#	ARTICLE	IF	CITATIONS
1	The Prevalence of Antimicrobial Resistant <i>Neisseria gonorrhoeae</i> in Papua New Guinea: A Systematic Review and Meta-Analysis. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 1520.	1.2	1
2	Partnership-defined quality approach to companionship during labour and birth in East New Britain, Papua New Guinea: A mixed-methods study. <i>PLOS Global Public Health</i> , 2022, 2, e0000102.	0.5	3
3	Community perceptions and acceptability of mass drug administration for the control of neglected tropical diseases in Asia-Pacific countries: A systematic scoping review of qualitative research. <i>PLoS Neglected Tropical Diseases</i> , 2022, 16, e0010215.	1.3	5
4	High prevalence of pre-treatment HIV drug resistance in Papua New Guinea: findings from the first nationally representative pre-treatment HIV drug resistance study. <i>BMC Infectious Diseases</i> , 2022, 22, 266.	1.3	2
5	Global change in hepatitis C virus prevalence and cascade of care between 2015 and 2020: a modelling study. <i>The Lancet Gastroenterology and Hepatology</i> , 2022, 7, 396-415.	3.7	237
6	Perpetration of Violence by Female Sex Workers in Papua New Guinea: "We will Crush their Bones"™. <i>British Journal of Criminology</i> , 2021, 61, 104-122.	1.5	1
7	Gaps in HIV Testing and Treatment Among Female Sex Workers in Lae and Mt. Hagen, Papua New Guinea. <i>AIDS and Behavior</i> , 2021, 25, 1573-1582.	1.4	2
8	Gender diversity among "boys"™ in Papua New Guinea: Memories of sameness and difference in early childhood. <i>Children and Society</i> , 2021, 35, 144-158.	1.0	1
9	Caring Masculinities in the Context of HIV Serodiscordant Relationships in Papua New Guinea. <i>Men and Masculinities</i> , 2021, 24, 326-344.	1.7	7
10	High prevalence of pulmonary tuberculosis among female sex workers, men who have sex with men, and transgender women in Papua New Guinea. <i>Tropical Medicine and Health</i> , 2021, 49, 4.	1.0	8
11	Strategic options for syphilis control in Papua New Guinea—impact and cost-effectiveness projections using the syphilis interventions towards elimination (SITE) model. <i>Infectious Disease Modelling</i> , 2021, 6, 584-597.	1.2	2
12	Ending AIDS in the Asia-Pacific region by 2030: are we on track? Policy, epidemiological and intervention insights. <i>Sexual Health</i> , 2021, 18, 1.	0.4	2
13	Risk factors and knowledge associated with high unintended pregnancy rates and low family planning use among pregnant women in Papua New Guinea. <i>Scientific Reports</i> , 2021, 11, 1222.	1.6	15
14	Co-locating art and health: engaging civil society to create an enabling environment to respond to HIV in Indonesia. <i>Sexual Health</i> , 2021, 18, 84.	0.4	2
15	Resource Extraction, Gender and the Sexual Economy in Hela Province, Papua New Guinea: "Everything has Changed" Sexuality and Culture, 2021, 25, 1852-1870.	1.1	4
16	Making Sense of Serodiscordance: Pathways and Aftermaths of HIV Testing among Couples with Mixed HIV Status in Papua New Guinea. <i>Asia Pacific Journal of Anthropology</i> , 2021, 22, 298-314.	0.5	2
17	Operational experiences associated with the implementation of near point-of-care early infant diagnosis of HIV in Myanmar: a qualitative study. <i>BMC Health Services Research</i> , 2021, 21, 863.	0.9	3
18	Fertility Preferences, Contraceptive Use, and the Unmet Need for Contraception in Papua New Guinea: Key Findings From 1996 to 2016. <i>Asia-Pacific Journal of Public Health</i> , 2021, 33, 101053952110342.	0.4	1

#	ARTICLE	IF	CITATIONS
19	Point-of-care testing and treatment of sexually transmitted and genital infections during pregnancy in Papua New Guinea (WANTAIM trial): protocol for an economic evaluation alongside a cluster-randomised trial. <i>BMJ Open</i> , 2021, 11, e046308.	0.8	2
20	Self-collection for HPV-based cervical screening: a qualitative evidence meta-synthesis. <i>BMC Public Health</i> , 2021, 21, 1503.	1.2	25
21	Meet the Editors. <i>Sexual Health</i> , 2021, 18, i.	0.4	0
22	High Prevalence of Chlamydia and Gonorrhoea and the Need for Sexually Transmitted Infection Testing Among Men Who Have Sex With Men and Transgender Women in Papua New Guinea. <i>Sexually Transmitted Diseases</i> , 2021, 48, 109-117.	0.8	9
23	A socio-ecological analysis of factors influencing HIV treatment initiation and adherence among key populations in Papua New Guinea. <i>BMC Public Health</i> , 2021, 21, 2003.	1.2	6
24	Considerable distance to reach 90-90-90 targets among female sex workers, men who have sex with men and transgender women in Port Moresby, Papua New Guinea: findings from a cross-sectional respondent-driven sampling survey. <i>Sexually Transmitted Infections</i> , 2020, 96, 143-150.	0.8	13
25	Medical pluralism, Pentecostal healing and contests over healing power in Papua New Guinea. <i>Social Science and Medicine</i> , 2020, 266, 113381.	1.8	9
26	Feasibility and acceptability of implementing early infant diagnosis of HIV in Papua New Guinea at the point of care: a qualitative exploration of health worker and key informant perspectives. <i>BMJ Open</i> , 2020, 10, e043679.	0.8	5
27	Factors associated with HIV and syphilis infection among female sex workers in three cities in Papua New Guinea: findings from Kauntim mi tu, a biobehavioral survey. <i>Sexual Health</i> , 2020, 17, 311.	0.4	12
28	Community attitudes and gendered influences on decision making around contraceptive implant use in rural Papua New Guinea. <i>Reproductive Health</i> , 2020, 17, 136.	1.2	4
29	Confidential, accessible point-of-care sexual health services to support the participation of key populations in biobehavioural surveys: Lessons for Papua New Guinea and other settings where reach of key populations is limited. <i>PLoS ONE</i> , 2020, 15, e0233026.	1.1	8
30	Polygyny, Serodiscordance and HIV Prevention in Papua New Guinea: A Qualitative Exploration of Diverse Configurations. <i>Asia Pacific Journal of Anthropology</i> , 2020, 21, 248-263.	0.5	3
31	Practical justice as an innovative approach to addressing inequalities facing gender and sexually diverse people: a case example from Papua New Guinea. <i>Culture, Health and Sexuality</i> , 2020, 22, 822-837.	1.0	5
32	Loss to follow up of pregnant women with HIV and infant HIV outcomes in the prevention of maternal to child transmission of HIV programme in two high-burden provinces in Papua New Guinea: a retrospective clinical audit. <i>BMJ Open</i> , 2020, 10, e038311.	0.8	8
33	Qualitative Evidence Synthesis on Self-Collection for Human Papillomavirus-Based Cervical Screening: Protocol for Systematic Review. <i>JMIR Research Protocols</i> , 2020, 9, e21093.	0.5	2
34	Caregiver experience and perceived acceptability of a novel near point-of-care early infant HIV diagnostic test among caregivers enrolled in the PMTCT program, Myanmar: A qualitative study. <i>PLoS ONE</i> , 2020, 15, e0241245.	1.1	3
35	Title is missing!. , 2020, 15, e0241245.		0
