#	ARTICLE	IF	CITATIONS
1	Prevalence and determinants of medication administration errors in clinical wards: A two-centre prospective observational study. <i>Journal of Clinical Nursing</i> , 2023, 32, 208-220.	1.4	6
2	Prevalence and determinants of intravenous admixture preparation errors: A prospective observational study in a university hospital. <i>International Journal of Clinical Pharmacy</i> , 2022, 44, 44-52.	1.0	4
3	Quantifying the Pharmacodynamics of Morphine in the Treatment of Postoperative Pain in Preverbal Children. <i>Journal of Clinical Pharmacology</i> , 2022, 62, 99-109.	1.0	3
4	COVID-19 lockdown impacts the wellbeing of parents with infants on a Dutch neonatal intensive care unit. <i>Journal of Pediatric Nursing</i> , 2022, 62, 106-112.	0.7	20
5	Quality of life of locally advanced pancreatic cancer patients after FOLFIRINOX treatment. <i>Supportive Care in Cancer</i> , 2022, 30, 2407-2415.	1.0	2
6	Nurse-led self-management support after organ transplantation protocol of a multicentre, stepped-wedge randomized controlled trial. <i>Trials</i> , 2022, 23, 14.	0.7	3
7	Aromatherapy massage seems effective in critically ill children: an observational before-after study. <i>Paediatric and Neonatal Pain</i> , 2022, 4, 61-68.	0.6	2
8	Quality improvement intervention to stimulate early mobilization of critically ill children. <i>Nursing in Critical Care</i> , 2022, , .	1.1	2
9	Neonatal Pain, Opioid, and Anesthetic Exposure; What Remains in the Human Brain After the Wheels of Time?. <i>Frontiers in Pediatrics</i> , 2022, 10, .	0.9	2
10	Development of a non-pharmacologic delirium management bundle in paediatric intensive care units. <i>Nursing in Critical Care</i> , 2022, 27, 867-876.	1.1	11
11	Effect of a Pharmacy-based Centralized Intravenous Admixture Service on the Prevalence of Medication Errors: A Before-and-After Study. <i>Journal of Patient Safety</i> , 2022, 18, e1181-e1188.	0.7	6
12	Cost-effectiveness of central automated unit dose dispensing with barcode-assisted medication administration in a hospital setting. <i>Research in Social and Administrative Pharmacy</i> , 2022, 18, 3980-3987.	1.5	1
13	Measuring process indicators and adverse events to assess the quality of care for inpatients with psychosis. <i>Journal of Mental Health</i> , 2021, 30, 564-570.	1.0	0
14	Postoperative breakthrough pain in paediatric cardiac surgery not reduced by increased morphine concentrations. <i>Pediatric Research</i> , 2021, 90, 1201-1206.	1.1	3
15	Validity of the Rotterdam Elderly Pain Observation Scale for institutionalised cognitively impaired Dutch adults. <i>Journal of Intellectual Disability Research</i> , 2021, 65, 675-687.	1.2	4
16	Towards Evidence-Based Weaning: a Mechanism-Based Pharmacometric Model to Characterize Iatrogenic Withdrawal Syndrome in Critically Ill Children. <i>AAPS Journal</i> , 2021, 23, 71.	2.2	3
17	Effectiveness of Simulation Training and Assessment of PICU Nurses' Resuscitation Skills: A Mixed Methods Study from the Netherlands. <i>Journal of Pediatric Nursing</i> , 2021, 59, e52-e60.	0.7	8
18	Sedation With Midazolam After Cardiac Surgery in Children With and Without Down Syndrome: A Pharmacokinetic-Pharmacodynamic Study. <i>Pediatric Critical Care Medicine</i> , 2021, 22, e259-e269.	0.2	1

#	ARTICLE	IF	CITATIONS
19	Effect of Automated Unit Dose Dispensing With Barcode Scanning on Medication Administration Errors: An Uncontrolled Before-and-After Study. <i>International Journal for Quality in Health Care</i> , 2021, 33, .	0.9	8
20	Integrating Placebo Effects in General Practice: A Cross-Sectional Survey to Investigate Perspectives From Health Care Professionals in the Netherlands. <i>Frontiers in Psychiatry</i> , 2021, 12, 768135.	1.3	1
21	Implementation of a nurse-driven ventilation weaning protocol in critically ill children: Can it improve patient outcome?. <i>Australian Critical Care</i> , 2020, 33, 80-88.	0.6	7
22	The fragile spirituality of parents whose children died in the pediatric intensive care unit. <i>Journal of Health Care Chaplaincy</i> , 2020, 26, 117-130.	0.7	9
23	Music Interventions in Pediatric Surgery (The Music Under Surgery In Children Study): A Randomized Clinical Trial. <i>Anesthesia and Analgesia</i> , 2020, 130, 991-1001.	1.1	25
24	Implementation strategies used to implement nursing guidelines in daily practice: A systematic review. <i>International Journal of Nursing Studies</i> , 2020, 111, 103748.	2.5	37
25	Perspectives of patients, relatives and nurses on rooming-in for adult patients: A scoping review of the literature. <i>Applied Nursing Research</i> , 2020, 55, 151320.	1.0	3
26	A cross-sectional investigation of communication in Do-Not-Resuscitate orders in Dutch hospitals. <i>Resuscitation</i> , 2020, 154, 52-60.	1.3	10
27	Feasibility of Dried Blood Spots in Children with Behavioral Problems. <i>Therapeutic Drug Monitoring</i> , 2020, 42, 648-651.	1.0	6
28	Exploring the Relationship Between Morphine Concentration and Oversedation in Children After Cardiac Surgery. <i>Journal of Clinical Pharmacology</i> , 2020, 60, 1231-1236.	1.0	3
29	The impact of introducing nurse-led analgesia and sedation guidelines in ventilated infants following cardiac surgery. <i>Intensive and Critical Care Nursing</i> , 2020, 60, 102879.	1.4	6
30	Rolontwikkeling en persoonlijke ontwikkeling. , 2020, , 33-59.		0
31	How often do we perform painful and stressful procedures in the paediatric intensive care unit? A prospective observational study. <i>Australian Critical Care</i> , 2019, 32, 4-10.	0.6	33
32	Children Listening to Music or Watching Cartoons During ER Procedures: A RCT. <i>Journal of Pediatric Psychology</i> , 2019, 44, 1151-1162.	1.1	12
33	Supervised Multidimensional Item Response Theory Modeling of Pediatric Iatrogenic Withdrawal Symptoms. <i>CPT: Pharmacometrics and Systems Pharmacology</i> , 2019, 8, 904-912.	1.3	4
34	Towards personalised weaning of sedatives and analgesics using mechanism-based modelling of iatrogenic withdrawal in critically ill children. <i>Archives of Disease in Childhood</i> , 2019, 104, e14.3-e15.	1.0	2
35	Item response theory modeling; old kid on the block to improve pediatric drug dosing. <i>Archives of Disease in Childhood</i> , 2019, 104, e15.1-e15.	1.0	0
36	Acute Pain Assessment in Prematurely Born Infants Below 29 Weeks. <i>Clinical Journal of Pain</i> , 2019, 35, 975-982.	0.8	7

#	ARTICLE	IF	CITATIONS
37	Do Pain Measurement Instruments Detect the Effect of Pain-Reducing Interventions in Neonates? A Systematic Review on Responsiveness. <i>Journal of Pain</i> , 2019, 20, 760-770.	0.7	7
38	Validation of the Rotterdam Elderly Pain Observation Scale in the Hospital Setting. <i>Pain Practice</i> , 2019, 19, 407-417.	0.9	4
39	Cross-cultural validation of the Itch Man Scale in pediatric burn survivors in a South African setting. <i>Burns</i> , 2019, 45, 725-731.	1.1	3
40	What are the validity and reliability of the modified Yale Preoperative Anxiety Scale—Short Form in children less than 2 years old?. <i>Paediatric Anaesthesia</i> , 2019, 29, 137-143.	0.6	14
41	Efficacy of Epidural Analgesia after Laparotomy in Children. <i>European Journal of Pediatric Surgery</i> , 2019, 29, 209-214.	0.7	3
42	Does the Incidence of Postoperative Complications After Inguinal Hernia Repair Justify Hospital Admission in Prematurely and Term Born Infants?. <i>Anesthesia and Analgesia</i> , 2019, 128, 525-532.	1.1	11
43	Meta-analysis evaluating music interventions for anxiety and pain in surgery. <i>British Journal of Surgery</i> , 2018, 105, 773-783.	0.1	187
44	Post burn pruritus in pediatric burn patients. <i>Burns</i> , 2018, 44, 1151-1158.	1.1	16
45	Can live music therapy reduce distress and pain in children with burns after wound care procedures? A randomized controlled trial. <i>Burns</i> , 2018, 44, 823-833.	1.1	23
46	The Importance of Parental Connectedness and Relationships With Healthcare Professionals in End-of-Life Care in the PICU*. <i>Pediatric Critical Care Medicine</i> , 2018, 19, e157-e163.	0.2	24
47	Sophia Observation withdrawal Symptoms-Paediatric Delirium scale: A tool for early screening of delirium in the PICU. <i>Australian Critical Care</i> , 2018, 31, 266-273.	0.6	29
48	Massage has no observable effect on distress in children with burns: A randomized, observer-blinded trial. <i>Burns</i> , 2018, 44, 99-107.	1.1	11
49	Population pharmacodynamic modelling of midazolam induced sedation in terminally ill adult patients. <i>British Journal of Clinical Pharmacology</i> , 2018, 84, 320-330.	1.1	16
50	Acute flaccid paralysis in South African children: Causes, respiratory complications and neurological outcome. <i>Journal of Paediatrics and Child Health</i> , 2018, 54, 247-253.	0.4	10
51	Assessing and addressing the problem of pain and distress during wound care procedures in paediatric patients with burns. <i>Burns</i> , 2018, 44, 175-182.	1.1	17
52	Parentsâ€™ Soothing of Critically Ill Children. <i>Pediatric Critical Care Medicine</i> , 2018, 19, 690-691.	0.2	1
53	Validation of the SOS-PD scale for assessment of pediatric delirium: a multicenter study. <i>Critical Care</i> , 2018, 22, 309.	2.5	39
54	Intravenous morphine versus intravenous paracetamol after cardiac surgery in neonates and infants: a study protocol for a randomized controlled trial. <i>Trials</i> , 2018, 19, 318.	0.7	6

#	ARTICLE	IF	CITATIONS
55	Clinically effective implementation of intravenous paracetamol as primary analgesia after major surgery in neonates and young infants. <i>Archives of Disease in Childhood</i> , 2018, 103, 1168-1169.	1.0	5
56	The Rotterdam Elderly Pain Observation Scale (REPOS) is reliable and valid for non-communicative end-of-life patients. <i>BMC Palliative Care</i> , 2018, 17, 34.	0.8	9
57	Implementation and evaluation of a follow-up programme after intensive care treatment: A practice development project. <i>Intensive and Critical Care Nursing</i> , 2018, 49, 6-13.	1.4	3
58	Long-term Effects of Early Exposure to Stress, Pain, Opioids and Anaesthetics on Pain Sensitivity and Neurocognition. <i>Current Pharmaceutical Design</i> , 2018, 23, 5879-5886.	0.9	20
59	Morphine Pharmacodynamics in Mechanically Ventilated Preterm Neonates Undergoing Endotracheal Suctioning. <i>CPT: Pharmacometrics and Systems Pharmacology</i> , 2017, 6, 239-248.	1.3	11
60	Retrospective study shows that doxapram therapy avoided the need for endotracheal intubation in most premature neonates. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2017, 106, 733-739.	0.7	15
61	Total body and hand surface area: Measurements, calculations, and comparisons in ethnically diverse children in South Africa. <i>Burns</i> , 2017, 43, 1567-1574.	1.1	5
62	We Can Not Compartmentalize Our Patients! Overlapping Symptoms of Iatrogenic Withdrawal Syndrome, Pediatric Delirium, and Anticholinergic Toxidrome*. <i>Pediatric Critical Care Medicine</i> , 2017, 18, 603-604.	0.2	12
63	Randomized Controlled Trial Comparing Different Single Doses of Intravenous Paracetamol for Placement of Peripherally Inserted Central Catheters in Preterm Infants. <i>Neonatology</i> , 2017, 112, 150-158.	0.9	18
64	Towards personalized treatment of pain using a quantitative systems pharmacology approach. <i>European Journal of Pharmaceutical Sciences</i> , 2017, 109, S32-S38.	1.9	17
65	Knowing Risk Factors for Iatrogenic Withdrawal Syndrome in Children May Still Leave Us Empty-Handed*. <i>Critical Care Medicine</i> , 2017, 45, 141-142.	0.4	5
66	Exposure to acetaminophen and all its metabolites upon 10, 15, and 20 mg/kg intravenous acetaminophen in very-preterm infants. <i>Pediatric Research</i> , 2017, 82, 678-684.	1.1	29
67	Children's outcomes at 2-year follow-up after 4 years of structured multi-professional medical-ethical decision-making in a neonatal intensive care unit. <i>Journal of Perinatology</i> , 2017, 37, 869-874.	0.9	2
68	The CLOSED trial; CLONidine compared with midazolam for SEDation of paediatric patients in the intensive care unit: study protocol for a multicentre randomised controlled trial. <i>BMJ Open</i> , 2017, 7, e016031.	0.8	12
69	A National Survey on Peri-interventional Management of Percutaneous Transhepatic Biliary Drainage. <i>Surgical Laparoscopy, Endoscopy and Percutaneous Techniques</i> , 2017, 27, 253-256.	0.4	3
70	Thermal quantitative sensory testing in healthy Dutch children and adolescents standardized test paradigm and Dutch reference values. <i>BMC Pediatrics</i> , 2017, 17, 77.	0.7	21
71	Paracetamol and morphine for infant and neonatal pain; still a long way to go?. <i>Expert Review of Clinical Pharmacology</i> , 2017, 10, 111-126.	1.3	23
72	Pharmacological sedation management in the paediatric intensive care unit. <i>Journal of Pharmacy and Pharmacology</i> , 2017, 69, 498-513.	1.2	20

#	ARTICLE	IF	CITATIONS
73	An international survey of management of pain and sedation after paediatric cardiac surgery. <i>BMJ Paediatrics Open</i> , 2017, 1, e000046.	0.6	19
74	Home Ventilation in South African Children: Do Socioeconomic Factors Matter?. <i>Pediatric, Allergy, Immunology, and Pulmonology</i> , 2017, 30, 163-170.	0.3	12
75	A review of blood transfusions in a trauma unit for young children. <i>South African Medical Journal</i> , 2017, 107, 227.	0.2	5
76	Adherence to All Steps of a Pain Management Protocol in Intensive Care Patients after Cardiac Surgery Is Hard to Achieve. <i>Pain Research and Management</i> , 2017, 2017, 1-7.	0.7	8
77	The hospital costs associated with acute paediatric burn injuries. <i>South African Medical Journal</i> , 2016, 106, 1120.	0.2	9
78	Treatment and outcome of unusual animal bite injuries in young children. <i>South African Medical Journal</i> , 2016, 106, 206.	0.2	8
79	Peripheral Intravenous Cannulation: Complication Rates in the Neonatal Population: A Multicenter Observational Study. <i>Journal of Vascular Access</i> , 2016, 17, 360-365.	0.5	73
80	Do Hospitalized Premature Infants Benefit from Music Interventions? A Systematic Review of Randomized Controlled Trials. <i>PLoS ONE</i> , 2016, 11, e0161848.	1.1	58
81	Procedural Pain does not raise Plasma Levels of Cortisol or Catecholamines in Adult Intensive Care Patients after Cardiac Surgery. <i>Anaesthesia and Intensive Care</i> , 2016, 44, 52-56.	0.2	5
82	Parental Physical Proximity in End-of-Life Care in the PICU. <i>Pediatric Critical Care Medicine</i> , 2016, 17, e212-e217.	0.2	19
83	Pain and distress caused by endotracheal suctioning in neonates is better quantified by behavioural than physiological items: a comparison based on item response theory modelling. <i>Pain</i> , 2016, 157, 1611-1617.	2.0	38
84	Appropriateness of care and moral distress among neonatal intensive care unit staff: repeated measurements. <i>Nursing in Critical Care</i> , 2016, 21, e19-e27.	1.1	32
85	A Comparative Analysis of Preemptive Versus Targeted Sedation on Cardiovascular Stability After High-Risk Cardiac Surgery in Infants*. <i>Pediatric Critical Care Medicine</i> , 2016, 17, 321-331.	0.2	8
86	Is the Glass Half Full or Half Empty?. <i>Neonatology</i> , 2016, 109, 122-123.	0.9	1
87	Bispectral Index Monitoring in Terminally Ill Patients: A Validation Study. <i>Journal of Pain and Symptom Management</i> , 2016, 52, 212-220.e3.	0.6	23
88	Paediatric tracheostomy and ventilation home care with challenging socio-economic circumstances in South Africa. <i>International Journal of Pediatric Otorhinolaryngology</i> , 2016, 84, 161-165.	0.4	21
89	Clinical recommendations for pain, sedation, withdrawal and delirium assessment in critically ill infants and children: an ESPNIC position statement for healthcare professionals. <i>Intensive Care Medicine</i> , 2016, 42, 972-986.	3.9	290
90	Prevalence and Implications of Abnormal Laboratory Results in Patients in the Terminal Phase of Life. <i>Journal of Palliative Medicine</i> , 2016, 19, 822-829.	0.6	8

#	ARTICLE	IF	CITATIONS
91	Pain coping strategies: Neonatal intensive care unit survivors in adolescence. <i>Early Human Development</i> , 2016, 103, 27-32.	0.8	8
92	Infants Operated on for Necrotizing Enterocolitis: Towards Evidence-Based Pain Guidelines. <i>Neonatology</i> , 2016, 110, 190-197.	0.9	12
93	Fracture patterns in young children after motor vehicle crashes. <i>Injury Prevention</i> , 2016, 22, A192.2-A192.	1.2	0
94	Pharmacodynamics and Pharmacokinetics of Morphine After Cardiac Surgery in Children With and Without Down Syndrome. <i>Pediatric Critical Care Medicine</i> , 2016, 17, 930-938.	0.2	26
95	Analgesedation in PICUs. <i>Pediatric Critical Care Medicine</i> , 2016, 17, 885-886.	0.2	1
96	How to Sustain Quality Improvements in Sedation Practice?*. <i>Pediatric Critical Care Medicine</i> , 2016, 17, 792-794.	0.2	0
97	Impaired Neurodevelopmental Outcomes in Very Preterm Infants: Much Too Easy to Blame It Just on Morphine!. <i>Journal of Pediatrics</i> , 2016, 172, 7-8.	0.9	12
98	Pain Management in Neonatal Intensive Care. <i>Clinical Journal of Pain</i> , 2015, 31, 830-835.	0.8	7
99	Pain sensitivity of children with Down syndrome and their siblings: quantitative sensory testing versus parental reports. <i>Developmental Medicine and Child Neurology</i> , 2015, 57, 1049-1055.	1.1	30
100	How to achieve adherence to a ventilation algorithm for critically ill children?. <i>Nursing in Critical Care</i> , 2015, 20, 299-307.	1.1	4
101	Neuroimaging, Pain Sensitivity, and Neuropsychological Functioning in School-Age Neonatal Extracorporeal Membrane Oxygenation Survivors Exposed to Opioids and Sedatives. <i>Pediatric Critical Care Medicine</i> , 2015, 16, 652-662.	0.2	18
