#	ARTICLE	IF	CITATIONS
1	Managing Chronic Disease in Ontario Primary Care: The Impact of Organizational Factors. <i>Annals of Family Medicine</i> , 2009, 7, 309-318.	0.9	158
2	A Comprehensive Assessment of Family Physician Gender and Quality of Care. <i>Medical Care</i> , 2016, 54, 277-286.	1.1	100
3	Impact of remuneration and organizational factors on completing preventive manoeuvres in primary care practices. <i>Cmaj</i> , 2012, 184, E135-E143.	0.9	53
4	A real-world stepped wedge cluster randomized trial of practice facilitation to improve cardiovascular care. <i>Implementation Science</i> , 2015, 10, 150.	2.5	43
5	Primary Care Physician Panel Size and Quality of Care: A Population-Based Study in Ontario, Canada. <i>Annals of Family Medicine</i> , 2016, 14, 26-33.	0.9	40
6	Improved delivery of cardiovascular care (IDOCC) through outreach facilitation: study protocol and implementation details of a cluster randomized controlled trial in primary care. <i>Implementation Science</i> , 2011, 6, 110.	2.5	33
7	Community orientation in primary care practices: Results from the Comparison of Models of Primary Health Care in Ontario Study. <i>Canadian Family Physician</i> , 2010, 56, 676-83.	0.1	33
8	Access to primary health care for immigrants: results of a patient survey conducted in 137 primary care practices in Ontario, Canada. <i>BMC Family Practice</i> , 2012, 13, 128.	2.9	32
9	The Comparison of Models of Primary Care in Ontario (COMP-PC) study: methodology of a multifaceted cross-sectional practice-based study. <i>Open Medicine</i> , 2009, 3, e149-64.	1.5	30
10	Comparison of primary care models in the prevention of cardiovascular disease - a cross sectional study. <i>BMC Family Practice</i> , 2011, 12, 114.	2.9	28
11	Health promotion activity in primary care: performance of models and associated factors. <i>Open Medicine</i> , 2009, 3, e165-73.	1.5	25
12	Activities performed by pharmacists integrated in family health teams: Results from a web-based survey. <i>Canadian Pharmacists Journal</i> , 2017, 150, 407-416.	0.4	24
13	What is the impact of primary care model type on specialist referral rates? A cross-sectional study. <i>BMC Family Practice</i> , 2014, 15, 22.	2.9	22
14	Roles of nurse practitioners and family physicians in community health centres. <i>Canadian Family Physician</i> , 2014, 60, 1020-7.	0.1	21
15	Cancer screening inequities in a time of primary care reform: a population-based longitudinal study in Ontario, Canada. <i>BMC Family Practice</i> , 2018, 19, 147.	2.9	20
16	High-performing physicians are more likely to participate in a research study: findings from a quality improvement study. <i>BMC Medical Research Methodology</i> , 2019, 19, 171.	1.4	17
17	An evaluation of gender equity in different models of primary care practices in Ontario. <i>BMC Public Health</i> , 2010, 10, 151.	1.2	16
18	Patient poverty and workload in primary care: study of prescription drug benefit recipients in community health centres. <i>Canadian Family Physician</i> , 2013, 59, 384-90.	0.1	16

#	ARTICLE	IF	CITATIONS
19	The impact of the adoption of a patient rostering model on primary care access and continuity of care in urban family practices in Ontario, Canada. <i>BMC Family Practice</i> , 2019, 20, 52.	2.9	15
20	Delivery of primary health care to persons who are socio-economically disadvantaged: does the organizational delivery model matter?. <i>BMC Health Services Research</i> , 2013, 13, 517.	0.9	13
21	Age equity in different models of primary care practice in Ontario. <i>Canadian Family Physician</i> , 2011, 57, 1300-9.	0.1	13
22	Impact of health care reform on enrolment of immigrants in primary care in Ontario, Canada. <i>Family Practice</i> , 2018, 36, 445-451.	0.8	12
23	Patient perspectives on quality of care for depression and anxiety in primary health care teams: A qualitative study. <i>Health Expectations</i> , 2021, 24, 1168-1177.	1.1	12
24	Equity of primary care service delivery for low income sicker adults across 10 OECD countries. <i>International Journal for Equity in Health</i> , 2018, 17, 182.	1.5	11
25	Patients' engagement in primary care research: a case study in a Canadian context. <i>Research Involvement and Engagement</i> , 2020, 6, 65.	1.1	10
26	Hospital admission rates and emergency department use in relation to glycosylated hemoglobin in people with diabetes mellitus: a linkage study using electronic medical record and administrative data in Ontario. <i>CMAJ Open</i> , 2017, 5, E557-E564.	1.1	9
27	Building capacity for medical education research in family medicine: the Program for Innovation in Medical Education (PIME). <i>Health Research Policy and Systems</i> , 2017, 15, 91.	1.1	7
28	Methods for a study of Anticipatory and Preventive multidisciplinary Team Care in a family practice. <i>Canadian Family Physician</i> , 2010, 56, e73-83.	0.1	7
29	Long term outcomes of cluster randomized trial to improve cardiovascular health at population level: The Cardiovascular Health Awareness Program (CHAP). <i>PLoS ONE</i> , 2018, 13, e0201802.	1.1	6
30	Inequities in the delivery of mental health care: a grounded theory study of the policy context of primary care. <i>International Journal for Equity in Health</i> , 2021, 20, 144.	1.5	6
31	Access to Resources in the Community Through Navigation: Protocol for a Mixed-Methods Feasibility Study. <i>JMIR Research Protocols</i> , 2019, 8, e11022.	0.5	5
32	Pragmatic Strategy Empowering Paramedics to Assess Low-Risk Trauma Patients With the Canadian C-Spine Rule and Selectively Transport Them Without Immobilization: Protocol for a Stepped-Wedge Cluster Randomized Trial. <i>JMIR Research Protocols</i> , 2020, 9, e16966.	0.5	5
33	Engaging patients to improve equitable access to community resources. <i>Cmaj</i> , 2018, 190, S46-S47.	0.9	4
34	Early Psychosis Intervention-Spreading Evidence-based Treatment (EPI-SET): protocol for an effectiveness-implementation study of a structured model of care for psychosis in youth and emerging adults. <i>BMJ Open</i> , 2020, 10, e034280.	0.8	3
35	Adopting a lay navigator training programme in primary care. <i>Health Education Journal</i> , 2021, 80, 210-224.	0.6	2
