

Hyeon Joo Jeong

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/7034770/hyeon-joo-jeong-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
112	Effects of bisphosphonates on long-term kidney transplantation outcomes. <i>Nephrology Dialysis Transplantation</i> , 2021 , 36, 722-729	4.3	0
111	Glomerular subepithelial microparticles - a footprint for podocyte injury. <i>Ultrastructural Pathology</i> , 2021 , 45, 236-242	1.3	1
110	CD71 mesangial IgA1 receptor and the progression of IgA nephropathy. <i>Translational Research</i> , 2021 , 230, 34-43	11	1
109	Renal tissue elasticity by acoustic radiation force impulse: A prospective study of healthy kidney donors. <i>Medicine (United States)</i> , 2021 , 100, e23561	1.8	3
108	Reduction in proteinuria after immunosuppressive therapy and long-term kidney outcomes in patients with immunoglobulin A nephropathy. <i>Korean Journal of Internal Medicine</i> , 2021 , 36, 1169-1180	2.5	
107	Expression of Phospholipase A2 Receptor in Pediatric Hepatitis B Virus-Related Membranous Nephropathy. <i>Childhood Kidney Diseases</i> , 2020 , 24, 36-41	0.3	
106	Renal intravascular large B cell lymphoma: the first case report in Korea and a review of the literature. <i>Journal of Pathology and Translational Medicine</i> , 2020 , 54, 426-431	2.9	3
105	Diagnosis of renal transplant rejection: Banff classification and beyond. <i>Kidney Research and Clinical Practice</i> , 2020 , 39, 17-31	3.6	16
104	Predictive value of mesangial C3 and C4d deposition in IgA nephropathy. <i>Clinical Immunology</i> , 2020 , 211, 108331	9	13
103	Relationship between complement deposition and the Oxford classification score and their combined effects on renal outcome in immunoglobulin A nephropathy. <i>Nephrology Dialysis Transplantation</i> , 2020 , 35, 2103-2137	4.3	4
102	Clinical Significance of Revised Banff Criteria in the Diagnosis of Antibody-Mediated Rejection. <i>Transplantation Proceedings</i> , 2019 , 51, 1488-1490	1.1	
101	Tubulointerstitial Infiltration of M2 Macrophages in Henoch-Schönlein Purpura Nephritis Indicates the Presence of Glomerular Crescents and Bad Clinical Parameters. <i>BioMed Research International</i> , 2019 , 2019, 8579619	3	4
100	Transplant outcomes in positive complement-dependent cytotoxicity- versus flow cytometry-crossmatch kidney transplant recipients after successful desensitization: a retrospective study. <i>BMC Nephrology</i> , 2019 , 20, 456	2.7	3
99	Association between post-transplant uric acid level and renal allograft fibrosis: Analysis using Banff pathologic scores from renal biopsies. <i>Scientific Reports</i> , 2018 , 8, 11601	4.9	4
98	Focal segmental glomerulosclerosis and medullary nephrocalcinosis in children with ADCK4 mutations. <i>Pediatric Nephrology</i> , 2017 , 32, 1547-1554	3.2	24
97	Successful kidney transplantation across a positive complement-dependent cytotoxicity crossmatch by using C1q assay-directed, bortezomib-assisted desensitization: A case report. <i>Medicine (United States)</i> , 2017 , 96, e8145	1.8	5
96	Tubuloreticular inclusions in peritubular capillaries of renal allografts. <i>Pathology Research and Practice</i> , 2017 , 213, 1185-1190	3.4	6

95	Lysyl oxidase-like 2 is expressed in kidney tissue and is associated with the progression of tubulointerstitial fibrosis. <i>Molecular Medicine Reports</i> , 2017 , 16, 2477-2482	2.9	11
94	Clinical usefulness of the Oxford classification in determining immunosuppressive treatment in IgA nephropathy. <i>Annals of Medicine</i> , 2017 , 49, 217-229	1.5	7
93	Successful launch of an ABO-incompatible kidney transplantation program to overcome the shortage of compatible living donors: experience at a single center?. <i>Clinical Nephrology</i> , 2017 , 88, 117-123	2.1	5
92	The significance of tubulointerstitial lesions in childhood Henoch-Schlelein nephritis. <i>Pediatric Nephrology</i> , 2016 , 31, 2087-93	3.2	9
91	Glomerular epithelial CD44 expression and segmental sclerosis in IgA nephropathy. <i>Clinical and Experimental Nephrology</i> , 2016 , 20, 871-877	2.5	9
90	Successful treatment of tubulointerstitial nephritis and uveitis with steroid and azathioprine in a 12-year-old boy. <i>Korean Journal of Pediatrics</i> , 2016 , 59, S99-S102	2.4	6
89	Overview of IgG4-Related Tubulointerstitial Nephritis and Its Mimickers. <i>Journal of Pathology and Translational Medicine</i> , 2016 , 50, 26-36	2.9	11
88	Aberrant Blood Vessel Formation Connecting the Glomerular Capillary Tuft and the Interstitium Is a Characteristic Feature of Focal Segmental Glomerulosclerosis-like IgA Nephropathy. <i>Journal of Pathology and Translational Medicine</i> , 2016 , 50, 211-6	2.9	1
87	Fibroblast Growth Factor Receptor 1 Overexpression Is Associated with Poor Survival in Patients with Resected Muscle Invasive Urothelial Carcinoma. <i>Yonsei Medical Journal</i> , 2016 , 57, 831-9	3	11
86	Smoking-Related Renal Histologic Injury in IgA Nephropathy Patients. <i>Yonsei Medical Journal</i> , 2016 , 57, 209-16	3	3
85	Influence of cyclosporine A on glomerular growth and the effect of mizoribine and losartan on cyclosporine nephrotoxicity in young rats. <i>Scientific Reports</i> , 2016 , 6, 22374	4.9	2
84	De novo C3 glomerulonephritis in a renal allograft. <i>Ultrastructural Pathology</i> , 2016 , 40, 112-5	1.3	3
83	Podocytic infolding glomerulopathy: A case report. <i>Ultrastructural Pathology</i> , 2016 , 40, 374-377	1.3	8
82	Rifampicin-induced minimal change disease is improved after cessation of rifampicin without steroid therapy. <i>Yonsei Medical Journal</i> , 2015 , 56, 582-5	3	7
81	The Effect of Bortezomib on Antibody-Mediated Rejection after Kidney Transplantation. <i>Yonsei Medical Journal</i> , 2015 , 56, 1638-42	3	16
80	A Case of Constrictive Pericarditis due to Immunoglobulin G4-Related Disease. <i>Korean Circulation Journal</i> , 2015 , 45, 161-4	2.2	6
79	Comparison of the Haas and the Oxford classifications for prediction of renal outcome in patients with IgA nephropathy. <i>Human Pathology</i> , 2014 , 45, 236-43	3.7	26
78	Clinical implication of crescentic lesions in immunoglobulin A nephropathy. <i>Nephrology Dialysis Transplantation</i> , 2014 , 29, 356-64	4.3	23

77	Clinical features and outcomes of focal segmental glomerulosclerosis pathologic variants in Korean adult patients. <i>BMC Nephrology</i> , 2014 , 15, 52	2.7	11
76	Changes of Kidney Injury Molecule-1 Expression and Renal Allograft Function in Protocol and for Cause Renal Allograft Biopsy. <i>The Journal of the Korean Society for Transplantation</i> , 2014 , 28, 135	0.3	
75	Optimal proteinuria target for renoprotection in patients with IgA nephropathy. <i>PLoS ONE</i> , 2014 , 9, e101935	3.7	19
74	Sirolimus conversion efficacy for graft function improvement and histopathology in renal recipients with mild to moderate renal insufficiency. <i>Journal of Korean Medical Science</i> , 2014 , 29, 1069-76	4.7	0
73	Factors indicating renal injury in pediatric bilateral ureteropelvic-junction obstruction. <i>Urology</i> , 2013 , 81, 873-8	1.6	9
72	A case of membranous nephropathy as a manifestation of graft-versus-host disease. <i>Kidney Research and Clinical Practice</i> , 2013 , 32, 39-42	3.6	3
71	Validation of Tissue Microarrays for the Study of Immunosuppressive Agent-induced Nephrotoxicity. <i>The Journal of the Korean Society for Transplantation</i> , 2013 , 27, 114	0.3	
70	Minimal Change Disease in Systemic Lupus: Another Renal Manifestation of Lupus?. <i>The Ewha Medical Journal</i> , 2013 , 36, 139	0.1	1
69	Renal histologic parameters influencing postoperative renal function in renal cell carcinoma patients. <i>Korean Journal of Pathology</i> , 2013 , 47, 557-62		2
68	Usefulness of Oxford classification in assessing immunoglobulin A nephropathy after transplantation. <i>Transplantation</i> , 2013 , 95, 1491-7	1.8	12
67	Clinical Remission of Renal Amyloidosis after Autologous Peripheral Blood Stem Cell Transplantation. <i>The Ewha Medical Journal</i> , 2013 , 36, S25	0.1	
66	A Case of Atypical Thrombotic Microangiopathy. <i>Journal of the Korean Society of Pediatric Nephrology</i> , 2013 , 17, 149		
65	Podocytopathy and Morphologic Changes in Focal Segmental Glomerulosclerosis. <i>Journal of the Korean Society of Pediatric Nephrology</i> , 2013 , 17, 13		
64	Decreased circulating C3 levels and mesangial C3 deposition predict renal outcome in patients with IgA nephropathy. <i>PLoS ONE</i> , 2012 , 7, e40495	3.7	73
63	The first case of familial Mediterranean fever associated with renal amyloidosis in Korea. <i>Yonsei Medical Journal</i> , 2012 , 53, 454-8	3	10
62	Dense deposit disease in Korean children: a multicenter clinicopathologic study. <i>Journal of Korean Medical Science</i> , 2012 , 27, 1215-21	4.7	3
61	Most Transmitted Glomerular Lesions in a Zero-Hour Biopsy of Allograft Kidney Have No Clinical Significance. <i>The Journal of the Korean Society for Transplantation</i> , 2012 , 26, 174	0.3	3
60	Clinical features and outcomes of IgA nephropathy with nephrotic syndrome. <i>Clinical Journal of the American Society of Nephrology: CJASN</i> , 2012 , 7, 427-36	6.9	67

59	Urinary decoy cell grading and its clinical implications. <i>Korean Journal of Pathology</i> , 2012 , 46, 233-6		4
58	Cytologic features of giant cell ependymoma: a case report and review of the literature. <i>Korean Journal of Pathology</i> , 2012 , 46, 507-13		6
57	Predictive factors for ciclosporin-associated nephrotoxicity in children with minimal change nephrotic syndrome. <i>Journal of Clinical Pathology</i> , 2011 , 64, 516-9	3.9	15
56	Pathogenesis of Transplant Glomerulopathy. <i>The Journal of the Korean Society for Transplantation</i> , 2011 , 25, 71	0.3	
55	Toll-like receptor 4 signaling is involved in IgA-stimulated mesangial cell activation. <i>Yonsei Medical Journal</i> , 2011 , 52, 610-5	3	16
54	Effects of cyclosporin A therapy combined with steroids and angiotensin converting enzyme inhibitors on childhood IgA nephropathy. <i>Journal of Korean Medical Science</i> , 2010 , 25, 723-7	4.7	7
53	A case of nephrotic syndrome in a patient with Churg-Strauss syndrome. <i>Rheumatology International</i> , 2010 , 30, 1385-8	3.6	4
52	Practical Standardization in Renal Biopsy Reporting. <i>Korean Journal of Pathology</i> , 2010 , 44, 613		2
51	An Analysis of Focal Segmental Glomerulosclerosis according to Morphologic Subtypes. <i>Korean Journal of Pathology</i> , 2010 , 44, 589		2
50	Clinicopathologic Changes of IgA Nephropathy in Children During Long-term (average 10.8 yrs) Follow-up. <i>Journal of the Korean Society of Pediatric Nephrology</i> , 2010 , 14, 154		2
49	Relationship of Glomerular Basement Membrane Alterations to Epithelial Cell Structure and Clinical Parameters in Alport Syndrome. <i>Journal of the Korean Society of Pediatric Nephrology</i> , 2010 , 14, 22		
48	Expression of fibrosis-associated molecules in IgA nephropathy treated with cyclosporine. <i>Pediatric Nephrology</i> , 2009 , 24, 513-9	3.2	6
47	Renal tubular expression of Toll-like receptor 4 in cyclosporine nephrotoxicity. <i>Apmis</i> , 2009 , 117, 583-91	3.4	11
46	Progression of renal allograft histology after renal transplantation in recurrent and nonrecurrent immunoglobulin A nephropathy. <i>Human Pathology</i> , 2008 , 39, 1511-8	3.7	11
45	Immunologic control for polyomavirus infection after kidney transplantation. <i>Nephron Clinical Practice</i> , 2008 , 108, c148-54		3
44	Seven-Year Follow Up of Microscopic Polyangiitis Presenting with Rapidly Progressive Glomerulonephritis. <i>Journal of the Korean Society of Pediatric Nephrology</i> , 2008 , 12, 99		1
43	Angiotensin II receptor blockade blocker pre-treatment largely prevents injury from gradual renal ablation in rats. <i>JRAAS - Journal of the Renin-Angiotensin-Aldosterone System</i> , 2007 , 8, 110-7	3	5
42	Methylprednisolone and cyclosporin therapy in a patient with nephrotic proteinuria. <i>Indian Journal of Pediatrics</i> , 2007 , 74, 593-4	3	1

41	Urinary HLA-DR and CD54 expression--indicators for inflammatory activity in decoy cell shedding patients. <i>Nephrology Dialysis Transplantation</i> , 2006 , 21, 2601-6	4.3	10
40	Nutcracker syndrome combined with IgA nephropathy in a child with recurrent hematuria. <i>Pediatrics International</i> , 2006 , 48, 324-6	1.2	12
39	Factors affecting histological regression of crescentic Henoch-Schleulin nephritis in children. <i>Pediatric Nephrology</i> , 2006 , 21, 54-9	3.2	25
38	Successful use of cyclosporin A in severe Schleulin-Henoch nephritis resistant to both methylprednisolone pulse and azathioprine. <i>Clinical Rheumatology</i> , 2006 , 25, 759-60	3.9	15
37	Development of GravesDisease during cyclosporin treatment for severe Henoch-Schleulin nephritis. <i>Nephrology Dialysis Transplantation</i> , 2005 , 20, 2014-5	4.3	6
36	Elastin content of the renal pelvis and ureter determines post-pyeloplasty recovery. <i>Journal of Urology</i> , 2005 , 173, 962-6	2.5	17
35	Cyclosporin A therapy for severe Henoch-Schleulin nephritis with nephrotic syndrome. <i>Pediatric Nephrology</i> , 2005 , 20, 1093-7	3.2	50
34	Can azathioprine and steroids alter the progression of severe Henoch-Schleulin nephritis in children?. <i>Pediatric Nephrology</i> , 2005 , 20, 1087-92	3.2	47
33	Serum IgA/C3 ratio may be a useful marker of disease activity in severe Henoch-Schleulin nephritis. <i>Nephron Clinical Practice</i> , 2005 , 101, c72-8		10
32	IgA nephropathy in renal allografts-recurrence and graft dysfunction. <i>Yonsei Medical Journal</i> , 2004 , 45, 1043-8	3	11
31	Peritubular capillary C4d deposition in chronic allograft dysfunction. <i>Yonsei Medical Journal</i> , 2004 , 45, 859-64	3	5
30	Glomerular crescents are responsible for chronic graft dysfunction in post-transplant IgA nephropathy. <i>Pathology International</i> , 2004 , 54, 837-42	1.8	16
29	Osteopontin expression and microvascular injury in cyclosporine nephrotoxicity. <i>Pediatric Nephrology</i> , 2004 , 19, 288-94	3.2	11
28	Increased nephron volume is not a cause of supranormal renographic differential renal function in patients with ureteropelvic junction obstruction. <i>Journal of Urology</i> , 2004 , 172, 1108-10	2.5	8
27	Polyomavirus nephropathy in renal transplantation: a clinico-pathological study. <i>Transplant International</i> , 2003 , 16, 671-5	3	5
26	Segmental glomerulosclerosis in IgA nephropathy after renal transplantation: relationship with proteinuria and therapeutic response to enalapril. <i>Clinical Transplantation</i> , 2003 , 17, 108-13	3.8	10
25	Polyomavirus nephropathy in renal transplantation: a clinico-pathological study. <i>Transplant International</i> , 2003 , 16, 671-675	3	1
24	A re-evaluation of the renal ablation model of progressive renal disease in rats. <i>Journal of Nephrology</i> , 2003 , 16, 196-202	4.8	8

23	Live donor renal transplantation in patients with end-stage renal failure due to IgA nephropathy: clinicopathological assessment. <i>Nephrology</i> , 2002 , 7, S74-S77	2.2	1
22	Long-term outcome of kidney transplantation in adult recipients with focal segmental glomerulosclerosis. <i>Yonsei Medical Journal</i> , 2001 , 42, 209-14	3	15
21	Granzyme B and TIA-1 expression in chronic and acute on chronic renal allograft rejection. <i>Yonsei Medical Journal</i> , 2001 , 42, 285-90	3	4
20	An analysis of 4,514 cases of renal biopsy in Korea. <i>Yonsei Medical Journal</i> , 2001 , 42, 247-54	3	61
19	Live donor renal allograft in end-stage renal failure patients from immunoglobulin A nephropathy. <i>Transplantation</i> , 2001 , 71, 233-8	1.8	46
18	Alterations in extracellular matrix components in transplant glomerulopathy. <i>Virchows Archiv Fur Pathologische Anatomie Und Physiologie Und Fur Klinische Medizin</i> , 2000 , 437, 69-73	5.1	2
17	A case of Klinefelter syndrome with retroperitoneal teratoma. <i>Yonsei Medical Journal</i> , 2000 , 41, 136-9	3	4
16	DOES DELAYED OPERATION FOR PEDIATRIC URETEROPELVIC JUNCTION OBSTRUCTION CAUSE HISTOPATHOLOGICAL CHANGES?. <i>Journal of Urology</i> , 1998 , 160, 984-988	2.5	32
15	Fabry's disease--a case report and review of literatures reported in Korea. <i>Yonsei Medical Journal</i> , 1998 , 39, 67-72	3	1
14	Does Heparin Attenuate the Renal Injury Induced by Ischemia Reperfusion in the Rabbit?. <i>Daehan Macwimgwa Haghoeji</i> , 1998 , 35, 23		
13	Myxoma: life-threatening benign nonepithelial tumor of the larynx. <i>Yonsei Medical Journal</i> , 1997 , 38, 187-9	3	8
12	Solitary Fibrous Tumor in Retroperitoneum. <i>Journal of the Korean Radiological Society</i> , 1996 , 35, 957		
11	Electron microscopic study of the cases of minimal change nephrotic syndrome with mesangial IgA deposition. <i>Yonsei Medical Journal</i> , 1992 , 33, 351-6	3	4
10	An analysis of 2361 cases of renal biopsy in Korea. <i>Yonsei Medical Journal</i> , 1991 , 32, 9-15	3	10
9	Melanosis coli--histochemical and immunohistochemical comparison of the pigments of melanosis coli and Dubin-Johnson syndrome. <i>Yonsei Medical Journal</i> , 1990 , 31, 27-32	3	6
8	Aberrant breast tissue of the perineum--a report on two cases. <i>Yonsei Medical Journal</i> , 1990 , 31, 182-6	3	1
7	Significance of mesangial IgA deposition in minimal change nephrotic syndrome: a study of 60 cases. <i>Yonsei Medical Journal</i> , 1990 , 31, 258-63	3	13
6	Adult WilmsTumor--a case report. <i>Yonsei Medical Journal</i> , 1989 , 30, 88-94	3	1

- 5 Primary carcinoid tumor of the larynx. *Yonsei Medical Journal*, **1989**, 30, 193-7 3 4
- 4 Distribution of lymphocytic subpopulations infiltrated in thyroid glands of Graves disease. *Yonsei Medical Journal*, **1989**, 30, 118-24 3
- 3 Hepatic amyloidosis--two cases report. *Journal of Korean Medical Science*, **1988**, 3, 151-5 4-7 8
- 2 Histopathologic and immunocytochemical study of Hodgkin's disease. *Yonsei Medical Journal*, **1988**, 29, 326-32 3
- 1 A study of glomerular minimal lesion and minimal mesangial proliferation with or without nephrotic syndrome; pathologic, immunopathologic and clinical correlations. *Yonsei Medical Journal*, **1986**, 27, 17-24 3
