#	ARTICLE	IF	CITATIONS
1	Impact of the Berkeley Excise Tax on Sugar-Sweetened Beverage Consumption. American Journal of Public Health, 2016, 106, 1865-1871.	2.7	346
2	How Design of Places Promotes or Inhibits Mobility of Older Adults. Journal of Aging and Health, 2014, 26, 1340-1372.	1.7	83
3	Validation of a Hip-Worn Accelerometer in Measuring Sleep Time in Children. Journal of Pediatric Nursing, 2012, 27, 127-133.	1.5	65
4	Mortality from gastrointestinal congenital anomalies at 264 hospitals in 74 low-income, middle-income, and high-income countries: a multicentre, international, prospective cohort study. Lancet, The, 2021, 398, 325-339.	13.7	59
5	Potentially addictive properties of sugar-sweetened beverages among adolescents. Appetite, 2019, 133, 130-137.	3.7	47
6	Active and Healthy Families: A Randomized Controlled Trial of a Culturally Tailored Obesity Intervention for Latino Children. Academic Pediatrics, 2015, 15, 386-395.	2.0	43
7	Use of SPARK to Promote After-School Physical Activity. Journal of School Health, 2012, 82, 457-461.	1.6	37
8	Physical Activity and Positive Youth Development: Impact of a School-Based Program. Journal of School Health, 2011, 81, 462-470.	1.6	33
9	Effect of School-Based Body Mass Index Reporting in California Public Schools. JAMA Pediatrics, 2021, 175, 251.	6.2	31
10	The Report Card on BMI Report Cards. Current Obesity Reports, 2017, 6, 163-167.	8.4	30
11	After-school program to reduce obesity in minority children: a pilot study. Journal of Child Health Care, 2009, 13, 333-346.	1.4	25
12	Are Physical Education Policies Working? A Snapshot From San Francisco, 2011. Preventing Chronic Disease, 2013, 10, E142.	3.4	24
13	Isolation of CeLu <sub>2</sub> N@i</i>h@C<sub>80</sub> through a Non-Chromatographic, Two-Step Chemical Process and Crystallographic Characterization of the Pyramidalized CeLu <sub>2</sub> N within the Icosahedral Cage. Chemistry - A European Journal, 2015, 21, 10362-10368.	3.3	21
14	Critical Elements of a School Report to Parents on Body Mass Index. Preventing Chronic Disease, 2015, 12, E136.	3.4	18
15	She Gave Me the Confidence to Open Up: Bridging Communication by Promotoras in a Childhood Obesity Intervention for Latino Families. Health Education and Behavior, 2017, 44, 728-737.	2.5	18
16	Physical fitness disparities among New York City public school youth using standardized methods, 2006-2017. PLoS ONE, 2020, 15, e0227185.	2.5	14
17	The Fit Study: Design and rationale for a cluster randomized trial of school-based BMI screening and reporting. Contemporary Clinical Trials, 2017, 58, 40-46.	1.8	11
18	Accuracy of School Staff-Measured Height and Weight Used for Body Mass Index Screening and Reporting. Journal of School Health, 2019, 89, 629-635.	1.6	11

#	ARTICLE	IF	CITATIONS
19	Impact of Litigation on Compliance With California Physical Education Laws in Elementary Schools. <i>Journal of Physical Activity and Health</i> , 2018, 15, 721-729.	2.0	10
20	The impact of moderate-vigorous intensity physical education class immediately prior to standardized testing on student test-taking behaviors. <i>Mental Health and Physical Activity</i> , 2016, 11, 7-12.	1.8	9
21	Multi-pronged intervention to increase secondary student participation in school lunch: Design and rationale. <i>Contemporary Clinical Trials</i> , 2019, 78, 133-139.	1.8	9
22	Public Disclosure to Improve Physical Education in an Urban School District: Results From a 2-Year Quasi-Experimental Study. <i>Journal of School Health</i> , 2015, 85, 604-610.	1.6	8
23	Effect of Removing Chocolate Milk on Milk and Nutrient Intake Among Urban Secondary School Students. <i>Preventing Chronic Disease</i> , 2020, 17, E95.	3.4	8
24	The Impact of a Multipronged Intervention to Increase School Lunch Participation among Secondary School Students in an Urban Public School District. <i>Childhood Obesity</i> , 2020, 16, S-14-S-22.	1.5	7
25	Passive Commuting and Dietary Intake in Fourth and Fifth Grade Students. <i>American Journal of Preventive Medicine</i> , 2015, 48, 292-299.	3.0	5
26	SNAP-Ed physical activity interventions in low-income schools are associated with greater cardiovascular fitness among 5th and 7th grade students in California. <i>Preventive Medicine Reports</i> , 2020, 20, 101222.	1.8	5
27	Parent Underestimation of Child Weight Status and Attitudes towards BMI Screening. <i>Health Behavior and Policy Review</i> , 2019, 6, 209-218.	0.4	5
28	Prioritizing Physical Activity in Schools. <i>Translational Journal of the American College of Sports Medicine</i> , 2019, 4, 248-256.	0.6	5
29	Pandemic-related financial hardship and disparities in sugar-sweetened beverage consumption and purchasing among San Francisco Bay Area residents during COVID-19. <i>Preventive Medicine Reports</i> , 2022, 26, 101759.	1.8	5
30	Lessons Learned: A Strategic Alliance to Improve Elementary Physical Education in an Urban School District. <i>Progress in Community Health Partnerships: Research, Education, and Action</i> , 2015, 9, 363-370.	0.3	4
31	Impact of Physical Education Litigation on Fifth Graders' Cardio-Respiratory Fitness, California, 2007-2018. <i>American Journal of Public Health</i> , 2019, 109, 1557-1563.	2.7	4
32	Access to credentialed elementary physical education teachers in California and students' cardiorespiratory fitness. <i>Preventive Medicine</i> , 2019, 121, 62-67.	3.4	4
33	The Impact of a Multi-Pronged Intervention on Students' Perceptions of School Lunch Quality and Convenience and Self-Reported Fruit and Vegetable Consumption. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 5987.	2.6	4
34	The association between sugar-sweetened beverage availability in school vending machines and school staff sugar-sweetened beverage consumption. <i>Preventive Medicine Reports</i> , 2020, 19, 101128.	1.8	4
35	Seeing "The Bigger Picture": Impact of an Arts-Focused Type 2 Diabetes Education Program in High Schools. <i>Journal of Health Communication</i> , 2021, 26, 696-707.	2.4	4
36	Context, importance, and process for creating a body mass index surveillance system to monitor childhood obesity within the New York City public school setting. <i>Preventive Medicine Reports</i> , 2022, 26, 101704.	1.8	4

#	ARTICLE	IF	CITATIONS
37	The Relationship between Breastfeeding and Initial Vegetable Introduction with Vegetable Consumption in a National Cohort of Children Ages 1â€“5 Years from Low-Income Households. <i>Nutrients</i> , 2022, 14, 1740.	4.1	4
38	Parents Recall of, and Reactions to, School-Based BMI Reports. <i>Childhood Obesity</i> , 2019, 15, 548-554.	1.5	3
39	Limited implementation of Californiaâ€™s Healthy Default Beverage law for childrenâ€™s meals sold online. <i>Public Health Nutrition</i> , 2022, 25, 2001-2010.	2.2	3
40	Weight Measurements in School: Setting and Student Comfort. <i>Journal of Nutrition Education and Behavior</i> , 2022, 54, 249-254.	0.7	3
41	Evaluating Food Packaging Waste in Schools: A Systematic Literature Review. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 5607.	2.6	3
42	The association between student body mass index and tests of flexibility assessed by the FITNESSGRAMâ„®: New York City public school students, 2017â€“18. <i>PLoS ONE</i> , 2021, 16, e0262083.	2.5	2
43	Aminopropanolâ€™xylene to chemically purify Gd <sub>3</sub> N@C <sub>88</sub> metallofullerene. <i>Inorganica Chimica Acta</i> , 2017, 468, 177-182.	2.4	1
44	Self-Paced Online Training on Healthy Beverage Policy for Child Care Providers. <i>Journal of Nutrition Education and Behavior</i> , 2021, 53, 457-470.	0.7	1
