

Billie Giles-Corti

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/7229715/billie-giles-corti-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
314	Achieving Active15 Minute Cities: How Feasible Is It to Reach Work within 30 Minutes Using Active Transport Modes?. <i>ISPRS International Journal of Geo-Information</i> , 2022 , 11, 58	2.9	1
313	Building the road network for city-scale active transport simulation models. <i>Simulation Modelling Practice and Theory</i> , 2022 , 114, 102398	3.9	1
312	Creating healthy and sustainable cities: what gets measured, gets done.. <i>The Lancet Global Health</i> , 2022 , 10, e782-e785	13.6	9
311	Using open data and open-source software to develop spatial indicators of urban design and transport features for achieving healthy and sustainable cities.. <i>The Lancet Global Health</i> , 2022 , 10, e907-e918	13.6	14
310	What next? Expanding our view of city planning and global health, and implementing and monitoring evidence-informed policy.. <i>The Lancet Global Health</i> , 2022 , 10, e919-e926	13.6	11
309	City planning policies to support health and sustainability: an international comparison of policy indicators for 25 cities.. <i>The Lancet Global Health</i> , 2022 , 10, e882-e894	13.6	13
308	Determining thresholds for spatial urban design and transport features that support walking to create healthy and sustainable cities: findings from the IPEN Adult study.. <i>The Lancet Global Health</i> , 2022 , 10, e895-e906	13.6	9
307	Active transport research priorities for Australia. <i>Journal of Transport and Health</i> , 2021 , 101288	3	
306	Cohort Profile: HABITAT-a longitudinal multilevel study of physical activity, sedentary behaviour and health and functioning in mid-to-late adulthood. <i>International Journal of Epidemiology</i> , 2021 , 50, 730-731h	7.8	6
305	Australia in 2030: what is our path to health for all?. <i>Medical Journal of Australia</i> , 2021 , 214 Suppl 8, S5-S40	4	6
304	Urban Densification and Physical Activity Change: A 12-Year Longitudinal Study of Australian Adults. <i>American Journal of Epidemiology</i> , 2021 , 190, 2116-2123	3.8	0
303	An ecosystem service perspective on urban nature, physical activity, and health. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2021 , 118,	11.5	34
302	Heart healthy cities: genetics loads the gun but the environment pulls the trigger. <i>European Heart Journal</i> , 2021 , 42, 2422-2438	9.5	9
301	A cross-sectional and longitudinal study of neighbourhood disadvantage and cardiovascular disease and the mediating role of physical activity. <i>Preventive Medicine</i> , 2021 , 147, 106506	4.3	1
300	Supporting pandemic disease preparedness: Development of a composite index of area vulnerability. <i>Health and Place</i> , 2021 , 70, 102629	4.6	1
299	Safe Habitats: Does the Association Between Neighborhood Crime and Walking Differ by Neighborhood Disadvantage?. <i>Environment and Behavior</i> , 2021 , 53, 3-39	5.6	8
298	The life and death of residential dissonants in transit-oriented development: A discrete time survival analysis. <i>Journal of Transport Geography</i> , 2021 , 90, 102921	5.2	3

297	Defining pathways to healthy sustainable urban development. <i>Environment International</i> , 2021 , 146, 106236	12.9	28
296	Findings from the Kids in Communities Study (KiCS): A mixed methods study examining community-level influences on early childhood development. <i>PLoS ONE</i> , 2021 , 16, e0256431	3.7	1
295	Evaluating the effect of change in the built environment on mental health and subjective well-being: a natural experiment. <i>Journal of Epidemiology and Community Health</i> , 2020 , 74, 631-638	5.1	3
294	Positive HABITATS for physical activity: Examining use of parks and its contribution to physical activity levels in mid-to older-aged adults. <i>Health and Place</i> , 2020 , 63, 102308	4.6	14
293	Living liveable? RESIDE's evaluation of the "Liveable Neighborhoods" planning policy on the health supportive behaviors and wellbeing of residents in Perth, Western Australia. <i>SSM - Population Health</i> , 2020 , 10, 100538	3.8	8
292	The effect of moving to East Village, the former London 2012 Olympic and Paralympic Games Athletes' Village, on mode of travel (ENABLE London study, a natural experiment). <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 15	8.4	1
291	Liveability aspirations and realities: Implementation of urban policies designed to create healthy cities in Australia. <i>Social Science and Medicine</i> , 2020 , 245, 112713	5.1	17
290	Could smart research ensure healthy people in disrupted cities?. <i>Journal of Transport and Health</i> , 2020 , 19, 100931	3	6
289	Communal area design in apartment buildings: development and comparison of a desktop and on-the-ground landscape assessment tool. <i>Cities and Health</i> , 2020 , 1-15	2.8	2
288	Longitudinal impact of changes in the residential built environment on physical activity: findings from the ENABLE London cohort study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 96	8.4	4
287	Weekend and weekday associations between the residential built environment and physical activity: Findings from the ENABLE London study. <i>PLoS ONE</i> , 2020 , 15, e0237323	3.7	2
286	Testing the Impact of a Planning Policy Based on New Urbanist Planning Principles on Residents' Sense of Community and Mental Health in Perth, Western Australia. <i>Environment and Behavior</i> , 2020 , 52, 305-339	5.6	8
285	Achieving the SDGs: Evaluating indicators to be used to benchmark and monitor progress towards creating healthy and sustainable cities. <i>Health Policy</i> , 2020 , 124, 581-590	3.2	39
284	Spatial biases in residential mobility: Implications for travel behaviour research. <i>Travel Behaviour & Society</i> , 2020 , 18, 15-28	5.3	9
283	The high life: A policy audit of apartment design guidelines and their potential to promote residents' health and wellbeing. <i>Cities</i> , 2020 , 96, 102420	5.6	15
282	Neighborhood walkability and 12-year changes in cardio-metabolic risk: the mediating role of physical activity. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019 , 16, 86	8.4	17
281	Daily Walking among Commuters: A Cross-Sectional Study of Associations with Residential, Work, and Regional Accessibility in Melbourne, Australia (2012-2014). <i>Environmental Health Perspectives</i> , 2019 , 127, 97004	8.4	5
280	Local Housing Characteristics Associated with Early Childhood Development Outcomes in Australian Disadvantaged Communities. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	5

279	Evidence-Informed Planning for Healthy Liveable Cities: How Can Policy Frameworks Be Used to Strengthen Research Translation?. <i>Current Environmental Health Reports</i> , 2019 , 6, 127-136	6.5	10
278	The Urban Liveability Index: developing a policy-relevant urban liveability composite measure and evaluating associations with transport mode choice. <i>International Journal of Health Geographics</i> , 2019 , 18, 14	3.5	43
277	Creating community indicators for early childhood development: challenges and innovations from the kids in communities study. <i>Cities and Health</i> , 2019 , 3, 68-77	2.8	1
276	The impact of a park refurbishment in a low socioeconomic area on physical activity: a cost-effectiveness study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019 , 16, 26	8.4	6
275	Using walkability measures to identify train stations with the potential to become transit oriented developments located in walkable neighbourhoods. <i>Journal of Transport Geography</i> , 2019 , 76, 221-231	5.2	18
274	Physical activity-related health and economic benefits of building walkable neighbourhoods: a modelled comparison between brownfield and greenfield developments. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019 , 16, 11	8.4	15
273	Built Environment and Physical Activity 2019 , 347-381		3
272	The effect of moving to East Village, the former London 2012 Olympic and Paralympic Games Athletes' Village, on physical activity and adiposity (ENABLE London): a cohort study. <i>Lancet Public Health, The</i> , 2019 , 4, e421-e430	22.4	9
271	A Case Study of a Natural Experiment Bridging the 'Research into Policy' and 'Evidence-Based Policy' Gap for Active-Living Science. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	5
270	Urban Densification and 12-Year Changes in Cardiovascular Risk Markers. <i>Journal of the American Heart Association</i> , 2019 , 8, e013199	6	6
269	High Life Study protocol: a cross-sectional investigation of the influence of apartment building design policy on resident health and well-being. <i>BMJ Open</i> , 2019 , 9, e029220	3	8
268	'Punching above their weight': a qualitative examination of local governments' organisational efficacy to improve the social determinants of health. <i>Australian and New Zealand Journal of Public Health</i> , 2019 , 43, 81-87	2.3	4
267	Built environment and cardio-metabolic health: systematic review and meta-analysis of longitudinal studies. <i>Obesity Reviews</i> , 2019 , 20, 41-54	10.6	77
266	Do active modes of transport cause lower body mass index? Findings from the HABITAT longitudinal study. <i>Journal of Epidemiology and Community Health</i> , 2018 , 72, 294-301	5.1	11
265	Prospective trends in body mass index by main transport mode, 2007-2013. <i>Journal of Transport and Health</i> , 2018 , 8, 183-192	3	11
264	Modest ratios of fast food outlets to supermarkets and green grocers are associated with higher body mass index: Longitudinal analysis of a sample of 15,229 Australians aged 45 years and older in the Australian National Liveability Study. <i>Health and Place</i> , 2018 , 49, 101-110	4.6	22
263	Health-Promoting Spatial Planning: Approaches for Strengthening Urban Policy Integration. <i>Planning Theory and Practice</i> , 2018 , 19, 180-197	1.8	22
262	Testing spatial measures of public open space planning standards with walking and physical activity health outcomes: Findings from the Australian national liveability study. <i>Landscape and Urban Planning</i> , 2018 , 171, 57-67	7.7	24

261	Comparing private and public transport access to diabetic health services across inner, middle, and outer suburbs of Melbourne, Australia. <i>BMC Health Services Research</i> , 2018 , 18, 286	2.9	5
260	Improving planning analysis and decision making: The development and application of a Walkability Planning Support System. <i>Journal of Transport Geography</i> , 2018 , 69, 129-137	5.2	18
259	Who Goes to Metropolitan Parks? A Latent Class Analysis Approach to Understanding Park Visitation. <i>Leisure Sciences</i> , 2018 , 40, 343-355	1.4	7
258	Local Food Environments, Suburban Development, and BMI: A Mixed Methods Study. <i>International Journal of Environmental Research and Public Health</i> , 2018 , 15,	4.6	14
257	The REVAMP natural experiment study: the impact of a play-scape installation on park visitation and park-based physical activity. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018 , 15, 10	8.4	31
256	Housing, neighbourhood and sociodemographic associations with adult levels of physical activity and adiposity: baseline findings from the ENABLE London study. <i>BMJ Open</i> , 2018 , 8, e021257	3	5
255	Identifying appropriate land-use mix measures for use in a national walkability index. <i>Journal of Transport and Land Use</i> , 2018 , 11,	3.1	38
254	Are public open space attributes associated with walking and depression?. <i>Cities</i> , 2018 , 74, 119-125	5.6	20
253	A method for the inclusion of physical activity-related health benefits in cost-benefit analysis of built environment initiatives. <i>Preventive Medicine</i> , 2018 , 106, 224-230	4.3	7
252	Are Measures Derived From Land Use and Transport Policies Associated With Walking for Transport?. <i>Journal of Physical Activity and Health</i> , 2018 , 15, 13-21	2.5	7
251	A9528 Urban Design and Hypertension. <i>Journal of Hypertension</i> , 2018 , 36, e313-e314	1.9	
250	A Longitudinal Study Examining Changes in Street Connectivity, Land Use, and Density of Dwellings and Walking for Transport in Brisbane, Australia. <i>Environmental Health Perspectives</i> , 2018 , 126, 057003	8.4	30
249	Local food environments: Australian stakeholder perspectives on urban planning and governance to advance health and equity within cities. <i>Cities and Health</i> , 2018 , 2, 46-59	2.8	2
248	City Know-how. <i>Cities and Health</i> , 2018 , 2, 1-10	2.8	2
247	An open-source tool to identify active travel from hip-worn accelerometer, GPS and GIS data. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2018 , 15, 91	8.4	12
246	Nowhere to Go and Nothing to Do but Sit? Youth Screen Time and the Association With Access to Neighborhood Destinations. <i>Environment and Behavior</i> , 2017 , 49, 84-108	5.6	14
245	Best Practice Principles for Community Indicator Systems and a Case Study Analysis: How Community Indicators Victoria is Creating Impact and Bridging Policy, Practice and Research. <i>Social Indicators Research</i> , 2017 , 131, 567-586	2.7	19
244	Creating and applying public transport indicators to test pathways of behaviours and health through an urban transport framework. <i>Journal of Transport and Health</i> , 2017 , 4, 208-215	3	15

243	Kids in Communities Study (KiCS) study protocol: a cross-sectional mixed-methods approach to measuring community-level factors influencing early child development in Australia. <i>BMJ Open</i> , 2017 , 7, e014047	3	8
242	The Walkability Planning Support System: An Evidence-Based Tool to Design Healthy Communities. <i>Lecture Notes in Geoinformation and Cartography</i> , 2017 , 153-165	0.3	6
241	Examining associations between area-level spatial measures of housing with selected health and wellbeing behaviours and outcomes in an urban context. <i>Health and Place</i> , 2017 , 43, 17-24	4.6	22
240	Indicators of a health-promoting local food environment: a conceptual framework to inform urban planning policy and practice. <i>Health Promotion Journal of Australia</i> , 2017 , 28, 82-84	1.7	13
239	Neighbourhood socioeconomic and transport disadvantage: The potential to reduce social inequities in health through transport. <i>Journal of Transport and Health</i> , 2017 , 7, 256-263	3	13
238	Comparisons of depression, anxiety, well-being, and perceptions of the built environment amongst adults seeking social, intermediate and market-rent accommodation in the former London Olympic Athletes' Village. <i>Health and Place</i> , 2017 , 48, 31-39	4.6	4
237	Supermarket access, transport mode and BMI: the potential for urban design and planning policy across socio-economic areas. <i>Public Health Nutrition</i> , 2017 , 20, 3304-3315	3.3	17
236	Designing healthy communities: creating evidence on metrics for built environment features associated with walkable neighbourhood activity centres. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017 , 14, 164	8.4	29
235	A Longitudinal Analysis of the Influence of the Neighborhood Environment on Recreational Walking within the Neighborhood: Results from RESIDE. <i>Environmental Health Perspectives</i> , 2017 , 125, 077009	8.4	46
234	Are Area-Level Measures of Employment Associated with Health Behaviours and Outcomes?. <i>Social Indicators Research</i> , 2017 , 134, 237-251	2.7	6
233	Examining associations between urban design attributes and transport mode choice for walking, cycling, public transport and private motor vehicle trips. <i>Journal of Transport and Health</i> , 2017 , 6, 155-166	3	55
232	Challenges in conducting natural experiments in parks-lessons from the REVAMP study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017 , 14, 5	8.4	12
231	Identifying destination distances that support walking trips in local neighborhoods. <i>Journal of Transport and Health</i> , 2017 , 5, 133-141	3	34
230	Identifying, creating, and testing urban planning measures for transport walking: Findings from the Australian national liveability study. <i>Journal of Transport and Health</i> , 2017 , 5, 151-162	3	28
229	Using spatial measures to test a conceptual model of social infrastructure that supports health and wellbeing. <i>Cities and Health</i> , 2017 , 1, 194-209	2.8	33
228	What evidence is being used to inform municipal strategic planning for health and wellbeing? Victoria, Australia, a case study. <i>Evidence and Policy</i> , 2017 , 13, 401-416	2.1	8
227	Public Open Spaces and Leisure-Time Walking in Brazilian Adults. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	27
226	Decarbonising suburban mobility 2017 , 113-138		2

225	Cohort Profile: Ten to Men (the Australian Longitudinal Study on Male Health). <i>International Journal of Epidemiology</i> , 2017 , 46, 793-794i	7.8	25
224	Are liveable neighbourhoods safer neighbourhoods? Testing the rhetoric on new urbanism and safety from crime in Perth, Western Australia. <i>Social Science and Medicine</i> , 2016 , 164, 150-157	5.1	22
223	Cost-effectiveness of investing in sidewalks as a means of increasing physical activity: a RESIDE modelling study. <i>BMJ Open</i> , 2016 , 6, e011617	3	6
222	Cohort profile: Examining Neighbourhood Activities in Built Living Environments in London: the ENABLE London-Olympic Park cohort. <i>BMJ Open</i> , 2016 , 6, e012643	3	10
221	The Australian longitudinal study on male health-methods. <i>BMC Public Health</i> , 2016 , 16, 1030	4.1	32
220	Safe RESIDENTIAL Environments? A longitudinal analysis of the influence of crime-related safety on walking. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016 , 13, 22	8.4	33
219	Conceptualising and Measuring Spatial Indicators of Employment Through a Liveability Lens. <i>Social Indicators Research</i> , 2016 , 127, 565-576	2.7	12
218	An analysis of local government health policy against state priorities and a social determinants framework. <i>Australian and New Zealand Journal of Public Health</i> , 2016 , 40, 126-31	2.3	7
217	The effect of siblings and family dog ownership on children's independent mobility to neighbourhood destinations. <i>Australian and New Zealand Journal of Public Health</i> , 2016 , 40, 316-8	2.3	8
216	Built environment impacts on walking for transport in Brisbane, Australia. <i>Transportation</i> , 2016 , 43, 53-74		49
215	Can the Neighborhood Built Environment Make a Difference in Children's Development? Building the Research Agenda to Create Evidence for Place-Based Children's Policy. <i>Academic Pediatrics</i> , 2016 , 16, 10-9	2.7	58
214	Discussion of How to Have Sustainable Transportation without Making People Drive Less or Give Up Suburban Living by Mark Delucchi and Kenneth S. Kurani. <i>Journal of the Urban Planning and Development Division, ASCE</i> , 2016 , 142, 07016001	2.2	2
213	Can neighborhood green space mitigate health inequalities? A study of socio-economic status and mental health. <i>Health and Place</i> , 2016 , 38, 16-21	4.6	38
212	Street network measures and adults' walking for transport: Application of space syntax. <i>Health and Place</i> , 2016 , 38, 89-95	4.6	61
211	Cycling as a Part of Daily Life: A Review of Health Perspectives. <i>Transport Reviews</i> , 2016 , 36, 45-71	9.9	155
210	An International Perspective on the Nexus of Physical Activity Research and Policy. <i>Environment and Behavior</i> , 2016 , 48, 37-54	5.6	22
209	Testing spatial measures of alcohol outlet density with self-rated health in the Australian context: Implications for policy and practice. <i>Drug and Alcohol Review</i> , 2016 , 35, 298-306	3.2	12
208	The influence of the built environment on transport and health. <i>Journal of Transport and Health</i> , 2016 , 3, 423-425	3	17

207	Walkability and walking for transport: characterizing the built environment using space syntax. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016 , 13, 121	8.4	47
206	Neighbourhood disadvantage and self-reported type 2 diabetes, heart disease and comorbidity: a cross-sectional multilevel study. <i>Annals of Epidemiology</i> , 2016 , 26, 146-150	6.4	22
205	Health service access in urban growth areas: examining the evidence and applying a case study approach. <i>Australian Planner</i> , 2016 , 53, 83-90	0.6	3
204	Does heightened fear of crime lead to poorer mental health in new suburbs, or vice versa?. <i>Social Science and Medicine</i> , 2016 , 168, 30-34	5.1	24
203	City planning and population health: a global challenge. <i>Lancet, The</i> , 2016 , 388, 2912-2924	40	530
202	Land use, transport, and population health: estimating the health benefits of compact cities. <i>Lancet, The</i> , 2016 , 388, 2925-2935	40	264
201	Use of science to guide city planning policy and practice: how to achieve healthy and sustainable future cities. <i>Lancet, The</i> , 2016 , 388, 2936-2947	40	200
200	Mismatch between perceived and objectively measured land use mix and street connectivity: associations with neighborhood walking. <i>Journal of Urban Health</i> , 2015 , 92, 242-52	5.8	51
199	Associations between park features and adolescent park use for physical activity. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015 , 12, 21	8.4	59
198	Public open space, physical activity, urban design and public health: Concepts, methods and research agenda. <i>Health and Place</i> , 2015 , 33, 75-82	4.6	199
197	Associations between individual socioeconomic position, neighbourhood disadvantage and transport mode: baseline results from the HABITAT multilevel study. <i>Journal of Epidemiology and Community Health</i> , 2015 , 69, 1217-23	5.1	43
196	Neighborhood Correlates of Sitting Time for Australian Adults in New Suburbs: Results From RESIDE. <i>Environment and Behavior</i> , 2015 , 47, 902-922	5.6	9
195	How active are people in metropolitan parks? An observational study of park visitation in Australia. <i>BMC Public Health</i> , 2015 , 15, 610	4.1	56
194	Cycling for transport and recreation: Associations with the socio-economic, natural and built environment. <i>Health and Place</i> , 2015 , 36, 152-61	4.6	51
193	The building blocks of a 'Liveable Neighbourhood': Identifying the key performance indicators for walking of an operational planning policy in Perth, Western Australia. <i>Health and Place</i> , 2015 , 36, 173-83	4.6	28
192	Neighbourhood Effects Influencing Early Childhood Development: Conceptual Model and Trial Measurement Methodologies from the Kids in Communities Study. <i>Social Indicators Research</i> , 2015 , 120, 197-212	2.7	31
191	The development of policy-relevant transport indicators to monitor health behaviours and outcomes. <i>Journal of Transport and Health</i> , 2015 , 2, 103-110	3	19
190	Motivated to walk but nowhere to walk to: Differential effect of a mass media campaign by mix of local destinations. <i>Preventive Medicine Reports</i> , 2015 , 2, 403-5	2.6	1

189	The Effect of the Social and Physical Environment on Children's Independent Mobility to Neighborhood Destinations. <i>Journal of Physical Activity and Health</i> , 2015 , 12 Suppl 1, S84-93	2.5	31
188	Quality of Public Open Spaces and Recreational Walking. <i>American Journal of Public Health</i> , 2015 , 105, 2490-5	5.1	47
187	Are we developing walkable suburbs through urban planning policy? Identifying the mix of design requirements to optimise walking outcomes from the 'Liveable Neighbourhoods' planning policy in Perth, Western Australia. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015 , 12, 63	8.4	24
186	Planning Healthy, Liveable and Sustainable Cities: How Can Indicators Inform Policy?. <i>Urban Policy and Research</i> , 2015 , 33, 131-144	1.6	91
185	Suspicious minds: Can features of the local neighbourhood ease parents' fears about stranger danger?. <i>Journal of Environmental Psychology</i> , 2015 , 42, 48-56	6.7	26
184	The influence of the neighborhood physical environment on early child health and development: A review and call for research. <i>Health and Place</i> , 2015 , 33, 25-36	4.6	123
183	Translating active living research into policy and practice: one important pathway to chronic disease prevention. <i>Journal of Public Health Policy</i> , 2015 , 36, 231-43	2.9	100
182	Area-Level Disparities of Public Open Space: A Geographic Information Systems Analysis in Metropolitan Melbourne. <i>Urban Policy and Research</i> , 2015 , 33, 306-323	1.6	25
181	Using spatial analysis of the Australian Early Development Index to advance our understanding of 'neighbourhood effects' research on child health and development. <i>Journal of Paediatrics and Child Health</i> , 2015 , 51, 577-9	1.3	5
180	Individual, Social, and Environmental Correlates of Healthy and Unhealthy Eating. <i>Health Education and Behavior</i> , 2015 , 42, 759-68	4.2	26
179	Developing indicators of public open space to promote health and wellbeing in communities. <i>Applied Geography</i> , 2015 , 57, 112-119	4.4	79
