| #  | ARTICLE                                                                                                                                                                                                                                              | IF   | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 1  | Management of patients with chronic rhinosinusitis during the COVID-19 pandemic” An EAACI position paper. Allergy: European Journal of Allergy and Clinical Immunology, 2021, 76, 677-688.                                                           | 5.7  | 33        |
| 2  | Differentiation of COVID-19 signs and symptoms from allergic rhinitis and common cold: An ARIA-2021 EAACI-2021 GA <sup>2</sup> LEN consensus. Allergy: European Journal of Allergy and Clinical Immunology, 2021, 76, 2354-2366.                     | 5.7  | 31        |
| 3  | Nano Meets Micro-Translational Nanotechnology in Medicine: Nano-Based Applications for Early Tumor Detection and Therapy. Nanomaterials, 2020, 10, 383.                                                                                              | 4.1  | 30        |
| 4  | A new form of irritant rhinitis to filtering facepiece particle (FFP) masks (FFP2/N95/KN95 respirators) during COVID-19 pandemic. World Allergy Organization Journal, 2020, 13, 100474.                                                              | 3.5  | 27        |
| 5  | Telemedicine allows quantitative measuring of olfactory dysfunction in COVID-19. Allergy: European Journal of Allergy and Clinical Immunology, 2021, 76, 868-870.                                                                                    | 5.7  | 23        |
| 6  | Staging of oropharyngeal squamous cell carcinoma of the head and neck: Prognostic features and power of the 8th edition of the UICC staging manual. European Journal of Surgical Oncology, 2019, 45, 1046-1053.                                      | 1.0  | 21        |
| 7  | Targeting Cancer Chemotherapy Resistance by Precision Medicine-Driven Nanoparticle-Formulated Cisplatin. ACS Nano, 2021, 15, 18541-18556.                                                                                                            | 14.6 | 17        |
| 8  | Olfactory and gustatory disorders in COVID-19. Allergo Journal International, 2022, 31, 243-250.                                                                                                                                                     | 2.0  | 14        |
| 9  | Profiling Cisplatin Resistance in Head and Neck Cancer: A Critical Role of the VRAC Ion Channel for Chemoresistance. Cancers, 2021, 13, 4831.                                                                                                        | 3.7  | 13        |
| 10 | Olfactory dysfunction is more severe in wild-type SARS-CoV-2 infection than in the Delta variant (B.1.617.2). World Allergy Organization Journal, 2022, 15, 100653.                                                                                  | 3.5  | 12        |
| 11 | Prevalence of acute olfactory dysfunction differs between variants of SARS-CoV-2” results from chemosensitive testing in wild type, VOC alpha (B.1.1.7) and VOC delta (B.1.617.2). European Archives of Oto-Rhino-Laryngology, 2022, 279, 5445-5447. | 1.6  | 12        |
| 12 | Disease-relevant signalling-pathways in head and neck cancer: Taspase1’s proteolytic activity fine-tunes TFIIA function. Scientific Reports, 2017, 7, 14937.                                                                                         | 3.3  | 8         |
| 13 | Characterization of a novel microfluidic platform for the isolation of rare single cells to enable CTC analysis from head and neck squamous cell carcinoma patients. Engineering in Life Sciences, 2022, 22, 391-406.                                | 3.6  | 8         |
| 14 | IsoMAG” An Automated System for the Immunomagnetic Isolation of Squamous Cell Carcinoma-Derived Circulating Tumor Cells. Diagnostics, 2021, 11, 2040.                                                                                                | 2.6  | 7         |
| 15 | Impact of Secretion-Active Osteoblast-Specific Factor 2 in Promoting Progression and Metastasis of Head and Neck Cancer. Cancers, 2022, 14, 2337.                                                                                                    | 3.7  | 4         |
| 16 | Presentation of airway and general symptoms in COVID-19 caused by dominant <scp>SARS-CoV-2</scp> variants: A follow-up on <scp>ARIA</scp> consensus. Allergy: European Journal of Allergy and Clinical Immunology, 2022, 77, 3440-3444.              | 5.7  | 3         |
