| #  | ARTICLE                                                                                                                                                                                                                      | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Peripapillary Vessel Density in Glaucomatous Eyes: Comparison Between Pseudoexfoliation Glaucoma and Primary Open-angle Glaucoma. <i>Journal of Glaucoma</i> , 2018, 27, 1009-1016.                                          | 1.6 | 42        |
| 2  | Clinical Features and the Risk Factors of Infantile Exotropia Recurrence. <i>American Journal of Ophthalmology</i> , 2010, 150, 464-467.e2.                                                                                  | 3.3 | 31        |
| 3  | TRk-CNN: Transferable Ranking-CNN for image classification of glaucoma, glaucoma suspect, and normal eyes. <i>Expert Systems With Applications</i> , 2021, 182, 115211.                                                      | 7.6 | 19        |
| 4  | Visual Field Defects in Young Patients With Open-angle Glaucoma: Comparison Between High-tension and Normal-tension Glaucoma. <i>Journal of Glaucoma</i> , 2017, 26, 541-547.                                                | 1.6 | 14        |
| 5  | Effect of prostaglandin analogues on anterior scleral thickness and corneal thickness in patients with primary open-angle glaucoma. <i>Scientific Reports</i> , 2021, 11, 11098.                                             | 3.3 | 13        |
| 6  | Localized Retinal Nerve Fiber Layer Defects in Red-free Photographs Versus En Face Structural Optical Coherence Tomography Images. <i>Journal of Glaucoma</i> , 2018, 27, 269-274.                                           | 1.6 | 12        |
| 7  | Intraocular Pressure Elevation during Lateral Body Posture in Side-sleeping Glaucoma Patients. <i>Optometry and Vision Science</i> , 2019, 96, 62-70.                                                                        | 1.2 | 12        |
| 8  | Peripapillary Vessel Density in Young Patients with Open-Angle Glaucoma: Comparison between High-Tension and Normal-Tension Glaucoma. <i>Scientific Reports</i> , 2019, 9, 19160.                                            | 3.3 | 11        |
| 9  | Head Elevation and Intraocular Pressure in Glaucoma. <i>Optometry and Vision Science</i> , 2016, 93, 1163-1170.                                                                                                              | 1.2 | 9         |
| 10 | Peripapillary choroidal thickness in untreated normal-tension glaucoma eyes with a single-hemifield retinal nerve fiber layer defect. <i>Medicine (United States)</i> , 2018, 97, e11001.                                    | 1.0 | 9         |
| 11 | Effect of cataract surgery on intraocular pressure in supine and lateral decubitus body postures. <i>Indian Journal of Ophthalmology</i> , 2016, 64, 727.                                                                    | 1.1 | 9         |
| 12 | Effects of Trabecular Meshwork Width and Schlemm's Canal Area on Intraocular Pressure Reduction in Glaucoma Patients. <i>Korean Journal of Ophthalmology: KJO</i> , 2021, 35, 311-317.                                       | 1.1 | 8         |
| 13 | Differences in corneal astigmatism between partial coherence interferometry biometry and automated keratometry and relation to topographic pattern. <i>Journal of Cataract and Refractive Surgery</i> , 2011, 37, 1694-1698. | 1.5 | 7         |
| 14 | Eye Drop Dispenser Type and Medication Possession Ratio in Patients With Glaucoma: Single-Use Containers Versus Multiple-Use Bottles. <i>American Journal of Ophthalmology</i> , 2018, 188, 9-18.                            | 3.3 | 7         |
| 15 | The association between prelaminar tissue thickness and peripapillary choroidal thickness in untreated normal-tension glaucoma patients. <i>Medicine (United States)</i> , 2019, 98, e14044.                                 | 1.0 | 6         |
| 16 | Long-term Surgical Outcomes of 180-Degree Suture Trabeculotomy in Korean Patients With Primary Congenital Glaucoma. <i>Journal of Glaucoma</i> , 2016, 25, e681-e685.                                                        | 1.6 | 5         |
| 17 | Effect of Lateral Decubitus Body Posture on Anterior Chamber Angle in Healthy Subjects: An Anterior Segment Optical Coherence Tomography Study. <i>Journal of Glaucoma</i> , 2017, 26, 608-612.                              | 1.6 | 5         |
| 18 | Localized Retinal Nerve Fiber Layer Defect Location Among Red-free Fundus Photographs, En Face Structural Images, and Cirrus HD-OCT Maps. <i>Journal of Glaucoma</i> , 2019, 28, 1054-1060.                                  | 1.6 | 5         |

| #  | ARTICLE                                                                                                                                                                                                    | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Characteristics of diffuse retinal nerve fiber layer defects in red-free photographs as observed in optical coherence tomography en face images. <i>BMC Ophthalmology</i> , 2020, 20, 16.                  | 1.4 | 5         |
| 20 | Effects of Different Body Postures on the Intraocular Pressure in Patients with Primary Angle-Closure Disease. <i>Optometry and Vision Science</i> , 2019, 96, 477-483.                                    | 1.2 | 4         |
| 21 | Morphological changes in the trabecular meshwork and Schlemm's canal after treatment with topical intraocular pressure-lowering agents. <i>Scientific Reports</i> , 2021, 11, 18169.                       | 3.3 | 4         |
| 22 | Effect of Head Position and Tube Entry on Corneal Endothelial Cells in Patients with Glaucoma Drainage Implants: A Cross-sectional Study. <i>Korean Journal of Ophthalmology: KJO</i> , 2020, 34, 446-453. | 1.1 | 2         |
| 23 | Long-term Result of Fat Orbital Decompression. <i>Journal of Korean Ophthalmological Society</i> , 2010, 51, 473.                                                                                          | 0.2 | 1         |
| 24 | Clinical Validation of Visual Field Index in Glaucoma Patients with Central Visual Field Defects. <i>Journal of Korean Ophthalmological Society</i> , 2011, 52, 709.                                       | 0.2 | 0         |
| 25 | Response. <i>Journal of Glaucoma</i> , 2019, 28, e70-e71.                                                                                                                                                  | 1.6 | 0         |
