#	ARTICLE	IF	CITATIONS
1	Superior accuracy of mid-regional proadrenomedullin for mortality prediction in sepsis with varying levels of illness severity. <i>Annals of Intensive Care</i> , 2017, 7, 15.	2.2	72
2	Mental health and stress among ICU healthcare professionals in France according to intensity of the COVID-19 epidemic. <i>Annals of Intensive Care</i> , 2021, 11, 90.	2.2	29
3	A tailored multicomponent program to reduce discomfort in critically ill patients: a cluster-randomized controlled trial. <i>Intensive Care Medicine</i> , 2017, 43, 1829-1840.	3.9	20
4	What are the ethical issues in relation to the role of the family in intensive care?. <i>Annals of Translational Medicine</i> , 2017, 5, S40-S40.	0.7	20
5	Mr-Proadm Elevation Upon Icu Admission Predicts the Outcome of Septic Patients and is Correlated with Upcoming Fluid Overload. <i>Shock</i> , 2017, 48, 418-426.	1.0	19
6	End-of-life situations in cardiology: a qualitative study of physicians' and nurses' experience in a large university hospital. <i>BMC Palliative Care</i> , 2018, 17, 112.	0.8	18
7	What are the ethical questions raised by the integration of intensive care into advance care planning?. <i>Annals of Translational Medicine</i> , 2017, 5, S46-S46.	0.7	18
8	Impact of a stay in the intensive care unit on the preparation of Advance Directives: Descriptive, exploratory, qualitative study. <i>Anaesthesia, Critical Care &amp; Pain Medicine</i> , 2018, 37, 113-119.	0.6	16
9	Influence of deprivation on initial severity and prognosis of patients admitted to the ICU: the prospective, multicentre, observational IVOIRE cohort study. <i>Annals of Intensive Care</i> , 2020, 10, 20.	2.2	16
10	Risk and protective factors for the possible development of post-traumatic stress disorder among intensive care professionals in France during the first peak of the COVID-19 epidemic. <i>HÅrge Utbildning</i> , 2022, 13, 2011603.	1.4	16
11	What are the ethical aspects surrounding the collegial decisional process in limiting and withdrawing treatment in intensive care?. <i>Annals of Translational Medicine</i> , 2017, 5, S43-S43.	0.7	15
12	What are the characteristics that lead physicians to perceive an ICU stay as non-beneficial for the patient?. <i>PLoS ONE</i> , 2019, 14, e0222039.	1.1	12
13	What are the ethical aspects surrounding intensive care unit admission in patients with cancer?. <i>Annals of Translational Medicine</i> , 2017, 5, S42-S42.	0.7	12
14	The concept of a surrogate is ill adapted to intensive care: Criteria for recognizing a reference person. <i>Journal of Critical Care</i> , 2016, 32, 89-92.	1.0	11
15	A qualitative study of reinforcement workers' perceptions and experiences of working in intensive care during the COVID-19 pandemic: A PsyCOVID-ICU substudy. <i>PLoS ONE</i> , 2022, 17, e0264287.	1.1	11
16	Can qualitative research play a role in answering ethical questions in intensive care?. <i>Annals of Translational Medicine</i> , 2017, 5, S45-S45.	0.7	10
17	What are the ethical dimensions in the profession of intensive care specialist?. <i>Annals of Translational Medicine</i> , 2017, 5, S47-S47.	0.7	10
18	Intensive care unit strain should not rush physicians into making inappropriate decisions, but merely reduce the time to the right decisions being made. <i>Annals of Translational Medicine</i> , 2016, 4, 316-316.	0.7	8

#	ARTICLE	IF	CITATIONS
19	Non-readmission decisions in the intensive care unit under French rules: A nationwide survey of practices. PLoS ONE, 2018, 13, e0205689.	1.1	7
20	Non-readmission decisions in the intensive care unit: A qualitative study of physicians' experience in a multicentre French study. PLoS ONE, 2021, 16, e0244919.	1.1	5
21	Influence of socioeconomic status on functional recovery after ARDS caused by SARS-CoV-2: a multicentre, observational study. BMJ Open, 2022, 12, e057368.	0.8	5
22	Factors associated with refusal or acceptance of older patients (>65 years) to provide consent to participate in clinical research in cardiology: a qualitative study. Aging Clinical and Experimental Research, 2020, 32, 133-140.	1.4	4
23	NAITRE study on the impact of conditional cash transfer on poor pregnancy outcomes in underprivileged women: protocol for a nationwide pragmatic cluster-randomised superiority clinical trial in France. BMJ Open, 2017, 7, e017321.	0.8	3
24	A collaboration between service users and professionals for the development and evaluation of a new program for cardiovascular risk management in persons with a diagnosis of severe mental illness: French multicenter qualitative and feasibility studies. International Journal of Mental Health Systems, 2019, 13, 74.	1.1	3
25	How can we best organise communication with patients' families?. Anaesthesia, Critical Care & Pain Medicine, 2018, 37, 187-189.	0.6	2
26	Criteria deemed important by the relatives for designating a reference person for patients hospitalized in ICU. Journal of Critical Care, 2020, 57, 191-196.	1.0	2
27	Intersecting vulnerabilities in professionals and patients in intensive care. Annals of Translational Medicine, 2017, 5, S39-S39.	0.7	1
28	Impact of a Postintensive Care Unit Multidisciplinary Follow-up on the Quality of Life (SUIVI-REA): Protocol for a Multicenter Randomized Controlled Trial. JMIR Research Protocols, 2022, 11, e30496.	0.5	1
29	Results of a Qualitative Study Aimed at Building a Programme to Reduce Cardiovascular Risk in People with Severe Mental Illness. International Journal of Environmental Research and Public Health, 2022, 19, 6847.	1.2	1
30	Family perceptions of clinical research and the informed consent process in the ICU. Journal of Critical Care, 2020, , .	1.0	0
31	Criteria deemed important by ICU patients when designating a reference person. Journal of Intensive Medicine, 2022, , .	0.8	0
