Stress</i> , 2016 , 19, 542-6	3	42
125	The effect of negative affect on cognition: Anxiety, not anger, impairs executive function. <i>Emotion</i> , 2016 , 16, 792-7	4.1	51
124	Functional and Neuroanatomic Specificity of Episodic Memory Dysfunction in Schizophrenia: A Functional Magnetic Resonance Imaging Study of the Relational and Item-Specific Encoding Task. <i>JAMA Psychiatry</i> , 2015 , 72, 909-16	14.5	88
123	The importance of unitization for familiarity-based learning. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2015 , 41, 881-903	2.2	57
122	Differential effects of stress-induced cortisol responses on recollection and familiarity-based recognition memory. <i>Neurobiology of Learning and Memory</i> , 2015 , 123, 1-10	3.1	31
121	The slow forgetting of emotional episodic memories: an emotional binding account. <i>Trends in Cognitive Sciences</i> , 2015 , 19, 259-67	14	154
120	Recollection and familiarity exhibit dissociable similarity gradients: a test of the complementary learning systems model. <i>Journal of Cognitive Neuroscience</i> , 2015 , 27, 876-92	3.1	4
119	Delay-dependent contributions of medial temporal lobe regions to episodic memory retrieval. <i>ELife</i> , 2015 , 4,	8.9	72
118	Neurocomputational account of memory and perception: Thresholded and graded signals in the hippocampus. <i>Hippocampus</i> , 2014 , 24, 1672-86	3.5	20
117	The effects of healthy aging, amnesic mild cognitive impairment, and Alzheimer's disease on recollection and familiarity: a meta-analytic review. <i>Neuropsychology Review</i> , 2014 , 24, 332-54	7.7	157
116	Cortical and subcortical contributions to state- and strength-based perceptual judgments. <i>Neuropsychologia</i> , 2014 , 64, 145-56	3.2	2
115	Activity reductions in perirhinal cortex predict conceptual priming and familiarity-based recognition. <i>Neuropsychologia</i> , 2014 , 52, 19-26	3.2	41
114	Effect of general anesthesia in infancy on long-term recognition memory in humans and rats. <i>Neuropsychopharmacology</i> , 2014 , 39, 2275-87	8.7	101

113	Hippocampal and parahippocampal cortex volume predicts recollection in schizophrenia. <i>Schizophrenia Research</i> , 2014 , 157, 319-20	3.6	
112	Functional connectivity relationships predict similarities in task activation and pattern information during associative memory encoding. <i>Journal of Cognitive Neuroscience</i> , 2014 , 26, 1085-99	3.1	39
111	Laminar activity in the hippocampus and entorhinal cortex related to novelty and episodic encoding. <i>Nature Communications</i> , 2014 , 5, 5547	17.4	64
110	Neural correlates of state- and strength-based perception. <i>Journal of Cognitive Neuroscience</i> , 2014 , 26, 792-809	3.1	9
109	Associative memory and its cerebral correlates in Alzheimer's disease: evidence for distinct deficits of relational and conjunctive memory. <i>Neuropsychologia</i> , 2014 , 63, 99-106	3.2	17
108	The disruptive effects of processing fluency on familiarity-based recognition in amnesia. <i>Neuropsychologia</i> , 2014 , 54, 59-67	3.2	12
107	The role of detection and recollection of change in list discrimination. <i>Memory and Cognition</i> , 2013 , 41, 638-49	2.2	28
106	Dissociable neural correlates of item and context retrieval in the medial temporal lobes. <i>Behavioural Brain Research</i> , 2013 , 254, 102-7	3.4	19
105	Cold-pressor stress after learning enhances familiarity-based recognition memory in men. <i>Neurobiology of Learning and Memory</i> , 2013 , 106, 11-7	3.1	41
104	The hippocampus supports high-resolution binding in the service of perception, working memory and long-term memory. <i>Behavioural Brain Research</i> , 2013 , 254, 34-44	3.4	200
103	Medial temporal lobe contributions to cued retrieval of items and contexts. <i>Neuropsychologia</i> , 2013 , 51, 2322-32	3.2	40
102	Recollection and familiarity in schizophrenia: a quantitative review. <i>Biological Psychiatry</i> , 2013 , 73, 944-50.	3.9	44
101	Detecting changes in scenes: the hippocampus is critical for strength-based perception. <i>Neuron</i> , 2013 , 78, 1127-37	13.9	90
100	Parahippocampal cortex activation during context reinstatement predicts item recollection. <i>Journal of Experimental Psychology: General</i> , 2013 , 142, 1287-97	4.7	23
99	Still no evidence for the encoding variability hypothesis: a reply to Jang, Mickes, and Wixted (2012) and Starns, Rotello, and Ratcliff (2012). <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2013 , 39, 304-12	2.2	7
98	Associative memory in aging: the effect of unitization on source memory. <i>Psychology and Aging</i> , 2013 , 28, 275-83	3.6	74
97	Examining the causes of memory strength variability: recollection, attention failure, or encoding variability?. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2013 , 39, 1726-41	2.2	16
96	A familiar finding: Pseudowords are more familiar but no less recollectable than words. <i>Journal of Memory and Language</i> , 2012 , 66, 361-375	3.8	7

95	The process-dissociation approach two decades later: convergence, boundary conditions, and new directions. <i>Memory and Cognition</i> , 2012 , 40, 663-80	2.2	98
94	Adaptation to cognitive context and item information in the medial temporal lobes. <i>Neuropsychologia</i> , 2012 , 50, 3062-9	3.2	35
93	Neurophysiological evidence for a recollection impairment in amnesia patients that leaves familiarity intact. <i>Neuropsychologia</i> , 2012 , 50, 3004-14	3.2	39
92	Familiarity is related to conceptual implicit memory: an examination of individual differences. <i>Psychonomic Bulletin and Review</i> , 2012 , 19, 1154-64	4.1	40
91	Neural correlates of relational and item-specific encoding during working and long-term memory in schizophrenia. <i>NeuroImage</i> , 2012 , 59, 1719-26	7.9	54
90	Examining ERP correlates of recognition memory: evidence of accurate source recognition without recollection. <i>NeuroImage</i> , 2012 , 62, 439-50	7.9	81
89	Bridging consciousness and cognition in memory and perception: evidence for both state and strength processes. <i>PLoS ONE</i> , 2012 , 7, e30231	3.7	35
88	Episodic memory function is associated with multiple measures of white matter integrity in cognitive aging. <i>Frontiers in Human Neuroscience</i> , 2012 , 6, 56	3.3	85
87	Familiarity and conceptual implicit memory: Individual differences and neural correlates. <i>Cognitive Neuroscience</i> , 2012 , 3, 213-4	1.7	14
86	Relational and Item-Specific Encoding (RISE): task development and psychometric characteristics. <i>Schizophrenia Bulletin</i> , 2012 , 38, 114-24	1.3	55
85	Dissociable networks involved in spatial and temporal order source retrieval. <i>NeuroImage</i> , 2011 , 56, 1803-13	3.9	110
84	Damage to the lateral prefrontal cortex impairs familiarity but not recollection. <i>Behavioural Brain Research</i> , 2011 , 225, 297-304	3.4	32
83	Putting the pieces together: the role of dorsolateral prefrontal cortex in relational memory encoding. <i>Journal of Cognitive Neuroscience</i> , 2011 , 23, 257-65	3.1	147
82	ERP correlates of source memory: unitized source information increases familiarity-based retrieval. <i>Brain Research</i> , 2011 , 1367, 278-86	3.7	72
81	Encoding details: positive emotion leads to memory broadening. <i>Cognition and Emotion</i> , 2011 , 25, 1255-62	3.2	37
80	Prestimulus theta activity predicts correct source memory retrieval. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2011 , 108, 10702-7	11.5	131
79	The effects of post-encoding stress on recognition memory: examining the impact of skydiving in young men and women. <i>Stress</i> , 2011 , 14, 136-44	3	40
78	From humans to rats and back again: bridging the divide between human and animal studies of recognition memory with receiver operating characteristics. <i>Learning and Memory</i> , 2011 , 18, 519-22	2.8	17

77	Variations in recollection: the effects of complexity on source recognition. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2011 , 37, 861-73	2.2	25
76	Functional phenotyping of successful aging in long-term memory: Preserved performance in the absence of neural compensation. <i>Hippocampus</i> , 2011 , 21, 803-14	3.5	60
75	Developmental differences in medial temporal lobe function during memory encoding. <i>Journal of Neuroscience</i> , 2010 , 30, 9548-56	6.6	160
74	Aging effects on recollection and familiarity: the role of white matter hyperintensities. <i>Aging, Neuropsychology, and Cognition</i> , 2010 , 17, 422-38	2.1	6
73	Medial temporal lobe activity during source retrieval reflects information type, not memory strength. <i>Journal of Cognitive Neuroscience</i> , 2010 , 22, 1808-18	3.1	140
72	The medial temporal lobe supports conceptual implicit memory. <i>Neuron</i> , 2010 , 68, 835-42	13.9	94
71	Recollection and familiarity: examining controversial assumptions and new directions. <i>Hippocampus</i> , 2010 , 20, 1178-94	3.5	302
70	Memory variability is due to the contribution of recollection and familiarity, not to encoding variability. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2010 , 36, 1536-42	2.2	35
69	Faces are special but not too special: spared face recognition in amnesia is based on familiarity. <i>Neuropsychologia</i> , 2010 , 48, 3941-8	3.2	26
68	Novelty enhancements in memory are dependent on lateral prefrontal cortex. <i>Journal of Neuroscience</i> , 2009 , 29, 8114-8	6.6	35
67	Impaired recollection but spared familiarity in patients with extended hippocampal system damage revealed by 3 convergent methods. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2009 , 106, 5442-7	11.5	139
66	Evidence for a memory threshold in second-choice recognition memory responses. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2009 , 106, 11515-9	11.5	43
65	Recognition memory: opposite effects of hippocampal damage on recollection and familiarity. <i>Nature Neuroscience</i> , 2008 , 11, 16-8	25.5	147
64	Differential time-dependent effects of emotion on recollective experience and memory for contextual information. <i>Cognition</i> , 2008 , 106, 538-47	3.5	156
63	Perirhinal cortex supports encoding and familiarity-based recognition of novel associations. <i>Neuron</i> , 2008 , 59, 554-60	13.9	196
62	The effects of unitization on familiarity-based source memory: testing a behavioral prediction derived from neuroimaging data. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2008 , 34, 730-40	2.2	145
61	Testing a neurocomputational model of recollection, familiarity, and source recognition. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2008 , 34, 752-68	2.2	37
60	High-resolution multi-voxel pattern analysis of category selectivity in the medial temporal lobes. <i>Hippocampus</i> , 2008 , 18, 536-41	3.5	78

59	Effect of unitization on associative recognition in amnesia. <i>Hippocampus</i> , 2007 , 17, 192-200	3.5	199
58	Memory in the aging brain: doubly dissociating the contribution of the hippocampus and entorhinal cortex. <i>Hippocampus</i> , 2007 , 17, 1134-40	3.5	100
57	Impaired familiarity with preserved recollection after anterior temporal-lobe resection that spares the hippocampus. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2007 , 104, 16382-7	11.5	254
56	Moving beyond pure signal-detection models: comment on Wixted (2007). <i>Psychological Review</i> , 2007 , 114, 188-202; discussion 203-9	6.3	146
55	Postscript: Comment on Wixted (2007).. <i>Psychological Review</i> , 2007 , 114, 201-202	6.3	2
54	Receiver operating characteristics (ROCs) in recognition memory: a review. <i>Psychological Bulletin</i> , 2007 , 133, 800-32	19.1	280
53	Imaging recollection and familiarity in the medial temporal lobe: a three-component model. <i>Trends in Cognitive Sciences</i> , 2007 , 11, 379-86	14	833
52	How emotion strengthens the recollective experience: a time-dependent hippocampal process. <i>PLoS ONE</i> , 2007 , 2, e1068	3.7	58
51	The intersubject and intrasubject reproducibility of fMRI activation during three encoding tasks: implications for clinical applications. <i>Neuroradiology</i> , 2006 , 48, 495-505	3.2	27
50	White Matter Changes Compromise Prefrontal Cortex Function in Healthy Elderly Individuals. <i>Journal of Cognitive Neuroscience</i> , 2006 , 18, 418-429	3.1	170
49	White matter changes compromise prefrontal cortex function in healthy elderly individuals. <i>Journal of Cognitive Neuroscience</i> , 2006 , 18, 418-29	3.1	96
48	Bilateral thalamic lesions affect recollection- and familiarity-based recognition memory judgments. <i>Cortex</i> , 2005 , 41, 778-88	3.8	31
47	Separating the brain regions involved in recollection and familiarity in recognition memory. <i>Journal of Neuroscience</i> , 2005 , 25, 3002-8	6.6	627
46	Different mechanisms of episodic memory failure in mild cognitive impairment. <i>Neuropsychologia</i> , 2005 , 43, 1688-97	3.2	98
45	Sparing of the familiarity component of recognition memory in a patient with hippocampal pathology. <i>Neuropsychologia</i> , 2005 , 43, 1810-23	3.2	225
44	Lag-sensitive repetition suppression effects in the anterior parahippocampal gyrus. <i>Hippocampus</i> , 2005 , 15, 557-61	3.5	59
43	Dissociable correlates of recollection and familiarity within the medial temporal lobes. <i>Neuropsychologia</i> , 2004 , 42, 2-13	3.2	537
42	Recall and recognition in mild hypoxia: using covariance structural modeling to test competing theories of explicit memory. <i>Neuropsychologia</i> , 2004 , 42, 672-91	3.2	68

41	Dissociating familiarity from recollection using rote rehearsal. <i>Memory and Cognition</i> , 2004 , 32, 932-44	2.2	21
40	Correlates of memory function in community-dwelling elderly: the importance of white matter hyperintensities. <i>Journal of the International Neuropsychological Society</i> , 2004 , 10, 371-81	3.1	25
39	Novelty effects on recollection and familiarity in recognition memory. <i>Memory and Cognition</i> , 2003 , 31, 1045-51	2.2	40
38	Human recognition memory: a cognitive neuroscience perspective. <i>Trends in Cognitive Sciences</i> , 2003 , 7, 313-319	14	309
37	The Nature of Recollection and Familiarity: A Review of 30 Years of Research. <i>Journal of Memory and Language</i> , 2002 , 46, 441-517	3.8	2607
36	Effects of extensive temporal lobe damage or mild hypoxia on recollection and familiarity. <i>Nature Neuroscience</i> , 2002 , 5, 1236-41	25.5	436
35	Recognition memory for source and occurrence: the importance of recollection. <i>Memory and Cognition</i> , 2002 , 30, 893-907	2.2	21
34	Dissociating familiarity from recollection in human recognition memory: different rates of forgetting over short retention intervals. <i>Psychonomic Bulletin and Review</i> , 2002 , 9, 575-82	4.1	81
33	Separating sensitivity from response bias: Implications of comparisons of yes-no and forced-choice tests for models and measures of recognition memory.. <i>Journal of Experimental Psychology: General</i> , 2002 , 131, 241-254	4.7	35
32	Implicit Memory in Aging: Normal Transfer Across Semantic Decisions and Stimulus Format. <i>Aging, Neuropsychology, and Cognition</i> , 2002 , 9, 145-156	2.1	5
31	Dissociating perceptual and conceptual implicit memory in multiple sclerosis patients. <i>Brain and Cognition</i> , 2002 , 50, 51-61	2.7	17
30	Separating sensitivity from response bias: implications of comparisons of yes-no and forced-choice tests for models and measures of recognition memory. <i>Journal of Experimental Psychology: General</i> , 2002 , 131, 241-54	4.7	11
29	Comparative electrophysiological and hemodynamic measures of neural activation during memory-retrieval. <i>Human Brain Mapping</i> , 2001 , 13, 104-23	5.9	47
28	Transfer across modality in perceptual implicit memory. <i>Psychonomic Bulletin and Review</i> , 2001 , 8, 147-54	4.1	26
27	Consciousness, control, and confidence: The 3 Cs of recognition memory.. <i>Journal of Experimental Psychology: General</i> , 2001 , 130, 361-379	4.7	272
26	Form-specific visual priming in the left and right hemispheres. <i>Brain and Cognition</i> , 2001 , 47, 564-9	2.7	16
25	Components of episodic memory: the contribution of recollection and familiarity. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2001 , 356, 1363-74	5.8	355
24	Consciousness, control, and confidence: the 3 Cs of recognition memory. <i>Journal of Experimental Psychology: General</i> , 2001 , 130, 361-79	4.7	103

23	The contribution of recollection and familiarity to yes-no and forced-choice recognition tests in healthy subjects and amnesics. <i>Neuropsychologia</i> , 2000 , 38, 1333-41	3.2	57
22	Predicting individual false alarm rates and signal detection theory: a role for remembering. <i>Memory and Cognition</i> , 2000 , 28, 1347-56	2.2	19
