#	ARTICLE	IF	CITATIONS
1	The Importance of Neighborhood Social Cohesion and Social Capital for the Well Being of Older Adults in the Community. <i>Gerontologist</i> , The, 2013, 53, 142-152.	2.3	310
2	The importance of patient-centered care and co-creation of care for satisfaction with care and physical and social well-being of patients with multi-morbidity in the primary care setting. <i>BMC Health Services Research</i> , 2019, 19, 13.	0.9	161
3	Quality of life instruments for economic evaluations in health and social care for older people: A systematic review. <i>Social Science and Medicine</i> , 2014, 102, 83-93.	1.8	146
4	A systematic review of integrated use of disease-management interventions in asthma and COPD. <i>Respiratory Medicine</i> , 2009, 103, 670-691.	1.3	118
5	TB treatment initiation and adherence in a South African community influenced more by perceptions than by knowledge of tuberculosis. <i>BMC Public Health</i> , 2010, 10, 72.	1.2	89
6	Relationships between frailty, neighborhood security, social cohesion and sense of belonging among community-dwelling older people. <i>Geriatrics and Gerontology International</i> , 2013, 13, 759-763.	0.7	89
7	Social cohesion and belonging predict the well-being of community-dwelling older people. <i>BMC Geriatrics</i> , 2015, 15, 30.	1.1	88
8	Preferences for long-term care services: Willingness to pay estimates derived from a discrete choice experiment. <i>Social Science and Medicine</i> , 2010, 70, 1317-1325.	1.8	74
9	Relational coordination promotes quality of chronic care delivery in Dutch disease-management programs. <i>Health Care Management Review</i> , 2012, 37, 301-309.	0.6	74
10	The Importance of General Self-Efficacy for the Quality of Life of Adolescents with Chronic Conditions. <i>Social Indicators Research</i> , 2013, 113, 551-561.	1.4	73
11	The ideal neighbourhood for ageing in place as perceived by frail and non-frail community-dwelling older people. <i>Ageing and Society</i> , 2015, 35, 1771-1795.	1.2	73
12	Self-management abilities, physical health and depressive symptoms among patients with cardiovascular diseases, chronic obstructive pulmonary disease, and diabetes. <i>Patient Education and Counseling</i> , 2012, 87, 411-415.	1.0	69
13	Validation of the self-management ability scale (SMAS) and development and validation of a shorter scale (SMAS-S) among older patients shortly after hospitalisation. <i>Health and Quality of Life Outcomes</i> , 2012, 10, 9.	1.0	63
14	Capabilities and quality of life in Dutch psycho-geriatric nursing homes: an exploratory study using a proxy version of the ICECAP-O. <i>Quality of Life Research</i> , 2012, 21, 801-812.	1.5	59
15	Variation in duration of hospital stay between hospitals and between doctors within hospitals. <i>Social Science and Medicine</i> , 1993, 37, 833-839.	1.8	58
16	Cognitive and behavioral interventions for the management of chronic neuropathic pain in adults – A systematic review. <i>European Journal of Pain</i> , 2010, 14, 670-681.	1.4	56
17	A framework and a measurement instrument for sustainability of work practices in long-term care. <i>BMC Health Services Research</i> , 2011, 11, 314.	0.9	51
18	Factorial validation of the patient assessment of chronic illness care (PACIC) and PACIC short version (PACIC-S) among cardiovascular disease patients in the Netherlands. <i>Health and Quality of Life Outcomes</i> , 2012, 10, 104.	1.0	50

#	ARTICLE	IF	CITATIONS
19	Age-Friendly Communities Matter for Older People's Well-Being. <i>Journal of Happiness Studies</i> , 2018, 19, 2405-2420.	1.9	48
20	Towards integrated care for chronic conditions: Dutch policy developments to overcome the (financial) barriers. <i>Health Policy</i> , 2011, 101, 122-132.	1.4	46
21	In The Netherlands, Rich Interaction Among Professionals Conducting Disease Management Led To Better Chronic Care. <i>Health Affairs</i> , 2012, 31, 2493-2500.	2.5	44
22	Development and validation of a short version of the Assessment of Chronic Illness Care (ACIC) in Dutch Disease Management Programs. <i>Health and Quality of Life Outcomes</i> , 2011, 9, 49.	1.0	42
23	High-quality chronic care delivery improves experiences of chronically ill patients receiving care. <i>International Journal for Quality in Health Care</i> , 2013, 25, 689-695.	0.9	42
24	Satisfaction with care as a quality-of-life predictor for stroke patients and their caregivers. <i>Quality of Life Research</i> , 2012, 21, 1719-1725.	1.5	41
25	Psychometric test of the Team Climate Inventory-short version investigated in Dutch quality improvement teams. <i>BMC Health Services Research</i> , 2009, 9, 126.	0.9	38
26	The importance of productive patient-professional interaction for the well-being of chronically ill patients. <i>Quality of Life Research</i> , 2015, 24, 897-903.	1.5	38
27	The importance of person-centred care and co-creation of care for the well-being and job satisfaction of professionals working with people with intellectual disabilities. <i>Scandinavian Journal of Caring Sciences</i> , 2018, 32, 76-81.	1.0	38
28	Evaluation of a large scale implementation of disease management programmes in various Dutch regions: a study protocol. <i>BMC Health Services Research</i> , 2011, 11, 6.	0.9	37
29	The experiences of neighbour, volunteer and professional support-givers in supporting community dwelling older people. <i>Health and Social Care in the Community</i> , 2013, 21, 150-158.	0.7	37
30	Self-management abilities and frailty are important for healthy aging among community-dwelling older people; a cross-sectional study. <i>BMC Geriatrics</i> , 2014, 14, 28.	1.1	37
31	Opening the black box of quality improvement collaboratives: an Actor-Network theory approach. <i>BMC Health Services Research</i> , 2010, 10, 265.	0.9	36
32	Integrated approach to prevent functional decline in hospitalized elderly: the Prevention and Reactivation Care Program (PReCaP). <i>BMC Geriatrics</i> , 2012, 12, 7.	1.1	35
33	The importance of relational coordination for integrated care delivery to older patients in the hospital. <i>Journal of Nursing Management</i> , 2014, 22, 248-256.	1.4	35
34	Disease Management: The Need for a Focus on Broader Self-Management Abilities and Quality of Life. <i>Population Health Management</i> , 2015, 18, 246-255.	0.8	35
35	The creation of age-friendly environments is especially important to frail older people. <i>Ageing and Society</i> , 2018, 38, 700-720.	1.2	35
36	Social participation is an important health behaviour for health and quality of life among chronically ill older Chinese people. <i>BMC Geriatrics</i> , 2020, 20, 299.	1.1	35

#	ARTICLE	IF	CITATIONS
37	The influence of social capital and socio-economic conditions on self-rated health among residents of an economically and health-deprived South African township. <i>International Journal for Equity in Health</i> , 2011, 10, 51.	1.5	33
38	The Longitudinal Relationship Between Satisfaction with Transitional Care and Social and Emotional Quality of Life Among Chronically Ill Adolescents. <i>Applied Research in Quality of Life</i> , 2013, 8, 481-491.	1.4	33
39	A longitudinal study to identify the influence of quality of chronic care delivery on productive interactions between patients and (teams of) healthcare professionals within disease management programmes. <i>BMJ Open</i> , 2014, 4, e005914-e005914.	0.8	33
40	The chronic care model: congruency and predictors among patients with cardiovascular diseases and chronic obstructive pulmonary disease in the Netherlands. <i>BMC Health Services Research</i> , 2012, 12, 242.	0.9	32
41	Evaluating the psychometric properties of the mental health continuum-short form (MHC-SF) in Dutch adolescents. <i>Health and Quality of Life Outcomes</i> , 2019, 17, 157.	1.0	32
42	Creating effective quality-improvement collaboratives: a multiple case study. <i>BMJ Quality and Safety</i> , 2011, 20, 344-350.	1.8	31
43	Mutual powerlessness in client participation practices in mental health care. <i>Health Expectations</i> , 2014, 17, 208-219.	1.1	30
44	Disease management projects and the Chronic Care Model in action: baseline qualitative research. <i>BMC Health Services Research</i> , 2012, 12, 114.	0.9	29
45	Changes in costs and effects after the implementation of disease management programs in the Netherlands: variability and determinants. <i>Cost Effectiveness and Resource Allocation</i> , 2014, 12, 17.	0.6	29
46	Relational coordination between community health nurses and other professionals in delivering care to community-dwelling frail people. <i>Journal of Nursing Management</i> , 2014, 22, 170-176.	1.4	28
47	Chronically ill patients's self-management abilities to maintain overall well-being: what is needed to take the next step in the primary care setting?. <i>BMC Family Practice</i> , 2015, 16, 123.	2.9	27
48	Cost-effectiveness of a pressure ulcer quality collaborative. <i>Cost Effectiveness and Resource Allocation</i> , 2010, 8, 11.	0.6	26
49	Innovative culture in long-term care settings. <i>Health Care Management Review</i> , 2012, 37, 165-174.	0.6	26
50	A cross-sectional study investigating patient-centred care, co-creation of care, well-being and job satisfaction among nurses. <i>Journal of Nursing Management</i> , 2017, 25, 577-584.	1.4	26
51	Evaluating an integrated neighbourhood approach to improve well-being of frail elderly in a Dutch community: a study protocol. <i>BMC Research Notes</i> , 2011, 4, 532.	0.6	25
52	Evaluation design of a reactivation care program to prevent functional loss in hospitalised elderly: A cohort study including a randomised controlled trial. <i>BMC Geriatrics</i> , 2011, 11, 36.	1.1	25
53	Views of patients with multi-morbidity on what is important for patient-centered care in the primary care setting. <i>BMC Family Practice</i> , 2020, 21, 71.	2.9	25
54	The role of partnership functioning and synergy in achieving sustainability of innovative programmes in community care. <i>Health and Social Care in the Community</i> , 2013, 21, 209-215.	0.7	24

#	ARTICLE	IF	CITATIONS
55	The role of team climate in improving the quality of chronic care delivery: a longitudinal study among professionals working with chronically ill adolescents in transitional care programmes. <i>BMJ Open</i> , 2014, 4, e005369.	0.8	24
56	The changing nature of chronic care and coproduction of care between primary care professionals and patients with COPD and their informal caregivers. <i>International Journal of COPD</i> , 2016, 11, 175.	0.9	24
57	Reducing bottlenecks: professionals' and adolescents' experiences with transitional care delivery. <i>BMC Health Services Research</i> , 2014, 14, 47.	0.9	23
58	The role of disease management programs in the health behavior of chronically ill patients. <i>Patient Education and Counseling</i> , 2014, 95, 137-142.	1.0	23
59	The influence of organizational characteristics on employee solidarity in the long-term care sector. <i>Journal of Advanced Nursing</i> , 2013, 69, 526-534.	1.5	22
60	The longitudinal relationship between income and social participation among Chinese older people. <i>SSM - Population Health</i> , 2020, 11, 100636.	1.3	22
61	Conjugal Bereavement and Well-Being of Elderly Men and Women: A Preliminary Study. <i>Omega: Journal of Death and Dying</i> , 1999, 38, 113-141.	0.7	21
62	Socioeconomic status and self-reported tuberculosis: a multilevel analysis in a low-income township in the Eastern Cape, South Africa. <i>Journal of Public Health in Africa</i> , 2011, 2, 34.	0.2	21
63	Development and validation of a short version of the Partnership Self-Assessment Tool (PSAT) among professionals in Dutch disease-management partnerships. <i>BMC Research Notes</i> , 2011, 4, 224.	0.6	21
64	Neighborhood attributes security and solidarity promote the well-being of community-dwelling older people in the Netherlands. <i>Geriatrics and Gerontology International</i> , 2014, 14, 681-688.	0.7	21
65	The importance of older patients' experiences with care delivery for their quality of life after hospitalization. <i>BMC Health Services Research</i> , 2015, 15, 311.	0.9	21
66	Is 'disease management' the answer to our problems? No! Population health management and (disease) prevention require 'management of overall well-being'. <i>BMC Health Services Research</i> , 2016, 16, 500.	0.9	21
67	Background characteristics, resources and volunteering among older adults (aged ≥70 years) in the community: A longitudinal study. <i>Geriatrics and Gerontology International</i> , 2015, 15, 1087-1095.	0.7	20
68	Validation of the Dutch Aging Perceptions Questionnaire and development of a short version. <i>Health and Quality of Life Outcomes</i> , 2015, 13, 54.	1.0	20
69	An integrated primary care approach for frail community-dwelling older persons: a step forward in improving the quality of care. <i>BMC Health Services Research</i> , 2018, 18, 28.	0.9	20
70	Influence of the organizational environment on challenging behaviour in people with intellectual disabilities: Professionals' views. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2019, 32, 610-621.	1.3	20
71	Explaining variation in perceived team effectiveness: results from eleven quality improvement collaboratives. <i>Journal of Clinical Nursing</i> , 2013, 22, 1692-1706.	1.4	19
72	The relationship between self-management abilities, quality of chronic care delivery, and wellbeing among patients with chronic obstructive pulmonary disease in The Netherlands. <i>International Journal of COPD</i> , 2013, 8, 209.	0.9	19

#	ARTICLE	IF	CITATIONS
73	Self-management abilities and quality of life among frail community-dwelling individuals: the role of community nurses in the Netherlands. <i>Health and Social Care in the Community</i> , 2017, 25, 394-401.	0.7	19
74	The Associations of Different Social Needs with Psychological Strengths and Subjective Well-Being: An Empirical Investigation Based on Social Production Function Theory. <i>Journal of Happiness Studies</i> , 2020, 21, 799-824.	1.9	19
75	Comparison of barriers to employment among youth with and without disabilities in South Africa. <i>Work</i> , 2013, 46, 19-24.	0.6	18
76	A large-scale longitudinal study indicating the importance of perceived effectiveness, organizational and management support for innovative culture. <i>Social Science and Medicine</i> , 2013, 83, 119-124.	1.8	18
77	Prognosis of hospitalised older people with different levels of functioning: a prospective cohort study. <i>Age and Ageing</i> , 2013, 42, 803-809.	0.7	18
78	Situational awareness, relational coordination and integrated care delivery to hospitalized elderly in The Netherlands: a comparison between hospitals. <i>BMC Geriatrics</i> , 2014, 14, 3.	1.1	18
79	Short and long term improvements in quality of chronic care delivery predict program sustainability. <i>Social Science and Medicine</i> , 2014, 101, 148-154.	1.8	18
80	A framework for understanding outcomes of integrated care programs for the hospitalized elderly. <i>International Journal of Integrated Care</i> , 2013, 13, e047.	0.1	18
81	Application of a theoretical model to evaluate COPD disease management. <i>BMC Health Services Research</i> , 2010, 10, 81.	0.9	17
82	Relationships of self-management abilities to loneliness among older people: a cross-sectional study. <i>BMC Geriatrics</i> , 2020, 20, 184.	1.1	17
83	Delays in presenting for tuberculosis treatment associated with fear of learning one is HIV-positive. <i>African Journal of AIDS Research</i> , 2011, 10, 25-36.	0.3	16
84	Disease-management partnership functioning, synergy and effectiveness in delivering chronic-illness care. <i>International Journal for Quality in Health Care</i> , 2012, 24, 279-285.	0.9	16
85	Effects of an integrated neighborhood approach on older people's (health-related) quality of life and well-being. <i>BMC Research Notes</i> , 2016, 9, 450.	0.6	16
86	How do older people achieve well-being? Validation of the Social Production Function Instrument for the level of well-being'short (SPF-ILs). <i>Social Science and Medicine</i> , 2018, 211, 304-313.	1.8	16
87	A healthy diet and physical activity are important to promote healthy ageing among older Chinese people. <i>Journal of International Medical Research</i> , 2019, 47, 6061-6081.	0.4	16
88	Easier Said Than Done: Healthcare Professionals' Barriers to the Provision of Patient-Centered Primary Care to Patients with Multimorbidity. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 6057.	1.2	16
