| # | ARTICLE | IF | CITATIONS |
|----|---|------|-----------|
| 1 | Temporal Changes in Ebola Transmission in Sierra Leone and Implications for Control Requirements: a Real-time Modelling Study. PLOS Currents, 2015, 7, . | 1.4 | 94 |
| 2 | Contact tracing is an imperfect tool for controlling COVID-19 transmission and relies on population adherence. Nature Communications, 2021, 12, 5412. | 12.8 | 41 |
| 3 | Dynamics of SARS-CoV-2 with waning immunity in the UK population. Philosophical Transactions of the Royal Society B: Biological Sciences, 2021, 376, 20200274. | 4.0 | 31 |
| 4 | Inferring transmission trees to guide targeting of interventions against visceral leishmaniasis and post-kala-azar dermal leishmaniasis. Proceedings of the National Academy of Sciences of the United States of America, 2020, 117, 25742-25750. | 7.1 | 19 |
| 5 | Responsible modelling: Unit testing for infectious disease epidemiology. Epidemics, 2020, 33, 100425. | 3.0 | 7 |
| 6 | How modelling can help steer the course set by the World Health Organization 2021-2030 roadmap on neglected tropical diseases. Gates Open Research, 2021, 5, 112. | 1.1 | 4 |
| 7 | Developments in statistical inference when assessing spatiotemporal disease clustering with the tau statistic. Spatial Statistics, 2021, 42, 100438. | 1.9 | 3 |
| 8 | How modelling can help steer the course set by the World Health Organization 2021-2030 roadmap on neglected tropical diseases. Gates Open Research, 0, 5, 112. | 1.1 | 1 |
| 9 | Impact of intensified control on visceral leishmaniasis in a highly-endemic district of Bihar, India: an interrupted time series analysis. Epidemics, 2022, 39, 100562. | 3.0 | 1 |
| 10 | Impact of Intensified Control Strategies on Incidence of Visceral Leishmaniasis in a Highly Endemic District of Bihar, India. SSRN Electronic Journal, 0, , . | 0.4 | 0 |
