#	ARTICLE	IF	CITATIONS
1	Evidence for the use of an algorithm in resolving inconsistent and missing Indigenous status in administrative data collections. <i>Australian Journal of Social Issues</i> , 2014, 49, 423-443.	2.7	109
2	Father mental health during the early parenting period: results of an Australian population based longitudinal study. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2012, 47, 1907-1916.	3.1	77
3	Risk Factors for Children's Receptive Vocabulary Development from Four to Eight Years in the Longitudinal Study of Australian Children. <i>PLoS ONE</i> , 2013, 8, e73046.	2.5	75
4	Trajectories of fathers' psychological distress across the early parenting period: Implications for parenting. <i>Journal of Family Psychology</i> , 2015, 29, 766-776.	1.3	38
5	Patterns and Predictors of Language and Literacy Abilities 4-10 Years in the Longitudinal Study of Australian Children. <i>PLoS ONE</i> , 2015, 10, e0135612.	2.5	35
6	Factors associated with trajectories of psychological distress for Australian fathers across the early parenting period. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2014, 49, 1961-1971.	3.1	30
7	Risk Factors for Low Receptive Vocabulary Abilities in the Preschool and Early School Years in the Longitudinal Study of Australian Children. <i>PLoS ONE</i> , 2014, 9, e101476.	2.5	25
8	Longitudinal trajectories of mental health in Australian children aged 4-5 to 14-15 years. <i>PLoS ONE</i> , 2017, 12, e0187974.	2.5	24
9	Adjusting for under-identification of Aboriginal and/or Torres Strait Islander births in time series produced from birth records: Using record linkage of survey data and administrative data sources. <i>BMC Medical Research Methodology</i> , 2012, 12, 90.	3.1	21
10	Prenatal and perinatal risks for late language emergence in a population-level sample of twins at age 2. <i>BMC Pediatrics</i> , 2018, 18, 41.	1.7	19
11	Patterns of Multiple Risk Exposures for Low Receptive Vocabulary Growth 4-8 Years in the Longitudinal Study of Australian Children. <i>PLoS ONE</i> , 2017, 12, e0168804.	2.5	18
12	Multiple risk exposures for reading achievement in childhood and adolescence. <i>Journal of Epidemiology and Community Health</i> , 2019, 73, 427-434.	3.7	17
13	Tasmania's child and family centres: a place-based early childhood services model for families and children from pregnancy to age five. <i>Early Child Development and Care</i> , 2017, 187, 1496-1510.	1.3	13
14	Subjective memory complaints predict baseline but not future cognitive function over three years: results from the Western Australia Memory Study. <i>International Psychogeriatrics</i> , 2019, 31, 513-525.	1.0	13
15	Development and Assessment of Cumulative Risk Measures of Family Environment and Parental Investments in the Longitudinal Study of Australian Children. <i>Social Indicators Research</i> , 2018, 137, 665-694.	2.7	11
16	School readiness is more than the child: a latent class analysis of child, family, school and community aspects of school readiness. <i>Australian Journal of Social Issues</i> , 2022, 57, 125-143.	2.7	11
17	Associations between clusters of early life risk factors and developmental vulnerability at age 5: a retrospective cohort study using population-wide linkage of administrative data in Tasmania, Australia. <i>BMJ Open</i> , 2020, 10, e033795.	1.9	11
18	Barriers to Parental Child Book Reading in Early Childhood. <i>International Journal of Early Childhood</i> , 2016, 48, 295-309.	1.0	8

#	ARTICLE	IF	CITATIONS
19	Early mental health morbidity and later smoking at age 17 years. <i>Psychological Medicine</i> , 2012, 42, 1103-1115.	4.5	7
20	Development and validation of the Australian Aboriginal racial identity and self-esteem survey for 8-12 year old children (IRISE_C). <i>International Journal for Equity in Health</i> , 2015, 14, 103.	3.5	6
21	The Great Recession and Children's Mental Health in Australia. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 537.	2.6	6
22	Trajectories of interparental conflict and children's emotional-behavioural functioning at 10-11 years: an Australian population-based study. <i>European Child and Adolescent Psychiatry</i> , 2022, 31, 625-635.	4.7	6
23	Universal child health and early education service use from birth through Kindergarten and developmental vulnerability in the Preparatory Year (age 5 years) in Tasmania, Australia. <i>Australian Journal of Social Issues</i> , 0, , .	2.7	5
24	Trajectories of irregular word reading ability as a proxy for premorbid intelligence in Alzheimer's disease, mild cognitive impairment, and healthy aging: A longitudinal study.. <i>Psychological Assessment</i> , 2018, 30, 1308-1316.	1.5	5
25	Two Methods for Engaging with the Community in Setting Priorities for Child Health Research: Who Engages?. <i>PLoS ONE</i> , 2015, 10, e0125969.	2.5	3
26	Associations between biological and sociodemographic risks for developmental vulnerability in twins at age 5: a population data linkage study in Western Australia. <i>BMJ Open</i> , 2020, 10, e038846.	1.9	3
27	Tasmania's child and family centres building parenting capability: a mixed methods study. <i>Early Child Development and Care</i> , 2019, 189, 2360-2369.	1.3	2
28	Associations Between Developmental Risk Profiles, Mental Disorders, and Student Absences Among Primary and Secondary Students in Australia. <i>School Mental Health</i> , 2021, 13, 756-771.	2.1	2
29	Interparental Conflict Across the Early Parenting Period: Evidence From Fathers Participating in an Australian Population-Based Study. <i>Journal of Family Issues</i> , 0, , 0192513X2110300.	1.6	2
30	Use of administrative record linkage to examine patterns of universal early childhood health and education service use from birth to Kindergarten (age four years) and developmental vulnerability in the Preparatory Year (age five years) in Tasmania, Australia.. <i>International Journal of Population Data Science</i> , 2021, 6, 1681.	0.1	1
31	Use of administrative record linkage to examine patterns of universal early childhood health and education service use from birth to Kindergarten (age 4 years) and developmental vulnerability in the Preparatory Year (age 5 years) in Tasmania, Australia.. <i>International Journal of Population Data Science</i> , 2021, 6, .	0.1	0
32	Transfers of disadvantage across three generations using latent class associations within families. <i>Australian Journal of Social Issues</i> , 0, , .	2.7	0
