

Gabrielle H Saunders

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/7179801/gabrielle-h-saunders-publications-by-year.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
93	Shedding Light on SARS-CoV-2, COVID-19, COVID-19 Vaccination, and Auditory Symptoms: Causality or Spurious Conjunction?. <i>Frontiers in Public Health</i> , 2022 , 10, 837513	6	1
92	Impact of SARS-CoV-2 Virus (COVID-19) Preventative Measures on Communication: A Scoping Review.. <i>Frontiers in Public Health</i> , 2022 , 10, 815259	6	4
91	Electronic Health Records As a Platform for Audiological Research: Data Validity, Patient Characteristics, and Hearing-Aid Use Persistence Among 731,213 U.S. Veterans. <i>Ear and Hearing</i> , 2021 , 42, 927-940	3.4	4
90	Impacts of face coverings on communication: an indirect impact of COVID-19. <i>International Journal of Audiology</i> , 2021 , 60, 495-506	2.6	38
89	Audiological approaches to address the psychosocial needs of adults with hearing loss: perceived benefit and likelihood of use. <i>International Journal of Audiology</i> , 2021 , 60, 12-19	2.6	3
88	Changing the narrative for hearing health in the broader context of healthy living: a call to action. <i>International Journal of Audiology</i> , 2021 , 60, 86-91	2.6	4
87	The Presence of Another Individual Influences Listening Effort, But Not Performance. <i>Ear and Hearing</i> , 2021 , 42, 1577-1589	3.4	1
86	Hearing Health Care Utilization Following Automated Hearing Screening. <i>Journal of the American Academy of Audiology</i> , 2021 , 32, 235-245	1.3	1
85	A Measure of Long-Term Hearing Aid Use Persistence Based on Battery Reordering Data. <i>Ear and Hearing</i> , 2021 , 42, 1441-1444	3.4	1
84	A scoping review of studies investigating hearing loss, social isolation and/or loneliness in adults. <i>International Journal of Audiology</i> , 2021 , 60, 30-46	2.6	6
83	Heterogeneity in Vision, Hand Function, Cognition, and Health Literacy Among Older Veterans: Impacts, Outcomes, and Clinical Recommendations for First-Time Hearing Aid Users. <i>Journal of the American Academy of Audiology</i> , 2021 , 32, 355-365	1.3	
82	Barriers and facilitators to delivery of group audiological rehabilitation programs: a survey based on the COM-B model. <i>International Journal of Audiology</i> , 2021 , 1-10	2.6	3
81	Identifying the approaches used by audiologists to address the psychosocial needs of their adult clients. <i>International Journal of Audiology</i> , 2021 , 60, 104-114	2.6	13
80	Audiology in the time of COVID-19: practices and opinions of audiologists in the UK. <i>International Journal of Audiology</i> , 2021 , 60, 255-262	2.6	36
79	The everyday acoustic environment and its association with human heart rate: evidence from real-world data logging with hearing aids and wearables. <i>Royal Society Open Science</i> , 2021 , 8, 201345	3.3	3
78	Factors Associated With Self-Perceived Hearing Handicap in Adults From Hispanic/Latino Background: Findings From the Hispanic Community Health Study/Study of Latinos. <i>Ear and Hearing</i> , 2021 , 42, 762-771	3.4	0
77	Real-World Hearing Aid Usage Patterns and Smartphone Connectivity. <i>Frontiers in Digital Health</i> , 2021 , 3, 722186	2.3	4

76	Introduction for the 4th International Meeting on Internet and Audiology Special Issue of the <i>American Journal of Audiology</i> , 2020 , 29, 535-537	1.8	
75	Insights Into Conducting Audiological Research With Clinical Databases. <i>American Journal of Audiology</i> , 2020 , 29, 676-681	1.8	4
74	Hearing Care Providers' Perspectives on the Utility of Datalogging Information. <i>American Journal of Audiology</i> , 2020 , 29, 610-622	1.8	4
73	Application of Big Data to Support Evidence-Based Public Health Policy Decision-Making for Hearing. <i>Ear and Hearing</i> , 2020 , 41, 1057-1063	3.4	12
72	Content validity and readability of patient-reported questionnaire instruments of hearing disability. <i>International Journal of Audiology</i> , 2019 , 58, 565-575	2.6	8
71	Hearing Aid Prevalence and Factors Related to Use Among Older Adults From the Hispanic Community Health Study/Study of Latinos. <i>JAMA Otolaryngology - Head and Neck Surgery</i> , 2019 , 145, 501-508	3.9	18
70	Enhancing Screening Systems to Facilitate Hearing-Healthcare Access: A Qualitative Study. <i>Journal of the American Academy of Audiology</i> , 2019 , 30, 250-263	1.3	2
69	Hearing Screening in the Community. <i>Journal of the American Academy of Audiology</i> , 2019 , 30, 145-152	1.3	5
68	Development of a hearing help-seeking questionnaire based on the theory of planned behavior. <i>International Journal of Audiology</i> , 2019 , 58, 287-295	2.6	1
67	The Impact of Communication Impairments on the Social Relationships of Older Adults: Pathways to Psychological Well-Being. <i>Journal of Speech, Language, and Hearing Research</i> , 2019 , 62, 1-21	2.8	23
66	Challenges and Strengths of Multidisciplinary Research in Audiology: The EVOTION Example. <i>American Journal of Audiology</i> , 2019 , 28, 1046-1051	1.8	2
65	Key Findings From Tinnitus Research and Clinical Implications. <i>American Journal of Audiology</i> , 2019 , 28, 239-240	1.8	1
64	Examining the Utility of Photovoice as an Audiological Counseling Tool. <i>Journal of the American Academy of Audiology</i> , 2019 , 30, 406-416	1.3	4
63	Photo-Sharing as an Audiological Rehabilitation Tool. <i>Hearing Journal</i> , 2019 , 72, 16	0.6	2
62	Impact of Hearing Loss and Amplification on Performance on a Cognitive Screening Test. <i>Journal of the American Academy of Audiology</i> , 2018 , 29, 648-655	1.3	18
61	Description, Normative Data, and Utility of the Hearing Aid Skills and Knowledge Test. <i>Journal of the American Academy of Audiology</i> , 2018 , 29, 233-242	1.3	15
60	ADDRESSING HEARING LOSS IN THE COMMUNITY USING TRADITIONAL AND NOVEL APPROACHES TO HEARING SCREENING. <i>Innovation in Aging</i> , 2018 , 2, 360-360	0.1	78
59	COMMUNITY-BASED HEARING SCREENING: PROS, CONS, AND LESSONS LEARNED. <i>Innovation in Aging</i> , 2018 , 2, 360-360	0.1	0

58	OBJECTIVE AND SUBJECTIVE HEARING LOSS: FINDINGS FROM THE HISPANIC COMMUNITY HEALTH STUDY/STUDY OF LATINOS. <i>Innovation in Aging</i> , 2018 , 2, 360-361	0.1	78
57	PROMOTING HEARING HEALTH BEHAVIOR CHANGE IN ADULTS. <i>Innovation in Aging</i> , 2018 , 2, 361-361	0.1	78
56	A Randomized Controlled Trial to Evaluate Approaches to Auditory Rehabilitation for Blast-Exposed Veterans with Normal or Near-Normal Hearing Who Report Hearing Problems in Difficult Listening Situations. <i>Journal of the American Academy of Audiology</i> , 2018 , 29, 44-62	1.3	7
55	Tinnitus Management: Randomized Controlled Trial Comparing Extended-Wear Hearing Aids, Conventional Hearing Aids, and Combination Instruments. <i>Journal of the American Academy of Audiology</i> , 2017 , 28, 546-561	1.3	31
54	Development and Pilot Evaluation of a Novel Theory-Based Intervention to Encourage Help-Seeking for Adult Hearing Loss. <i>Journal of the American Academy of Audiology</i> , 2017 , 28, 920-931	1.3	4
53	Design and challenges for a randomized, multi-site clinical trial comparing the use of service dogs and emotional support dogs in Veterans with post-traumatic stress disorder (PTSD). <i>Contemporary Clinical Trials</i> , 2017 , 62, 105-113	2.3	8
52	Burden of Hearing Loss on Communication Partners and Its Influence on Pursuit of Hearing Evaluation. <i>Ear and Hearing</i> , 2017 , 38, e285-e291	3.4	7
51	Examination of Individual Differences in Outcomes From a Randomized Controlled Clinical Trial Comparing Formal and Informal Individual Auditory Training Programs. <i>Journal of Speech, Language, and Hearing Research</i> , 2016 , 59, 876-86	2.8	6
50	How Can Public Health Approaches and Perspectives Advance Hearing Health Care?. <i>Ear and Hearing</i> , 2016 , 37, 376-80	3.4	17
49	A Randomized Control Trial: Supplementing Hearing Aid Use with Listening and Communication Enhancement (LACE) Auditory Training. <i>Ear and Hearing</i> , 2016 , 37, 381-96	3.4	36
48	Description of Adults Seeking Hearing Help for the First Time According to Two Health Behavior Change Approaches: Transtheoretical Model (Stages of Change) and Health Belief Model. <i>Ear and Hearing</i> , 2016 , 37, 324-33	3.4	26
47	Knowledge, attitudes, behaviors, and noise exposure of baristas. <i>International Journal of Audiology</i> , 2016 , 55, 184-8	2.6	1
46	Documentation of Dual Sensory Impairment in Electronic Medical Records. <i>Gerontologist</i> , 2016 , 56, 313-7	5	14
45	Factors influencing pursuit of hearing evaluation: Enhancing the health belief model with perceived burden from hearing loss on communication partners. <i>International Journal of Audiology</i> , 2016 , 55 Suppl 3, S69-78	2.6	7
44	Health behavior theories as predictors of hearing-aid uptake and outcomes. <i>International Journal of Audiology</i> , 2016 , 55 Suppl 3, S59-68	2.6	30
43	Connected Audiological Rehabilitation: 21st Century Innovations. <i>Journal of the American Academy of Audiology</i> , 2015 , 26, 768-76	1.3	15
42	Auditory difficulties in blast-exposed Veterans with clinically normal hearing. <i>Journal of Rehabilitation Research and Development</i> , 2015 , 52, 343-60		53
41	Formative evaluation of a multimedia self-administered computerized hearing loss prevention program. <i>International Journal of Audiology</i> , 2015 , 54, 234-40	2.6	3

40	Development and evaluation of a questionnaire to assess knowledge, attitudes, and behaviors towards hearing loss prevention. <i>International Journal of Audiology</i> , 2014 , 53, 209-18	2.6	13
39	Use of a Frequency-Modulated System for Veterans with Blast Exposure, Perceived Hearing Problems, and Normal Hearing Sensitivity. <i>Seminars in Hearing</i> , 2014 , 35, 227-238	2	3
38	Acclimatization to hearing aids. <i>Ear and Hearing</i> , 2014 , 35, 203-12	3.4	33
37	Accommodating Dual Sensory Loss in Everyday Practice. <i>Perspectives on Gerontology</i> , 2014 , 19, 4-16		0
36	A two-component circular regression model for repeated measures auditory localization data. <i>Journal of the Royal Statistical Society Series C: Applied Statistics</i> , 2013 , 62, 515-534	1.5	4
35	Application of the health belief model: development of the hearing beliefs questionnaire (HBQ) and its associations with hearing health behaviors. <i>International Journal of Audiology</i> , 2013 , 52, 558-67	2.6	51
34	Learning to listen again: the role of compliance in auditory training for adults with hearing loss. <i>American Journal of Audiology</i> , 2013 , 22, 339-42	1.8	30
33	An Examination of Hearing Aid Counseling Implemented by Audiologists. <i>Perspectives on Aural Rehabilitation and Its Instrumentation</i> , 2013 , 20, 67-76		3
32	Blast exposure and dual sensory impairment: an evidence review and integrated rehabilitation approach. <i>Journal of Rehabilitation Research and Development</i> , 2012 , 49, 1043-58		18
31	Hearing-aid counseling: comparison of single-session informational counseling with single-session performance-perceptual counseling. <i>International Journal of Audiology</i> , 2012 , 51, 754-64	2.6	15
30	Older adults and hearing help-seeking behaviors. <i>American Journal of Audiology</i> , 2012 , 21, 331-7	1.8	42
29	Ambient noise levels in the chemotherapy clinic. <i>Noise and Health</i> , 2011 , 13, 444-51	0.9	8
28	Is measured hearing aid benefit affected by seeing baseline outcome questionnaire responses?. <i>American Journal of Audiology</i> , 2011 , 20, 90-9	1.8	1
27	A statistical model of horizontal auditory localization performance data. <i>Journal of the Acoustical Society of America</i> , 2011 , 129, EL229-35	2.2	3
26	Dual Sensory Impairment in an Aging Population. <i>ASHA Leader</i> , 2011 , 16, 5-7	0.5	4
25	Sound intensity and noise evaluation in a critical care unit. <i>American Journal of Critical Care</i> , 2010 , 19, e88-98; quiz e99	1.7	65
24	Development of a Computer-Based, Multimedia Hearing Loss Prevention Program. <i>Noise and Vibration Worldwide</i> , 2010 , 41, 8-12	0.8	
23	Development of a Computer-Based, Multi-media Hearing Loss Prevention Education Program for Veterans and Military Personnel. <i>Perspectives on Audiology</i> , 2010 , 6, 9-19		2

22	Expectations, prefitting counseling, and hearing aid outcome. <i>Journal of the American Academy of Audiology</i> , 2009 , 20, 320-34	1.3	43
21	Understanding in noise: Perception vs. performance. <i>Hearing Journal</i> , 2009 , 62, 10	0.6	
20	Hearing loss in veterans and the need for hearing loss prevention programs. <i>Noise and Health</i> , 2009 , 11, 14-21	0.9	44
19	The Attitudes towards Loss of Hearing Questionnaire (ALHQ): a comparison of paper and electronic formats. <i>Journal of the American Academy of Audiology</i> , 2007 , 18, 66-77	1.3	6
18	An overview of dual sensory impairment in older adults: perspectives for rehabilitation. <i>Trends in Amplification</i> , 2007 , 11, 243-58		100
17	The Performance-Perceptual Test (PPT) and its relationship to aided reported handicap and hearing aid satisfaction. <i>Ear and Hearing</i> , 2006 , 27, 229-42	3.4	25
16	Measuring hearing aid outcomes--not as easy as it seems. <i>Journal of Rehabilitation Research and Development</i> , 2005 , 42, 157-68		38
15	Normative data for the Attitudes towards Loss of Hearing Questionnaire. <i>Journal of the American Academy of Audiology</i> , 2005 , 16, 637-52	1.3	14
14	The performance-perceptual test and its relationship to unaided reported handicap. <i>Ear and Hearing</i> , 2004 , 25, 117-26	3.4	22
13	Hearing specific and generic measures of the psychosocial impact of hearing aids. <i>Journal of the American Academy of Audiology</i> , 2004 , 15, 238-48	1.3	45
12	Impact on hearing aid targets of measuring thresholds in dB HL versus dB SPL. <i>International Journal of Audiology</i> , 2003 , 42, 319-26	2.6	18
11	A Test to Measure Subjective and Objective Speech Intelligibility. <i>Journal of the American Academy of Audiology</i> , 2002 , 13, 038-049	1.3	15
10	A test to measure subjective and objective speech intelligibility. <i>Journal of the American Academy of Audiology</i> , 2002 , 13, 38-49	1.3	7
9	Speech intelligibility enhancement using hearing-aid array processing. <i>Journal of the Acoustical Society of America</i> , 1997 , 102, 1827-37	2.2	35
8	Acclimatization to hearing aids. <i>Ear and Hearing</i> , 1997 , 18, 129-39	3.4	36
7	Refinement and psychometric evaluation of the Attitudes Toward Loss of Hearing Questionnaire. <i>Ear and Hearing</i> , 1996 , 17, 505-19	3.4	36
6	The influence of personality-related factors upon consultation for two different "marginal" organic pathologies with and without reports of auditory symptomatology. <i>Ear and Hearing</i> , 1993 , 14, 242-8	3.4	7
5	Lack of association between otoacoustic emissions and hearing difficulty in subjects with normal hearing thresholds. <i>Journal of the Acoustical Society of America</i> , 1992 , 92, 1184-5	2.2	12

4	A clinical test battery for obscure auditory dysfunction (OAD): development, selection and use of tests. <i>International Journal of Audiology</i> , 1992 , 26, 33-42		22
3	The clinical assessment of "Obscure Auditory Dysfunction" (OAD) 2. Case control analysis of determining factors. <i>Ear and Hearing</i> , 1992 , 13, 241-54	3-4	37
2	The clinical assessment of obscure auditory dysfunction--1. Auditory and psychological factors. <i>Ear and Hearing</i> , 1989 , 10, 200-8	3-4	73
1	The everyday acoustic environment and its association with human heart rate: evidence from real-world data logging with hearing aids and wearables		1
