#	ARTICLE	IF	CITATIONS
1	Comparison of sampling and spectrophotometric determination of ammonia using nesslerization with standard ion chromatography in air monitoring of workplaces. <i>International Journal of Environmental Analytical Chemistry</i> , 2023, 103, 1724-1732.	3.3	3
2	Assessment of respiratory exposure to cypermethrin among farmers and farm workers of Shiraz, Iran. <i>Environmental Monitoring and Assessment</i> , 2021, 193, 187.	2.7	9
3	Low-level Exposure to lead dust in unusual work schedules and hematologic, renal, and hepatic parameters. <i>Toxicology and Applied Pharmacology</i> , 2021, 415, 115448.	2.8	3
4	Association between genotoxic properties of inhalation anesthetics and oxidative stress biomarkers. <i>Toxicology and Industrial Health</i> , 2020, 36, 454-466.	1.4	12
5	Toxic responses of the liver and kidneys following occupational exposure to anesthetic gases. <i>EXCLI Journal</i> , 2020, 19, 418-429.	0.7	9
6	Respiratory symptoms and lung functional impairments associated with occupational exposure to poultry house pollutants. <i>International Journal of Occupational Safety and Ergonomics</i> , 2019, 27, 1-7.	1.9	3
7	Genotoxicity of inhalational anesthetics and its relationship with the polymorphisms of GSTT1, GSTM1, and GSTP1 genes. <i>Environmental Science and Pollution Research</i> , 2019, 26, 3530-3541.	5.3	25
8	Effects of Low-level Occupational Exposure to Ammonia on Hematological Parameters and Kidney Function. <i>International Journal of Occupational and Environmental Medicine</i> , 2019, 10, 80-88.	4.2	13
9	Evaluation of hematological and biochemical parameters of pesticide retailers following occupational exposure to a mixture of pesticides. <i>Life Sciences</i> , 2018, 202, 182-187.	4.3	9
10	Occupational exposure to extremely low frequency magnetic fields and risk of Alzheimer disease: A systematic review and meta-analysis. <i>NeuroToxicology</i> , 2018, 69, 242-252.	3.0	33
11	Association between polymorphism of GSTP1, GSTT1, GSTM1 and CYP2E1 genes and susceptibility to benzene-induced hematotoxicity. <i>Archives of Toxicology</i> , 2018, 92, 1983-1990.	4.2	21
12	Respiratory and Dermal Symptoms and Raised Serum Concentrations of Biomarkers of Oxidative Stress among Pesticide Retailers. <i>International Journal of Occupational and Environmental Medicine</i> , 2018, 9, 194-204.	4.2	7
13	Early, Subclinical Hematological Changes Associated with Occupational Exposure to High Levels of Nitrous Oxide. <i>Toxics</i> , 2018, 6, 70.	3.7	9
14	Re. <i>Journal of Occupational and Environmental Medicine</i> , 2018, 60, e560-e561.	1.7	3
15	Ventilatory disorders associated with occupational inhalation exposure to nitrogen trihydride (ammonia). <i>Industrial Health</i> , 2018, 56, 427-435.	1.0	16
16	Effects of Genetic Polymorphism on Susceptibility to Nephrotoxic Properties of BTEXs Compounds. <i>Journal of Occupational and Environmental Medicine</i> , 2018, 60, e377-e382.	1.7	8
17	Functional disorders of the lung and symptoms of respiratory disease associated with occupational inhalation exposure to wood dust in Iran. <i>Epidemiology and Health</i> , 2018, 40, e2018031.	1.9	22
18	Toxic responses of different organs following occupational exposure to sub-threshold limit value levels of paving asphalt fumes. <i>Toxicological and Environmental Chemistry</i> , 2017, 99, 331-339.	1.2	3

#	ARTICLE	IF	CITATIONS
19	Exposure to Cooking Fumes and Acute Reversible Decrement in Lung Functional Capacity. <i>International Journal of Occupational and Environmental Medicine</i> , 2017, 8, 207-216.	4.2	37
20	Pulmonary effects of intermittent, seasonal exposure to high concentrations of cotton dust. <i>World Journal of Respiriology</i> , 2016, 6, 24.	0.5	2
21	The Effect of Exposure to Low Levels of Chlorine Gas on the Pulmonary Function and Symptoms in a Chloralkali Unit. <i>Journal of Research in Health Sciences</i> , 2016, 16, 41-5.	1.0	7
22	Early Liver and Kidney Dysfunction Associated with Occupational Exposure to Sub-Threshold Limit Value Levels of Benzene, Toluene, and Xylenes in Unleaded Petrol. <i>Safety and Health at Work</i> , 2015, 6, 312-316.	0.6	42
23	Respiratory Disorders Associated with Occupational Inhalational Exposure to Bioaerosols among Wastewater Treatment Workers of Petrochemical Complexes. <i>International Journal of Occupational and Environmental Medicine</i> , 2015, 6, 41-49.	4.2	18
24	Respiratory Symptoms and Lung Functional Impairments Associated with Occupational Exposure to Asphalt Fumes. <i>International Journal of Occupational and Environmental Medicine</i> , 2015, 6, 113-121.	4.2	9
25	Hematological study of petrol station workers exposed to unleaded petrol. <i>Toxicological and Environmental Chemistry</i> , 2014, 96, 951-961.	1.2	6
26	The effects of exposure to pesticides on the fecundity status of farm workers resident in a rural region of Fars province, southern Iran. <i>Asian Pacific Journal of Tropical Biomedicine</i> , 2014, 4, 324-328.	1.2	38
27	Biodegradation of high concentrations of benzene vapors in a two phase partition stirred tank bioreactor. <i>Iranian Journal of Environmental Health Science & Engineering</i> , 2013, 10, 10.	1.8	11
28	Oxygen mass transfer in a stirred tank bioreactor using different impeller configurations for environmental purposes. <i>Iranian Journal of Environmental Health Science & Engineering</i> , 2013, 10, 6.	1.8	51
29	Health Effects Associated With Long-Term Occupational Exposure of Employees of a Chlor-Alkali Plant to Mercury. <i>International Journal of Occupational Safety and Ergonomics</i> , 2012, 18, 97-106.	1.9	18
30	Respiratory Morbidity Induced by Occupational Inhalation Exposure to High Concentrations of Wheat Flour Dust. <i>International Journal of Occupational Safety and Ergonomics</i> , 2012, 18, 563-569.	1.9	5
31	Electrophysiological Studies of Shoemakers Exposed to Sub- \leq TLV Levels of n-hexane. <i>Journal of Occupational Health</i> , 2012, 54, 376-382.	2.1	27
32	Toxic responses of different organs following occupational exposure of employees of a plant to ethylene oxide. <i>Toxicological and Environmental Chemistry</i> , 2012, 94, 1591-1600.	1.2	5
33	Symptoms of Respiratory Disease and Lung Functional Impairment Associated with Occupational Inhalation Exposure to Carbon Black Dust. <i>Journal of Occupational Health</i> , 2011, 53, 432-438.	2.1	23
34	Respiratory Morbidity Induced by Occupational Inhalation Exposure to Formaldehyde. <i>Industrial Health</i> , 2011, 49, 89-94.	1.0	20
35	Symptoms of Intoxication in Dentists Associated with Exposure to Low Levels of Mercury. <i>Industrial Health</i> , 2011, 49, 249-254.	1.0	33
36	Assessment of Occupational Exposure to N-hexane: A Study in Shoe Making Workshops. <i>Research Journal of Environmental Toxicology</i> , 2011, 5, 293-300.	1.0	8

#	ARTICLE	IF	CITATIONS
37	Respiratory Toxicity of Raw Materials Used in Ceramic Production. <i>Industrial Health</i> , 2009, 47, 64-69.	1.0	11
38	Perceived demands and musculoskeletal symptoms among employees of an Iranian petrochemical industry. <i>International Journal of Industrial Ergonomics</i> , 2009, 39, 766-770.	2.6	37
39	Evaluation of potential toxic effects of occupational inhalation exposure to licorice root dust. <i>Toxicological and Environmental Chemistry</i> , 2008, 90, 467-474.	1.2	0
40	Work-related Respiratory Symptoms and Ventilatory Disorders among Employees of a Cement Industry in Shiraz, Iran. <i>Journal of Occupational Health</i> , 2007, 49, 273-278.	2.1	50
41	An epidemiological study of talc-related respiratory morbidity among employees of a rubber industry in Shiraz-Iran. <i>International Archives of Occupational and Environmental Health</i> , 2007, 80, 539-546.	2.3	17
42	Effects of Fasting and a Medium Calorie Balanced Diet During the Holy Month Ramadan on Weight, BMI and Some Blood Parameters of Overweight Males. <i>Pakistan Journal of Biological Sciences</i> , 2007, 10, 968-971.	0.5	30
43	Association Between Perceived Demands and Musculoskeletal Disorders Among Hospital Nurses of Shiraz University of Medical Sciences: A Questionnaire Survey. <i>International Journal of Occupational Safety and Ergonomics</i> , 2006, 12, 409-416.	1.9	87
44	Bacterial Contamination of the Swimming Pools in Shiraz, Iran; Relationship to Residual Chlorine and Other Determinants. <i>Pakistan Journal of Biological Sciences</i> , 2006, 9, 2473-2477.	0.5	5
45	Tick Borne Crimean-Congo Haemorrhagic Fever in Fars Province, Southern Iran: Epidemiologic Characteristics and Vector Surveillance. <i>Pakistan Journal of Biological Sciences</i> , 2006, 9, 2681-2684.	0.5	15
46	Prevalence of Intestinal Parasitic Infections among Catering Staff of Students' Canteens at Shiraz, Southern Iran. <i>Pakistan Journal of Biological Sciences</i> , 2006, 9, 2699-2703.	0.5	22
47	Serum bile acids as a sensitive biological marker for evaluating hepatic effects of organic solvents. <i>Biomarkers</i> , 2000, 5, 81-107.	1.9	9
48	TOLUENE-INDUCED ELEVATION OF SERUM BILE ACIDS: RELATIONSHIP TO BILE ACID TRANSPORT. <i>Journal of Toxicology and Environmental Health - Part A: Current Issues</i> , 1997, 52, 249-268.	2.3	8
49	Raised concentration of serum bile acids following occupational exposure to halogenated solvents, 1,1,2-trichloro-1,2,2-trifluoroethane and trichloroethylene. <i>International Archives of Occupational and Environmental Health</i> , 1997, 70, 187-194.	2.3	13
50	In vitro interference with hepatocellular uptake of bile acids by xylene. <i>Toxicology</i> , 1997, 120, 1-10.	4.2	2
51	In vitro interference with hepatocellular transport of taurocholate by 1,1,2-trichloro-1,2,2-trifluoroethane. <i>Toxicology in Vitro</i> , 1996, 10, 173-181.	2.4	4
52	Inhibition by trichloroethylene and 1,1,2-trichloro-1,2,2-trifluoroethane of taurocholate uptake into basolateral rat liver plasma membrane vesicles. <i>Toxicology in Vitro</i> , 1996, 10, 665-674.	2.4	4
53	Alpha-naphthylisothiocyanate-induced elevation of serum bile acids: lack of causative effect on bile acid transport. <i>Chemico-Biological Interactions</i> , 1996, 99, 179-192.	4.0	8
