

Mario Karolyi

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/7118930/mario-karolyi-publications-by-year.pdf>

Version: 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
30	Platelets and Antiplatelet Medication in COVID-19-Related Thrombotic Complications.. <i>Frontiers in Cardiovascular Medicine</i> , 2021 , 8, 802566	5.4	1
29	A Model Predicting Mortality of Hospitalized Covid-19 Patients Four Days After Admission: Development, Internal and Temporal-External Validation.. <i>Frontiers in Cellular and Infection Microbiology</i> , 2021 , 11, 795026	5.9	0
28	Platelet Phenotype Analysis of COVID-19 Patients Reveals Progressive Changes in the Activation of Integrin α IIb β 3, F13A1, the SARS-CoV-2 Target EIF4A1 and Annexin A5. <i>Frontiers in Cardiovascular Medicine</i> , 2021 , 8, 779073	5.4	5
27	Adverse Outcome in COVID-19 Is Associated With an Aggravating Hypo-Responsive Platelet Phenotype.. <i>Frontiers in Cardiovascular Medicine</i> , 2021 , 8, 795624	5.4	1
26	Muscle involvement in SARS-CoV-2 infection. <i>European Journal of Neurology</i> , 2021 , 28, 3411-3417	6	22
25	Management of hospitalized influenza A patients during the season 2018/19 : Comparison of three medical departments and the effect on outcome and antibiotic usage. <i>Wiener Klinische Wochenschrift</i> , 2021 , 133, 1310	2.3	
24	Assessment of S1-, S2-, and NCP-Specific IgM, IgA, and IgG Antibody Kinetics in Acute SARS-CoV-2 Infection by a Microarray and Twelve Other Immunoassays. <i>Journal of Clinical Microbiology</i> , 2021 , 59,	9.7	15
23	COVID-19 is not "just another flu": a real-life comparison of severe COVID-19 and influenza in hospitalized patients in Vienna, Austria. <i>Infection</i> , 2021 , 49, 907-916	5.8	1
22	Flavonifractor plautii bloodstream infection in an asplenic patient with infectious colitis. <i>Wiener Klinische Wochenschrift</i> , 2021 , 133, 724-726	2.3	3
21	Adjunctive treatment with high-titre convalescent plasma in severely and critically ill COVID-19 patients - a safe but futile intervention. A comparative cohort study. <i>Infectious Diseases</i> , 2021 , 53, 820-829	3.1	1
20	/ Correlation of Pharmacokinetics of Gentamicin, Vancomycin, Teicoplanin and Doripenem in a Bovine Blood Hemodialysis Model. <i>Frontiers in Pharmacology</i> , 2021 , 12, 702455	5.6	
19	COVID-19-associated myoclonus in a series of five critically ill patients. <i>Wiener Klinische Wochenschrift</i> , 2021 , 133, 902-908	2.3	1
18	High Dose Lopinavir/Ritonavir Does Not Lead to Sufficient Plasma Levels to Inhibit SARS-CoV-2 in Hospitalized Patients With COVID-19. <i>Frontiers in Pharmacology</i> , 2021 , 12, 704767	5.6	4
17	Late onset pulmonary embolism in young male otherwise healthy COVID-19 patients. <i>European Journal of Clinical Microbiology and Infectious Diseases</i> , 2021 , 40, 633-635	5.3	4
16	Diagnosis of COVID-19 using multiple antibody assays in two cases with negative PCR results from nasopharyngeal swabs. <i>Infection</i> , 2021 , 49, 171-175	5.8	6
15	Hydroxychloroquine versus lopinavir/ritonavir in severe COVID-19 patients : Results from a real-life patient cohort. <i>Wiener Klinische Wochenschrift</i> , 2021 , 133, 284-291	2.3	22
14	COVID-19 fatality prediction in people with diabetes and prediabetes using a simple score upon hospital admission. <i>Diabetes, Obesity and Metabolism</i> , 2021 , 23, 589-598	6.7	21

13	Gender differences and influenza-associated mortality in hospitalized influenza A patients during the 2018/19 season. <i>Infection</i> , 2021 , 49, 103-110	5.8	1
12	Low molecular weight heparin use in COVID-19 is associated with curtailed viral persistence-a retrospective multicenter observational study. <i>Cardiovascular Research</i> , 2021 ,	9.9	6
11	Clinical and Angiographic Features in Three COVID-19 Patients with Takotsubo Cardiomyopathy. Case Report. <i>SN Comprehensive Clinical Medicine</i> , 2021 , 3, 1-6	2.7	2
10	Detection of bacteria via multiplex PCR in respiratory samples of critically ill COVID-19 patients with suspected HAP/VAP in the ICU. <i>Wiener Klinische Wochenschrift</i> , 2021 , 1	2.3	2
9	Performance of Severe Acute Respiratory Syndrome Coronavirus 2 Antibody Assays in Different Stages of Infection: Comparison of Commercial Enzyme-Linked Immunosorbent Assays and Rapid Tests. <i>Journal of Infectious Diseases</i> , 2020 , 222, 362-366	7	47
8	Successful management of the first reported case in Austria of COVID-19 with ARDS. <i>Infection</i> , 2020 , 48, 647-651	5.8	7
7	A High-Fat Diet Increases Influenza A Virus-Associated Cardiovascular Damage. <i>Journal of Infectious Diseases</i> , 2020 , 222, 820-831	7	15
6	F-prostate-specific membrane antigen positron emission tomography computed tomography incidental finding in a patient after COVID-19 infection. <i>World Journal of Nuclear Medicine</i> , 2020 , 19, 455-456	0.6	0
5	Genomic epidemiology of superspreading events in Austria reveals mutational dynamics and transmission properties of SARS-CoV-2. <i>Science Translational Medicine</i> , 2020 , 12,	17.5	110
4	Pharmacokinetics of Lopinavir and Ritonavir in Patients Hospitalized With Coronavirus Disease 2019 (COVID-19). <i>Annals of Internal Medicine</i> , 2020 , 173, 670-672	8	44
3	Influenza virus infection: an approach to identify predictors for in-hospital and 90-day mortality from patients in Vienna during the season 2017/18. <i>Infection</i> , 2020 , 48, 51-56	5.8	12
2	Is there a clinical difference between influenza A and B virus infections in hospitalized patients? : Results after routine polymerase chain reaction point-of-care testing in the emergency room from 2017/2018. <i>Wiener Klinische Wochenschrift</i> , 2019 , 131, 362-368	2.3	5
1	Hypoalbuminemia as predictor of recurrence of Clostridium difficile infection. <i>Wiener Klinische Wochenschrift</i> , 2019 , 131, 68-74	2.3	10
