#	ARTICLE	IF	CITATIONS
1	Epidemiological investigation of multiple sclerosis and related medical utilisation in Taiwan. Multiple Sclerosis Journal, 2022, , 135245852110613.	1.4	1
2	Statins Reduce Hepatocellular Carcinoma Risk in Patients with Chronic Kidney Disease and End-Stage Renal Disease: A 17-Year Longitudinal Study. Cancers, 2022, 14, 825.	1.7	5
3	Inequality in the Utilization of Breast Cancer Screening between Women with and without Disabilities in Taiwan: A Propensity-Score-Matched Nationwide Cohort Study. International Journal of Environmental Research and Public Health, 2022, 19, 5280.	1.2	1
4	Stress on caregivers providing prolonged mechanical ventilation patient care in different facilities: A cross-sectional study. PLoS ONE, 2022, 17, e0268884.	1.1	1
5	Effects of Body Mass Index and Pay-for-Performance Program on Risk of Death in Patients with Type 2 Diabetes: A Nationwide Cohort Study. International Journal of Environmental Research and Public Health, 2021, 18, 4648.	1.2	0
6	Effect of multidisciplinary team care on survival of oesophageal cancer patients: a retrospective nationwide cohort study. Scientific Reports, 2021, 11, 13243.	1.6	9
7	Comparison of colorectal cancer screening between people with and without disability: a nationwide matched cohort study. BMC Public Health, 2021, 21, 1034.	1.2	2
8	Effect of introducing biologics to patients with rheumatoid arthritis on the risk of venous thromboembolism: a nationwide cohort study. Scientific Reports, 2021, 11, 17009.	1.6	5
9	Incidence, risk, and associated risk factors of stroke among people with different disability types and severities: A national population-based cohort study in Taiwan. Disability and Health Journal, 2021, 14, 101165.	1.6	2
10	Impact of Socioeconomic Status on Cancer Incidence Risk, Cancer Staging, and Survival of Patients with Colorectal Cancer under Universal Health Insurance Coverage in Taiwan. International Journal of Environmental Research and Public Health, 2021, 18, 12164.	1.2	6
11	Effect of the Integrated Prospective Payment Program on Family Members' Knowledge and Acceptance of Hospice Care of Patients on Prolonged Mechanical Ventilation. Respiratory Care, 2020, 65, 464-474.	0.8	3
12	Cost-benefit analysis, cost-effectiveness analysis, and impact of antiepileptic drugs on the risk of fracture in patients with epilepsy: A nationwide cohort study. Epilepsy and Behavior, 2020, 103, 106851.	0.9	6
13	Posterior cruciate ligament reconstruction implemented by the Ligament Advanced Reinforcement System over a minimum follow-up of 10 years. Knee, 2020, 27, 165-172.	0.8	11
14	Effect of multidisciplinary team care on the risk of recurrence in breast cancer patients: A national matched cohort study. Breast, 2020, 53, 68-76.	0.9	21
15	Recurrence, death risk, and related factors in patients with stage 0 colorectal cancer. Medicine (United States), 2020, 99, e21688.	0.4	7
16	Impact of Liver Cirrhosis on Incidence of Dialysis Among Patients with Type 2 Diabetes. Diabetes Therapy, 2020, 11, 2611-2628.	1.2	3
17	Effect of time interval from diagnosis to treatment for non-small cell lung cancer on survival: a national cohort study in Taiwan. BMJ Open, 2020, 10, e034351.	0.8	33
18	Demographics and medical disorders associated with smoking: a population-based study. BMC Public Health, 2020, 20, 702.	1.2	13

#	ARTICLE	IF	CITATIONS
19	Impact of family physician integrated care program on decreasing utilization of emergency department visit and hospital admission: a population-based retrospective cohort study. BMC Health Services Research, 2020, 20, 470.	0.9	4
20	Effects and Relative Factors of Adjunctive Chinese Medicine Therapy on Survival of Hepatocellular Carcinoma Patients: A Retrospective Cohort Study in Taiwan. Integrative Cancer Therapies, 2020, 19, 153473542091527.	0.8	3
21	Alendronate medication possession ratio and the risk of second hip fracture: an 11-year population-based cohort study in Taiwan. Osteoporosis International, 2020, 31, 1555-1563.	1.3	5
22	Characteristics and related factors of emergency department visits, readmission, and hospital transfers of inpatients under a DRG-based payment system: A nationwide cohort study. PLoS ONE, 2020, 15, e0243373.	1.1	4
23	Effect of time interval from diagnosis to treatment for cervical cancer on survival: A nationwide cohort study. PLoS ONE, 2019, 14, e0221946.	1.1	51
24	Pay-for-performance programmes reduce stroke risks in patients with type 2 diabetes: a national cohort study. BMJ Open, 2019, 9, e026626.	0.8	10
25	Effect of length of time from diagnosis to treatment on colorectal cancer survival: A population-based study. PLoS ONE, 2019, 14, e0210465.	1.1	61
26	Risk factors for neonatal early-onset group B streptococcus-related diseases after the implementation of a universal screening program in Taiwan. BMC Public Health, 2018, 18, 438.	1.2	12
27	Associations of body mass index and diabetes with hip fracture risk: a nationwide cohort study. BMC Public Health, 2018, 18, 1325.	1.2	22
28	Effects of pay for performance on risk incidence of infection and of revision after total knee arthroplasty in type 2 diabetic patients: A nationwide matched cohort study. PLoS ONE, 2018, 13, e0206797.	1.1	6
29	Influence of the time interval from diagnosis to treatment on survival for early-stage liver cancer. PLoS ONE, 2018, 13, e0199532.	1.1	42
30	Propensity score-matching analyses on the effectiveness of integrated prospective payment program for patients with prolonged mechanical ventilation. Health Policy, 2018, 122, 970-976.	1.4	4
31	Factors Associated With Re-Intubation Within 14 Days After Ventilator Liberation. Respiratory Care, 2017, 62, 1557-1564.	0.8	8
32	Effects of multidisciplinary team on emergency care for colorectal cancer patients. Medicine (United Tj ETQq0 0 0 rgBT /Overlock 10 Tf	0.4	6
33	Incidence, risk, and associated factors of depression in adults with physical and sensory disabilities: A nationwide population-based study. PLoS ONE, 2017, 12, e0175141.	1.1	21
34			

#	ARTICLE	IF	CITATIONS
37	Use of Seasonal Influenza Vaccination and Its Associated Factors among Elderly People with Disabilities in Taiwan: A Population-Based Study. PLoS ONE, 2016, 11, e0158075.	1.1	13
38	Comparing the mortality risks of nursing professionals with diabetes and general patients with diabetes: a nationwide matched cohort study. BMC Public Health, 2016, 16, 1054.	1.2	5
39	Improved patient survivals with colorectal cancer under multidisciplinary team care: A nationwide cohort study of 25,766 patients in Taiwan. Health Policy, 2016, 120, 674-681.	1.4	24
40	The incidence risk of type 2 diabetes mellitus in female nurses: a nationwide matched cohort study. BMC Public Health, 2016, 16, 443.	1.2	8
41	Factors involved in the delay of treatment initiation for cervical cancer patients. Medicine (United Tj ETQq1 1 0.784314 rgBT, /Overlook	0.4	42
42	Utilization of tooth filling services by people with disabilities in Taiwan. International Journal for Equity in Health, 2016, 15, 58.	1.5	5
43	Factors related to continuing care and interruption of P4P program participation in patients with diabetes. American Journal of Managed Care, 2016, 22, e18-30.	0.8	9
44	Characteristics of the Delayed or Refusal Therapy in Breast Cancer Patients: A Longitudinal Population-Based Study in Taiwan. PLoS ONE, 2015, 10, e0131305.	1.1	33
45	Sociodemographic characteristics and health-related factors affecting the use of Pap smear screening among women with mental disabilities in Taiwan. Research in Developmental Disabilities, 2015, 36, 491-497.	1.2	6
46	Beneficial impact of multidisciplinary team management on the survival in different stages of oral cavity cancer patients: Results of a nationwide cohort study in Taiwan. Oral Oncology, 2015, 51, 105-111.	0.8	40
47	The Risk and Related Factors for Readmission to an ICU Within 7 Days in Mechanically Ventilated Subjects--A Nationwide Population-Based Cohort Study. Respiratory Care, 2015, 60, 1786-1795.	0.8	3
48	Temporal trends in primary and revision total knee and hip replacement in Taiwan. Journal of the Chinese Medical Association, 2015, 78, 538-544.	0.6	30
49	The difference in medical utilization and associated factors between children and adolescents with and without autism spectrum disorders. Research in Developmental Disabilities, 2015, 36, 78-86.	1.2	31
50	Mammography usage with relevant factors among women with mental disabilities in Taiwan: A nationwide population-based study. Research in Developmental Disabilities, 2015, 37, 182-188.	1.2	10
51	Related factors and incidence risk of acute myocardial infarction among the people with disability: A national population-based study. Research in Developmental Disabilities, 2015, 36, 366-375.	1.2	13
52	Effects of Multidisciplinary Team Care on the Survival of Patients with Different Stages of Non-Small Cell Lung Cancer: A National Cohort Study. PLoS ONE, 2015, 10, e0126547.	1.1	49
53	Factors influencing the mammography utilization among Taiwanese women with intellectual disabilities, a nationwide population-based study. Research in Developmental Disabilities, 2014, 35, 3372-3378.	1.2	6
54	Does the pay-for-performance programme reduce the emergency department visits for hypoglycaemia in type 2 diabetic patients?. Health Policy and Planning, 2014, 29, 732-741.	1.0	17

#	ARTICLE	IF	CITATIONS
55	Cardiologist service volume, percutaneous coronary intervention and hospital level in relation to medical costs and mortality in patients with acute myocardial infarction: a nationwide study. QJM - Monthly Journal of the Association of Physicians, 2014, 107, 557-564.	0.2	7
56	Lowered Cancer Risk With <scp>ACE Inhibitor</scp>s/<scp>ARB</scp>s: A Populationâ€Based Cohort Study. Journal of Clinical Hypertension, 2014, 16, 27-33.	1.0	36
57	Factors associated with free adult preventive health care utilization among physically disabled people in Taiwan: nationwide population-based study. BMC Health Services Research, 2014, 14, 610.	0.9	8
58	Greater risk of hip fracture in hemodialysis than in peritoneal dialysis. Osteoporosis International, 2014, 25, 1513-1518.	1.3	26
59	Do physicians with diabetes have differences in dialysis use and survival than other patients with diabetes. Diabetes Research and Clinical Practice, 2014, 105, 382-390.	1.1	6
60	Characteristics, survival, and related factors of newly diagnosed colorectal cancer patients refusing cancer treatments under a universal health insurance program. BMC Cancer, 2014, 14, 446.	1.1	30
61	Related factors and use of free preventive health services among adults with intellectual disabilities in Taiwan. BMC Health Services Research, 2014, 14, 248.	0.9	8
62	The characteristics and relevant factors of Pap smear test use for women with intellectual disabilities in Taiwan. BMC Health Services Research, 2014, 14, 240.	0.9	5
63	Examining related influential factors for dental calculus scaling utilization among people with disabilities in Taiwan, a nationwide population-based study. Research in Developmental Disabilities, 2014, 35, 2231-2240.	1.2	7
64	Factors Associated with Lung Cancer Patients Refusing Treatment and Their Survival: A National Cohort Study under a Universal Health Insurance in Taiwan. PLoS ONE, 2014, 9, e101731.	1.1	24
65	Effects of multidisciplinary team care on utilization of emergency care for patients with lung cancer. American Journal of Managed Care, 2014, 20, e353-64.	0.8	7
66	Health examination utilization in the visually disabled population in Taiwan: a nationwide population-based study. BMC Health Services Research, 2013, 13, 509.	0.9	8
67	Effects of and satisfaction with short message service reminders for patient medication adherence: a randomized controlled study. BMC Medical Informatics and Decision Making, 2013, 13, 127.	1.5	45
68	Poverty Increases Type 2 Diabetes Incidence and Inequality of Care Despite Universal Health Coverage. Diabetes Care, 2012, 35, 2286-2292.	4.3	130
69	The use of Pap smear and its influencing factors among women with disabilities in Taiwan. Research in Developmental Disabilities, 2012, 33, 307-314.	1.2	30
70	The assessment of the likelihood of mammography usage with relevant factors among women with disabilities. Research in Developmental Disabilities, 2012, 33, 136-143.	1.2	14
71	Determining factors for utilization of preventive health services among adults with disabilities in Taiwan. Research in Developmental Disabilities, 2012, 33, 205-213.	1.2	19
72	Disparities in the use of preventive health care among children with disabilities in Taiwan. Research in Developmental Disabilities, 2012, 33, 324-333.	1.2	4

#	ARTICLE	IF	CITATIONS
73	Effects of multidisciplinary care on the survival of patients with oral cavity cancer in Taiwan. <i>Oral Oncology</i> , 2012, 48, 803-810.	0.8	34
74	The use of fluoride varnish and its determining factors among children with disability in Taiwan. <i>Research in Developmental Disabilities</i> , 2011, 32, 583-592.	1.2	13
75	Cost-effectiveness of Clinical Pathway in Coronary Artery Bypass Surgery. <i>Journal of Medical Systems</i> , 2011, 35, 203-213.	2.2	9
76	Changes and factors associated with dentists'™ willingness to treat patients with severe disabilities. <i>Health Policy</i> , 2007, 83, 363-374.	1.4	17
77	Influences of market competition on dental care utilization under the global budget payment system. <i>Community Dentistry and Oral Epidemiology</i> , 2007, 35, 459-464.	0.9	15
