#	ARTICLE	IF	CITATIONS
1	How children in Sweden accessed and perceived information during the first phase of the Covid-19 pandemic. <i>Scandinavian Journal of Public Health</i> , 2022, 50, 144-151.	1.2	3
2	P182 Health literacy and gout characteristics in a primary care cohort. <i>Rheumatology</i> , 2022, 61, .	0.9	0
3	P077 Developing a better explanation of osteoarthritis: results from a conjoint analysis of patient preferences. <i>Rheumatology</i> , 2022, 61, .	0.9	0
4	Risk-based stratified primary care for common musculoskeletal pain presentations (STarT MSK): a cluster-randomised, controlled trial. <i>Lancet Rheumatology</i> , The, 2022, 4, e591-e602.	2.2	23
5	Implementing patient direct access to musculoskeletal physiotherapy in primary care: views of patients, general practitioners, physiotherapists and clinical commissioners in England. <i>Physiotherapy</i> , 2021, 111, 31-39.	0.2	13
6	Providing patients with direct access to musculoskeletal physiotherapy: the impact on general practice musculoskeletal workload and resource use. The STEMS-2 study. <i>Physiotherapy</i> , 2021, 111, 48-56.	0.2	4
7	Survey of young people in one region of the UK on accessing COVID-19 information (SOCIAL). <i>BMJ Paediatrics Open</i> , 2021, 5, e000942.	0.6	1
8	Evaluation of quality and readability of online patient information on osteoporosis and osteoporosis drug treatment and recommendations for improvement. <i>Osteoporosis International</i> , 2021, 32, 1567-1584.	1.3	9
9	Estimating the population health burden of musculoskeletal conditions using primary care electronic health records. <i>Rheumatology</i> , 2021, 60, 4832-4843.	0.9	5
10	People play it down and tell me it can't kill people, but I know people are dying each day: Children's health literacy relating to a global pandemic (COVID-19); an international cross sectional study. <i>PLoS ONE</i> , 2021, 16, e0246405.	1.1	39
11	Developing a model Fracture Liaison Service consultation with patients, carers and clinicians: a Delphi survey to inform content of the iFraP complex consultation intervention. <i>Archives of Osteoporosis</i> , 2021, 16, 58.	1.0	7
12	It's just ringing to get a repeat prescription for my contraceptive pill, doctor: developing authentic simulated telephone consultations for medical students. <i>Education for Primary Care</i> , 2021, 32, 303-307.	0.2	5
13	Chronic widespread pain in children and adolescents presenting in primary care. <i>Pain</i> , 2021, Publish Ahead of Print, .	2.0	3
14	Integrating clinician support with intervention design as part of a programme testing stratified care for musculoskeletal pain in general practice. <i>BMC Family Practice</i> , 2021, 22, 161.	2.9	3
15	Refinement and validation of a tool for stratifying patients with musculoskeletal pain. <i>European Journal of Pain</i> , 2021, 25, 2081-2093.	1.4	36
16	Improving uptake of Fracture Prevention drug treatments: a protocol for Development of a consultation intervention (iFraP-D). <i>BMJ Open</i> , 2021, 11, e048811.	0.8	6
17	How parents share and limit their child's access to information about COVID-19: A mixed methods online survey study. <i>Journal of Child Health Care</i> , 2021, , 136749352110467.	0.7	0
18	Celebrating the health literacy skills of parents: A photovoice study. <i>Journal of Health Psychology</i> , 2020, 25, 1522-1531.	1.3	2

#	ARTICLE	IF	CITATIONS
19	A Questionnaire-Based Study to Investigate the Extent of Shared Decision-making During Consultations in Out-of-hours Primary Care. <i>Journal of General Internal Medicine</i> , 2020, 35, 2513-2515.	1.3	0
20	The Evidence-Based Development of an Intervention to Improve Clinical Health Literacy Practice. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 1513.	1.2	7
21	Stratified primary care versus non-stratified care for musculoskeletal pain: qualitative findings from the STaRT MSK feasibility and pilot cluster randomized controlled trial. <i>BMC Family Practice</i> , 2020, 21, 31.	2.9	16
22	Computer-Based Stratified Primary Care for Musculoskeletal Consultations Compared With Usual Care: Study Protocol for the STaRT MSK Cluster Randomized Controlled Trial. <i>JMIR Research Protocols</i> , 2020, 9, e17939.	0.5	13
23	Can patients with low health literacy be identified from routine primary care health records? A cross-sectional and prospective analysis. <i>BMC Family Practice</i> , 2019, 20, 101.	2.9	39
24	Matching treatment options for risk sub-groups in musculoskeletal pain: a consensus groups study. <i>BMC Musculoskeletal Disorders</i> , 2019, 20, 271.	0.8	25
25	Self-management of a musculoskeletal condition for people from harder to reach groups: a qualitative patient interview study. <i>Disability and Rehabilitation</i> , 2019, 41, 3034-3042.	0.9	13
26	The digital divide: Examining socio-demographic factors associated with health literacy, access and use of internet to seek health information. <i>Journal of Health Psychology</i> , 2019, 24, 1668-1675.	1.3	171
27	Epidemiology of paediatric presentations with musculoskeletal problems in primary care. <i>BMC Musculoskeletal Disorders</i> , 2018, 19, 40.	0.8	45
28	The Impact of Inadequate Health Literacy in a Population with Musculoskeletal Pain. <i>Health Literacy Research and Practice</i> , 2018, 2, e215-e220.	0.5	12
29	STEMS pilot trial: a pilot cluster randomised controlled trial to investigate the addition of patient direct access to physiotherapy to usual GP-led primary care for adults with musculoskeletal pain. <i>BMJ Open</i> , 2017, 7, e012987.	0.8	27
30	Evaluating on-line health information for patients with polymyalgia rheumatica: a descriptive study. <i>BMC Musculoskeletal Disorders</i> , 2017, 18, 43.	0.8	10
31	Consultation patterns of children and adolescents with knee pain in UK general practice: analysis of medical records. <i>BMC Musculoskeletal Disorders</i> , 2017, 18, 239.	0.8	20
32	Health literacy, associated lifestyle and demographic factors in adult population of an English city: a cross-sectional survey. <i>Health Expectations</i> , 2017, 20, 112-119.	1.1	198
33	Effective Partnership in Community-Based Health Promotion: Lessons from the Health Literacy Partnership. <i>International Journal of Environmental Research and Public Health</i> , 2017, 14, 1550.	1.2	45
34	Health Literacy, Diabetes Prevention, and Self-Management. <i>Journal of Diabetes Research</i> , 2017, 2017, 1-3.	1.0	18
35	176. REFINEMENT AND VALIDATION OF THE KEELE START MSK TOOL FOR MUSCULOSKELETAL PAIN IN PRIMARY CARE. <i>Rheumatology</i> , 2017, 56, .	0.9	5
36	Effective treatment options for musculoskeletal pain in primary care: A systematic overview of current evidence. <i>PLoS ONE</i> , 2017, 12, e0178621.	1.1	238

#	ARTICLE	IF	CITATIONS
37	Keele Aches and Pains Study protocol: validity, acceptability, and feasibility of the Keele STarT MSK tool for subgrouping musculoskeletal patients in primary care. <i>Journal of Pain Research</i> , 2016, Volume 9, 807-818.	0.8	41
38	Lay Health Trainers Supporting Self-Management amongst Those with Low Health Literacy and Diabetes: Lessons from a Mixed Methods Pilot, Feasibility Study. <i>Journal of Diabetes Research</i> , 2016, 2016, 1-10.	1.0	2
39	The Feasibility of Health Trainer Improved Patient Self-Management in Patients with Low Health Literacy and Poorly Controlled Diabetes: A Pilot Randomised Controlled Trial. <i>Journal of Diabetes Research</i> , 2016, 2016, 1-11.	1.0	13
40	OASIS Consensus Group Approach to Agreeing Matched Treatment Options for Musculoskeletal Pain of Patients Stratified According to Prognostic Risk. <i>Rheumatology</i> , 2016, , .	0.9	0
41	Development of hand phenotypes and changes in hand pain and problems over time in older people. <i>Pain</i> , 2016, 157, 569-576.	2.0	10
42	General Practitioners' and patients' perceptions towards stratified care: a theory informed investigation. <i>BMC Family Practice</i> , 2016, 17, 125.	2.9	17
43	Effective Treatment Options for Musculoskeletal Pain Conditions: A Rapid Meta-Synthesis of Current Best Evidence in Primary Care. <i>Rheumatology</i> , 2016, , .	0.9	0
44	Do Web-based Mental Health Literacy Interventions Improve the Mental Health Literacy of Adult Consumers? Results From a Systematic Review. <i>Journal of Medical Internet Research</i> , 2016, 18, e165.	2.1	99
45	Building on research evidence to change health literacy policy and practice in England. <i>Journal of Communication in Healthcare</i> , 2015, 8, 22-31.	0.8	1
46	Patient information materials in general practices and promotion of health literacy: an observational study of their effectiveness. <i>British Journal of General Practice</i> , 2015, 65, e192-e197.	0.7	56
47	Modelling self-management pathways for people with diabetes in primary care. <i>BMC Family Practice</i> , 2015, 16, 112.	2.9	13
48	A pilot cluster randomised controlled trial to investigate the addition of direct access to physiotherapy to usual GP-led primary care for adults with musculoskeletal pain: the STEMS pilot trial protocol (ISRCTN23378642). <i>Pilot and Feasibility Studies</i> , 2015, 1, 26.	0.5	4
49	A mismatch between population health literacy and the complexity of health information: an observational study. <i>British Journal of General Practice</i> , 2015, 65, e379-e386.	0.7	172
50	Current evidence on risk factors for knee osteoarthritis in older adults: a systematic review and meta-analysis. <i>Osteoarthritis and Cartilage</i> , 2015, 23, 507-515.	0.6	621
51	Modelling successful primary care for multimorbidity: a realist synthesis of successes and failures in concurrent learning and healthcare delivery. <i>BMC Family Practice</i> , 2015, 16, 23.	2.9	29
52	The potential for using a Universal Medication Schedule (UMS) to improve adherence in patients taking multiple medications in the UK: a qualitative evaluation. <i>BMC Health Services Research</i> , 2015, 15, 94.	0.9	11
53	Implementation of a self-management support approach (WISE) across a health system: a process evaluation explaining what did and did not work for organisations, clinicians and patients. <i>Implementation Science</i> , 2014, 9, 129.	2.5	73
54	Care plans and care planning in long-term conditions: a conceptual model. <i>Primary Health Care Research and Development</i> , 2014, 15, 342-354.	0.5	43

#	ARTICLE	IF	CITATIONS
55	Implementing, embedding and integrating self-management support tools for people with long-term conditions in primary care nursing: A qualitative study. <i>International Journal of Nursing Studies</i> , 2014, 51, 1103-1113.	2.5	75
56	Care plans and care planning in the management of long-term conditions in the UK: a controlled prospective cohort study. <i>British Journal of General Practice</i> , 2014, 64, e568-e575.	0.7	21
57	Understanding success and failure in multimorbidity: protocol for using realist synthesis to identify how social learning and workplace practices can be optimised. <i>Systematic Reviews</i> , 2013, 2, 87.	2.5	3
58	Implementation of self management support for long term conditions in routine primary care settings: cluster randomised controlled trial. <i>BMJ</i> , The, 2013, 346, f2882-f2882.	3.0	195
59	“Permission to participate?” A qualitative study of participation in patients from differing socio-economic backgrounds. <i>Journal of Health Psychology</i> , 2013, 18, 1046-1055.	1.3	68
60	Multimorbidity and delivery of care for long-term conditions in the English National Health Service: baseline data from a cohort study. <i>Journal of Health Services Research and Policy</i> , 2013, 18, 29-37.	0.8	14
61	Effectiveness of Musculoskeletal Education Interventions in People With Low Literacy Levels: A Systematic Review. <i>Arthritis Care and Research</i> , 2013, 65, 1976-1985.	1.5	25
62	Patients’ Experiences of Shared Decision Making in Primary Care Practices in the United Kingdom. <i>Medical Decision Making</i> , 2013, 33, 26-36.	1.2	17
63	A cluster randomised controlled trial of the clinical and cost-effectiveness of a 'whole systems' model of self-management support for the management of long-term conditions in primary care: trial protocol. <i>Implementation Science</i> , 2012, 7, 7.	2.5	51
64	Understanding the management of early-stage chronic kidney disease in primary care: a qualitative study. <i>British Journal of General Practice</i> , 2012, 62, e233-e242.	0.7	70
65	The role of information in supporting self-care in vascular conditions: a conceptual and empirical review. <i>Health and Social Care in the Community</i> , 2011, 19, 449-459.	0.7	24
66	Social networks, work and network-based resources for the management of long-term conditions: a framework and study protocol for developing self-care support. <i>Implementation Science</i> , 2011, 6, 56.	2.5	106
67	Social networks, social capital and chronic illness self-management: a realist review. <i>Chronic Illness</i> , 2011, 7, 60-86.	0.6	167
68	An intervention to promote patient participation and self-management in long term conditions: development and feasibility testing. <i>BMC Health Services Research</i> , 2010, 10, 206.	0.9	26
69	Delivering the WISE (Whole Systems Informing Self-Management Engagement) training package in primary care: learning from formative evaluation. <i>Implementation Science</i> , 2010, 5, 7.	2.5	49
70	Health literacy: a necessity for increasing participation in health care. <i>British Journal of General Practice</i> , 2009, 59, 721-723.	0.7	100
71	Promoting patient engagement with self-management support information: a qualitative meta-synthesis of processes influencing uptake. <i>Implementation Science</i> , 2008, 3, 44.	2.5	46
72	Choosing, deciding, or participating: what do patients want in primary care?. <i>British Journal of General Practice</i> , 2008, 58, 603-604.	0.7	6

#	ARTICLE	IF	CITATIONS
73	The use of mixed methodology in evaluating complex interventions: identifying patient factors that moderate the effects of a decision aid. <i>Family Practice</i> , 2007, 24, 594-600.	0.8	35
74	Effectiveness of a Computerized Decision Aid in Primary Care on Decision Making and Quality of Life in Menorrhagia: Results of the MENTIP Randomized Controlled Trial. <i>Medical Decision Making</i> , 2007, 27, 575-584.	1.2	47
75	Preference-Based Antithrombotic Therapy in Atrial Fibrillation: Implications for Clinical Decision Making. <i>Medical Decision Making</i> , 2005, 25, 548-559.	1.2	67
76	The role of primary care in the diagnosis and management of menorrhagia: a qualitative study of women with menorrhagia. <i>Primary Health Care Research and Development</i> , 2005, 6, 217-223.	0.5	8
77	Modern management of menorrhagia. <i>Journal of Family Planning and Reproductive Health Care</i> , 2004, 30, 118-122.	0.9	22
78	How can Primary Care Consultations Facilitate Self-Management? Examples from Research and Practice. <i>Rheumatology</i> , 0, , .	0.9	0
