#	ARTICLE	IF	CITATIONS
1	Organizational readiness to change assessment (ORCA): Development of an instrument based on the Promoting Action on Research in Health Services (PARIHS) framework. <i>Implementation Science</i> , 2009, 4, 38.	2.5	370
2	Using a Single Item to Measure Burnout in Primary Care Staff: A Psychometric Evaluation. <i>Journal of General Internal Medicine</i> , 2015, 30, 582-587.	1.3	360
3	A Guide for applying a revised version of the PARIHS framework for implementation. <i>Implementation Science</i> , 2011, 6, 99.	2.5	301
4	Implementation of the Patient-Centered Medical Home in the Veterans Health Administration. <i>JAMA Internal Medicine</i> , 2014, 174, 1350.	2.6	270
5	Determinants of Implementation Effectiveness. <i>Medical Care Research and Review</i> , 2007, 64, 279-303.	1.0	244
6	A critical synthesis of literature on the promoting action on research implementation in health services (PARIHS) framework. <i>Implementation Science</i> , 2010, 5, 82.	2.5	215
7	Are You Ready? How Health Professionals Can Comprehensively Conceptualize Readiness for Change. <i>Journal of General Internal Medicine</i> , 2010, 25, 50-55.	1.3	152
8	Elements of Team-Based Care in a Patient-Centered Medical Home Are Associated with Lower Burnout Among VA Primary Care Employees. <i>Journal of General Internal Medicine</i> , 2014, 29, 659-666.	1.3	129
9	The Association of Team-Specific Workload and Staffing with Odds of Burnout Among VA Primary Care Team Members. <i>Journal of General Internal Medicine</i> , 2017, 32, 760-766.	1.3	101
10	Assessing an organizational culture instrument based on the Competing Values Framework: Exploratory and confirmatory factor analyses. <i>Implementation Science</i> , 2007, 2, 13.	2.5	94
11	How the dual process model of human cognition can inform efforts to de-implement ineffective and harmful clinical practices: A preliminary model of unlearning and substitution. <i>Journal of Evaluation in Clinical Practice</i> , 2018, 24, 198-205.	0.9	82
12	Strategies from a Nationwide Health Information Technology Implementation: The VA CART STORY. <i>Journal of General Internal Medicine</i> , 2010, 25, 72-76.	1.3	53
13	Working smarter not harder: Coupling implementation to de-implementation. <i>Healthcare</i> , 2018, 6, 104-107.	0.6	49
14	Task Delegation and Burnout Trade-offs Among Primary Care Providers and Nurses in Veterans Affairs Patient Aligned Care Teams (VA PACTs). <i>Journal of the American Board of Family Medicine</i> , 2018, 31, 83-93.	0.8	38
15	Predicting implementation from organizational readiness for change: a study protocol. <i>Implementation Science</i> , 2011, 6, 76.	2.5	36
16	Primary Care Tasks Associated with Provider Burnout: Findings from a Veterans Health Administration Survey. <i>Journal of General Internal Medicine</i> , 2018, 33, 50-56.	1.3	36
17	The experience of Patient Aligned Care Team (PACT) members. <i>Health Care Management Review</i> , 2016, 41, 2-10.	0.6	34
18	Promoting Health Equity through De-Implementation Research. <i>Ethnicity and Disease</i> , 2019, 29, 93-96.	1.0	29

#	ARTICLE	IF	CITATIONS
19	Introduction and Conceptual Model for Utilization of Prevention Research. <i>American Journal of Preventive Medicine</i> , 2007, 33, S1-S5.	1.6	26
20	The facilitators and barriers associated with implementation of a patient-centered medical home in VHA. <i>Implementation Science</i> , 2015, 11, 24.	2.5	26
21	Development and Pilot Test of the Workplace Readiness Questionnaire, a Theory-Based Instrument to Measure Small Workplaces'™ Readiness to Implement Wellness Programs. <i>American Journal of Health Promotion</i> , 2017, 31, 67-75.	0.9	26
22	Factors Associated With Utilization of Cardiac Rehabilitation Among Patients With Ischemic Heart Disease in the Veterans Health Administration. <i>Journal of Cardiopulmonary Rehabilitation and Prevention</i> , 2016, 36, 167-173.	1.2	25
23	Readiness to Change Over Time: Change Commitment and Change Efficacy in a Workplace Health-Promotion Trial. <i>Frontiers in Public Health</i> , 2018, 6, 110.	1.3	23
24	Adoption and Implementation of Strategies for Diabetes Management in Primary Care Practices. <i>American Journal of Preventive Medicine</i> , 2007, 33, S35-S49.	1.6	22
25	Adoption and Implementation of Mandated Diabetes Registries by Community Health Centers. <i>American Journal of Preventive Medicine</i> , 2007, 33, S50-S65.	1.6	22
26	Declining mortality following acute myocardial infarction in the Department of Veterans Affairs Health Care System. <i>BMC Cardiovascular Disorders</i> , 2009, 9, 44.	0.7	22
27	Leveraging implementation science to increase the translation of deprescribing evidence into practice. <i>Research in Social and Administrative Pharmacy</i> , 2022, 18, 2550-2555.	1.5	22
28	Defining Core Issues in Utilizing Information Technology to Improve Access: Evaluation and Research Agenda. <i>Journal of General Internal Medicine</i> , 2011, 26, 623-627.	1.3	21
29	Communication Among Team Members Within the Patient-centered Medical Home and Patient Satisfaction With Providers. <i>Medical Care</i> , 2018, 56, 491-496.	1.1	21
30	Association of medical home team-based care functions and perceived improvements in patient-centered care at VHA primary care clinics. <i>Healthcare</i> , 2014, 2, 238-244.	0.6	19
31	Cardiac Rehabilitation Use Among Veterans With Ischemic Heart Disease. <i>JAMA Internal Medicine</i> , 2014, 174, 1687.	2.6	18
32	Perceptions of advantages and barriers to radial-access percutaneous coronary intervention in VA cardiac catheterization laboratories. <i>Cardiovascular Revascularization Medicine</i> , 2014, 15, 329-333.	0.3	17
33	Patient-Centered Medical Home Implementation and Primary Care Provider Turnover. <i>Medical Care</i> , 2014, 52, 1017-1022.	1.1	17
34	Implementing electronic clinical reminders for lipid management in patients with ischemic heart disease in the veterans health administration: QUERI Series. <i>Implementation Science</i> , 2008, 3, 28.	2.5	16
35	HealthLinks randomized controlled trial: Design and baseline results. <i>Contemporary Clinical Trials</i> , 2016, 48, 1-11.	0.8	16
36	Bridging the Gap After Physical Therapy: Clinical'Community Linkages With Older Adult Physical Activity Programs. <i>Innovation in Aging</i> , 2018, 2, igy006.	0.0	16

#	ARTICLE	IF	CITATIONS
37	Mapping the organizational readiness to change assessment to the Consolidated Framework for Implementation Research. <i>Implementation Science Communications</i> , 2021, 2, 19.	0.8	16
38	Recommendations for strengthening the role of embedded researchers to accelerate implementation in health systems: Findings from a state-of-the-art (SOTA) conference workgroup. <i>Healthcare</i> , 2021, 8, 100455.	0.6	16
39	Adopting SCAN-ECHO: The providers' experiences. <i>Healthcare</i> , 2017, 5, 29-33.	0.6	15
40	Patient-Centered Medical Home Implementation and Burnout Among VA Primary Care Employees. <i>Journal of Ambulatory Care Management</i> , 2017, 40, 158-166.	0.5	15
41	The impact of survey nonresponse on estimates of healthcare employee burnout. <i>Healthcare</i> , 2020, 8, 100451.	0.6	15
42	The most used and most helpful facilitators for patient-centered medical home implementation. <i>Implementation Science</i> , 2015, 10, 52.	2.5	14
43	Implementation REsearch to DEvelop Interventions for People Living with HIV (the PRECluDE) Tj ETQq1 1 0.784314 rgBT /Overlock 10 research. <i>Progress in Cardiovascular Diseases</i> , 2020, 63, 79-91.	1.6	12
44	Trends in Arterial Access Site Selection and Bleeding Outcomes Following Coronary Procedures, 2011â€“2018. <i>Circulation: Cardiovascular Quality and Outcomes</i> , 2022, 15, CIRCUITCOMES121008359.	0.9	11
45	Same-day discharge among patients undergoing elective PCI: Insights from the VA CART Program. <i>American Heart Journal</i> , 2019, 218, 75-83.	1.2	10
46	De-implementing Inhaled Corticosteroids to Improve Care and Safety in COPD Treatment: Primary Care Providersâ€™ Perspectives. <i>Journal of General Internal Medicine</i> , 2020, 35, 51-56.	1.3	10
47	Utilization of Prevention Research. <i>American Journal of Preventive Medicine</i> , 2007, 33, S9-S20.	1.6	9
48	Results of a Regional Effort to Improve Warfarin Management. <i>Annals of Pharmacotherapy</i> , 2017, 51, 373-379.	0.9	9
49	Disseminating Evidence-Based Interventions in Small, Low-Wage Worksites: A Randomized Controlled Trial in King County, Washington (2014â€“2017). <i>American Journal of Public Health</i> , 2019, 109, 1739-1746.	1.5	9
50	Recommendations for the Use of Audit and Feedback to De-Implement Low-Value Care. <i>American Journal of Medical Quality</i> , 2019, 34, 409-411.	0.2	9
51	Predictors of Improvement in Physical Function in Older Adults in an Evidence-Based Physical Activity Program (EnhanceFitness). <i>Journal of Geriatric Physical Therapy</i> , 2019, 42, 230-242.	0.6	9
52	A specialty-specific, multimodality educational quality improvement initiative to deimplement rarely appropriate myocardial perfusion imaging. <i>Open Heart</i> , 2017, 4, e000589.	0.9	8
53	Implementation of appropriate use criteria for cardiology tests and procedures: a systematic review and meta-analysis. <i>European Heart Journal Quality of Care &amp; Clinical Outcomes</i> , 2021, 7, 34-41.	1.8	8
54	Identifying and Prioritizing Workplace Climate Predictors of Burnout Among VHA Primary Care Physicians. <i>Journal of General Internal Medicine</i> , 2022, 37, 87-94.	1.3	7

#	ARTICLE	IF	CITATIONS
55	Factors Associated With Low-Value Cancer Screenings in the Veterans Health Administration. JAMA Network Open, 2021, 4, e2130581.	2.8	7
56	Association Between Mental Health Staffing Level and Primary Care-Mental Health Integration Level on Provision of Depression Care in Veterans Affairs Medical Facilities. Administration and Policy in Mental Health and Mental Health Services Research, 2018, 45, 131-141.	1.2	5
57	Improving anti-platelet therapy adherence in the Veterans Health Administration: A randomized multi-site hybrid effectiveness-implementation study protocol. Contemporary Clinical Trials, 2019, 77, 104-110.	0.8	4
58	Organizational readiness assessment in acute and long-term care has important implications for antibiotic stewardship for asymptomatic bacteriuria. American Journal of Infection Control, 2020, 48, 1322-1328.	1.1	4
59	Multifaceted Intervention to Improve P2Y12 Inhibitor Adherence After Percutaneous Coronary Intervention: A Stepped Wedge Trial. Journal of the American Heart Association, 2022, 11, .	1.6	4
60	Cost-related delay in filling prescriptions and health care ratings among medicare advantage recipients. Medicine (United States), 2019, 98, e16469.	0.4	3
61	Provider anticipation and experience of patient reaction when deprescribing guideline discordant inhaled corticosteroids. PLoS ONE, 2020, 15, e0238511.	1.1	3
62	Development of a Wellness Committee Implementation Index for Workplace Health Promotion Programs in Small Businesses. American Journal of Health Promotion, 2020, 34, 614-621.	0.9	3
63	Addressing low-value pharmacological prescribing in primary prevention of CVD through a structured evidence-based and theory-informed process for the design and testing of de-implementation strategies: the DE-imFAR study. Implementation Science, 2020, 15, 8.	2.5	2
64	Development and Feasibility Testing of the Clinical-Community Linkage Self-Assessment Survey for Community Organizations. Frontiers in Public Health, 2022, 10, .	1.3	2
65	Responding to the Call: a New JGIM Area of Emphasis for Implementation and Quality Improvement Sciences. Journal of General Internal Medicine, 2020, 35, 781-782.	1.3	1
66	Design and baseline results of a coaching intervention for implementation of trans-radial access in percutaneous coronary intervention. Contemporary Clinical Trials, 2021, 111, 106606.	0.8	1
67	Cost analysis of a coaching intervention to increase use of transradial percutaneous coronary intervention. Implementation Science Communications, 2021, 2, 123.	0.8	1
68	Pathways to Employee Outcomes in a Workplace Health Promotion Program. American Journal of Health Promotion, 2022, 36, 662-672.	0.9	1
69	Title is missing!. , 2020, 15, e0238511.		0
70	Title is missing!. , 2020, 15, e0238511.		0
71	Title is missing!. , 2020, 15, e0238511.		0
72	Title is missing!. , 2020, 15, e0238511.		0
