

# Philipp Sprengholz

## List of Publications by Citations

**Source:** <https://exaly.com/author-pdf/7145415/philipp-sprengholz-publications-by-citations.pdf>  
**Version:** 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.  
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

24 papers	397 citations	8 h-index	19 g-index
37 ext. papers	647 ext. citations	6.3 avg, IF	4.48 L-index

#	Paper	IF	Citations
24	Ten considerations for effectively managing the COVID-19 transition. <i>Nature Human Behaviour</i> , <b>2020</b> , 4, 677-687	12.8	133
23	Social and behavioral consequences of mask policies during the COVID-19 pandemic. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , <b>2020</b> , 117, 21851-21853	11.5	114
22	Reactance revisited: Consequences of mandatory and scarce vaccination in the case of COVID-19. <i>Applied Psychology: Health and Well-Being</i> , <b>2021</b> , 13, 986-995	6.8	25
21	Herd immunity communication counters detrimental effects of selective vaccination mandates: Experimental evidence. <i>EClinicalMedicine</i> , <b>2020</b> , 22, 100352	11.3	21
20	Money is not everything: experimental evidence that payments do not increase willingness to be vaccinated against COVID-19. <i>Journal of Medical Ethics</i> , <b>2021</b> , 47, 547-548	2.5	19
19	Perceptions of Health Care Use in Germany during the COVID-19 Pandemic. <i>International Journal of Environmental Research and Public Health</i> , <b>2020</b> , 17,	4.6	13
18	Vaccination policy reactance: Predictors, consequences, and countermeasures. <i>Journal of Health Psychology</i> , <b>2021</b> , 13591053211044535	3.1	12
17	The power of choice: Experimental evidence that freedom to choose a vaccine against COVID-19 improves willingness to be vaccinated. <i>European Journal of Internal Medicine</i> , <b>2021</b> , 87, 106-108	3.9	7
16	Age Differences in COVID-19 Preventive Behavior. <i>European Psychologist</i> , <b>2021</b> , 26, 359-372	4.4	6
15	Vaccination Policy Reactance: Predictors, Consequences, and Countermeasures		5
14	Allocation of COVID-19 vaccination: when public prioritisation preferences differ from official regulations. <i>Journal of Medical Ethics</i> , <b>2021</b> ,	2.5	4
13	Attitude toward a mandatory COVID-19 vaccination policy and its determinants: Evidence from serial cross-sectional surveys conducted throughout the pandemic in Germany.. <i>Vaccine</i> , <b>2022</b> ,	4.1	3
12	Infographic on SARS-CoV-2 Airborne Transmission Improves Opponents' View of the Benefits of Masks: Evidence from Serial Cross-Sectional and Experimental Data		3
11	Comment on: "Willingness to Pay for a COVID-19 Vaccine". <i>Applied Health Economics and Health Policy</i> , <b>2021</b> , 19, 619-621	3.4	3
10	Empirical evidence to understand the human factor for effective rapid testing against SARS-CoV-2. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , <b>2021</b> , 118,	11.5	3
9	Social and behavioral consequences of mask policies during the COVID-19 pandemic		2
8	The human factor between airborne pollen concentrations and COVID-19 disease dynamics. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , <b>2021</b> , 118,	11.5	2

7	Payments and freedoms: Effects of monetary and legal incentives on COVID-19 vaccination intentions in Germany. <i>PLoS ONE</i> , <b>2022</b> , 17, e0268911	3.7	2
6	Risk information alone is not sufficient to reduce optimistic bias. <i>Research in Social and Administrative Pharmacy</i> , <b>2021</b> , 17, 1026-1027	2.9	1
5	Ok Google: Using virtual assistants for data collection in psychological and behavioral research. <i>Behavior Research Methods</i> , <b>2021</b> , 1	6.1	1
4	Good night: Experimental evidence that nighttime curfews may fuel disease dynamics by increasing contact density. <i>Social Science and Medicine</i> , <b>2021</b> , 286, 114324	5.1	1
3	Previous SARS-CoV-2 infection is linked to lower vaccination intentions. <i>Journal of Medical Virology</i> , <b>2021</b> , 93, 6456-6457	19.7	0
2	Zero-sum or worse? Considering detrimental effects of selective mandates on voluntary childhood vaccinations. <i>Journal of Pediatrics</i> , <b>2021</b> ,	3.6	0
1	A lay perspective on prioritization for intensive care in pandemic times: Vaccination status matters. <i>Clinical Ethics</i> , 147775092210944	1	0
