#	Article	IF	CITATIONS
1	High dose vitamin D exacerbates central nervous system autoimmunity by raising T-cell excitatory calcium. Brain, 2019, 142, 2737-2755.	7.6	43
2	Introduction of Non-Vitamin K Antagonist Anticoagulants Strongly Increased the Rate of Anticoagulation in Hospitalized Geriatric Patients with Atrial Fibrillation. Drugs and Aging, 2018, 35, 859-869.	2.7	2
3	Cisterno-lumbar gradient of complement fractions in geriatric patients with suspected normal pressure hydrocephalus. Clinica Chimica Acta, 2018, 486, 1-7.	1.1	3
4	Cerebrospinal fluid abnormalities in meningeosis neoplastica: a retrospective 12-year analysis. Fluids and Barriers of the CNS, 2017, 14, 7.	5.0	21
5	Small cisterno-lumbar gradient of phosphorylated Tau protein in geriatric patients with suspected normal pressure hydrocephalus. Fluids and Barriers of the CNS, 2016, 13, 15.	5.0	17
6	Frequency of dementia syndromes with a potentially treatable cause in geriatric in-patients: analysis of a 1-year interval. European Archives of Psychiatry and Clinical Neuroscience, 2015, 265, 429-438.	3.2	18
7	Vitamin D deficiency decreases survival of bacterial meningoencephalitis in mice. Journal of Neuroinflammation, 2015, 12, 208.	7.2	9
8	Neurocognitive functions and brain atrophy after proven neuroborreliosis: a case-control study. BMC Neurology, 2015, 15, 139.	1.8	10
9	Bacterial meningitis: an update of new treatment options. Expert Review of Anti-Infective Therapy, 2015, 13, 1401-1423.	4.4	39
10	Vitamin D Deficiency Reduces the Immune Response, Phagocytosis Rate, and Intracellular Killing Rate of Microglial Cells. Infection and Immunity, 2014, 82, 2585-2594.	2.2	36
11	Unilateral phrenic nerve lesion in Lyme neuroborreliosis. BMC Pulmonary Medicine, 2013, 13, 4.	2.0	11
12	Cerebrospinal fluid findings in adults with acute Lyme neuroborreliosis. Journal of Neurology, 2012, 259, 630-636.	3.6	94
13	Ly-6G+CCR2â^' Myeloid Cells Rather Than Ly-6ChighCCR2+ Monocytes Are Required for the Control of Bacterial Infection in the Central Nervous System. Journal of Immunology, 2008, 181, 2713-2722.	0.8	43
