#	ARTICLE	IF	CITATIONS
1	Association of Spontaneous and Induced Self-Affirmation With Smoking Cessation in Users of a Mobile App: Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2021, 23, e18433.	4.3	2
2	A self-report measure of engagement with digital behavior change interventions (DBCIs): development and psychometric evaluation of the "DBCÍ Engagement Scale". <i>Translational Behavioral Medicine</i> , 2020, 10, 267-277.	2.4	49
3	Does the addition of a supportive chatbot promote user engagement with a smoking cessation app? An experimental study. <i>Digital Health</i> , 2019, 5, 205520761988067.	1.8	72
4	The development of <i>Drink Less</i>: an alcohol reduction smartphone app for excessive drinkers. <i>Translational Behavioral Medicine</i> , 2019, 9, 296-307.	2.4	43
5	Behavior Change Techniques Used in Digital Behavior Change Interventions to Reduce Excessive Alcohol Consumption: A Meta-regression. <i>Annals of Behavioral Medicine</i> , 2018, 52, 530-543.	2.9	52
6	A smartphone app to reduce excessive alcohol consumption: Identifying the effectiveness of intervention components in a factorial randomised control trial. <i>Scientific Reports</i> , 2018, 8, 4384.	3.3	83
7	Relative effectiveness of a full versus reduced version of the "Smoke Free"™ mobile application for smoking cessation: a randomised controlled trial. <i>F1000Research</i> , 2018, 7, 1524.	1.6	20
8	Relative effectiveness of a full versus reduced version of the "Smoke Free"™ mobile application for smoking cessation: an exploratory randomised controlled trial. <i>F1000Research</i> , 2018, 7, 1524.	1.6	28
9	Reported Theory Use by Digital Interventions for Hazardous and Harmful Alcohol Consumption, and Association With Effectiveness: Meta-Regression. <i>Journal of Medical Internet Research</i> , 2018, 20, e69.	4.3	35
10	User characteristics of a smartphone app to reduce alcohol consumption. <i>Translational Behavioral Medicine</i> , 2017, 7, 845-853.	2.4	9
11	Personalised digital interventions for reducing hazardous and harmful alcohol consumption in community-dwelling populations. <i>The Cochrane Library</i> , 2017, 2017, CD011479.	2.8	192
12	Factors Influencing Usability of a Smartphone App to Reduce Excessive Alcohol Consumption: Think Aloud and Interview Studies. <i>Frontiers in Public Health</i> , 2017, 5, 39.	2.7	69
13	Evaluating the effectiveness of a smartphone app to reduce excessive alcohol consumption: protocol for a factorial randomised control trial. <i>BMC Public Health</i> , 2016, 16, 536.	2.9	44
14	Development of SmokeFree Baby: a smoking cessation smartphone app for pregnant smokers. <i>Translational Behavioral Medicine</i> , 2016, 6, 533-545.	2.4	47
15	The Pace of Technologic Change. <i>American Journal of Preventive Medicine</i> , 2016, 51, 816-824.	3.0	144
16	Normative misperceptions about alcohol use in the general population of drinkers: A cross-sectional survey. <i>Addictive Behaviors</i> , 2015, 42, 203-206.	3.0	55
17	Behavior Change Techniques in Popular Alcohol Reduction Apps. <i>Journal of Medical Internet Research</i> , 2015, 17, e118.	4.3	149
18	Identification of Behavior Change Techniques and Engagement Strategies to Design a Smartphone App to Reduce Alcohol Consumption Using a Formal Consensus Method. <i>JMIR MHealth and UHealth</i> , 2015, 3, e73.	3.7	100
