#	Article	IF	CITATIONS
1	The impact of a daily smartphone-based feedback system among women with gestational diabetes on compliance, glycemic control, satisfaction, and pregnancy outcome: a randomized controlled trial. American Journal of Obstetrics and Gynecology, 2018, 218, 453.e1-453.e7.	1.3	97
2	The association between severe fetal congenital heart defects and placental vascular malperfusion lesions. Prenatal Diagnosis, 2019, 39, 962-967.	2.3	29
3	The association between isolated oligohydramnios at term and placental pathology in correlation with pregnancy outcomes. Placenta, 2020, 90, 37-41.	1.5	18
4	Placental histopathology lesions and pregnancy outcome in pregnancies complicated with symptomatic vs. non-symptomatic placenta previa. Early Human Development, 2016, 101, 85-89.	1.8	14
5	Single versus repeat doses of misoprostol for treatment of early pregnancy loss—a randomized clinical trial. Human Reproduction, 2017, 32, 1202-1207.	0.9	14
6	The effects of maternal smoking on pregnancy outcome and placental histopathology lesions. Reproductive Toxicology, 2016, 65, 24-28.	2.9	13
7	Preterm uterine contractions ultimately delivered at term: safe but not out of danger. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2016, 199, 1-4.	1.1	11
8	Protracted postpartum urinary retention—a long-term problem or a transient condition?. International Urogynecology Journal, 2020, 31, 513-519.	1.4	9
9	Is advanced maternal age associated with placental vascular malperfusion? A prospective study from a single tertiary center. Archives of Gynecology and Obstetrics, 2020, 301, 1441-1447.	1.7	9
10	Smartphone-based counseling and support platform and the effect on postpartum lactation: a randomized controlled trial. American Journal of Obstetrics & Gynecology MFM, 2022, 4, 100543.	2.6	9
11	Histological chorioamnionitis at term according to labor onset: a prospective controlled study. Journal of Perinatology, 2019, 39, 581-587.	2.0	8
12	Placental vascular lesions differ between male and female fetuses in early-onset preeclampsia. Archives of Gynecology and Obstetrics, 2022, 306, 717-722.	1.7	3
13	An informative video before planned cesarean delivery and maternal anxiety—a multicenter randomized controlled trial. American Journal of Obstetrics & Gynecology MFM, 2022, 4, 100604.	2.6	3
14	When is the right time to remove staples after an elective cesarean delivery?: a randomized control trial. Journal of Maternal-Fetal and Neonatal Medicine, 2020, 33, 4004-4009.	1.5	2
15	Placental Lesions and Pregnancy Outcome in Anterior as Compared to Posterior Placenta Previa. Reproductive Sciences, 2021, 28, 3241-3247.	2.5	2
16	The effect of aspirin on placental vessels reactivity using the ex-vivo placental perfusion model. Thrombosis Research, 2018, 170, 84-86.	1.7	1
17	Should the interval between doses of antenatal corticosteroids be shortened in certain cases? Factors predicting preterm delivery < 48Âh from presentation. Archives of Gynecology and Obstetrics, 2021, 304, 913-918.	1.7	1
18	Perinatal outcomes and placental histology in smallâ€forâ€gestationalâ€age pregnancies—A comparison of populationâ€based and universal growth charts. International Journal of Gynecology and Obstetrics, 2022, 159, 825-832.	2.3	1

#	Article	IF	CITATIONS
19	Management of pregnancies with suspected preeclampsia based on 6-hour vs 24-hour urine protein collection—a randomized double-blind controlled pilot trial. American Journal of Obstetrics & Gynecology MFM, 2021, 3, 100429.	2.6	0
20	Is there an impact of fetal sex in dichorionic discordant twins on placental histopathological abnormalities?. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2022, 274, 166-170.	1.1	0
