#	ARTICLE	IF	CITATIONS
1	Worldwide trends in body-mass index, underweight, overweight, and obesity from 1975 to 2016: a pooled analysis of 2416 population-based measurement studies in 128.9 million children, adolescents, and adults. <i>Lancet, The</i> , 2017, 390, 2627-2642.	6.3	5,010
2	Worldwide trends in blood pressure from 1975 to 2015: a pooled analysis of 1479 population-based measurement studies with 19.1 million participants. <i>Lancet, The</i> , 2017, 389, 37-55.	6.3	1,667
3	Rising rural body-mass index is the main driver of the global obesity epidemic in adults. <i>Nature</i> , 2019, 569, 260-264.	13.7	469
4	Association between breastfeeding and intelligence, educational attainment, and income at 30 years of age: a prospective birth cohort study from Brazil. <i>The Lancet Global Health</i> , 2015, 3, e199-e205.	2.9	468
5	Attention-Deficit/Hyperactivity Disorder Trajectories From Childhood to Young Adulthood. <i>JAMA Psychiatry</i> , 2016, 73, 705.	6.0	265
6	Height and body-mass index trajectories of school-aged children and adolescents from 1985 to 2019 in 200 countries and territories: a pooled analysis of 2181 population-based studies with 65 million participants. <i>Lancet, The</i> , 2020, 396, 1511-1524.	6.3	219
7	Nutrition Counseling Increases Weight Gain among Brazilian Children. <i>Journal of Nutrition</i> , 2001, 131, 2866-2873.	1.3	136
8	Cohort Profile Update: The 1982 Pelotas (Brazil) Birth Cohort Study. <i>International Journal of Epidemiology</i> , 2015, 44, 441-441e.	0.9	129
9	Perceived barriers to leisure-time physical activity during pregnancy: A literature review of quantitative and qualitative evidence. <i>Journal of Science and Medicine in Sport</i> , 2017, 20, 17-25.	0.6	127
10	Adverse childhood experiences: Prevalence and related factors in adolescents of a Brazilian birth cohort. <i>Child Abuse and Neglect</i> , 2016, 51, 21-30.	1.3	124
11	Methodological aspects of the 1993 Pelotas (Brazil) birth cohort study. <i>Revista De Saude Publica</i> , 2006, 40, 39-46.	0.7	117
12	Cohort Profile update: The 1993 Pelotas (Brazil) Birth Cohort follow-up visits in adolescence. <i>International Journal of Epidemiology</i> , 2014, 43, 1082-1088.	0.9	117
13	The Pelotas birth cohort study, Rio Grande do Sul, Brazil, 1982-2001. <i>Cadernos De Saude Publica</i> , 2003, 19, 1241-1256.	0.4	106
14	ADHD in DSM-5: a field trial in a large, representative sample of 18- to 19-year-old adults. <i>Psychological Medicine</i> , 2015, 45, 361-373.	2.7	87
15	Cohort Profile Update: The 1993 Pelotas (Brazil) Birth Cohort follow-up at 22 years. <i>International Journal of Epidemiology</i> , 2018, 47, 1389-1390e.	0.9	87
16	Nutrition Counseling Training Changes Physician Behavior and Improves Caregiver Knowledge Acquisition. <i>Journal of Nutrition</i> , 2004, 134, 357-362.	1.3	84
17	Trends in cardiometabolic risk factors in the Americas between 1980 and 2014: a pooled analysis of population-based surveys. <i>The Lancet Global Health</i> , 2020, 8, e123-e133.	2.9	73
18	Effects of socioeconomic change from birth to early adulthood on height and overweight. <i>International Journal of Epidemiology</i> , 2006, 35, 1233-1238.	0.9	68

#	ARTICLE	IF	CITATIONS
19	Contributions of mean and shape of blood pressure distribution to worldwide trends and variations in raised blood pressure: a pooled analysis of 1018 population-based measurement studies with 88.6 million participants. <i>International Journal of Epidemiology</i> , 2018, 47, 872-883i.	0.9	65
20	Childhood maltreatment preceding depressive disorder at age 18 years: A prospective Brazilian birth cohort study. <i>Journal of Affective Disorders</i> , 2017, 217, 218-224.	2.0	48
21	The emergence of vaccine hesitancy among upper-class Brazilians: Results from four birth cohorts, 1982-2015. <i>Vaccine</i> , 2020, 38, 482-488.	1.7	46
22	The 11-year follow-up of the 1993 Pelotas (Brazil) birth cohort study: methods. <i>Cadernos De Saude Publica</i> , 2010, 26, 1875-1886.	0.4	45
23	Identifying Adolescents at Risk for Depression: A Prediction Score Performance in Cohorts Based in Different Continents. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2021, 60, 262-273.	0.3	43
24	Childhood behaviour problems predict crime and violence in late adolescence: Brazilian and British birth cohort studies. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2015, 50, 579-589.	1.6	40
25	Low birthweight and preterm birth: trends and inequalities in four population-based birth cohorts in Pelotas, Brazil, 1982-2015. <i>International Journal of Epidemiology</i> , 2019, 48, i46-i53.	0.9	38
26	Happiness and Depression in Adolescence after Maternal Smoking during Pregnancy: Birth Cohort Study. <i>PLoS ONE</i> , 2013, 8, e80370.	1.1	37
27	Anthropology and Epidemiology: learning epistemological lessons through a collaborative venture. <i>Ciencia E Saude Coletiva</i> , 2008, 13, 1701-1710.	0.1	36
28	Built environment and physical activity: domain- and activity-specific associations among Brazilian adolescents. <i>BMC Public Health</i> , 2017, 17, 616.	1.2	36
29	Trends and inequalities in maternal and child health in a Brazilian city: methodology and sociodemographic description of four population-based birth cohort studies, 1982-2015. <i>International Journal of Epidemiology</i> , 2019, 48, i4-i15.	0.9	32
30	Risk factors for childbearing during adolescence in a population-based birth cohort in southern Brazil. <i>Revista Panamericana De Salud Publica/Pan American Journal of Public Health</i> , 2004, 16, 1-10.	0.6	32
31	Mental disorders and suicide risk in emerging adulthood: the 1993 Pelotas birth cohort. <i>Revista De Saude Publica</i> , 2019, 53, 96.	0.7	30
32	Início da vida sexual entre adolescentes (10 a 14 anos) e comportamentos em saúde. <i>Revista Brasileira De Epidemiologia</i> , 2015, 18, 25-41.	0.3	29
33	Physical activity throughout adolescence and body composition at 18 years: 1993 Pelotas (Brazil) birth cohort study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016, 13, 105.	2.0	29
34	Self-Medication Among Adolescents Aged 18 Years: The 1993 Pelotas (Brazil) Birth Cohort Study. <i>Journal of Adolescent Health</i> , 2014, 55, 175-181.	1.2	28
35	Longitudinal Association Between Physical Activity and Body Fat During Adolescence: A Systematic Review. <i>Journal of Physical Activity and Health</i> , 2015, 12, 1344-1358.	1.0	28
36	Maternal depression and anxiety predicts the pattern of offspring symptoms during their transition to adulthood. <i>Psychological Medicine</i> , 2016, 46, 415-424.	2.7	28

#	ARTICLE	IF	CITATIONS
37	RPS Brazilian Birth Cohorts Consortium (Ribeirão Preto, Pelotas and São Luís): history, objectives and methods. <i>Cadernos De Saude Publica</i> , 2021, 37, e00093320.	0.4	28
38	Smoking in Early Adolescence: Evidence from the 1993 Pelotas (Brazil) Birth Cohort Study. <i>Journal of Adolescent Health</i> , 2006, 39, 669-677.	1.2	27
39	Intervenção comunitária para prevenção de acidentes de trânsito entre trabalhadores ciclistas. <i>Revista De Saude Publica</i> , 2010, 44, 867-875.	0.7	27
40	Breastfeeding and mental health in adulthood: A birth cohort study in Brazil. <i>Journal of Affective Disorders</i> , 2016, 202, 115-119.	2.0	27
41	Low Maternal Capital Predicts Life History Trade-Offs in Daughters: Why Adverse Outcomes Cluster in Individuals. <i>Frontiers in Public Health</i> , 2019, 7, 206.	1.3	27
42	Does the way I see you affect the way I see myself? Associations between interviewers' and interviewees' "color/race" in southern Brazil. <i>Cadernos De Saude Publica</i> , 2009, 25, 2111-2124.	0.4	26
43	Tracking of Medicine Use and Self-Medication From Infancy to Adolescence: 1993 Pelotas (Brazil) Birth Cohort Study. <i>Journal of Adolescent Health</i> , 2012, 51, S11-S15.	1.2	25
44	Leisure-Time Physical Activity and Social Support Among Brazilian Adults. <i>Journal of Physical Activity and Health</i> , 2013, 10, 871-879.	1.0	25
45	Associations between body mass index, body composition and bone density in young adults: findings from a southern Brazilian cohort. <i>BMC Musculoskeletal Disorders</i> , 2019, 20, 322.	0.8	25
46	The role of questionnaire length and reminders frequency on response rates to a web-based epidemiologic study: a randomised trial. <i>International Journal of Social Research Methodology: Theory and Practice</i> , 2019, 22, 625-635.	2.3	25
47	Breastfeeding exclusivity and duration: trends and inequalities in four population-based birth cohorts in Pelotas, Brazil, 1982–2015. <i>International Journal of Epidemiology</i> , 2019, 48, i72-i79.	0.9	25
48	Antenatal care and caesarean sections: trends and inequalities in four population-based birth cohorts in Pelotas, Brazil, 1982–2015. <i>International Journal of Epidemiology</i> , 2019, 48, i37-i45.	0.9	25
49	Relative Age and Attention-Deficit/Hyperactivity Disorder: Data From Three Epidemiological Cohorts and a Meta-analysis. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2020, 59, 990-997.	0.3	25
50	Validation of Self-Reported Information on Dental Caries in a Birth Cohort at 18 Years of Age. <i>PLoS ONE</i> , 2014, 9, e106382.	1.1	24
51	Physical Activity and Lung Function in Adolescents: The 1993 Pelotas (Brazil) Birth Cohort Study. <i>Journal of Adolescent Health</i> , 2012, 51, S27-S31.	1.2	23
52	Adverse childhood experiences and consumption of alcohol, tobacco and illicit drugs among adolescents of a Brazilian birth cohort. <i>Cadernos De Saude Publica</i> , 2016, 32, e00085815.	0.4	23
53	Infant nutrition and growth: trends and inequalities in four population-based birth cohorts in Pelotas, Brazil, 1982–2015. <i>International Journal of Epidemiology</i> , 2019, 48, i80-i88.	0.9	23
54	Caesarean section and adiposity at 6, 18 and 30 years of age: results from three Pelotas (Brazil) birth cohorts. <i>BMC Public Health</i> , 2017, 17, 256.	1.2	22

#	ARTICLE	IF	CITATIONS
55	Maternal anthropometry: trends and inequalities in four population-based birth cohorts in Pelotas, Brazil, 1982â€“2015. <i>International Journal of Epidemiology</i> , 2019, 48, i26-i36.	0.9	22
56	Socioeconomic Changes and Adolescent Psychopathology in a Brazilian Birth Cohort Study. <i>Journal of Adolescent Health</i> , 2012, 51, S5-S10.	1.2	21
57	Adiposity, depression and anxiety: interrelationship and possible mediators. <i>Revista De Saude Publica</i> , 2019, 53, 103.	0.7	21
58	Transtornos mentais em adolescentes, jovens e adultos do ConsÃ³rcio de Coortes de Nascimento brasileiras RPS (RibeirÃ£o Preto, Pelotas e SÃ£o LuÃs). <i>Cadernos De Saude Publica</i> , 2020, 36, e00154319.	0.4	21
59	Contraceptive medicalisation, fear of infertility and teenage pregnancy in Brazil. <i>Culture, Health and Sexuality</i> , 2011, 13, 201-215.	1.0	20
60	Adolescents' Perception of Causes of Obesity: Unhealthy Lifestyles or Heritage?. <i>Journal of Adolescent Health</i> , 2012, 51, S46-S52.	1.2	20
61	Parent-Related Normative Perceptions of Adolescents and Later Weight Control Behavior: Longitudinal Analysis of Cohort Data From Brazil. <i>Journal of Adolescent Health</i> , 2020, 66, S9-S16.	1.2	20
62	Violent delinquency in a Brazilian birth cohort: the roles of breast feeding, early poverty and demographic factors. <i>Paediatric and Perinatal Epidemiology</i> , 2010, 24, 12-23.	0.8	19
63	Childhood Behavioural Problems and Adverse Outcomes in Early Adulthood: a Comparison of Brazilian and British Birth Cohorts. <i>Journal of Developmental and Life-Course Criminology</i> , 2019, 5, 517-535.	0.8	19
64	Early age at menarche and metabolic cardiovascular risk factors: mediation by body composition in adulthood. <i>Scientific Reports</i> , 2021, 11, 148.	1.6	19
65	Seasonality of infant feeding practices in three Brazilian birth cohorts. <i>International Journal of Epidemiology</i> , 2012, 41, 743-752.	0.9	18
66	Sleep Duration Trajectories and Body Composition in Adolescents: Prospective Birth Cohort Study. <i>PLoS ONE</i> , 2016, 11, e0152348.	1.1	18
67	Correlates of self-reported weekday sleep duration in adolescents: the 18-year follow-up of the 1993 Pelotas (Brazil) Birth Cohort Study. <i>Sleep Medicine</i> , 2016, 23, 81-88.	0.8	18
68	Adverse Childhood Experiences (ACEs) and Adiposity in Adolescents: A Crossâ€Cohort Comparison. <i>Obesity</i> , 2018, 26, 150-159.	1.5	18
69	COMT and DAT1 genes are associated with hyperactivity and inattention traits in the 1993 Pelotas Birth Cohort: evidence of sex-specific combined effect. <i>Journal of Psychiatry and Neuroscience</i> , 2016, 41, 405-412.	1.4	17
70	Protocol for Objective Measurement of Infantsâ€™ Physical Activity using Accelerometry. <i>Medicine and Science in Sports and Exercise</i> , 2018, 50, 1084-1092.	0.2	17
71	Stillbirth, newborn and infant mortality: trends and inequalities in four population-based birth cohorts in Pelotas, Brazil, 1982â€“2015. <i>International Journal of Epidemiology</i> , 2019, 48, i54-i62.	0.9	17
72	Associations between self-reported physical activity and screen time with cardiometabolic risk factors in adolescents: Findings from the 1993 Pelotas (Brazil) Birth Cohort Study. <i>Preventive Medicine</i> , 2019, 119, 31-36.	1.6	17

#	ARTICLE	IF	CITATIONS
73	Tracking of physical activity during adolescence: the 1993 Pelotas Birth Cohort, Brazil. <i>Revista De Saude Publica</i> , 2014, 48, 925-930.	0.7	16
74	Physical Activity throughout Adolescence and Cognitive Performance at 18 Years of Age. <i>Medicine and Science in Sports and Exercise</i> , 2015, 47, 2552-2557.	0.2	16
75	Perinatal and sociodemographic factors at birth predicting conduct problems and violence to age 18 years: comparison of Brazilian and British birth cohorts. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2015, 56, 914-922.	3.1	16
76	Impact of the age at menarche on body composition in adulthood: results from two birth cohort studies. <i>BMC Public Health</i> , 2016, 16, 1007.	1.2	16
77	Breastfeeding and behavior disorders among children and adolescents: a systematic review. <i>Revista De Saude Publica</i> , 2018, 52, 9.	0.7	16
78	How different online recruitment methods impact on recruitment rates for the web-based coortesaweb project: a randomised trial. <i>BMC Medical Research Methodology</i> , 2019, 19, 127.	1.4	16
79	Determinantes sociais da iniciação sexual precoce na coorte de nascimentos de 1982 a 2004-5, Pelotas, RS. <i>Revista De Saude Publica</i> , 2008, 42, 34-41.	0.7	16
80	Physical activity throughout adolescence and bone mineral density in early adulthood: the 1993 Pelotas (Brazil) Birth Cohort Study. <i>Osteoporosis International</i> , 2014, 25, 2007-2015.	1.3	15
81	Age of sexual initiation and depression in adolescents: Data from the 1993 Pelotas (Brazil) Birth Cohort. <i>Journal of Affective Disorders</i> , 2017, 221, 259-266.	2.0	15
82	Association between interleukin-6, C-reactive protein and adiponectin with adiposity: Findings from the 1993 pelotas (Brazil) birth cohort at 18 and 22 years. <i>Cytokine</i> , 2018, 110, 44-51.	1.4	15
83	Population-based study in a rural area. <i>Revista De Saude Publica</i> , 2018, 52, 3s.	0.7	15
84	Associations between growth from birth to 18 years, intelligence, and schooling in a Brazilian cohort. <i>American Journal of Clinical Nutrition</i> , 2020, 112, 187-194.	2.2	15
85	Interrelationship between Diet Quality and Depressive Symptoms in Elderly. <i>Journal of Nutrition, Health and Aging</i> , 2018, 22, 387-392.	1.5	14
86	Health problems and the rural area. <i>Revista De Saude Publica</i> , 2018, 52, 1s.	0.7	14
87	Predictors of Body Mass Index Change From 11 to 15 Years of Age: The 1993 Pelotas (Brazil) Birth Cohort Study. <i>Journal of Adolescent Health</i> , 2012, 51, S65-S69.	1.2	13
88	Active Commuting Throughout Adolescence and Central Fatness before Adulthood: Prospective Birth Cohort Study. <i>PLoS ONE</i> , 2014, 9, e96634.	1.1	13
89	Trends in Leisure-Time Physical Activity in a Southern Brazilian City: 2003-2010. <i>Journal of Physical Activity and Health</i> , 2014, 11, 1313-1317.	1.0	13
90	Socioeconomic position and sedentary behavior in Brazilian adolescents: A life-course approach. <i>Preventive Medicine</i> , 2018, 107, 29-35.	1.6	13

#	ARTICLE	IF	CITATIONS
91	Relationship between Body Composition and Pulmonary Function in Early Adult Life: A Cross-Sectional Analysis Nested in Two Birth Cohort Studies. <i>PLoS ONE</i> , 2016, 11, e0163428.	1.1	12
92	Screen time and working memory in adolescents: A longitudinal study. <i>Journal of Psychiatric Research</i> , 2021, 137, 266-272.	1.5	11
93	Decline in attention-deficit hyperactivity disorder traits over the life course in the general population: trajectories across five population birth cohorts spanning ages 3 to 45 years. <i>International Journal of Epidemiology</i> , 2022, 51, 919-930.	0.9	11
94	Making medicine for the poor: primary health care interpretations in Pelotas, Brazil. <i>Health Policy and Planning</i> , 2002, 17, 131-143.	1.0	10
