#	ARTICLE	IF	CITATIONS
1	Variation in inpatient allied health service provision in Australian and New Zealand hospitals. <i>Australasian Journal on Ageing</i> , 2022, 41, 70-80.	0.4	0
2	Age and Sex Differences in Balance Outcomes among Individuals with Chronic Obstructive Pulmonary Disease (COPD) at Risk of Falls. <i>COPD: Journal of Chronic Obstructive Pulmonary Disease</i> , 2022, 19, 166-173.	0.7	5
3	Physical Rehabilitation Programmes Following ICU Discharge. , 2021, , 113-122.		0
4	Translating evidence into practice: a longitudinal qualitative exploration of allied health decision-making. <i>Health Research Policy and Systems</i> , 2021, 19, 38.	1.1	13
5	Feasibility and adherence to moderate intensity cardiovascular fitness training following stroke: a pilot randomized controlled trial. <i>BMC Neurology</i> , 2021, 21, 132.	0.8	12
6	Postgraduate clinical physiotherapy education in acute hospitals: a cohort study. <i>Physiotherapy Theory and Practice</i> , 2020, 36, 157-169.	0.6	2
7	Lung management protocols increase the incidence of lung procurement and organ transplantation: A meta-analysis. <i>Physiotherapy Theory and Practice</i> , 2020, 36, 459-468.	0.6	7
8	Preoperative physiotherapy is cost-effective for preventing pulmonary complications after major abdominal surgery: a health economic analysis of a multicentre randomised trial. <i>Journal of Physiotherapy</i> , 2020, 66, 180-187.	0.7	23
9	Re: Assisted Vaginal Birth: Greenâ€top guideline no. 26. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2020, 127, 1297-1298.	1.1	5
10	Effectiveness of a Bundled Intervention Including Adjunctive Corticosteroids on Outcomes of Hospitalized Patients With Community-Acquired Pneumonia. <i>JAMA Internal Medicine</i> , 2019, 179, 1052.	2.6	41
11	Evaluation of the implementation of a Tracheostomy Review Services (TRS): an observational cohort study. <i>Journal of Interprofessional Care</i> , 2019, 33, 697-705.	0.8	5
12	A novel counterbalanced implementation study design: methodological description and application to implementation research. <i>Implementation Science</i> , 2019, 14, 45.	2.5	16
13	Commencing Out-of-Bed Rehabilitation in Critical Careâ€What Influences Clinical Decision-Making?. <i>Archives of Physical Medicine and Rehabilitation</i> , 2019, 100, 261-269.e2.	0.5	15
14	Preoperative physiotherapy for the prevention of respiratory complications after upper abdominal surgery: pragmatic, double blinded, multicentre randomised controlled trial. <i>BMJ: British Medical Journal</i> , 2018, 360, j5916.	2.4	183
15	Physiotherapy education and training prior to upper abdominal surgery is memorable and has high treatment fidelity: a nested mixed-methods randomised-controlled study. <i>Physiotherapy</i> , 2018, 104, 194-202.	0.2	25
16	A rehabilitation programme for people with multimorbidity versus usual care. <i>Journal of Comorbidity</i> , 2018, 8, 2235042X1878391.	3.9	11
17	The IMPROVE-GAP Trial aiming to improve evidence-based management of community-acquired pneumonia: study protocol for a stepped-wedge randomised controlled trial. <i>Trials</i> , 2018, 19, 88.	0.7	7
18	Implementation of evidence-based weekend service recommendations for allied health managers: a cluster randomised controlled trial protocol. <i>Implementation Science</i> , 2018, 13, 60.	2.5	13

#	ARTICLE	IF	CITATIONS
19	The Untapped Potential of Patient and Family Engagement in the Organization of Critical Care. <i>Critical Care Medicine</i> , 2017, 45, 899-906.	0.4	52
20	Challenges in Providing Timely Physiotherapy and Opportunities to Influence Outcomes for Potential Lung Donors. <i>Progress in Transplantation</i> , 2017, 27, 112-124.	0.4	3
21	Intensive preoperative rehabilitation improves functional capacity and postoperative hospital length of stay in elderly patients with lung cancer [synopsis]. <i>Journal of Physiotherapy</i> , 2017, 63, 184.	0.7	4
22	Does eating environment have an impact on the protein and energy intake in the hospitalised elderly?. <i>Nutrition and Dietetics</i> , 2017, 74, 224-228.	0.9	14
23	Impact of disinvestment from weekend allied health services across acute medical and surgical wards: 2 stepped-wedge cluster randomised controlled trials. <i>PLoS Medicine</i> , 2017, 14, e1002412.	3.9	43
24	Pulmonary Rehabilitation With Balance Training for Fall Reduction in Chronic Obstructive Pulmonary Disease: Protocol for a Randomized Controlled Trial. <i>JMIR Research Protocols</i> , 2017, 6, e228.	0.5	7
25	A Binational Multicenter Pilot Feasibility Randomized Controlled Trial of Early Goal-Directed Mobilization in the ICU*. <i>Critical Care Medicine</i> , 2016, 44, 1145-1152.	0.4	164
26	Do daily ward interviews improve measurement of hospital quality and safety indicators? A prospective observational study. <i>Journal of Evaluation in Clinical Practice</i> , 2016, 22, 792-798.	0.9	12
27	Experiences of Physical Therapists Working in the Acute Hospital Setting: Systematic Review. <i>Physical Therapy</i> , 2016, 96, 1317-1332.	1.1	23
28	The effect of prehabilitation on the range of motion and functional outcomes in patients following the total knee or hip arthroplasty: A pilot randomized trial. <i>Physiotherapy Theory and Practice</i> , 2016, 32, 262-270.	0.6	24
29	An Ai Chi-based aquatic group improves balance and reduces falls in community-dwelling adults: A pilot observational cohort study. <i>Physiotherapy Theory and Practice</i> , 2016, 32, 581-590.	0.6	12
30	Minimum standards of clinical practice for physiotherapists working in critical care settings in Australia and New Zealand: A modified Delphi technique. <i>Physiotherapy Theory and Practice</i> , 2016, 32, 468-482.	0.6	47
31	Using simulation pedagogy to teach clinical education skills: A randomized trial. <i>Physiotherapy Theory and Practice</i> , 2016, 32, 284-295.	0.6	17
32	Outpatient-based physical rehabilitation does not affect exercise capacity in survivors of prolonged critical illness [synopsis]. <i>Journal of Physiotherapy</i> , 2016, 62, 169.	0.7	0
33	A real time biofeedback using Kinect and Wii to improve gait for post-total knee replacement rehabilitation: a case study report. <i>Disability and Rehabilitation: Assistive Technology</i> , 2016, 11, 251-262.	1.3	26
34	Organisation and resource management in the intensive care unit: A critical review. <i>International Journal of Therapy and Rehabilitation</i> , 2015, 22, 187-196.	0.1	6
35	High-flow oxygen reduces 90-day mortality, compared with standard oxygen or non-invasive ventilation, in patients with acute hypoxaemic respiratory failure [synopsis]. <i>Journal of Physiotherapy</i> , 2015, 61, 222.	0.7	0
36	Future of specialised roles in allied health practice: who is responsible?. <i>Australian Health Review</i> , 2015, 39, 255.	0.5	27

#	ARTICLE	IF	CITATIONS
37	The LIPPSMAck POP (Lung Infection Prevention Post Surgery - Major Abdominal - with Pre-Operative) Tj ETQq1 1 0.784314 rgBT /Overlo 573.	0.7	17
38	Development of a Performance Standard and Assessment Tool for Ventilator Hyperinflation Competency. Journal of Pulmonary & Respiratory Medicine, 2015, 05, .	0.1	5
39	Physiotherapy departments in Australian tertiary hospitals regularly participate in and disseminate research results despite a lack of allocated staff: a prospective cross-sectional survey. Physiotherapy Theory and Practice, 2015, 31, 200-206.	0.6	10
40	Mobilization of ventilated patients in the intensive care unit: An elicitation study using the theory of planned behavior. Journal of Critical Care, 2015, 30, 1243-1250.	1.0	33
41	Early mobilization and recovery in mechanically ventilated patients in the ICU: a bi-national, multi-centre, prospective cohort study. Critical Care, 2015, 19, 81.	2.5	248
42	Embedding research culture and productivity in hospital physiotherapy departments: challenges and opportunities. Australian Health Review, 2015, 39, 312.	0.5	23
43	Psychosocial Outcomes in Informal Caregivers of the Critically Ill. Critical Care Medicine, 2015, 43, 1112-1120.	0.4	119
44	Study protocol for two randomized controlled trials examining the effectiveness and safety of current weekend allied health services and a new stakeholder-driven model for acute medical/surgical patients versus no weekend allied health services. Trials, 2015, 16, 133.	0.7	28
45	Usual Care Physiotherapy During Acute Hospitalization in Subjects Admitted to the ICU: An Observational Cohort Study. Respiratory Care, 2015, 60, 1476-1485.	0.8	29
46	How Can Clinicians Use Outcome Measures in Routine Care? Knowledge Translation Strategies. Current Physical Medicine and Rehabilitation Reports, 2015, 3, 268-279.	0.3	1
47	Key Measurement and Feasibility Characteristics When Selecting Outcome Measures. Current Physical Medicine and Rehabilitation Reports, 2015, 3, 255-267.	0.3	6
48	Is physiotherapy effective in the management of child and adolescent conversion disorder? A systematic review. Journal of Paediatrics and Child Health, 2015, 51, 159-167.	0.4	24
49	Educators and students prefer traditional clinical education to a peer-assisted learning model, despite similar student performance outcomes: a randomised trial. Journal of Physiotherapy, 2014, 60, 209-216.	0.7	38
50	Expert consensus and recommendations on safety criteria for active mobilization of mechanically ventilated critically ill adults. Critical Care, 2014, 18, 658.	2.5	391
51	Early mobilization on continuous renal replacement therapy is safe and may improve filter life. Critical Care, 2014, 18, R161.	2.5	56
52	A novel research design can aid disinvestment from existing health technologies with uncertain effectiveness, cost-effectiveness, and/or safety. Journal of Clinical Epidemiology, 2014, 67, 144-151.	2.4	32
53	Preoperative intervention reduces postoperative pulmonary complications but not length of stay in cardiac surgical patients: a systematic review. Journal of Physiotherapy, 2014, 60, 66-77.	0.7	81
54	A Physical Function Test for Use in the Intensive Care Unit: Validity, Responsiveness, and Predictive Utility of the Physical Function ICU Test (Scored). Physical Therapy, 2013, 93, 1636-1645.	1.1	132

#	ARTICLE	IF	CITATIONS
55	Exercise rehabilitation for patients with critical illness: a randomized controlled trial with 12 months of follow-up. <i>Critical Care</i> , 2013, 17, R156.	2.5	305
56	Comparison of the measurement properties of the AQoL and SF-6D in critical illness. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2013, 15, 205-12.	0.0	10
57	Safety and Feasibility of an Exercise Prescription Approach to Rehabilitation Across the Continuum of Care for Survivors of Critical Illness. <i>Physical Therapy</i> , 2012, 92, 1524-1535.	1.1	83
58	Health-related quality of life in Australian survivors of critical illness*. <i>Critical Care Medicine</i> , 2011, 39, 1896-1905.	0.4	55
59	Closing the Gap Between Ethics Knowledge and Practice Through Active Engagement: An Applied Model of Physical Therapy Ethics. <i>Physical Therapy</i> , 2010, 90, 1068-1078.	1.1	54
60	Development of a physical function outcome measure (PFIT) and a pilot exercise training protocol for use in intensive care. <i>Critical Care and Resuscitation: Journal of the Australasian Academy of Critical Care Medicine</i> , 2009, 11, 110-5.	0.0	45
61	Rehabilitation and exercise prescription in Australian intensive care units. <i>Physiotherapy</i> , 2008, 94, 220-229.	0.2	79
62	Validity of the Activities-specific Balance Confidence Scale in individuals with chronic obstructive pulmonary disease. <i>Expert Review of Respiratory Medicine</i> , 0, , 1-8.	1.0	1
