#	Paper	IF	Citations
314	Increasing walking: how important is distance to, attractiveness, and size of public open space?. <i>American Journal of Preventive Medicine</i> , 2005 , 28, 169-76	6.1	969
313	The relative influence of individual, social and physical environment determinants of physical activity. <i>Social Science and Medicine</i> , 2002 , 54, 1793-812	5.1	808
312	Socioeconomic status differences in recreational physical activity levels and real and perceived access to a supportive physical environment. <i>Preventive Medicine</i> , 2002 , 35, 601-11	4.3	589
311	Personal, family, social, and environmental correlates of active commuting to school. <i>American Journal of Preventive Medicine</i> , 2006 , 30, 45-51	6.1	547
310	How many steps/day are enough? For adults. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2011 , 8, 79	8.4	533
309	City planning and population health: a global challenge. <i>Lancet, The</i> , 2016 , 388, 2912-2924	4.0	530
308	Developing a framework for assessment of the environmental determinants of walking and cycling. <i>Social Science and Medicine</i> , 2003 , 56, 1693-703	5.1	463
307	Understanding physical activity environmental correlates: increased specificity for ecological models. <i>Exercise and Sport Sciences Reviews</i> , 2005 , 33, 175-81	6.7	456
306	The built environment, neighborhood crime and constrained physical activity: an exploration of inconsistent findings. <i>Preventive Medicine</i> , 2008 , 47, 241-51	4.3	390
305	Relative influences of individual, social environmental, and physical environmental correlates of walking. <i>American Journal of Public Health</i> , 2003 , 93, 1583-9	5.1	369
304	The ABC of Physical Activity for Health: a consensus statement from the British Association of Sport and Exercise Sciences. <i>Journal of Sports Sciences</i> , 2010 , 28, 573-91	3.6	362
303	Developing a reliable audit instrument to measure the physical environment for physical activity. <i>American Journal of Preventive Medicine</i> , 2002 , 23, 187-94	6.1	330
302	Land use, transport, and population health: estimating the health benefits of compact cities. <i>Lancet, The</i> , 2016 , 388, 2925-2935	4.0	264
301	Associations between recreational walking and attractiveness, size, and proximity of neighborhood open spaces. <i>American Journal of Public Health</i> , 2010 , 100, 1752-7	5.1	252
300	Active commuting in a university setting: Assessing commuting habits and potential for modal change. <i>Transport Policy</i> , 2006 , 13, 240-253	5.7	252
299	The relationship between destination proximity, destination mix and physical activity behaviors. <i>Preventive Medicine</i> , 2008 , 46, 33-40	4.3	247
298	The pet connection: pets as a conduit for social capital?. <i>Social Science and Medicine</i> , 2005 , 61, 1159-73	5.1	246

297	Sense of community and its relationship with walking and neighborhood design. <i>Social Science and Medicine</i> , 2010 , 70, 1381-90	5.1	243
296	Creating sense of community: The role of public space. <i>Journal of Environmental Psychology</i> , 2012 , 32, 401-409	6.7	241
295	Dog ownership, health and physical activity: a critical review of the literature. <i>Health and Place</i> , 2007 , 13, 261-72	4.6	221
294	Do features of public open spaces vary according to neighbourhood socio-economic status?. <i>Health and Place</i> , 2008 , 14, 889-93	4.6	217
293	The anatomy of the safe and social suburb: an exploratory study of the built environment, social capital and residents' perceptions of safety. <i>Health and Place</i> , 2008 , 14, 15-31	4.6	214
292	The influence of urban design on neighbourhood walking following residential relocation: longitudinal results from the RESIDE study. <i>Social Science and Medicine</i> , 2013 , 77, 20-30	5.1	211
291	Environmental and lifestyle factors associated with overweight and obesity in Perth, Australia. <i>American Journal of Health Promotion</i> , 2003 , 18, 93-102	2.5	202
290	Quality or quantity? Exploring the relationship between Public Open Space attributes and mental health in Perth, Western Australia. <i>Social Science and Medicine</i> , 2012 , 74, 1570-7	5.1	201
289	Use of science to guide city planning policy and practice: how to achieve healthy and sustainable future cities. <i>Lancet, The</i> , 2016 , 388, 2936-2947	4.0	200
288	Public open space, physical activity, urban design and public health: Concepts, methods and research agenda. <i>Health and Place</i> , 2015 , 33, 75-82	4.6	199
287	Destination and route attributes associated with adults' walking: a review. <i>Medicine and Science in Sports and Exercise</i> , 2012 , 44, 1275-86	1.2	195
286	Neighborhood environmental factors correlated with walking near home: Using SPACES. <i>Medicine and Science in Sports and Exercise</i> , 2006 , 38, 708-14	1.2	191
285	School site and the potential to walk to school: the impact of street connectivity and traffic exposure in school neighborhoods. <i>Health and Place</i> , 2011 , 17, 545-50	4.6	176
284	Development of a reliable measure of walking within and outside the local neighborhood: RESIDE's Neighborhood Physical Activity Questionnaire. <i>Preventive Medicine</i> , 2006 , 42, 455-9	4.3	174
283	Personal, social and environmental determinants of educational inequalities in walking: a multilevel study. <i>Journal of Epidemiology and Community Health</i> , 2007 , 61, 108-14	5.1	156
282	Cycling as a Part of Daily Life: A Review of Health Perspectives. <i>Transport Reviews</i> , 2016 , 36, 45-71	9.9	155
281	Urban liveability: emerging lessons from Australia for exploring the potential for indicators to measure the social determinants of health. <i>Social Science and Medicine</i> , 2014 , 111, 64-73	5.1	147
280	Neighbourhood design and fear of crime: a social-ecological examination of the correlates of residents' fear in new suburban housing developments. <i>Health and Place</i> , 2010 , 16, 1156-65	4.6	147

279	Do low-income neighbourhoods have the least green space? A cross-sectional study of Australia's most populous cities. <i>BMC Public Health</i> , 2014 , 14, 292	4.1	139
278	How important is the land use mix measure in understanding walking behaviour? Results from the RESIDE study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2011 , 8, 55	8.4	138
277	The association between neighborhood greenness and cardiovascular disease: an observational study. <i>BMC Public Health</i> , 2012 , 12, 466	4.1	137
276	Walking and cycling to school: predictors of increases among children and adolescents. <i>American Journal of Preventive Medicine</i> , 2009 , 36, 195-200	6.1	134
275	Sedentary behaviour and health: mapping environmental and social contexts to underpin chronic disease prevention. <i>British Journal of Sports Medicine</i> , 2014 , 48, 174-7	10.3	133
274	A longitudinal analysis of the influence of the neighborhood built environment on walking for transportation: the RESIDE study. <i>American Journal of Epidemiology</i> , 2014 , 180, 453-61	3.8	130
273	Encouraging walking for transport and physical activity in children and adolescents: how important is the built environment?. <i>Sports Medicine</i> , 2009 , 39, 995-1009	10.6	129
272	The influence of the neighborhood physical environment on early child health and development: A review and call for research. <i>Health and Place</i> , 2015 , 33, 25-36	4.6	123
271	Features of public open spaces and physical activity among children: findings from the CLAN study. <i>Preventive Medicine</i> , 2008 , 47, 514-8	4.3	119
270	The co-benefits for health of investing in active transportation. <i>NSW Public Health Bulletin</i> , 2010 , 21, 122-7		118
269	Understanding dog owners' increased levels of physical activity: results from RESIDE. <i>American Journal of Public Health</i> , 2008 , 98, 66-9	5.1	116
268	The longitudinal influence of home and neighbourhood environments on children's body mass index and physical activity over 5 years: the CLAN study. <i>International Journal of Obesity</i> , 2010 , 34, 1177-87	5.5	115
267	The impact of parents' fear of strangers and perceptions of informal social control on children's independent mobility. <i>Health and Place</i> , 2014 , 26, 60-8	4.6	114
266	How can socio-economic differences in physical activity among women be explained? A qualitative study. <i>Women and Health</i> , 2006 , 43, 93-113	1.7	114
265	More Than a Furry Companion: The Ripple Effect of Companion Animals on Neighborhood Interactions and Sense of Community. <i>Society and Animals</i> , 2007 , 15, 43-56	0.5	113
264	Evaluation of the implementation of a state government community design policy aimed at increasing local walking: design issues and baseline results from RESIDE, Perth Western Australia. <i>Preventive Medicine</i> , 2008 , 46, 46-54	4.3	111
263	Can the built environment reduce health inequalities? A study of neighbourhood socioeconomic disadvantage and walking for transport. <i>Health and Place</i> , 2013 , 19, 89-98	4.6	105
262	How far do children travel from their homes? Exploring children's activity spaces in their neighborhood. <i>Health and Place</i> , 2012 , 18, 263-73	4.6	105

261	Translating active living research into policy and practice: one important pathway to chronic disease prevention. <i>Journal of Public Health Policy</i> , 2015 , 36, 231-43	2.9	100
260	The impact of neighborhood walkability on walking: does it differ across adult life stage and does neighborhood buffer size matter?. <i>Health and Place</i> , 2014 , 25, 43-6	4.6	99
259	Accessibility and connectivity in physical activity studies: the impact of missing pedestrian data. <i>Preventive Medicine</i> , 2008 , 46, 41-5	4.3	99
258	Sense of Community and Its Association With the Neighborhood Built Environment. <i>Environment and Behavior</i> , 2014 , 46, 677-697	5.6	95
257	Neighborhood disadvantage and physical activity: baseline results from the HABITAT multilevel longitudinal study. <i>Annals of Epidemiology</i> , 2010 , 20, 171-81	6.4	92
256	Planning Healthy, Liveable and Sustainable Cities: How Can Indicators Inform Policy?. <i>Urban Policy and Research</i> , 2015 , 33, 131-144	1.6	91
255	Taking up cycling after residential relocation: built environment factors. <i>American Journal of Preventive Medicine</i> , 2012 , 42, 610-5	6.1	90
254	Increasing children's physical activity: individual, social, and environmental factors associated with walking to and from school. <i>Health Education and Behavior</i> , 2012 , 39, 172-82	4.2	90
253	People or places: what should be the target?. <i>Journal of Science and Medicine in Sport</i> , 2006 , 9, 357-66	4.4	87
252	Love thy neighbour? Associations of social capital and crime with physical activity amongst women. <i>Social Science and Medicine</i> , 2010 , 71, 807-14	5.1	86
251	HABITAT: A longitudinal multilevel study of physical activity change in mid-aged adults. <i>BMC Public Health</i> , 2009 , 9, 76	4.1	84
250	Encouraging physical activity through dog walking: why don't some owners walk with their dog?. <i>Preventive Medicine</i> , 2008 , 46, 120-6	4.3	83
249	Achieving 10,000 steps: a comparison of public transport users and drivers in a university setting. <i>Preventive Medicine</i> , 2008 , 47, 338-41	4.3	83
248	Effects of access to public open spaces on walking: Is proximity enough?. <i>Landscape and Urban Planning</i> , 2013 , 117, 92-99	7.7	82
247	(Re)Designing the built environment to support physical activity: Bringing public health back into urban design and planning. <i>Cities</i> , 2013 , 35, 294-298	5.6	81
246	On your bike! a cross-sectional study of the individual, social and environmental correlates of cycling to school. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2011 , 8, 123	8.4	81
245	Developing indicators of public open space to promote health and wellbeing in communities. <i>Applied Geography</i> , 2015 , 57, 112-119	4.4	79
244	Built environment and cardio-metabolic health: systematic review and meta-analysis of longitudinal studies. <i>Obesity Reviews</i> , 2019 , 20, 41-54	10.6	77

243	Physical activity for recreation or exercise on neighbourhood streets: associations with perceived environmental attributes. <i>Health and Place</i> , 2009 , 15, 1058-63	4.6	74
242	The association between neighborhood greenness and weight status: an observational study in Perth Western Australia. <i>Environmental Health</i> , 2013 , 12, 49	6	73
241	Where Do Children Travel to and What Local Opportunities Are Available? The Relationship Between Neighborhood Destinations and Children's Independent Mobility. <i>Environment and Behavior</i> , 2013 , 45, 679-705	5.6	73
240	Neighbourhood fast food outlets and obesity in children and adults: the CLAN Study. <i>Pediatric Obesity</i> , 2008 , 3, 249-56		73
239	Is there a place for social capital in the psychology of health and place?. <i>Journal of Environmental Psychology</i> , 2008 , 28, 154-163	6.7	71
238	Development of a Public Open Space Desktop Auditing Tool (POSDAT): A remote sensing approach. <i>Applied Geography</i> , 2013 , 38, 22-30	4.4	70
237	Does getting a dog increase recreational walking?. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2008 , 5, 17	8.4	70
236	Initiating and maintaining recreational walking: a longitudinal study on the influence of neighborhood green space. <i>Preventive Medicine</i> , 2013 , 57, 178-82	4.3	69
235	Neighborhood walkability and cardiometabolic risk factors in Australian adults: an observational study. <i>BMC Public Health</i> , 2013 , 13, 755	4.1	68
234	Barriers and motivators for owners walking their dog: results from qualitative research. <i>Health Promotion Journal of Australia</i> , 2008 , 19, 118-24	1.7	67
233	The influence of the built environment, social environment and health behaviors on body mass index. results from RESIDE. <i>Preventive Medicine</i> , 2011 , 53, 57-60	4.3	66
232	Is the neighbourhood environment associated with sedentary behaviour outside of school hours among children?. <i>Annals of Behavioral Medicine</i> , 2011 , 41, 333-41	4.5	66
231	Environmental and psychosocial correlates of accelerometer-assessed and self-reported physical activity in Belgian adults. <i>International Journal of Behavioral Medicine</i> , 2011 , 18, 235-45	2.6	65
230	Street network measures and adults' walking for transport: Application of space syntax. <i>Health and Place</i> , 2016 , 38, 89-95	4.6	61
229	Cycling for transport and recreation: associations with socio-economic position, environmental perceptions, and psychological disposition. <i>Preventive Medicine</i> , 2014 , 63, 29-35	4.3	60
228	Emerging measurement and statistical methods in physical activity research. <i>American Journal of Preventive Medicine</i> , 2002 , 23, 44-55	6.1	60
227	Associations between park features and adolescent park use for physical activity. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015 , 12, 21	8.4	59
226	The built environment and depression in later life: the health in men study. <i>American Journal of Geriatric Psychiatry</i> , 2011 , 19, 461-70	6.5	59

225	Can the Neighborhood Built Environment Make a Difference in Children's Development? Building the Research Agenda to Create Evidence for Place-Based Children's Policy. <i>Academic Pediatrics</i> , 2016 , 16, 10-9	2.7	58
224	Does the walkability of neighbourhoods affect children's independent mobility, independent of parental, socio-cultural and individual factors?. <i>Children's Geographies</i> , 2014 , 12, 393-411	1.5	58
223	Does Fear of Crime Discourage Walkers? A Social-Ecological Exploration of Fear As a Deterrent to Walking. <i>Environment and Behavior</i> , 2014 , 46, 698-717	5.6	57
222	Do changes in residents' fear of crime impact their walking? Longitudinal results from RESIDE. <i>Preventive Medicine</i> , 2014 , 62, 161-6	4.3	57
221	How active are people in metropolitan parks? An observational study of park visitation in Australia. <i>BMC Public Health</i> , 2015 , 15, 610	4.1	56
220	Examining associations between urban design attributes and transport mode choice for walking, cycling, public transport and private motor vehicle trips. <i>Journal of Transport and Health</i> , 2017 , 6, 155-168	2.3	55
219	Work group IV: Future directions for measures of the food and physical activity environments. <i>American Journal of Preventive Medicine</i> , 2009 , 36, S182-8	6.1	55
218	Sex- and age-specific seasonal variations in physical activity among adults. <i>Journal of Epidemiology and Community Health</i> , 2010 , 64, 1010-6	5.1	54
217	"I'm Just a'-Walking the Dog" correlates of regular dog walking. <i>Family and Community Health</i> , 2010 , 33, 44-52	1.6	54
216	Creating safe walkable streetscapes: Does house design and upkeep discourage incivilities in suburban neighbourhoods?. <i>Journal of Environmental Psychology</i> , 2011 , 31, 79-88	6.7	52
215	Mismatch between perceived and objectively measured land use mix and street connectivity: associations with neighborhood walking. <i>Journal of Urban Health</i> , 2015 , 92, 242-52	5.8	51
214	Cycling for transport and recreation: Associations with the socio-economic, natural and built environment. <i>Health and Place</i> , 2015 , 36, 152-61	4.6	51
213	Associations between intrapersonal and neighborhood environmental characteristics and cycling for transport and recreation in adults: baseline results from the RESIDE study. <i>Journal of Physical Activity and Health</i> , 2010 , 7, 423-31	2.5	51
212	Evaluating the implementation and active living impacts of a state government planning policy designed to create walkable neighborhoods in Perth, Western Australia. <i>American Journal of Health Promotion</i> , 2014 , 28, S5-18	2.5	50
211	Built environment impacts on walking for transport in Brisbane, Australia. <i>Transportation</i> , 2016 , 43, 53-74	4.7	49
210	Patterns of social capital associated with transit oriented development. <i>Journal of Transport Geography</i> , 2014 , 35, 144-155	5.2	49
209	Physical activity behavior of dog owners: development and reliability of the Dogs and Physical Activity (DAPA) tool. <i>Journal of Physical Activity and Health</i> , 2008 , 5 Suppl 1, S73-89	2.5	49
208	The relationship between cluster-analysis derived walkability and local recreational and transportation walking among Canadian adults. <i>Health and Place</i> , 2012 , 18, 1079-87	4.6	48

207	Quality of Public Open Spaces and Recreational Walking. <i>American Journal of Public Health</i> , 2015 , 105, 2490-5	5.1	47
206	Walkability and walking for transport: characterizing the built environment using space syntax. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016 , 13, 121	8.4	47
205	A Longitudinal Analysis of the Influence of the Neighborhood Environment on Recreational Walking within the Neighborhood: Results from RESIDE. <i>Environmental Health Perspectives</i> , 2017 , 125, 077009	8.4	46
204	Access to commercial destinations within the neighbourhood and walking among Australian older adults. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2012 , 9, 133	8.4	46
203	A new urban planning code's impact on walking: the residential environments project. <i>American Journal of Public Health</i> , 2013 , 103, 1219-28	5.1	45
202	The Urban Liveability Index: developing a policy-relevant urban liveability composite measure and evaluating associations with transport mode choice. <i>International Journal of Health Geographics</i> , 2019 , 18, 14	3.5	43
201	Associations between individual socioeconomic position, neighbourhood disadvantage and transport mode: baseline results from the HABITAT multilevel study. <i>Journal of Epidemiology and Community Health</i> , 2015 , 69, 1217-23	5.1	43
200	The impact of the built environment on health across the life course: design of a cross-sectional data linkage study. <i>BMJ Open</i> , 2013 , 3,	3	43
199	Demographic and individual correlates of achieving 10,000 steps/day: use of pedometers in a population-based study. <i>Health Promotion Journal of Australia</i> , 2006 , 17, 43-7	1.7	41
198	Tracking of pedometer-determined physical activity in adults who relocate: results from RESIDE. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2008 , 5, 39	8.4	40
197	School site walkability and active school transport association, mediation and moderation. <i>Journal of Transport Geography</i> , 2014 , 34, 7-15	5.2	39
196	Planning safer suburbs: do changes in the built environment influence residents' perceptions of crime risk?. <i>Social Science and Medicine</i> , 2013 , 97, 87-94	5.1	39
195	Promising practices for the prevention and control of obesity in the worksite. <i>American Journal of Health Promotion</i> , 2011 , 25, e12-26	2.5	39
194	Achieving the SDGs: Evaluating indicators to be used to benchmark and monitor progress towards creating healthy and sustainable cities. <i>Health Policy</i> , 2020 , 124, 581-590	3.2	39
193	Can neighborhood green space mitigate health inequalities? A study of socio-economic status and mental health. <i>Health and Place</i> , 2016 , 38, 16-21	4.6	38
192	Neighbourhood physical activity environments and adiposity in children and mothers: a three-year longitudinal study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2010 , 7, 18	8.4	38
191	Effect of a school-based sun-protection intervention on the development of melanocytic nevi in children. <i>American Journal of Epidemiology</i> , 2002 , 155, 739-45	3.8	38
190	Identifying appropriate land-use mix measures for use in a national walkability index. <i>Journal of Transport and Land Use</i> , 2018 , 11,	3.1	38

189	Is practice aligned with the principles? Implementing New Urbanism in Perth, Western Australia. <i>Transport Policy</i> , 2010 , 17, 287-294	5.7	35
188	Identifying destination distances that support walking trips in local neighborhoods. <i>Journal of Transport and Health</i> , 2017 , 5, 133-141	3	34
187	Creating active environments across the life course: "thinking outside the square". <i>British Journal of Sports Medicine</i> , 2009 , 43, 109-13	10.3	34
186	The effect of a school-based sun protection intervention on the development of melanocytic nevi in children: 6-year follow-up. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2005 , 14, 977-80	4	34
185	An ecosystem service perspective on urban nature, physical activity, and health. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2021 , 118,	11.5	34
184	Safe RESIDENTIAL Environments? A longitudinal analysis of the influence of crime-related safety on walking. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016 , 13, 22	8.4	33
183	Public transport access and availability in the RESIDE study: Is it taking us where we want to go?. <i>Journal of Transport and Health</i> , 2014 , 1, 45-49	3	33
182	Using spatial measures to test a conceptual model of social infrastructure that supports health and wellbeing. <i>Cities and Health</i> , 2017 , 1, 194-209	2.8	33
181	The Australian longitudinal study on male health-methods. <i>BMC Public Health</i> , 2016 , 16, 1030	4.1	32
180	Perceptions of the Built Environment and Associations With Walking Among Retirement Village Residents. <i>Environment and Behavior</i> , 2014 , 46, 46-69	5.6	32
179	A natural experiment to examine the impact of park renewal on park-use and park-based physical activity in a disadvantaged neighbourhood: the REVAMP study methods. <i>BMC Public Health</i> , 2014 , 14, 600	4.1	32
178	Does walkable neighbourhood design influence the association between objective crime and walking?. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014 , 11, 100	8.4	32
177	Neighbourhood Effects Influencing Early Childhood Development: Conceptual Model and Trial Measurement Methodologies from the Kids in Communities Study. <i>Social Indicators Research</i> , 2015 , 120, 197-212	2.7	31
176	The REVAMP natural experiment study: the impact of a play-scape installation on park visitation and park-based physical activity. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018 , 15, 10	8.4	31
175	The Effect of the Social and Physical Environment on Children's Independent Mobility to Neighborhood Destinations. <i>Journal of Physical Activity and Health</i> , 2015 , 12 Suppl 1, S84-93	2.5	31
