

Alana L Hansen

List of Publications by Citations

Source: <https://exaly.com/author-pdf/7274119/alana-l-hansen-publications-by-citations.pdf>

Version: 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
68	The effect of heat waves on mental health in a temperate Australian city. <i>Environmental Health Perspectives</i> , 2008 , 116, 1369-75	8.4	264
67	Health impacts of workplace heat exposure: an epidemiological review. <i>Industrial Health</i> , 2014 , 52, 91-101	15	193
66	Impact of two recent extreme heat episodes on morbidity and mortality in Adelaide, South Australia: a case-series analysis. <i>Environmental Health</i> , 2011 , 10, 42	6	166
65	The effect of heat waves on hospital admissions for renal disease in a temperate city of Australia. <i>International Journal of Epidemiology</i> , 2008 , 37, 1359-65	7.8	158
64	The effects of extreme heat on human mortality and morbidity in Australia: implications for public health. <i>Asia-Pacific Journal of Public Health</i> , 2011 , 23, 27S-36	2	110
63	Association between high temperature and work-related injuries in Adelaide, South Australia, 2001-2010. <i>Occupational and Environmental Medicine</i> , 2014 , 71, 246-52	2.1	100
62	The impact of heatwaves on workers' health and safety in Adelaide, South Australia. <i>Environmental Research</i> , 2014 , 133, 90-5	7.9	77
61	Association between dengue fever incidence and meteorological factors in Guangzhou, China, 2005-2014. <i>Environmental Research</i> , 2017 , 153, 17-26	7.9	68
60	Are workers at risk of occupational injuries due to heat exposure? A comprehensive literature review. <i>Safety Science</i> , 2018 , 110, 380-392	5.8	63
59	Perceptions of heat-susceptibility in older persons: barriers to adaptation. <i>International Journal of Environmental Research and Public Health</i> , 2011 , 8, 4714-28	4.6	58
58	The effect of meteorological variables on the transmission of hand, foot and mouth disease in four major cities of shanxi province, China: a time series data analysis (2009-2013). <i>PLoS Neglected Tropical Diseases</i> , 2015 , 9, e0003572	4.8	50
57	Extreme heat and occupational heat illnesses in South Australia, 2001-2010. <i>Occupational and Environmental Medicine</i> , 2015 , 72, 580-6	2.1	46
56	Vulnerability to extreme heat and climate change: is ethnicity a factor?. <i>Global Health Action</i> , 2013 , 6, 21364	3	45
55	Risk factors, health effects and behaviour in older people during extreme heat: a survey in South Australia. <i>International Journal of Environmental Research and Public Health</i> , 2013 , 10, 6721-33	4.6	44
54	Perception, attitude and behavior in relation to climate change: a survey among CDC health professionals in Shanxi province, China. <i>Environmental Research</i> , 2014 , 134, 301-8	7.9	40
53	Workers' perceptions of climate change related extreme heat exposure in South Australia: a cross-sectional survey. <i>BMC Public Health</i> , 2016 , 16, 549	4.1	38
52	Infectious Diseases, Urbanization and Climate Change: Challenges in Future China. <i>International Journal of Environmental Research and Public Health</i> , 2015 , 12, 11025-36	4.6	36

51	Transmission of haemorrhagic fever with renal syndrome in china and the role of climate factors: a review. <i>International Journal of Infectious Diseases</i> , 2015 , 33, 212-8	10.5	35
50	Residential air-conditioning and climate change: voices of the vulnerable. <i>Health Promotion Journal of Australia</i> , 2011 , 22, 13-15	1.7	34
49	Working smart: An exploration of council workers' experiences and perceptions of heat in Adelaide, South Australia. <i>Safety Science</i> , 2016 , 82, 228-235	5.8	32
48	Perceptions of Workplace Heat Exposure and Controls among Occupational Hygienists and Relevant Specialists in Australia. <i>PLoS ONE</i> , 2015 , 10, e0135040	3.7	32
47	Older persons and heat-susceptibility: the role of health promotion in a changing climate. <i>Health Promotion Journal of Australia</i> , 2011 , 22 Spec No, S17-20	1.7	31
46	Evaluation of a heat warning system in Adelaide, South Australia, using case-series analysis. <i>BMJ Open</i> , 2016 , 6, e012125	3	28
45	Particulate air pollution and cardiorespiratory hospital admissions in a temperate Australian city: A case-crossover analysis. <i>Science of the Total Environment</i> , 2012 , 416, 48-52	10.2	27
44	Perceptions of capacity for infectious disease control and prevention to meet the challenges of dengue fever in the face of climate change: A survey among CDC staff in Guangdong Province, China. <i>Environmental Research</i> , 2016 , 148, 295-302	7.9	24
43	Heatwave and work-related injuries and illnesses in Adelaide, Australia: a case-crossover analysis using the Excess Heat Factor (EHF) as a universal heatwave index. <i>International Archives of Occupational and Environmental Health</i> , 2019 , 92, 263-272	3.2	24
42	Impact of meteorological factors on hemorrhagic fever with renal syndrome in 19 cities in China, 2005-2014. <i>Science of the Total Environment</i> , 2018 , 636, 1249-1256	10.2	21
41	Heat-health behaviours of older people in two Australian states. <i>Australasian Journal on Ageing</i> , 2015 , 34, E19-25	1.5	21
40	Is there an association between hot weather and poor mental health outcomes? A systematic review and meta-analysis. <i>Environment International</i> , 2021 , 153, 106533	12.9	21
39	Extreme heat and health: perspectives from health service providers in rural and remote communities in South Australia. <i>International Journal of Environmental Research and Public Health</i> , 2013 , 10, 5565-83	4.6	20
38	The effects of ambient temperatures on the risk of work-related injuries and illnesses: Evidence from Adelaide, Australia 2003-2013. <i>Environmental Research</i> , 2019 , 170, 101-109	7.9	20
37	The Living Environment and Thermal Behaviours of Older South Australians: A Multi-Focus Group Study. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	19
36	The impact of climate change on infectious disease transmission: perceptions of CDC health professionals in Shanxi Province, China. <i>PLoS ONE</i> , 2014 , 9, e109476	3.7	19
35	Risk communication for new and emerging communities: The contingent role of social capital. <i>International Journal of Disaster Risk Reduction</i> , 2018 , 28, 620-628	4.5	17
34	Occupational heat stress and economic burden: A review of global evidence. <i>Environmental Research</i> , 2021 , 195, 110781	7.9	17

33	Living environment, heating-cooling behaviours and well-being: Survey of older South Australians. <i>Building and Environment</i> , 2019 , 157, 215-226	6.5	15
32	Characterising the impact of heatwaves on work-related injuries and illnesses in three Australian cities using a standard heatwave definition- Excess Heat Factor (EHF). <i>Journal of Exposure Science and Environmental Epidemiology</i> , 2019 , 29, 821-830	6.7	15
31	Extreme heat and cultural and linguistic minorities in Australia: perceptions of stakeholders. <i>BMC Public Health</i> , 2014 , 14, 550	4.1	15
30	Geographical variation in risk of work-related injuries and illnesses associated with ambient temperatures: A multi-city case-crossover study in Australia, 2005-2016. <i>Science of the Total Environment</i> , 2019 , 687, 898-906	10.2	11
29	Determinants of heat-related injuries in Australian workplaces: Perceptions of health and safety professionals. <i>Science of the Total Environment</i> , 2020 , 718, 137138	10.2	9
28	Heat Health Messages: A Randomized Controlled Trial of a Preventative Messages Tool in the Older Population of South Australia. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	9
27	Developing Health-Related Indicators of Climate Change: Australian Stakeholder Perspectives. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	8
26	Carbon emissions and public health: an inverse association?. <i>Lancet Planetary Health, The</i> , 2018 , 2, e8-e9	9.8	7
25	What Can We Learn about Workplace Heat Stress Management from a Safety Regulator Complaints Database?. <i>International Journal of Environmental Research and Public Health</i> , 2018 , 15,	4.6	7
24	The Effect of Heatwaves on Ambulance Callouts in Adelaide, South Australia. <i>Epidemiology</i> , 2011 , 22, S14-S15	3.1	7
23	Increasing impacts of temperature on hospital admissions, length of stay, and related healthcare costs in the context of climate change in Adelaide, South Australia. <i>Science of the Total Environment</i> , 2021 , 773, 145656	10.2	7
22	China's capacity of hospitals to deal with infectious diseases in the context of climate change. <i>Social Science and Medicine</i> , 2018 , 206, 60-66	5.1	6
21	Climate change adaptation: no one size fits all. <i>Lancet Planetary Health, The</i> , 2017 , 1, e353-e354	9.8	6
20	Perceptions of malaria control and prevention in an era of climate change: a cross-sectional survey among CDC staff in China. <i>Malaria Journal</i> , 2017 , 16, 136	3.6	5
19	Health professionals' perceptions of hemorrhagic fever with renal syndrome and climate change in China. <i>Global and Planetary Change</i> , 2017 , 152, 12-18	4.2	5
18	Building community resilience to heatwaves in South Australia. <i>Transactions of the Royal Society of South Australia</i> , 2015 , 139, 113-120	0.2	5
17	Using a Qualitative Phenomenological Approach to Inform the Etiology and Prevention of Occupational Heat-Related Injuries in Australia. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	5
16	Correlates of Occupational Heat-Induced Illness Costs: Case Study of South Australia 2000 to 2014. <i>Journal of Occupational and Environmental Medicine</i> , 2018 , 60, e463-e469	2	5

15	Public health professionals' perceptions of the capacity of China's CDCs to address emerging and re-emerging infectious diseases. <i>Journal of Public Health</i> , 2021 , 43, 209-216	3.5	4
14	Impact of heatwave intensity using excess heat factor on emergency department presentations and related healthcare costs in Adelaide, South Australia. <i>Science of the Total Environment</i> , 2021 , 781, 146815	10.2	4
13	Hot weather as a risk factor for kidney disease outcomes: A systematic review and meta-analysis of epidemiological evidence. <i>Science of the Total Environment</i> , 2021 , 801, 149806	10.2	4
12	The Thermal Environment of Housing and Its Implications for the Health of Older People in South Australia: A Mixed-Methods Study. <i>Atmosphere</i> , 2022 , 13, 96	2.7	3
11	Adaptation to extreme heat and climate change in culturally and linguistically diverse communities 2014 , 241-249		2
10	Workers health and safety in the heat: current practice in Australian workplaces. <i>Policy and Practice in Health and Safety</i> , 2020 , 18, 67-79	0.6	1
9	CLIMATE CHANGE AND VECTOR-BORNE VIRAL DISEASES 2013 , 1-20		1
8	O8B.3 Heat and injury in the workplace: perspectives from health and safety representatives. <i>Occupational and Environmental Medicine</i> , 2019 , 76, A72.2-A72	2.1	1
7	Dengue control in the context of climate change: Views from health professionals in different geographic regions of China. <i>Journal of Infection and Public Health</i> , 2019 , 12, 388-394	7.4	1
6	Using ecological variables to predict Ross River virus disease incidence in South Australia. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , 2021 , 115, 1045-1053	2	1
5	Evaluating cost benefits from a heat health warning system in Adelaide, South Australia.. <i>Australian and New Zealand Journal of Public Health</i> , 2021 ,	2.3	1
4	Heat-attributable hospitalisation costs in Sydney: Current estimations and future projections in the context of climate change. <i>Urban Climate</i> , 2021 , 40, 101028	6.8	0
3	Associations between temperature and Ross River virus infection: A systematic review and meta-analysis of epidemiological evidence.. <i>Acta Tropica</i> , 2022 , 106454	3.2	0
2	O8B.4 Exploring occupational injury experiences during hot weather: a national survey of health and safety professionals. <i>Occupational and Environmental Medicine</i> , 2019 , 76, A72.3-A73	2.1	
1	O2C.5 Increasing costs of occupational injuries in association with high ambient temperatures in adelaide, south australia, 2000-2014. <i>Occupational and Environmental Medicine</i> , 2019 , 76, A17.2-A17	2.1
