

W Charles Huskins

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/7175929/w-charles-huskins-publications-by-year.pdf>

Version: 2024-04-20

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
84	Short- vs Standard-Course Outpatient Antibiotic Therapy for Community-Acquired Pneumonia in Children: The SCOUT-CAP Randomized Clinical Trial.. <i>JAMA Pediatrics</i> , 2022 ,	8.3	7
83	Comparison of the Respiratory Resistomes and Microbiota in Children Receiving Short versus Standard Course Treatment for Community-Acquired Pneumonia.. <i>MBio</i> , 2022 , e0019522	7.8	1
82	Myocarditis Following COVID-19 mRNA Vaccine: A Case Series and Incidence Rate Determination. <i>Clinical Infectious Diseases</i> , 2021 ,	11.6	12
81	Pediatric research priorities in healthcare-associated infections and antimicrobial stewardship. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 42, 519-522	2	2
80	Hand hygiene and the sequence of patient care. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-6	2	1
79	The impact of workload on hand hygiene compliance: Is 100% compliance achievable?. <i>Infection Control and Hospital Epidemiology</i> , 2021 , 1-3	2	0
78	Development of a Quality Improvement Learning Collaborative to Improve Pediatric Sepsis Outcomes. <i>Pediatrics</i> , 2021 , 147,	7.4	11
77	Effectiveness of Contact Precautions to Prevent Transmission of Methicillin-Resistant Staphylococcus aureus and Vancomycin-Resistant Enterococci in Intensive Care Units. <i>Clinical Infectious Diseases</i> , 2021 , 72, S42-S49	11.6	2
76	Initial Guidance on Use of Monoclonal Antibody Therapy for Treatment of Coronavirus Disease 2019 in Children and Adolescents. <i>Journal of the Pediatric Infectious Diseases Society</i> , 2021 , 10, 629-634	4.8	30
75	158. Intra- and Inter-hospital Epidemiology of Carbapenem-resistant klebsiella Pneumoniae in US Hospitals. <i>Open Forum Infectious Diseases</i> , 2020 , 7, S208-S209	1	
74	1374. Carbapenem-Resistant Enterobacterales Infection in Children: Clinical and Molecular Data from a Prospective Multicenter Cohort Study. <i>Open Forum Infectious Diseases</i> , 2020 , 7, S697-S697	1	
73	175. Randomized Double-blind Controlled Trial of Short vs. Standard Course Outpatient Therapy of Community Acquired Pneumonia in Children (SCOUT-CAP). <i>Open Forum Infectious Diseases</i> , 2020 , 7, S216 ¹ -S216 ¹		
72	How We Approach Central Venous Catheter Safety: A Multidisciplinary Perspective. <i>Journal of the Pediatric Infectious Diseases Society</i> , 2020 , 9, 87-91	4.8	1
71	Evaluating Pediatric Sepsis Definitions Designed for Electronic Health Record Extraction and Multicenter Quality Improvement. <i>Critical Care Medicine</i> , 2020 , 48, e916-e926	1.4	10
70	Adaptive Designs for Clinical Trials: Application to Healthcare Epidemiology Research. <i>Clinical Infectious Diseases</i> , 2018 , 66, 1140-1146	11.6	9
69	Humidity as a non-pharmaceutical intervention for influenza A. <i>PLoS ONE</i> , 2018 , 13, e0204337	3.7	20
68	Whole-genome sequencing for methicillin-resistant Staphylococcus aureus (MRSA) outbreak investigation in a neonatal intensive care unit. <i>Infection Control and Hospital Epidemiology</i> , 2018 , 39, 1412 ² -1418 ¹⁴		

67	The Brief Case: A 10-Year-Old Girl with Meningoencephalitis. <i>Journal of Clinical Microbiology</i> , 2018 , 56,	9.7	1
66	Closing the Brief Case: A 10-Year-Old Girl with Meningoencephalitis. <i>Journal of Clinical Microbiology</i> , 2018 , 56,	9.7	1
65	A Dynamic Transmission Model to Evaluate the Effectiveness of Infection Control Strategies. <i>Open Forum Infectious Diseases</i> , 2017 , 4, ofw247	1	8
64	The Association of Central-Line-Associated Bloodstream Infections With Central-Line Utilization Rate and Maintenance Bundle Compliance Among Types of PICUs. <i>Pediatric Critical Care Medicine</i> , 2016 , 17, 591-7	3	2
63	Promotion of Influenza Prevention Beliefs and Behaviors through Primary School Science Education 2016 , 6,		3
62	Monocyte HLA-DR expression and neutrophil CD64 expression as biomarkers of infection in critically ill neonates and infants. <i>Pediatric Research</i> , 2015 , 78, 683-90	3.2	17
61	Influenza knowledge, attitude, and behavior survey for grade school students: design and novel assessment methodology. <i>Journal of Community Health</i> , 2014 , 39, 1231-40	4	1
60	Training mentors of clinical and translational research scholars: a randomized controlled trial. <i>Academic Medicine</i> , 2014 , 89, 774-82	3.9	150
59	Clostridium septicum brain abscesses in a premature neonate. <i>Pediatric Infectious Disease Journal</i> , 2014 , 33, 538-40	3.4	4
58	Central line-associated bloodstream infections in neonates with gastrointestinal conditions: developing a candidate definition for mucosal barrier injury bloodstream infections. <i>Infection Control and Hospital Epidemiology</i> , 2014 , 35, 1391-9	2	7
57	Standardizing central line safety: lessons learned for physician leaders. <i>American Journal of Medical Quality</i> , 2014 , 29, 191-9	1.1	15
56	Predictors of indoor absolute humidity and estimated effects on influenza virus survival in grade schools. <i>BMC Infectious Diseases</i> , 2013 , 13, 71	4	31
55	Novel infrastructure for sepsis biomarker research in critically ill neonates and children. <i>Clinical and Translational Science</i> , 2013 , 6, 21-5	4.9	3
54	Catheter dwell time and CLABSIs in neonates with PICCs: a multicenter cohort study. <i>Pediatrics</i> , 2013 , 132, e1609-15	7.4	92
53	The epidemiology of Clostridium difficile infection in children: a population-based study. <i>Clinical Infectious Diseases</i> , 2013 , 56, 1401-6	11.6	158
52	Evaluating application of the National Healthcare Safety Network central line-associated bloodstream infection surveillance definition: a survey of pediatric intensive care and hematology/oncology units. <i>Infection Control and Hospital Epidemiology</i> , 2013 , 34, 663-70	2	17
51	Quality improvement interventions to prevent healthcare-associated infections in neonates and children. <i>Current Opinion in Pediatrics</i> , 2012 , 24, 103-12	3.2	17
50	Tracking the impact of the National Institutes of Health Clinical and Translational Science Awards on child health research: developing and evaluating a measurement strategy. <i>Pediatric Research</i> , 2012 , 71, 619-24	3.2	5

49	Mentoring translational science investigators. <i>JAMA - Journal of the American Medical Association</i> , 2012 , 308, 1981-2	27.4	34
48	Diagnosing and reporting of central line-associated bloodstream infections. <i>Infection Control and Hospital Epidemiology</i> , 2012 , 33, 875-82	2	29
47	Reply: Evaluation of respiration and heart rate decreases reliability of the pediatric systemic inflammatory response syndrome definition. <i>Pediatric Critical Care Medicine</i> , 2012 , 13, 371-2	3	
46	Reliability of the identification of the systemic inflammatory response syndrome in critically ill infants and children. <i>Pediatric Critical Care Medicine</i> , 2012 , 13, e55-7	3	7
45	Intervention to reduce transmission of resistant bacteria in intensive care. <i>New England Journal of Medicine</i> , 2011 , 364, 1407-18	59.2	288
44	Epidemiology and outcome of Gram-negative bloodstream infection in children: a population-based study. <i>Epidemiology and Infection</i> , 2011 , 139, 791-6	4.3	18
43	Identifying and aligning expectations in a mentoring relationship. <i>Clinical and Translational Science</i> , 2011 , 4, 439-47	4.9	42
42	Molecular epidemiology of methicillin-resistant <i>Staphylococcus aureus</i> (MRSA) among patients admitted to adult intensive care units: the STAR*ICU trial. <i>Infection Control and Hospital Epidemiology</i> , 2011 , 32, 1057-63	2	22
41	Epidemiology of central line-associated bloodstream infections in the pediatric intensive care unit. <i>Infection Control and Hospital Epidemiology</i> , 2011 , 32, 1200-8	2	52
40	Reducing PICU central line-associated bloodstream infections: 3-year results. <i>Pediatrics</i> , 2011 , 128, e1077-83	4.3	138
39	Decreasing PICU catheter-associated bloodstream infections: NACHRI ² quality transformation efforts. <i>Pediatrics</i> , 2010 , 125, 206-13	7.4	283
38	Dissemination of an <i>Enterococcus</i> Inc18-Like vanA plasmid associated with vancomycin-resistant <i>Staphylococcus aureus</i> . <i>Antimicrobial Agents and Chemotherapy</i> , 2010 , 54, 4314-20	5.9	85
37	The past, present, and future of healthcare-associated infection prevention in pediatrics: viral respiratory infections. <i>Infection Control and Hospital Epidemiology</i> , 2010 , 31 Suppl 1, S22-6	2	5
36	The past, present, and future of healthcare-associated infection prevention in pediatrics: catheter-associated bloodstream infections. <i>Infection Control and Hospital Epidemiology</i> , 2010 , 31 Suppl 1, S27-31	2	19
35	The past, present, and future of healthcare-associated infection prevention in pediatrics: multidrug-resistant organisms. <i>Infection Control and Hospital Epidemiology</i> , 2010 , 31 Suppl 1, S18-21	2	11
34	Conclusion about the association between valve surgery and mortality in an infective endocarditis cohort changed after adjusting for survivor bias. <i>Journal of Clinical Epidemiology</i> , 2010 , 63, 130-5	5.7	25
33	Propensity score analysis with a time-dependent intervention is an acceptable although not an optimal analytical approach when treatment selection bias and survivor bias coexist. <i>Journal of Clinical Epidemiology</i> , 2010 , 63, 139-40	5.7	6
32	Impact of enhanced infection control at 2 neonatal intensive care units in the Philippines. <i>Clinical Infectious Diseases</i> , 2009 , 48, 13-21	11.6	43

31	Predicting clearance of colonization with vancomycin-resistant Enterococci and methicillin-resistant Staphylococcus aureus by use of weekly surveillance cultures. <i>Journal of Clinical Microbiology</i> , 2009 , 47, 1229-30	9.7	14
30	Outcome of critically ill patients with influenza virus infection. <i>Journal of Clinical Virology</i> , 2009 , 46, 275-84	8.5	35
29	Incidence of Invasive Pneumococcal Disease Among Children After Introduction of a 7-Valent Pneumococcal Conjugate Vaccine: A Population-Based Study in Olmsted County, Minnesota. <i>Mayo Clinic Proceedings</i> , 2009 , 84, 871-875	6.4	5
28	HEALTH CARE-ASSOCIATED INFECTIONS 2009 , 3076-3120		
27	PROGRAMS TO PREVENT AND CONTROL HEALTH CARE-ASSOCIATED INFECTIONS 2009 , 3121-3129		
26	Training the next generation of translational science teams. <i>Clinical and Translational Science</i> , 2008 , 1, 94-5, 98	4.9	1
25	The association between the timing of valve surgery and 6-month mortality in left-sided infective endocarditis. <i>Heart</i> , 2008 , 94, 892-6	5.1	26
24	Design and methodology of the Strategies to Reduce Transmission of Antimicrobial Resistant Bacteria in Intensive Care Units (STAR-ICU) trial. <i>Infection Control and Hospital Epidemiology</i> , 2007 , 28, 245-6; author reply 246-8	2	6
23	Legislative mandates for use of active surveillance cultures to screen for methicillin-resistant Staphylococcus aureus and vancomycin-resistant enterococci: position statement from the Joint SHEA and APIC Task Force. <i>Infection Control and Hospital Epidemiology</i> , 2007 , 28, 249-60	2	100
22	Infectious Diseases Society of America and the Society for Healthcare Epidemiology of America guidelines for developing an institutional program to enhance antimicrobial stewardship. <i>Clinical Infectious Diseases</i> , 2007 , 44, 159-77	11.6	2836
21	The impact of valve surgery on 6-month mortality in left-sided infective endocarditis. <i>Circulation</i> , 2007 , 115, 1721-8	16.7	97
20	Health care epidemiology perspective on the October 2006 recommendations of the Subcommittee on Diagnosis and Management of Bronchiolitis. <i>Pediatrics</i> , 2007 , 120, 890-2	7.4	16
19	Interventions to prevent transmission of antimicrobial-resistant bacteria in the intensive care unit. <i>Current Opinion in Critical Care</i> , 2007 , 13, 572-7	3.5	16
18	Legislative mandates for use of active surveillance cultures to screen for methicillin-resistant Staphylococcus aureus and vancomycin-resistant enterococci: Position statement from the Joint SHEA and APIC Task Force. <i>American Journal of Infection Control</i> , 2007 , 35, 73-85	3.8	111
17	Controlling methicillin-resistant Staphylococcus aureus, aka "Superbug". <i>Lancet, The</i> , 2005 , 365, 273-5	4.0	25
16	Hospital-acquired neonatal infections in developing countries. <i>Lancet, The</i> , 2005 , 365, 1175-88	4.0	457
15	Use of antimicrobial agents in United States neonatal and pediatric intensive care patients. <i>Pediatric Infectious Disease Journal</i> , 2005 , 24, 766-73	3.4	129
14	A new prognostic scoring system for meningococcal septic shock in children: comparison with three other scoring systems. <i>Intensive Care Medicine</i> , 2003 , 29, 333; author reply 334	14.5	1

13	Administrative databases provide inaccurate data for surveillance of long-term central venous catheter-associated infections. <i>Infection Control and Hospital Epidemiology</i> , 2003 , 24, 946-9	2	54
12	Reducing infections among women undergoing cesarean section in Colombia by means of continuous quality improvement methods. <i>Archives of Internal Medicine</i> , 2001 , 161, 2357-65		62
11	An international survey of practice variation in the use of antibiotic prophylaxis in cesarean section. <i>International Journal of Gynecology and Obstetrics</i> , 2001 , 73, 141-5	4	30
10	Transmission and control of infections in out-of-home child care. <i>Pediatric Infectious Disease Journal</i> , 2000 , 19, S106-10	3.4	28
9	Risk-adjusted infection rates in surgery: a model for outcome measurement in hospitals developing new quality improvement programmes. <i>Journal of Hospital Infection</i> , 2000 , 44, 43-52	6.9	18
8	The association between antecedent vancomycin treatment and hospital-acquired vancomycin-resistant enterococci: a meta-analysis. <i>Archives of Internal Medicine</i> , 1999 , 159, 2461-8		107
7	Pneumocystis carinii presenting as a mediastinal mass in a child with acquired immunodeficiency syndrome. <i>Pediatric Infectious Disease Journal</i> , 1999 , 18, 827-31	3.4	5
6	Hospital Infection Prevention and Control: A Model for Improving the Quality of Hospital Care in Low- and Middle-Income Countries. <i>Infection Control and Hospital Epidemiology</i> , 1998 , 19, 125-135	2	22
5	Cerebrospinal fluid pleocytosis and prognosis in invasive meningococcal disease in children. <i>Pediatric Infectious Disease Journal</i> , 1998 , 17, 855-9	3.4	14
4	Control of nosocomial antimicrobial-resistant bacteria: a strategic priority for hospitals worldwide. <i>Clinical Infectious Diseases</i> , 1997 , 24 Suppl 1, S139-45	11.6	64
3	Multivariable predictive models for adverse outcome of invasive meningococcal disease in children. <i>Journal of Pediatrics</i> , 1996 , 129, 702-10	3.6	39
2	Shigellosis in neonates and young infants. <i>Journal of Pediatrics</i> , 1994 , 125, 14-22	3.6	33
1	Humidity as a non-pharmaceutical intervention for influenza A		1
