

# Mary Prah1

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/7224581/mary-prahl-publications-by-year.pdf>

**Version:** 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

18  
papers

207  
citations

10

21  
ext. papers

412  
ext. citations

8.9  
avg, IF

2.64  
L-index

#	Paper	IF	Citations
18	Early non-neutralizing, afucosylated antibody responses are associated with COVID-19 severity.. <i>Science Translational Medicine</i> , <b>2022</b> , 14, eabm7853	17.5	10
17	Antibodies elicited by SARS-CoV-2 infection or mRNA vaccines have reduced neutralizing activity against Beta and Omicron pseudoviruses.. <i>Science Translational Medicine</i> , <b>2022</b> , 14, eabn7842	17.5	26
16	Evaluation of transplacental transfer of mRNA vaccine products and functional antibodies during pregnancy and early infancy. <b>2021</b> ,		6
15	Evaluation of transplacental transfer of mRNA vaccine products and functional antibodies during pregnancy and early infancy. <b>2021</b> ,		1
14	COVID-19 mRNA Vaccination in Lactation: Assessment of Adverse Events and Vaccine Related Antibodies in Mother-Infant Dyads. <i>Frontiers in Immunology</i> , <b>2021</b> , 12, 777103	8.4	14
13	COVID-19 mRNA Vaccination in Lactation: Assessment of adverse effects and transfer of anti-SARS-CoV2 antibodies from mother to child <b>2021</b> ,		5
12	Passive and active immunity in infants born to mothers with SARS-CoV-2 infection during pregnancy: Prospective cohort study <b>2021</b> ,		4
11	Divergent early antibody responses define COVID-19 disease trajectories <b>2021</b> ,		3
10	Evaluation of Messenger RNA From COVID-19 BTN162b2 and mRNA-1273 Vaccines in Human Milk. <i>JAMA Pediatrics</i> , <b>2021</b> , 175, 1069-1071	8.3	16
9	Passive and active immunity in infants born to mothers with SARS-CoV-2 infection during pregnancy: prospective cohort study. <i>BMJ Open</i> , <b>2021</b> , 11, e053036	3	21
8	Exposure to pesticides in utero impacts the fetal immune system and response to vaccination in infancy. <i>Nature Communications</i> , <b>2021</b> , 12, 132	17.4	8
7	Dihydroartemisinin-piperaquine for intermittent preventive treatment of malaria during pregnancy and risk of malaria in early childhood: A randomized controlled trial. <i>PLoS Medicine</i> , <b>2018</b> , 15, e1002606	11.6	15
6	In utero priming of highly functional effector T cell responses to human malaria. <i>Science Translational Medicine</i> , <b>2018</b> , 10,	17.5	20
5	Both inflammatory and regulatory cytokine responses to malaria are blunted with increasing age in highly exposed children. <i>Malaria Journal</i> , <b>2017</b> , 16, 499	3.6	25
4	Sex Disparity in Cord Blood FoxP3 CD4 T Regulatory Cells in Infants Exposed to Malaria In Utero. <i>Open Forum Infectious Diseases</i> , <b>2017</b> , 4, ofx022	1	10
3	Another spin. <i>Journal of Hospital Medicine</i> , <b>2016</b> , 11, 509-12	2.7	
2	Timing of in utero malaria exposure influences fetal CD4 T cell regulatory versus effector differentiation. <i>Malaria Journal</i> , <b>2016</b> , 15, 497	3.6	22

1 Neutralizing Antibody Activity Against SARS-CoV-2 Variants in Gestational Age-Matched Mother-Infant Dyads

1
