#	ARTICLE	IF	CITATIONS
1	Canadian Physiotherapists Integrate Virtual Care during the COVID-19 Pandemic. <i>Physiotherapy Canada</i> / <i>Physiotherapie Canada</i> , 2023, 75, 134-145.	0.3	6
2	Control of Cardiovascular Risk Factors in Patients with Chronic Obstructive Pulmonary Disease. <i>Annals of the American Thoracic Society</i> , 2022, 19, 1102-1111.	1.5	8
3	“At the mercy of some of the regulations” the impact of the residency match and return of service requirement on the early-career decisions of international medical graduates in Canada. <i>Human Resources for Health</i> , 2022, 20, 15.	1.1	2
4	Bedtime versus morning use of antihypertensives for cardiovascular risk reduction (BedMed): protocol for a prospective, randomised, open-label, blinded end-point pragmatic trial. <i>BMJ Open</i> , 2022, 12, e059711.	0.8	23
5	Government policies targeting primary care physician practice from 1998-2018 in three Canadian provinces: A jurisdictional scan. <i>Health Policy</i> , 2022, 126, 565-575.	1.4	12
6	CUP study: protocol for a comparative analysis of centralised waitlist effectiveness, policies and innovations for connecting unattached patients to primary care providers. <i>BMJ Open</i> , 2022, 12, e049686.	0.8	3
7	Antibiotic prescribing for respiratory tract infection across a national primary care network in 2019. <i>Canada Communicable Disease Report</i> , 2022, 48, 157-163.	0.6	2
8	Trends in Inuit health services utilisation in Manitoba: findings from the <i>Qanuinnngitsiarutiksait</i> study. <i>International Journal of Circumpolar Health</i> , 2022, 81, 2073069.	0.5	5
9	Scaling Up Patient-Centered Interdisciplinary Care for Multimorbidity: A Pragmatic Mixed-Methods Randomized Controlled Trial. <i>Annals of Family Medicine</i> , 2021, 19, 126-134.	0.9	16
10	Identifying heart failure in patients with chronic obstructive lung disease through the Canadian Primary Care Sentinel Surveillance Network in British Columbia: a case derivation study. <i>CMAJ Open</i> , 2021, 9, E376-E383.	1.1	7
11	Integrating research and clinical care must include primary care. <i>Cmaj</i> , 2021, 193, E697-E697.	0.9	0
12	Mapping frailty concepts to SNOMED CT. <i>International Journal of Medical Informatics</i> , 2021, 149, 104409.	1.6	8
13	Designing centralized waiting lists for attachment to a primary care provider: Considerations from a logic analysis. <i>Evaluation and Program Planning</i> , 2021, 89, 101962.	0.9	5
14	Comparison of terminology mapping methods for nursing wound care knowledge representation. <i>International Journal of Medical Informatics</i> , 2021, 153, 104539.	1.6	6
15	Machine learning for identification of frailty in Canadian primary care practices. <i>International Journal of Population Data Science</i> , 2021, 6, 1650.	0.1	15
16	Application of Artificial Intelligence in Community-Based Primary Health Care: Systematic Scoping Review and Critical Appraisal. <i>Journal of Medical Internet Research</i> , 2021, 23, e29839.	2.1	39
17	Differences in Mode Preferences, Response Rates, and Mode Effect Between Automated Email and Phone Survey Systems for Patients of Primary Care Practices: Cross-Sectional Study. <i>Journal of Medical Internet Research</i> , 2021, 23, e21240.	2.1	4
18	Vulnerability and Primary Health Care: An Integrative Literature Review. <i>Journal of Primary Care and Community Health</i> , 2021, 12, 215013272110497.	1.0	14

#	ARTICLE	IF	CITATIONS
19	Patient-centred innovation for multimorbidity care: a mixed-methods, randomised trial and qualitative study of the patients' experience. <i>British Journal of General Practice</i> , 2021, 71, e320-e330.	0.7	6
20	One year follow-up and exploratory analysis of a patient-centered interdisciplinary care intervention for multimorbidity. <i>Journal of Multimorbidity and Comorbidity</i> , 2021, 11, 263355652110397.	0.8	2
21	Strategies for working across Canadian practice-based research and learning networks (PBRLNs) in primary care: focus on frailty. <i>BMC Family Practice</i> , 2021, 22, 220.	2.9	8
22	Comparing the Attainment of the Patient's Medical Home Model across Regions in Three Canadian Provinces: A Cross-Sectional Study. <i>Healthcare Policy</i> , 2021, 17, 19-37.	0.3	1
23	Mapping of Wound Infection Concepts. <i>Studies in Health Technology and Informatics</i> , 2021, 284, 431-435.	0.2	0
24	Understanding Manitoba Inuit's Social Programs Utilization and Needs: Methodological Innovations. <i>International Indigenous Policy Journal</i> , 2021, 12, .	0.3	4
25	A team-based approach in primary care can alleviate the burden created by the COVID-19 surgical backlog for people with hip and knee osteoarthritis. <i>Cmaj</i> , 2020, 192, E1471-E1471.	0.9	2
26	Priority measures for publicly reporting primary care performance: Results of public engagement through deliberative dialogues in 3 Canadian provinces. <i>Health Expectations</i> , 2020, 23, 1213-1223.	1.1	4
27	Population segments as a tool for health care performance reporting: an exploratory study in the Canadian province of British Columbia. <i>BMC Family Practice</i> , 2020, 21, 98.	2.9	3
28	How the design and implementation of centralized waiting lists influence their use and effect on access to healthcare - A realist review. <i>Health Policy</i> , 2020, 124, 787-795.	1.4	12
29	National Competencies for Registered Nurses in Primary Care: A Delphi Study. <i>Western Journal of Nursing Research</i> , 2020, 42, 1078-1087.	0.6	23
30	The role of registered nurses in primary care and public health collaboration: A scoping review. <i>Nursing Open</i> , 2020, 7, 1197-1207.	1.1	24
31	Addressing quadruple aims through primary care and public health collaboration: ten Canadian case studies. <i>BMC Public Health</i> , 2020, 20, 507.	1.2	24
32	Can Linked Electronic Medical Record and Administrative Data Help Us Identify Those Living with Frailty?. <i>International Journal of Population Data Science</i> , 2020, 5, 1343.	0.1	8
33	Developing and Validating a Primary Care EMR-based Frailty Definition using Machine Learning. <i>International Journal of Population Data Science</i> , 2020, 5, 1344.	0.1	3
34	Developing and validating a primary care EMR-based frailty definition using machine learning. <i>International Journal of Population Data Science</i> , 2020, 5, 1344.	0.1	11
35	The Experience of Family Physicians and Home Health Staff Involved in an Intervention to Increase Patient-Related Collaboration. <i>Canadian Journal on Aging</i> , 2019, 38, 493-506.	0.6	1
36	Contextual factors influencing the implementation of innovations in community-based primary health care: the experience of 12 Canadian research teams. <i>Primary Health Care Research and Development</i> , 2019, 20, e107.	0.5	9

#	ARTICLE	IF	CITATIONS
37	Underutilized and undertheorized: the use of hospitalization for ambulatory care sensitive conditions for assessing the extent to which primary healthcare services are meeting needs in British Columbia First Nation communities. <i>BMC Health Services Research</i> , 2019, 19, 50.	0.9	14
38	Citizen perspectives on the use of publicly reported primary care performance information: Results from citizenâ€patient dialogues in three Canadian provinces. <i>Health Expectations</i> , 2019, 22, 974-982.	1.1	5
39	Developmental regulation of lifelong dental experiences and beliefs in Guangzhou and Hong Kong. <i>Gerodontology</i> , 2019, 36, 18-29.	0.8	5
40	Non-clinical determinants of Medevacs in Nunavut: perspectives from northern health service providers and decision-makers. <i>International Journal of Circumpolar Health</i> , 2019, 78, 1571384.	0.5	16
41	NORTH AMERICAN PRIMARY CARE RESEARCH GROUP POSITION STATEMENT ON ELECTRONIC HEALTH RECORD INFORMATION BLOCKING. <i>Annals of Family Medicine</i> , 2019, 17, 90.2-91.	0.9	1
42	Practice patterns among early-career primary care (ECPC) physicians and workforce planning implications: protocol for a mixed methods study. <i>BMJ Open</i> , 2019, 9, e030477.	0.8	26
43	Regional variation in primary care improvement strategies and policy: case studies that consider qualitative contextual data for performance measurement in three Canadian provinces. <i>BMJ Open</i> , 2019, 9, e029622.	0.8	6
44	Promoting cross-jurisdictional primary health care research: developing a set of common indicators across 12 community-based primary health care teams in Canada. <i>Primary Health Care Research and Development</i> , 2019, 20, e7.	0.5	11
45	Attaching Patients In Primary Care Through Centralized Waiting Lists: Seven Canadian Provinces Compared. <i>Health Reform Observer - Observatoire Des RÃ©formes De SantÃ©</i> , 2019, 7, .	0.4	5
46	Measurement and rural primary health care: a scoping review. <i>Rural and Remote Health</i> , 2019, 19, 4911.	0.4	9
47	Can a customer relationship management program improve recruitment for primary care research studies?. <i>Primary Health Care Research and Development</i> , 2018, 19, 416-420.	0.5	1
48	A cross-sectional study of ethnicity-based differences in treatment seeking for symptoms of acute coronary syndrome. <i>European Journal of Cardiovascular Nursing</i> , 2018, 17, 297-304.	0.4	0
49	Assessment of scalability of evidence-based innovations in community-based primary health care: a cross-sectional study. <i>CMAJ Open</i> , 2018, 6, E520-E527.	1.1	17
50	The influence of patientâ€clinician ethnocultural and language concordance on continuity and quality of care: a cross-sectional analysis. <i>CMAJ Open</i> , 2018, 6, E276-E284.	1.1	10
51	â€œStill learning and evolving in our approachesâ€ patient and stakeholder engagement among Canadian community-based primary health care researchers. <i>Research Involvement and Engagement</i> , 2018, 4, 47.	1.1	17
52	Hospitalization for mental health related ambulatory care sensitive conditions: what are the trends for First Nations in British Columbia?. <i>International Journal for Equity in Health</i> , 2018, 17, 156.	1.5	10
53	How Equityâ€Oriented Health Care Affects Health: Key Mechanisms and Implications for Primary Health Care Practice and Policy. <i>Milbank Quarterly</i> , 2018, 96, 635-671.	2.1	109
54	Engaging Older Men in Physical Activity: Implications for Health Promotion Practice. <i>American Journal of Men's Health</i> , 2018, 12, 2064-2075.	0.7	21

#	ARTICLE	IF	CITATIONS
55	Disruption as opportunity: Impacts of an organizational health equity intervention in primary care clinics. <i>International Journal for Equity in Health</i> , 2018, 17, 154.	1.5	84
56	Organizational factors influencing successful primary care and public health collaboration. <i>BMC Health Services Research</i> , 2018, 18, 420.	0.9	37
57	Using the CollaboraKTion framework to report on primary care practice recruitment and data collection: costs and successes in a cross-sectional practice-based survey in British Columbia, Ontario, and Nova Scotia, Canada. <i>BMC Family Practice</i> , 2018, 19, 87.	2.9	5
58	Assessing the representativeness of physician and patient respondents to a primary care survey using administrative data. <i>BMC Family Practice</i> , 2018, 19, 77.	2.9	7
59	Strengthening primary health care through primary care and public health collaboration: the influence of intrapersonal and interpersonal factors. <i>Primary Health Care Research and Development</i> , 2018, 19, 378-391.	0.5	29
60	Complementary and alternative medicine (CAM) information and support needs of Chinese-speaking cancer patients. <i>Supportive Care in Cancer</i> , 2018, 26, 4151-4159.	1.0	11
61	Centralized Waiting Lists for Unattached Patients in Primary Care: Learning from an Intervention Implemented in Seven Canadian Provinces. <i>Healthcare Policy</i> , 2018, 13, 65-82.	0.3	11
62	Centralized Waiting Lists for Unattached Patients in Primary Care: Learning from an Intervention Implemented in Seven Canadian Provinces. <i>Healthcare Policy</i> , 2018, 13, 65-82.	0.3	19
63	Challenges Associated with Cross-Jurisdictional Analyses using Administrative Health Data and Primary Care Electronic Medical Records in Canada. <i>International Journal of Population Data Science</i> , 2018, 3, 437.	0.1	6
64	Attending to power differentials: How <sc>NP</sc>-led group medical visits can influence the management of chronic conditions. <i>Health Expectations</i> , 2017, 20, 862-870.	1.1	16
65	Alignment of Canadian Primary Care With the Patient Medical Home Model: A QUALICO-PC Study. <i>Annals of Family Medicine</i> , 2017, 15, 230-236.	0.9	28
66	Trends in antidepressant prescribing to children and adolescents in <sc>Canadian</sc> primary care: <sc>A</sc>-time-series analysis. <i>Pharmacoepidemiology and Drug Safety</i> , 2017, 26, 1093-1099.	0.9	17
67	Healthcare needs and access in a sample of Chinese young adults in Vancouver, British Columbia: A qualitative analysis. <i>International Journal of Nursing Sciences</i> , 2017, 4, 173-178.	0.5	4
68	The influence of registered nurses and nurse practitioners on patient experience with primary care: results from the Canadian QUALICO-PC study. <i>Health Policy</i> , 2017, 121, 1215-1224.	1.4	12
69	Associations between polypharmacy and treatment intensity for hypertension and diabetes: a cross-sectional study of nursing home patients in British Columbia, Canada. <i>BMJ Open</i> , 2017, 7, e017430.	0.8	31
70	A comparative analysis of centralized waiting lists for patients without a primary care provider implemented in six Canadian provinces: study protocol. <i>BMC Health Services Research</i> , 2017, 17, 60.	0.9	17
71	Advancing team-based primary health care: a comparative analysis of policies in western Canada. <i>BMC Health Services Research</i> , 2017, 17, 493.	0.9	18
72	What systemic factors contribute to collaboration between primary care and public health sectors? An interpretive descriptive study. <i>BMC Health Services Research</i> , 2017, 17, 796.	0.9	17

#	ARTICLE	IF	CITATIONS
73	Structural analysis of health-relevant policy-making information exchange networks in Canada. <i>Implementation Science</i> , 2017, 12, 116.	2.5	7
74	Exploring Context and the Factors Shaping Team-Based Primary Healthcare Policies in Three Canadian Provinces: A Comparative Analysis. <i>Healthcare Policy</i> , 2017, 13, 74-93.	0.3	5
75	“We’re More Typically Female Because He’s Not Afraid to Cry”, 2017, , 177-197.		4
76	Measuring Patient Experiences: Is It Meaningful and Actionable?. <i>HealthcarePapers</i> , 2017, 17, 22-29.	0.2	6
77	Computer use in primary care practices in Canada. <i>Canadian Family Physician</i> , 2017, 63, e284-e290.	0.1	4
78	Primary Care Performance Measurement and Reporting at a Regional Level: Could a Matrix Approach Provide Actionable Information for Policy Makers and Clinicians?. <i>Healthcare Policy</i> , 2016, 12, 33-51.	0.3	8
79	Enhancing health care equity with Indigenous populations: evidence-based strategies from an ethnographic study. <i>BMC Health Services Research</i> , 2016, 16, 544.	0.9	191
80	Using Group Medical Visits With Those Who Have Diabetes: Examining the Evidence. <i>Current Diabetes Reports</i> , 2016, 16, 134.	1.7	31
81	Using Canadian Primary Care Sentinel Surveillance Network data to examine depression in patients with a diagnosis of Parkinson disease: a retrospective cohort study. <i>CMAJ Open</i> , 2016, 4, E417-E423.	1.1	2
82	Complexities of Introducing Group Medical Visits With Nurse Practitioners in British Columbia. <i>Policy, Politics, and Nursing Practice</i> , 2016, 17, 198-207.	0.8	4
83	Examining regional variation in health care spending in British Columbia, Canada. <i>Health Policy</i> , 2016, 120, 739-748.	1.4	12
84	The relationship between language proficiency and surgical length of stay following cardiac bypass surgery. <i>European Journal of Cardiovascular Nursing</i> , 2016, 15, 438-446.	0.4	30
85	Do new and traditional models of primary care differ with regard to access?: Canadian QUALICOPC study. <i>Canadian Family Physician</i> , 2016, 62, 54-61.	0.1	9
86	Statistical research: lost in translation? If you want to get doctors onside, speak their language. <i>Canadian Family Physician</i> , 2016, 62, 524.	0.1	2
87	Opportunities and Barriers to Rural, Remote and First Nation Health Services Research in Canada: Comparing Access to Administrative Claims Data in Manitoba and British Columbia. <i>Healthcare Policy</i> , 2016, 12, 52-8.	0.3	6
88	Stepping Up to the Plate: An Agenda for Research and Policy Action on Electronic Medical Records in Canadian Primary Healthcare. <i>Healthcare Policy</i> , 2016, 12, 19-32.	0.3	3
89	Primary Care Performance Measurement and Reporting at a Regional Level: Could a Matrix Approach Provide Actionable Information for Policy Makers and Clinicians?. <i>Healthcare Policy</i> , 2016, 12, 33-51.	0.3	10
90	Patient confidentiality within the context of group medical visits: is there cause for concern?. <i>Health Expectations</i> , 2015, 18, 727-739.	1.1	9
