#	ARTICLE	IF	CITATIONS
1	Stress management interventions in the workplace improve stress reactivity: a randomised controlled trial. <i>Occupational and Environmental Medicine</i> , 2011, 68, 126-133.	2.8	109
2	Health in the Long-Term Unemployed. <i>Deutsches A&#x0308;rzteblatt International</i> , 2013, 110, 413-9.	0.9	101
3	The moderating effects of job control and selection, optimization, and compensation strategies on the age—work ability relationship. <i>Journal of Organizational Behavior</i> , 2013, 34, 607-628.	4.7	86
4	The associations of supervisor support and work overload with burnout and depression: a cross—sectional study in two nursing settings. <i>Journal of Advanced Nursing</i> , 2016, 72, 1774-1788.	3.3	81
5	Improving well-being at work: A randomized controlled intervention based on selection, optimization, and compensation.. <i>Journal of Occupational Health Psychology</i> , 2016, 21, 169-181.	3.3	81
6	Work stress and the risk of recurrent coronary heart disease events: A systematic review and meta-analysis. <i>International Journal of Occupational Medicine and Environmental Health</i> , 2015, 28, 8-19.	1.3	72
7	Workplace bullying and depressive symptoms: A prospective study among junior physicians in Germany. <i>Journal of Psychosomatic Research</i> , 2015, 78, 168-172.	2.6	60
8	Physicians’ intention to leave direct patient care: an integrative review. <i>Human Resources for Health</i> , 2015, 13, 74.	3.1	58
9	Perceived stress in human—machine interaction in modern manufacturing environments—Results of a qualitative interview study. <i>Stress and Health</i> , 2019, 35, 187-199.	2.6	54
10	Depressive symptoms in junior doctors: a follow-up study on work-related determinants. <i>International Archives of Occupational and Environmental Health</i> , 2012, 85, 559-570.	2.3	49
11	Associations between work stress and suicidal ideation: Individual-participant data from six cross-sectional studies. <i>Journal of Psychosomatic Research</i> , 2016, 90, 62-69.	2.6	45
12	Long-Term Effectiveness of Stress Management at Work: Effects of the Changes in Perceived Stress Reactivity on Mental Health and Sleep Problems Seven Years Later. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 255.	2.6	45
13	Effort-reward imbalance and perceived quality of patient care: a cross-sectional study among physicians in Germany. <i>BMC Public Health</i> , 2016, 16, 342.	2.9	42
14	The effects of improving hospital physicians working conditions on patient care: a prospective, controlled intervention study. <i>BMC Health Services Research</i> , 2013, 13, 401.	2.2	40
15	Associations of psychosocial working conditions with health outcomes, quality of care and intentions to leave the profession: results from a cross-sectional study among physician assistants in Germany. <i>International Archives of Occupational and Environmental Health</i> , 2018, 91, 643-654.	2.3	40
16	Physicians' Psychosocial Work Conditions and Quality of Care: A Literature Review. <i>Professions and Professionalism</i> , 2015, 5, .	0.3	38
17	Impact of shift work on the diurnal cortisol rhythm: a one-year longitudinal study in junior physicians. <i>Journal of Occupational Medicine and Toxicology</i> , 2018, 13, 23.	2.2	38
18	Cluster-randomised trial evaluating a complex intervention to improve mental health and well-being of employees working in hospital — a protocol for the SEEGEN trial. <i>BMC Public Health</i> , 2019, 19, 1694.	2.9	37

#	ARTICLE	IF	CITATIONS
19	Self-perceived stress reactivity is an indicator of psychosocial impairment at the workplace. <i>BMC Public Health</i> , 2010, 10, 252.	2.9	36
20	Student ERI: Psychometric properties of a new brief measure of effort-reward imbalance among university students. <i>Journal of Psychosomatic Research</i> , 2017, 94, 64-67.	2.6	35
21	Changes in psychosocial work environment and depressive symptoms: A prospective study in junior physicians. <i>American Journal of Industrial Medicine</i> , 2013, 56, 1414-1422.	2.1	34
22	Stressors and resources related to academic studies and improvements suggested by medical students: a qualitative study. <i>BMC Medical Education</i> , 2019, 19, 312.	2.4	34
23	The impact of training and working conditions on junior doctors's™ intention to leave clinical practice. <i>BMC Medical Education</i> , 2014, 14, 119.	2.4	33
24	The prevention of musculoskeletal complaints: a randomized controlled trial on additional effects of a work-related psychosocial coaching intervention compared to physiotherapy alone. <i>International Archives of Occupational and Environmental Health</i> , 2017, 90, 357-371.	2.3	26
25	Does it matter in the long run? Longitudinal effects and interactions in the differentiated job demands-“resources model. <i>European Journal of Work and Organizational Psychology</i> , 2017, 26, 741-754.	3.7	25
26	Healthy ageing at work-“Efficacy of group interventions on the mental health of nurses aged 45 and older: Results of a randomised, controlled trial. <i>PLoS ONE</i> , 2018, 13, e0191000.	2.5	25
27	Exploring medical students' views on digital mental health interventions: A qualitative study. <i>Internet Interventions</i> , 2021, 25, 100398.	2.7	25
28	Job insecurity is associated with adult asthma in Germany during Europe's recent economic crisis: a prospective cohort study. <i>Journal of Epidemiology and Community Health</i> , 2014, 68, 1196-1199.	3.7	23
