#	ARTICLE	IF	CITATIONS
1	Effect of In-Person Delivered Behavioural Interventions in People with Multimorbidity: Systematic Review and Meta-analysis. <i>International Journal of Behavioral Medicine</i> , 2023, 30, 167-189.	1.7	9
2	Linking measures to mechanisms of action: An expert opinion study. <i>British Journal of Health Psychology</i> , 2023, 28, 98-115.	3.5	3
3	Using behavioural theory to understand adherence to behaviours that reduce transmission of COVID-19: evidence from the CHARIS representative national study. <i>British Journal of Health Psychology</i> , 2022, 27, 116-135.	3.5	21
4	Predictors of recruitment and retention in randomized controlled trials of behavioural smoking cessation interventions: a systematic review and meta-regression analysis. <i>Addiction</i> , 2022, 117, 299-311.	3.3	22
5	Changing healthcare professionals' non-reflective processes to improve the quality of care. <i>Social Science and Medicine</i> , 2022, 298, 114840.	3.8	11
6	The StrokeCog study: development and description of a cognition-focused psychological intervention to address cognitive impairment following stroke. <i>Psychology and Health</i> , 2021, 36, 792-809.	2.2	5
7	What Competences Are Required to Deliver Person-Person Behaviour Change Interventions: Development of a Health Behaviour Change Competency Framework. <i>International Journal of Behavioral Medicine</i> , 2021, 28, 308-317.	1.7	10
8	Development of an online tool for linking behavior change techniques and mechanisms of action based on triangulation of findings from literature synthesis and expert consensus. <i>Translational Behavioral Medicine</i> , 2021, 11, 1049-1065.	2.4	111
9	Investigating which behaviour change techniques work for whom in which contexts delivered by what means: Proposal for an international collaboratory of Centres for Understanding Behaviour Change (CUBiC). <i>British Journal of Health Psychology</i> , 2021, 26, 1-14.	3.5	18
10	Underreporting of the active content of behavioural interventions: a systematic review and meta-analysis of randomised trials of smoking cessation interventions. <i>Health Psychology Review</i> , 2021, 15, 195-213.	8.6	37
11	Progress in conducting and reporting behaviour change intervention studies: a prospective retrospection. <i>Health Psychology and Behavioral Medicine</i> , 2021, 9, 567-581.	1.8	0
12	Developing an evidence-based online method of linking behaviour change techniques and theoretical mechanisms of action: a multiple methods study. <i>Health Services and Delivery Research</i> , 2021, 9, 1-168.	1.4	25
13	Protocol of the COVID-19 Health and Adherence Research in Scotland (CHARIS) study: understanding changes in adherence to transmission-reducing behaviours, mental and general health, in repeated cross-sectional representative survey of the Scottish population. <i>BMJ Open</i> , 2021, 11, e044135.	1.9	10
14	Sociodemographic and Psychological Risk Factors for Anxiety and Depression: Findings from the Covid-19 Health and Adherence Research in Scotland on Mental Health (CHARIS-MH) Cross-sectional Survey. <i>International Journal of Behavioral Medicine</i> , 2021, 28, 788-800.	1.7	43
15	Are Rurality, Area Deprivation, Access to Outside Space, and Green Space Associated with Mental Health during the COVID-19 Pandemic? A Cross Sectional Study (CHARIS-E). <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3869.	2.6	58
16	How can better monitoring, reporting and evaluation standards advance behavioural public policy?. <i>Policy and Politics</i> , 2021, 49, 161-179.	2.4	2
17	Achieving integrated self-directed Cancer aftercare (ASICA) for melanoma: how a digital intervention to support total skin self-examination was used by people treated for cutaneous melanoma. <i>BMC Cancer</i> , 2021, 21, 1217.	2.6	6
18	Outcome Prediction from Behaviour Change Intervention Evaluations using a Combination of Node and Word Embedding.. <i>AMIA ... Annual Symposium proceedings</i> , 2021, 2021, 486-495.	0.2	0

#	ARTICLE	IF	CITATIONS
19	MAP: A mnemonic for mapping BCTs to three routes to behaviour change. British Journal of Health Psychology, 2020, 25, 1086-1101.	3.5	9
20	Do Combinations of Behavior Change Techniques That Occur Frequently in Interventions Reflect Underlying Theory?. Annals of Behavioral Medicine, 2020, 54, 827-842.	2.9	31
21	Behaviour change techniques associated with smoking cessation in intervention and comparator groups of randomized controlled trials: a systematic review and meta-analysis. Addiction, 2020, 115, 2008-2020.	3.3	53
22	Theory and ontology in behavioural science. Nature Human Behaviour, 2020, 4, 226-226.	12.0	20
23	Representation of behaviour change interventions and their evaluation: Development of the Upper Level of the Behaviour Change Intervention Ontology. Wellcome Open Research, 2020, 5, 123.	1.8	41
24	Delivering Behaviour Change Interventions: Development of a Mode of Delivery Ontology. Wellcome Open Research, 2020, 5, 125.	1.8	38
25	Variability and effectiveness of comparator group interventions in smoking cessation trials: a systematic review and meta-analysis. Addiction, 2020, 115, 1607-1617.	3.3	35
26	The Human Behaviour-Change Project: An artificial intelligence system to answer questions about changing behaviour. Wellcome Open Research, 2020, 5, 122.	1.8	25
27	Representation of behaviour change interventions and their evaluation: Development of the Upper Level of the Behaviour Change Intervention Ontology. Wellcome Open Research, 2020, 5, 123.	1.8	41
28	Development of an Intervention Setting Ontology for behaviour change: Specifying where interventions take place. Wellcome Open Research, 2020, 5, 124.	1.8	26
29	Delivering Behaviour Change Interventions: Development of a Mode of Delivery Ontology. Wellcome Open Research, 2020, 5, 125.	1.8	33
30	Ontologies relevant to behaviour change interventions: a method for their development. Wellcome Open Research, 2020, 5, 126.	1.8	10
31	Ontologies relevant to behaviour change interventions: a method for their development. Wellcome Open Research, 2020, 5, 126.	1.8	18
32	Behavior Change Techniques. , 2020, , 206-213.		6
33	Behavior Change Techniques and Their Mechanisms of Action: A Synthesis of Links Described in Published Intervention Literature. Annals of Behavioral Medicine, 2019, 53, 693-707.	2.9	305
34	Representing health threat representations. Health Psychology Review, 2019, 13, 477-480.	8.6	0
35	Reducing delay in patients with acute coronary syndrome and other time-critical conditions: a systematic review to identify the behaviour change techniques associated with effective interventions. Open Heart, 2019, 6, e000975.	2.3	10
36	Content validity of measures of theoretical constructs in health psychology: Discriminant content validity is needed. British Journal of Health Psychology, 2019, 24, 477-484.	3.5	18

#	ARTICLE	IF	CITATIONS
55	Reducing patient delay in Acute Coronary Syndrome (<scp>RAP</scp>iD): research protocol for a web-based randomized controlled trial examining the effect of a behaviour change intervention. Journal of Advanced Nursing, 2017, 73, 1220-1234.	3.3	3
56	The Human Behaviour-Change Project: harnessing the power of artificial intelligence and machine learning for evidence synthesis and interpretation. Implementation Science, 2017, 12, 121.	6.9	216
57	Optimising the value of the evidence generated in implementation science: the use of ontologies to address the challenges. Implementation Science, 2017, 12, 131.	6.9	74
58	Do patients's faces influence General Practitioners' cancer suspicions? A test of automatic processing of sociodemographic information. PLoS ONE, 2017, 12, e0188222.	2.5	4
59	What more can we learn from early learning theory? The contemporary relevance for behaviour change interventions. British Journal of Health Psychology, 2016, 21, 1-10.	3.5	25
60	Psychological preparation and postoperative outcomes for adults undergoing surgery under general anaesthesia. The Cochrane Library, 2016, 2016, CD008646.	2.8	136
61	A science for all reasons: A comment on Ogden (2016). Health Psychology Review, 2016, 10, 256-259.	8.6	5
62	When group members go against the grain: An ironic interactive effect of group identification and normative content on healthy eating. Appetite, 2016, 105, 344-355.	3.7	6
63	Identifying effective behavioural components of Intervention and Comparison group support provided in SMOKing cEssation (IC-SMOKE) interventions: a systematic review protocol. Systematic Reviews, 2016, 5, 77.	5.3	33
64	Stressors, Appraisal of Stressors, Experienced Stress and Cardiac Response: A Real-Time, Real-Life Investigation of Work Stress in Nurses. Annals of Behavioral Medicine, 2016, 50, 187-197.	2.9	48
65	Behavior Change Techniques. , 2016, , 1-8.		12
66	Snack purchasing is healthier when the cognitive demands of choice are reduced: A randomized controlled trial.. Health Psychology, 2015, 34, 750-755.	1.6	27
67	Printed educational messages fail to increase use of thiazides as first-line medication for hypertension in primary care: a cluster randomized controlled trial [ISRCTN72772651]. Implementation Science, 2015, 11, 124.	6.9	14
68	A theory-based process evaluation alongside a randomised controlled trial of printed educational messages to increase primary care physicians' prescription of thiazide diuretics for hypertension [ISRCTN72772651]. Implementation Science, 2015, 11, 121.	6.9	23
69	Improving magnetic resonance imaging (MRI) examinations: Development and evaluation of an intervention to reduce movement in scanners and facilitate scan completion. British Journal of Health Psychology, 2015, 20, 449-465.	3.5	30
70	Reporting behaviour change interventions: do the behaviour change technique taxonomy v1, and training in its use, improve the quality of intervention descriptions?. Implementation Science, 2015, 11, 84.	6.9	34
71	Advancing cumulative evidence on behaviour change techniques and interventions: a comment on Peters, de Bruin, and Crutzen. Health Psychology Review, 2015, 9, 25-29.	8.6	19
72	Reliability of Identification of Behavior Change Techniques in Intervention Descriptions. Annals of Behavioral Medicine, 2015, 49, 885-900.	2.9	51

#	ARTICLE	IF	CITATIONS
73	Applying the behaviour change technique (BCT) taxonomy v1: a study of coder training. Translational Behavioral Medicine, 2015, 5, 134-148.	2.4	74
74	Personal experiences of electronic measurement of medication adherence in elderly stroke survivors. Drugs and Therapy Perspectives, 2015, 31, 167-174.	0.6	3
75	From lists of behaviour change techniques (<scp>BCT</scp>s) to structured hierarchies: Comparison of two methods of developing a hierarchy of <scp>BCT</scp>s. British Journal of Health Psychology, 2015, 20, 130-150.	3.5	255
76	The role of emotion regulation on social participation following stroke. British Journal of Clinical Psychology, 2015, 54, 181-199.	3.5	34
77	Total skin self-examination at home for people treated for cutaneous melanoma: development and pilot of a digital intervention. BMJ Open, 2015, 5, e007993.	1.9	23
78	Behaviour change techniques: the development and evaluation of a taxonomic method for reporting and describing behaviour change interventions (a suite of five studies involving consensus methods, Tj ETQq0 0 0 rgBT /Overlock 10 Tf 19, 1-188.	2.8	458
79	Links between emotion perception and social participation restriction following stroke. Brain Injury, 2014, 28, 122-126.	1.2	32
80	Does the impact of osteoarthritis vary by age, gender and social deprivation? A community study using the International Classification of Functioning, Disability and Health. Disability and Rehabilitation, 2014, 36, 1445-1451.	1.8	9
81	Are interventions for low-income groups effective in changing healthy eating, physical activity and smoking behaviours? A systematic review and meta-analysis. BMJ Open, 2014, 4, e006046.	1.9	103
82	Better reporting of interventions: template for intervention description and replication (TIDieR) checklist and guide. BMJ, The, 2014, 348, g1687-g1687.	6.0	5,661
83	Environmental and individual correlates of distress: Testing <scp>K</scp>arasek's Demandâ€Control model in 99 primary care clinical environments. British Journal of Health Psychology, 2014, 19, 292-310.	3.5	17
84	Discriminant content validity: A quantitative methodology for assessing content of theoryâ€based measures, with illustrative applications. British Journal of Health Psychology, 2014, 19, 240-257.	3.5	69
85	Stress in telephone helpline nurses is associated with failures of concentration, attention and memory, and with more conservative referral decisions. British Journal of Psychology, 2014, 105, 200-213.	2.3	26
86	Developing an integrated biomedical and behavioural theory of functioning and disability: adding models of behaviour to the ICF framework. Health Psychology Review, 2014, 8, 381-403.	8.6	15
87	A qualitative theory guided analysis of stroke survivorsâ€™ perceived barriers and facilitators to physical activity. Disability and Rehabilitation, 2014, 36, 1857-1868.	1.8	103
88	Looking inside the black box: results of a theory-based process evaluation exploring the results of a randomized controlled trial of printed educational messages to increase primary care physiciansâ€™ diabetic retinopathy referrals [Trial registration number ISRCTN7272651]. Implementation Science, 2014, 9, 86.	6.9	34
89	Psychological, surgical, and sociodemographic predictors of pain outcomes after breast cancer surgery: A population-based cohort study. Pain, 2014, 155, 232-243.	4.2	211
90	Theory-based predictors of multiple clinician behaviors in the management of diabetes. Journal of Behavioral Medicine, 2014, 37, 607-620.	2.1	43

#	ARTICLE	IF	CITATIONS
91	Predictors of anxiety and depression in people with colorectal cancer. Supportive Care in Cancer, 2014, 22, 307-314.	2.2	56
92	“My doctor has changed my pills without telling me” – impact of generic medication switches in stroke survivors. Journal of Behavioral Medicine, 2014, 37, 890-901.	2.1	8
93	Reflective and Automatic Processes in Health Care Professional Behaviour: a Dual Process Model Tested Across Multiple Behaviours. Annals of Behavioral Medicine, 2014, 48, 347-358.	2.9	132
94	Improving Diabetes care through Examining, Advising, and prescribing (IDEA): protocol for a theory-based cluster randomised controlled trial of a multiple behaviour change intervention aimed at primary healthcare professionals. Implementation Science, 2014, 9, 61.	6.9	27
95	Reducing patient delay with symptoms of acute coronary syndrome: a research protocol for a systematic review of previous interventions to investigate which behaviour change techniques are associated with effective interventions. Open Heart, 2014, 1, e000079.	2.3	4
96	Improving medication adherence in stroke survivors: Mediators and moderators of treatment effects.. Health Psychology, 2014, 33, 1241-1250.	1.6	29
97	Using the theory of planned behaviour to develop targets for interventions to enhance patient communication during pharmacy consultations for non-prescription medicines. International Journal of Pharmacy Practice, 2014, 22, 386-396.	0.6	20
98	Prevalence and Causes of Prescribing Errors: The PRescribing Outcomes for Trainee Doctors Engaged in Clinical Training (PROTECT) Study. PLoS ONE, 2014, 9, e79802.	2.5	147
99	Understanding Usage of a Hybrid Website and Smartphone App for Weight Management: A Mixed-Methods Study. Journal of Medical Internet Research, 2014, 16, e201.	4.3	75
100	Improving Adherence to Medication in Stroke Survivors: A Pilot Randomised Controlled Trial. Annals of Behavioral Medicine, 2013, 46, 358-368.	2.9	101
101	The Behavior Change Technique Taxonomy (v1) of 93 Hierarchically Clustered Techniques: Building an International Consensus for the Reporting of Behavior Change Interventions. Annals of Behavioral Medicine, 2013, 46, 81-95.	2.9	4,927
102	The Best Laid Plans: Planning Skill Determines the Effectiveness of Action Plans and Implementation Intentions. Annals of Behavioral Medicine, 2013, 46, 114-120.	2.9	96
103	Junior doctors' perceptions of their self-efficacy in prescribing, their prescribing errors and the possible causes of errors. British Journal of Clinical Pharmacology, 2013, 76, 980-987.	2.4	37
104	A Systematic Review of Perceived Barriers and Motivators to Physical Activity after Stroke. International Journal of Stroke, 2013, 8, 357-364.	5.9	213
105	Testing an integrated behavioural and biomedical model of disability in N-of-1 studies with chronic pain. Psychology and Health, 2013, 28, 1391-1406.	2.2	23
106	Developing a community-based intervention to improve quality of life in people with colorectal cancer: a complex intervention development study. BMJ Open, 2013, 3, e002596.	1.9	9
107	Is organizational justice associated with clinical performance in the care for patients with diabetes in primary care? Evidence from the improving Quality of care in Diabetes study. Family Practice, 2013, 30, 31-39.	1.9	17
108	Nursing stress and patient care: real-time investigation of the effect of nursing tasks and demands on psychological stress, physiological stress, and job performance: study protocol. Journal of Advanced Nursing, 2013, 69, 2327-2335.	3.3	36

#	ARTICLE	IF	CITATIONS
109	Rehabilitation following surgery: Clinical and psychological predictors of activity limitations.. Rehabilitation Psychology, 2013, 58, 350-360.	1.3	8
110	Frequency of nursing tasks in medical and surgical wards. Journal of Nursing Management, 2013, 21, 860-866.	3.4	21
111	Are the mental representations of people with osteoarthritis consistent with the International Classification of Functioning Disability and Health?. Disability and Rehabilitation, 2013, 35, 1460-1465.	1.8	2
112	Useful theories should apply to individuals. British Journal of Health Psychology, 2013, 18, 469-473.	3.5	36
113	Can the theory of planned behaviour predict the physical activity behaviour of individuals?. Psychology and Health, 2013, 28, 234-249.	2.2	45
114	Reducing the time before consulting with symptoms of lung cancer: a randomised controlled trial in primary care. British Journal of General Practice, 2013, 63, e47-e54.	1.4	34
115	Behavior Change Techniques. , 2013, , 182-187.		6
116	Development of the international classification of functioning, disability and health core sets for hand conditions “ results of the world health organization international consensus process. Disability and Rehabilitation, 2012, 34, 681-693.	1.8	77
117	Stroke survivors’s evaluations of a stroke workbook-based intervention designed to increase perceived control over recovery. Health Education Journal, 2012, 71, 17-29.	1.2	5
118	Theories and techniques of behaviour change: Developing a cumulative science of behaviour change. Health Psychology Review, 2012, 6, 1-6.	8.6	365
119	Testing the integration of ICF and behavioral models of disability in orthopedic patients: Replication and extension.. Rehabilitation Psychology, 2012, 57, 167-177.	1.3	16
120	Shared understandings of dementia? An application of the Common Sense Self Regulation Model to a case study. Dementia, 2012, 11, 217-250.	2.0	7
121	Testing integrated behavioural and biomedical models of activity and activity limitations in a population-based sample. Disability and Rehabilitation, 2012, 34, 1157-1166.	1.8	17
122	The Use of Pedometers in Stroke Survivors: Are They Feasible and How Well Do They Detect Steps?. Archives of Physical Medicine and Rehabilitation, 2012, 93, 466-470.	0.9	57
123	Emotion processing and social participation following stroke: study protocol. BMC Neurology, 2012, 12, 56.	1.8	22
124	Do incentives, reminders or reduced burden improve healthcare professional response rates in postal questionnaires? two randomised controlled trials. BMC Health Services Research, 2012, 12, 250.	2.2	35
125	Explaining clinical behaviors using multiple theoretical models. Implementation Science, 2012, 7, 99.	6.9	81
126	Exploring differential item functioning in the Western Ontario and McMaster Universities Osteoarthritis Index (WOMAC). BMC Musculoskeletal Disorders, 2012, 13, 265.	1.9	19

#	ARTICLE	IF	CITATIONS
127	Identifying active ingredients in complex behavioural interventions for obese adults with obesity-related co-morbidities or additional risk factors for co-morbidities: a systematic review. <i>Health Psychology Review</i> , 2012, 6, 7-32.	8.6	404
128	Diabetes Care Provision in UK Primary Care Practices. <i>PLoS ONE</i> , 2012, 7, e41562.	2.5	11
129	Developing a complex intervention to reduce time to presentation with symptoms of lung cancer. <i>British Journal of General Practice</i> , 2012, 62, e605-e615.	1.4	25
130	Stress of caring and nurses' beliefs in the stroke rehabilitation environment: a cross-sectional study. <i>International Journal of Therapy and Rehabilitation</i> , 2012, 19, 209-216.	0.3	3
131	Stress amongst nurses working in a healthcare telephone advice service: relationship with job satisfaction, intention to leave, sickness absence, and performance. <i>Journal of Advanced Nursing</i> , 2012, 68, 1624-1635.	3.3	43
132	Optimizing acceptability and feasibility of an evidence-based behavioral intervention for obese adults with obesity-related co-morbidities or additional risk factors for co-morbidities: An open-pilot intervention study in secondary care. <i>Patient Education and Counseling</i> , 2012, 87, 108-119.	2.2	27
133	Missed by an inch or a mile? Predicting the size of intention-behaviour gap from measures of executive control. <i>Psychology and Health</i> , 2011, 26, 635-650.	2.2	84
134	Strengthening evaluation and implementation by specifying components of behaviour change interventions: a study protocol. <i>Implementation Science</i> , 2011, 6, 10.	6.9	226
135	Adherence to medication in stroke survivors: A qualitative comparison of low and high adherers. <i>British Journal of Health Psychology</i> , 2011, 16, 592-609.	3.5	76
136	Applying psychological theories to evidence-based clinical practice: identifying factors predictive of lumbar spine x-ray for low back pain in UK primary care practice. <i>Implementation Science</i> , 2011, 6, 55.	6.9	35
137	Instrument development, data collection, and characteristics of practices, staff, and measures in the Improving Quality of Care in Diabetes (iQuaD) Study. <i>Implementation Science</i> , 2011, 6, 61.	6.9	31
138	Mental practice with motor imagery in stroke recovery: randomized controlled trial of efficacy. <i>Brain</i> , 2011, 134, 1373-1386.	7.6	254
139	Potential Pain Management Programmes in primary care. A UK-wide questionnaire and Delphi survey of experts. <i>Family Practice</i> , 2011, 28, 41-48.	1.9	25
140	Randomised Controlled Feasibility Trial of an Evidence-Informed Behavioural Intervention for Obese Adults with Additional Risk Factors. <i>PLoS ONE</i> , 2011, 6, e23040.	2.5	12
141	Improving adherence to medication in stroke survivors (IAMSS): a randomised controlled trial: study protocol. <i>BMC Neurology</i> , 2010, 10, 15.	1.8	32
142	Listening to patients: using verbal data in the validation of the Aberdeen Measures of Impairment, Activity Limitation and Participation Restriction (Ab-IAP). <i>BMC Musculoskeletal Disorders</i> , 2010, 11, 182.	1.9	10
143	Statistical considerations in a systematic review of proxy measures of clinical behaviour. <i>Implementation Science</i> , 2010, 5, 20.	6.9	10
144	Applying psychological theories to evidence-based clinical practice: identifying factors predictive of placing preventive fissure sealants. <i>Implementation Science</i> , 2010, 5, 25.	6.9	47
