citing authors

#	ARTICLE	IF	CITATIONS
1	A comparison of the effect of indoor thermal and humidity condition on young and older adults' comfort and skin condition in winter. <i>Indoor and Built Environment</i> , 2022, 31, 759-776.	1.5	9
2	A Review of the Chinese Government Support and Sustainability Assessment for Ecovillage Development with a Global Perspective. <i>International Review for Spatial Planning and Sustainable Development</i> , 2022, 10, 43-73.	0.6	3
3	Exploring Solutions to Improve the Evaluation of Development of Rural Villages: A Case Study of the Application of the Evaluation for the Construction of Beautiful Villages (ECBV) in a Village in South China. <i>Sustainability</i> , 2021, 13, 685.	1.6	7
4	Thermal and Skin Condition in Scottish Care Homes in Heating Seasons. , 2021, , .		0
5	Optimised building energy and indoor microclimatic predictions using knowledge-based system identification in a historical art gallery. <i>Neural Computing and Applications</i> , 2020, 32, 3349-3366.	3.2	12
6	The effect of a leading edge erosion shield on the aerodynamic performance of a wind turbine blade. <i>Wind Energy</i> , 2020, 23, 953-966.	1.9	6
7	Determining the augmentation ratio and response behaviour of a Diffuser Augmented Wind Turbine (DAWT). <i>Sustainable Energy Technologies and Assessments</i> , 2020, 37, 100610.	1.7	6
8	A critical discussion of the BREEAM Communities method as applied to Chinese eco-village assessment. <i>Sustainable Cities and Society</i> , 2020, 59, 102172.	5.1	17
9	The effect of indoor thermal and humidity condition on the oldest-old people's comfort and skin condition in winter. <i>Building and Environment</i> , 2020, 174, 106790.	3.0	29
10	Calibration of the Welding Advanced REACH Tool (weldART). <i>International Journal of Hygiene and Environmental Health</i> , 2020, 227, 113519.	2.1	2
11	Comparative methods to assess renovation impact on indoor hygrothermal quality in a historical art gallery. <i>Indoor and Built Environment</i> , 2019, 28, 492-505.	1.5	6
12	A Survey of the Status and Challenges of Green Building Development in Various Countries. <i>Sustainability</i> , 2019, 11, 5385.	1.6	86
13	Thermal comfort evaluation of an existing glazed airport terminal in Thailand. <i>Proceedings of the Institution of Civil Engineers: Engineering Sustainability</i> , 2019, 172, 184-197.	0.4	3
14	Extension of the Advanced REACH Tool (ART) to Include Welding Fume Exposure. <i>International Journal of Environmental Research and Public Health</i> , 2018, 15, 2199.	1.2	10
15	Building redevelopment as a catalyst for sustainability?â€”Assessing the renovation of the Pier Arts Centre, along technical, social and economic sustainability indicators. <i>Sustainable Cities and Society</i> , 2018, 42, 370-383.	5.1	12
16	An integrative approach for indoor environment quality assessment of large glazed air-conditioned airport terminal in the tropics. <i>Energy and Buildings</i> , 2017, 148, 37-55.	3.1	23
17	Developing a weather responsive internal shading system for atrium spaces of a commercial building in tropical climates. <i>Building and Environment</i> , 2014, 71, 259-274.	3.0	27
18	Thermal performance of a gallery and refurbishment solutions. <i>Energy and Buildings</i> , 2014, 71, 38-52.	3.1	18

#	ARTICLE	IF	CITATIONS
19	A feasibility study on solar-wall systems for domestic heating – An affordable solution for fuel poverty. <i>Solar Energy</i> , 2012, 86, 2405-2415.	2.9	7
20	Design and low energy ventilation solutions for atria in the tropics. <i>Sustainable Cities and Society</i> , 2012, 2, 8-28.	5.1	41
21	The –District Heating Wall– A Synergistic Approach to Achieve Affordable Carbon Emission Reductions in Old Terraced Houses. <i>Low Carbon Economy</i> , 2012, 03, 115-129.	0.7	0
22	Investigating thermal conditions in a tropic atrium employing CFD and DTM techniques. <i>International Journal of Low-Carbon Technologies</i> , 2011, 6, 171-186.	1.2	15
23	Field study on indoor thermal environment in an atrium in tropical climates. <i>Building and Environment</i> , 2009, 44, 431-436.	3.0	53
24	The methodology for aerodynamic study on a small domestic wind turbine with scoop. <i>Journal of Wind Engineering and Industrial Aerodynamics</i> , 2008, 96, 1-24.	1.7	70
25	Development of small domestic wind turbine with scoop and prediction of its annual power output. <i>Renewable Energy</i> , 2008, 33, 1637-1651.	4.3	30
26	Simulating the sheltering effects of windbreaks in urban outdoor open space. <i>Journal of Wind Engineering and Industrial Aerodynamics</i> , 2007, 95, 533-549.	1.7	39
27	Modelling sheltering effects of trees on reducing space heating in office buildings in a windy city. <i>Energy and Buildings</i> , 2006, 38, 1443-1454.	3.1	8
28	Using a CFD approach for the study of street-level winds in a built-up area. <i>Building and Environment</i> , 2005, 40, 617-631.	3.0	59
29	Thermal environment of the courtyard style cave dwelling in winter. <i>Energy and Buildings</i> , 2002, 34, 985-1001.	3.1	54
30	Radon entry, migration and reduction in houses with cellars. <i>Building and Environment</i> , 2002, 37, 1153-1165.	3.0	38
31	The development of a radon entry model for a house with a cellar. <i>Building and Environment</i> , 2000, 35, 615-631.	3.0	25
32	Multiple Radon Entry Modeling in a House with a Cellar. <i>Journal of the Air and Waste Management Association</i> , 1999, 49, 682-693.	0.9	4
33	A Case Study on Radon Remedial Measures in a Family Dwelling. <i>Health Physics</i> , 1997, 73, 787-793.	0.3	5
34	Modelling multiple radon entry and transport in a domestic dwelling. <i>Building and Environment</i> , 1997, 32, 341-350.	3.0	7
35	A study on the thermal performance of the earthen tower in summer. <i>Building and Environment</i> , 1992, 27, 413-421.	3.0	5
36	Flow Field Study of Sodium Aluminate Solution Slurry in an Unagitated Precipitation Tank by CFD Simulation. <i>Applied Mechanics and Materials</i> , 0, 331, 16-20.	0.2	3
