

David M Olson

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/7219665/david-m-olson-publications-by-year.pdf>

Version: 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

77

#	Paper	IF	Citations
77	Contemporary Environmental Stressors and Adverse Pregnancy Outcomes: OPERA 2021 , 155-168		0
76	Maternal Mental Health after a Wildfire: Effects of Social Support in the Fort McMurray Wood Buffalo Study. <i>Canadian Journal of Psychiatry</i> , 2021 , 66, 710-718	4.8	4
75	Unexpected effects of expressive writing on post-disaster distress in the Hurricane Harvey Study: a randomized controlled trial in perinatal women. <i>Psychological Medicine</i> , 2021 , 1-9	6.9	2
74	Enhancing Resilience in Canadian Military Families and Communities: A Qualitative Analysis of the Reaching In/Reaching Out and Bounce Back and Thrive! Resiliency Skills Training Programs. <i>Frontiers in Public Health</i> , 2021 , 9, 662313	6	
73	The determinant role of IL-6 in the establishment of inflammation leading to spontaneous preterm birth. <i>Cytokine and Growth Factor Reviews</i> , 2021 , 59, 118-130	17.9	4
72	The Fort McMurray Mommy Baby Study: A Protocol to Reduce Maternal Stress Due to the 2016 Fort McMurray Wood Buffalo, Alberta, Canada Wildfire. <i>Frontiers in Public Health</i> , 2021 , 9, 601375	6	1
71	Landscape of Preterm Birth Therapeutics and a Path Forward. <i>Journal of Clinical Medicine</i> , 2021 , 10,	5.1	4
70	Resilient Parents/Resilient Communities: A Pilot Study Trialing the Bounce Back and Thrive! Resilience-Training Program With Military Families. <i>Frontiers in Psychology</i> , 2021 , 12, 651522	3.4	
69	Inflammatory Amplification: A Central Tenet of Uterine Transition for Labor. <i>Frontiers in Cellular and Infection Microbiology</i> , 2021 , 11, 660983	5.9	8
68	Direct administration of the non-competitive interleukin-1 receptor antagonist rytvela transiently reduced intrauterine inflammation in an extremely preterm sheep model of chorioamnionitis. <i>PLoS ONE</i> , 2021 , 16, e0257847	3.7	0
67	Prenatal Maternal Stress Causes Preterm Birth and Affects Neonatal Adaptive Immunity in Mice. <i>Frontiers in Immunology</i> , 2020 , 11, 254	8.4	11
66	Climate change is a major stressor causing poor pregnancy outcomes and child development. <i>F1000Research</i> , 2020 , 9,	3.6	8
65	Racial disparities in pregnancy outcomes: genetics, epigenetics, and allostatic load. <i>Current Opinion in Physiology</i> , 2020 , 13, 155-165	2.6	9
64	An allosteric interleukin-1 receptor modulator mitigates inflammation and photoreceptor toxicity in a model of retinal degeneration. <i>Journal of Neuroinflammation</i> , 2020 , 17, 359	10.1	3
63	Targeting Toll-like receptor-4 to tackle preterm birth and fetal inflammatory injury. <i>Clinical and Translational Immunology</i> , 2020 , 9, e1121	6.8	6
62	Recent Canadian efforts to develop population-level pregnancy intervention studies to mitigate effects of natural disasters and other tragedies. <i>Journal of Developmental Origins of Health and Disease</i> , 2019 , 10, 108-114	2.4	11
61	The rat cumulative allostatic load measure (rCALM): a new translational assessment of the burden of stress. <i>Environmental Epigenetics</i> , 2019 , 5, dvz005	2.4	5

60	Multiple prenatal stresses increase sexual dimorphism in adult offspring behavior. <i>Psychoneuroendocrinology</i> , 2019 , 107, 251-260	5	7
59	Cooperative effects of sequential PGF2 β and IL-1 β on IL-6 and COX-2 expression in human myometrial cells. <i>Biology of Reproduction</i> , 2019 , 100, 1370-1385	3.9	10
58	Prenatal two-hit stress affects maternal and offspring pregnancy outcomes and uterine gene expression in rats: match or mismatch?. <i>Biology of Reproduction</i> , 2019 , 100, 195-207	3.9	13
57	Improving Wait Times and Patient Experience Through Implementation of a Provincial Expedited Diagnostic Pathway for BI-RADS 5 Breast Lesions. <i>Annals of Surgical Oncology</i> , 2019 , 26, 3361-3367	3.1	4
56	Blunted Cardiac AMPK Response is Associated with Susceptibility to Ischemia/Reperfusion in Male Offspring of Gestational Diabetic Rats. <i>Cellular Physiology and Biochemistry</i> , 2019 , 52, 1103-1116	3.9	3
55	Screening in the Prenatal Period for Intimate Partner Violence and History of Abuse: A Survey of Edmonton Obstetrician/Gynaecologists. <i>Journal of Obstetrics and Gynaecology Canada</i> , 2019 , 41, 38-45	1.3	2
54	Maternal and fetal intrauterine tissue crosstalk promotes proinflammatory amplification and uterine transition. <i>Biology of Reproduction</i> , 2019 , 100, 783-797	3.9	7
53	Antenatal IL-1-dependent inflammation persists postnatally and causes retinal and sub-retinal vasculopathy in progeny. <i>Scientific Reports</i> , 2018 , 8, 11875	4.9	17
52	Oncoplastic and reconstructive breast surgery in Canada: breaking new ground in general surgical training. <i>Canadian Journal of Surgery</i> , 2018 , 61, 294-299	2	8
51	Does a maternal history of abuse before pregnancy affect pregnancy outcomes? A systematic review with meta-analysis. <i>BMC Pregnancy and Childbirth</i> , 2018 , 18, 404	3.2	21
50	Antenatal Suppression of IL-1 Protects against Inflammation-Induced Fetal Injury and Improves Neonatal and Developmental Outcomes in Mice. <i>Journal of Immunology</i> , 2017 , 198, 2047-2062	5.3	71
49	IFPA meeting 2016 workshop report III: Decidua-trophoblast interactions; trophoblast implantation and invasion; immunology at the maternal-fetal interface; placental inflammation. <i>Placenta</i> , 2017 , 60 Suppl 1, S15-S19	3.4	6
48	IL-27 induces a pro-inflammatory response in human fetal membranes mediating preterm birth. <i>International Immunopharmacology</i> , 2017 , 50, 361-369	5.8	8
47	Lack of Social Support Raises Stress Vulnerability in Rats with a History of Ancestral Stress. <i>Scientific Reports</i> , 2017 , 7, 5277	4.9	18
46	Pregnant human peripheral leukocyte migration during several late pregnancy clinical conditions: a cross-sectional observational study. <i>BMC Pregnancy and Childbirth</i> , 2017 , 17, 16	3.2	5
45	Lactate produced during labor modulates uterine inflammation via GPR81 β (HCA). <i>American Journal of Obstetrics and Gynecology</i> , 2017 , 216, 60.e1-60.e17	6.4	34
44	Preterm Birth and Neonatal Injuries: Importance of Interleukin-1 and Potential of Interleukin-1 Receptor Antagonists. <i>Current Pharmaceutical Design</i> , 2017 , 23, 6132-6141	3.3	2
43	Interleukin-6 controls uterine Th9 cells and CD8(+) T regulatory cells to accelerate parturition in mice. <i>Immunology and Cell Biology</i> , 2016 , 94, 79-89	5	35

42	Uterotonic Neuromedin U Receptor 2 and Its Ligands Are Upregulated by Inflammation in Mice and Humans, and Elicit Preterm Birth. <i>Biology of Reproduction</i> , 2016 , 95, 72	3.9	7
41	Novel Toll-like receptor-4 antagonist (+)-naloxone protects mice from inflammation-induced preterm birth. <i>Scientific Reports</i> , 2016 , 6, 36112	4.9	40
40	Interleukin (IL)-1 in rat parturition: IL-1 receptors 1 and 2 and accessory proteins abundance in pregnant rat uterus at term - regulation by progesterone. <i>Physiological Reports</i> , 2016 , 4, e12866	2.6	14
39	Altered brain morphology and functional connectivity reflect a vulnerable affective state after cumulative multigenerational stress in rats. <i>Neuroscience</i> , 2016 , 330, 79-89	3.9	23
38	Hydrogen Sulfide Delays LPS-Induced Preterm Birth in Mice via Anti-Inflammatory Pathways. <i>PLoS ONE</i> , 2016 , 11, e0152838	3.7	14
37	Maternal Whole Blood Gene Expression at 18 and 28 Weeks of Gestation Associated with Spontaneous Preterm Birth in Asymptomatic Women. <i>PLoS ONE</i> , 2016 , 11, e0155191	3.7	36
36	A critical role of interleukin-1 in preterm labor. <i>Cytokine and Growth Factor Reviews</i> , 2016 , 28, 37-51	17.9	48
35	DNA methylation-associated repression of MEST/PEG1 expression contributes to the invasion of extravillous trophoblast cells. <i>Placenta</i> , 2016 , 46, 92-101	3.4	10
34	Toll-Like Receptor 4 Is an Essential Upstream Regulator of On-Time Parturition and Perinatal Viability in Mice. <i>Endocrinology</i> , 2015 , 156, 3828-41	4.8	38
33	PGF2 α modulates the output of chemokines and pro-inflammatory cytokines in myometrial cells from term pregnant women through divergent signaling pathways. <i>Molecular Human Reproduction</i> , 2015 , 21, 603-14	4.4	27
32	Ancestral experience as a game changer in stress vulnerability and disease outcomes. <i>BioEssays</i> , 2015 , 37, 602-11	4.1	25
31	Adverse childhood experiences are associated with spontaneous preterm birth: a case-control study. <i>BMC Medicine</i> , 2015 , 13, 124	11.4	77
30	Two novel genetic variants in the mineralocorticoid receptor gene associated with spontaneous preterm birth. <i>BMC Medical Genetics</i> , 2015 , 16, 59	2.1	4
29	Novel Noncompetitive IL-1 Receptor-Biased Ligand Prevents Infection- and Inflammation-Induced Preterm Birth. <i>Journal of Immunology</i> , 2015 , 195, 3402-15	5.3	76
28	Allostatic Load and Preterm Birth. <i>International Journal of Molecular Sciences</i> , 2015 , 16, 29856-74	6.3	63
27	Ancestral exposure to stress epigenetically programs preterm birth risk and adverse maternal and newborn outcomes. <i>BMC Medicine</i> , 2014 , 12, 121	11.4	96
26	Development and validation of primary human myometrial cell culture models to study pregnancy and labour. <i>BMC Pregnancy and Childbirth</i> , 2013 , 13 Suppl 1, S7	3.2	34
25	Effects of PGF2 α on the expression of uterine activation proteins in pregnant human myometrial cells from upper and lower segment. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2013 , 98, 2975-83 ^{5.6}	5.6	20

24	Maternal stress induces epigenetic signatures of psychiatric and neurological diseases in the offspring. <i>PLoS ONE</i> , 2013 , 8, e56967	3.7	139
23	Interleukin-6 is an essential determinant of on-time parturition in the mouse. <i>Endocrinology</i> , 2010 , 151, 3996-4006	4.8	95
22	Inflammatory processes in preterm and term parturition. <i>Journal of Reproductive Immunology</i> , 2008 , 79, 50-7	4.2	349
21	Emerging tocolytics: challenges in designing and testing drugs to delay preterm delivery and prolong pregnancy. <i>Expert Opinion on Emerging Drugs</i> , 2008 , 13, 695-707	3.7	20
20	The interleukin 1beta-induced expression of human prostaglandin F2alpha receptor messenger RNA in human myometrial-derived ULTR cells requires the transcription factor, NFkappaB. <i>Biology of Reproduction</i> , 2006 , 75, 697-704	3.9	35
19	Hyperoxia regulates leukotriene (LT) receptor mRNA expression in the developing rat lung. <i>FASEB Journal</i> , 2006 , 20, A1442	0.9	1
18	Delay of preterm birth in sheep by THG113.31, a prostaglandin F2alpha receptor antagonist. <i>American Journal of Obstetrics and Gynecology</i> , 2005 , 193, 256-66	6.4	29
17	The promise of prostaglandins: have they fulfilled their potential as therapeutic targets for the delay of preterm birth?. <i>Journal of the Society for Gynecologic Investigation</i> , 2005 , 12, 466-78		19
16	Cloning and characterization of the promoter region of the human prostaglandin F2alpha receptor gene. <i>Biochimica Et Biophysica Acta Gene Regulatory Mechanisms</i> , 2004 , 1676, 193-202		9
15	The role of prostaglandins in the initiation of parturition. <i>Best Practice and Research in Clinical Obstetrics and Gynaecology</i> , 2003 , 17, 717-30	4.6	180
14	Mouse placental prostaglandins are associated with uterine activation and the timing of birth. <i>Biology of Reproduction</i> , 2003 , 68, 579-87	3.9	40
13	The importance of impermeant support in small bowel preservation: a morphologic, metabolic and functional study. <i>American Journal of Transplantation</i> , 2001 , 1, 236-42	8.7	7
12	Timing of hyperoxic exposure during alveolarization influences damage mediated by leukotrienes. <i>American Journal of Physiology - Lung Cellular and Molecular Physiology</i> , 2001 , 281, L799-806	5.8	32
11	Prostaglandin endoperoxide H synthase mRNA expression in the fetal membranes correlates with fetal fibronectin concentration in the cervico-vaginal fluids at term: evidence of enzyme induction before the onset of labour. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2000 , 107, 267-73	3.7	1
10	Expression of myometrial activation and stimulation genes in a mouse model of preterm labor: myometrial activation, stimulation, and preterm labor. <i>Endocrinology</i> , 2000 , 141, 1718-28	4.8	75
9	Prostaglandin endoperoxide H synthase mRNA expression in the human amnion and decidua during pregnancy and in the amnion at preterm labour. <i>Molecular Human Reproduction</i> , 1999 , 5, 182-7	4.4	31
8	Progesterone and Prostaglandin H Synthase-2 Involvement in Alcohol-Induced Preterm Birth in Mice. <i>Alcoholism: Clinical and Experimental Research</i> , 1999 , 23, 1793-1800	3.7	9
7	The role of nitric oxide and metalloproteinases in the pathogenesis of hyperoxia-induced lung injury in newborn rats. <i>British Journal of Pharmacology</i> , 1998 , 125, 1455-62	8.6	76

6	Effect of developmental age and hyperoxia exposure on kinase and phosphatase activities in newborn rat lungs. <i>Experimental Lung Research</i> , 1998 , 24, 339-53	2.3	1
5	Prostaglandin endoperoxide H synthase (PGHS) activity and PGHS-1 and -2 messenger ribonucleic acid abundance in human chorion throughout gestation and with preterm labor. <i>Journal of Clinical Endocrinology and Metabolism</i> , 1998 , 83, 1358-67	5.6	54
4	Prostaglandin Endoperoxide H Synthase-1 and -2 mRNA Levels and Enzyme Activity in Human Decidua at Term Labor. <i>Journal of the Society for Gynecologic Investigation</i> , 1998 , 5, 13-20		8
3	Prostaglandin endoperoxide H synthase-1 and -2 mRNA levels and enzyme activity in human decidua at term labor. <i>Journal of the Society for Gynecologic Investigation</i> , 1998 , 5, 13-20		26
2	Prostaglandin-endoperoxide H synthase-2 expression and activity increases with term labor in human chorion. <i>American Journal of Physiology - Endocrinology and Metabolism</i> , 1997 , 272, E832-40	6	14
1	Prostaglandin endoperoxide-H synthase-1 and -2 messenger ribonucleic acid levels in human amnion with spontaneous labor onset. <i>Journal of Clinical Endocrinology and Metabolism</i> , 1995 , 80, 517-23 ^{5.6}		99
