ΠΑΝΙΟ ΚΑΘΙΑΝΙ

#	Article	IF	CITATIONS
1	Bayesian Dynamic Borrowing of Historical Information with Applications to the Analysis of Large-Scale Assessments. Psychometrika, 2023, 88, 1-30.	2.1	5
2	On the Quantification of Model Uncertainty: A Bayesian Perspective. Psychometrika, 2021, 86, 215-238.	2.1	29
3	Bayesian probabilistic forecasting with large-scale educational trend data: a case study using NAEP. Large-Scale Assessments in Education, 2021, 9, .	2.0	5
4	Trend Analysis with International Large-Scale Assessments. Springer International Handbooks of Education, 2021, , 1-14.	0.1	0
5	An Approach to Addressing Multiple Imputation Model Uncertainty Using Bayesian Model Averaging. Multivariate Behavioral Research, 2020, 55, 553-567.	3.1	7
6	Language and Inhibition: Predictive Relationships in Children With Language Impairment Relative to Typically Developing Peers. Journal of Speech, Language, and Hearing Research, 2020, 63, 1115-1127.	1.6	16
7	Optimizing Prediction Using Bayesian Model Averaging: Examples Using Large-Scale Educational Assessments. Evaluation Review, 2018, 42, 423-457.	1.0	19
8	Generating Multivariate Ordinal Data via Entropy Principles. Psychometrika, 2018, 83, 156-181.	2.1	2
9	On imputation for planned missing data in context questionnaires using plausible values: a comparison of three designs. Large-Scale Assessments in Education, 2018, 6, .	2.0	10
10	The Methodology of PISA: Past, Present, and Future. Methodology of Educational Measurement and Assessment, 2016, , 53-73.	0.4	8
11	Causal inference with large-scale assessments in education from a Bayesian perspective: a review and synthesis. Large-Scale Assessments in Education, 2016, 4, .	2.0	14
12	Bayesian Model Averaging Over Directed Acyclic Graphs With Implications for the Predictive Performance of Structural Equation Models. Structural Equation Modeling, 2016, 23, 343-353.	3.8	14
13	On Matrix Sampling and Imputation of Context Questionnaires With Implications for the Generation of Plausible Values in Large-Scale Assessments. Journal of Educational and Behavioral Statistics, 2016, 41, 57-80.	1.7	23
14	Stability and patterns of classroom quality in German early childhood education and care. School Effectiveness and School Improvement, 2016, 27, 418-440.	2.9	24
15	Bayesian Causal Mediation Analysis for Group Randomized Designs with Homogeneous and Heterogeneous Effects: Simulation and Case Study. Multivariate Behavioral Research, 2015, 50, 316-333.	3.1	10
16	Covariate Balance in Bayesian Propensity Score Approaches for Observational Studies. Journal of Research on Educational Effectiveness, 2015, 8, 280-302.	1.6	11
17	Bayesian Model Averaging for Propensity Score Analysis. Multivariate Behavioral Research, 2014, 49, 505-517.	3.1	21
18	A Gentle Introduction to Bayesian Analysis: Applications to Developmental Research. Child Development, 2014, 85, 842-860.	3.0	512

#	Article	IF	CITATIONS
19	The influence of park access during drought on attitudes toward wildlife and lion killing behaviour in Maasailand, Kenya. Environmental Conservation, 2013, 40, 266-276.	1.3	24
20	The Role of Parental Language Acculturation in the Formation of Social Capital: Differential Effects on High-risk Children. Child Psychiatry and Human Development, 2013, 44, 334-350.	1.9	13
21	Data fusion with international large scale assessments: a case study using the OECD PISA and TALIS surveys. Large-Scale Assessments in Education, 2013, 1, .	2.0	12
22	Teaching Practices and Pedagogical Innovations. Teaching and Learning International Survey, 2012, , .	7.0	79
23	A Two-Step Bayesian Approach for Propensity Score Analysis: Simulations and Case Study. Psychometrika, 2012, 77, 581-609.	2.1	42
24	Compliance, opposition, and behavior problems in toddlers born preterm or low birthweight. Infant Mental Health Journal, 2012, 33, 34-44.	1.8	12
25	A Note on Cluster Effects in Latent Class Analysis. Structural Equation Modeling, 2011, 18, 525-536.	3.8	25
26	Two Studies of Specification Error in Models for Categorical Latent Variables. Structural Equation Modeling, 2011, 18, 397-418.	3.8	3
27	Early math matters: Kindergarten number competence and later mathematics outcomes Developmental Psychology, 2009, 45, 850-867.	1.6	753
28	Structural Equation Modeling (2nd ed.): Foundations and Extensions. , 2009, , .		334
29	Development of number combination skill in the early school years: when do fingers help?. Developmental Science, 2008, 11, 662-668.	2.4	87
30	An overview of Markov chain methods for the study of stage-sequential developmental processes Developmental Psychology, 2008, 44, 457-467.	1.6	107
31	Predicting First-Grade Math Achievement from Developmental Number Sense Trajectories. Learning Disabilities Research and Practice, 2007, 22, 36-46.	1.1	402
32	Number Sense Growth in Kindergarten: A Longitudinal Investigation of Children at Risk for Mathematics Difficulties. Child Development, 2006, 77, 153-175.	3.0	497
33	A Stage-Sequential Model of Reading Transitions: Evidence From the Early Childhood Longitudinal Study Journal of Educational Psychology, 2005, 97, 551-563.	2.9	30
34	Finite Mixture Dynamic Regression Modeling of Panel Data With Implications for Dynamic Response Analysis. Journal of Educational and Behavioral Statistics, 2005, 30, 169-187.	1.7	16
35	A Longitudinal Study of Mathematical Competencies in Children With Specific Mathematics Difficulties Versus Children With Comorbid Mathematics and Reading Difficulties. Child Development, 2003, 74, 834-850.	3.0	342
36	Arithmetic fact mastery in young children: A longitudinal investigation. Journal of Experimental Child Psychology, 2003, 85, 103-119.	1.4	254

#	Article	IF	CITATIONS
37	Methodological Advances in the Analysis of Individual Growth With Relevance to Education Policy. Peabody Journal of Education, 2002, 77, 189-215.	1.3	34
38	Modeling Sustained Educational Change With Panel Data: The Case for Dynamic Multiplier Analysis. Journal of Educational and Behavioral Statistics, 2002, 27, 85-103.	1.7	4
39	Achievement growth in children with learning difficulties in mathematics: Findings of a two-year longitudinal study Journal of Educational Psychology, 2002, 94, 586-597.	2.9	165
40	Performance across different areas of mathematical cognition in children with learning difficulties Journal of Educational Psychology, 2001, 93, 615-626.	2.9	266
41	On the utilization of sample weights in latent variable models. Structural Equation Modeling, 1999, 6, 305-321.	3.8	56
42	An Extension of the Propensity Score Adjustment Method for the Analysis of Group Differences in MIMIC Models. Multivariate Behavioral Research, 1999, 34, 467-492.	3.1	20
43	A structural model of parent and teacher influences on science attitudes of eighth graders: Evidence from NELS: 88. Science Education, 1998, 82, 93-109.	3.0	131
44	Evaluating Latent Variable Growth Models Through Ex Post Simulation. Journal of Educational and Behavioral Statistics, 1998, 23, 216.	1.7	1
45	Evaluating Latent Variable Growth Models Through Ex Post Simulation. Journal of Educational and Behavioral Statistics, 1998, 23, 216-235.	1.7	9
46	A Model-Based Approach to Validating Education Indicators Using Multilevel Structural Equation Modeling. Journal of Educational and Behavioral Statistics, 1997, 22, 323.	1.7	1
47	A didactic example of multilevel structural equation modeling applicable to the study of organizations. Structural Equation Modeling, 1997, 4, 1-24.	3.8	87
48	A Model-Based Approach to Validating Education Indicators Using Multilevel Structural Equation Modeling. Journal of Educational and Behavioral Statistics, 1997, 22, 323-347.	1.7	36
49	The Impact of BIB Spiraling-Induced Missing Data Patterns on Goodness-of-Fit Tests in Factor Analysis. Journal of Educational and Behavioral Statistics, 1995, 20, 69-82.	1.7	20
50	The Impact of BIB Spiraling. Induced Missing Data Patterns on Goodness-of-Fit Tests in Factor Analysis. Journal of Educational and Behavioral Statistics, 1995, 20, 69.	1.7	16
51	A study of the power associated with testing factor mean differences under violations of factorial invariance. Structural Equation Modeling, 1995, 2, 101-118.	3.8	66
52	Estimator Conditioning Diagnostics for Covariance Structure Models. Sociological Methods and Research, 1994, 23, 200-229.	6.8	46
53	Asymptomatic Independence and Separability in Convariance Structure Models: Implications for Specification Error, Power, and Model Modification. Multivariate Behavioral Research, 1993, 28, 467-482.	3.1	37
54	A comparison of some methodologies for the factor analysis of nonâ€normal Likert variables: A note on the size of the model. British Journal of Mathematical and Statistical Psychology, 1992, 45, 19-30.	1.4	449

#	Article	IF	CITATIONS
55	The behaviour of three weighted least squares estimators for structured means analysis with non-normal Likert variables. British Journal of Mathematical and Statistical Psychology, 1991, 44, 333-346.	1.4	10
56	On the modification and predictive validity of covariance structure models. Quality and Quantity, 1991, 25, 307-314.	3.7	17
57	A Rejoinder on Evaluating and Modifying Covariance Structure Models. Multivariate Behavioral Research, 1990, 25, 197-204.	3.1	19
58	Evaluating and Modifying Covariance Structure Models: A Review and Recommendation. Multivariate Behavioral Research, 1990, 25, 137-155.	3.1	209
59	Power of the Likelihood Ratio Test in Multiple Group Confirmatory Factor Analysis under Partial Measurement Invariance. Educational and Psychological Measurement, 1989, 49, 579-586.	2.4	15
60	Model Modification in Covariance Structure Analysis: Application of the Expected Parameter Change Statistic. Multivariate Behavioral Research, 1989, 24, 285-305.	3.1	91
61	The Problem of Error Rate Inflation in Covariance Structure Models. Educational and Psychological Measurement, 1989, 49, 333-337.	2.4	5
62	A Study of the Sampling Variability and z-Values of Parameter Estimates From Misspecified Structural Equation Models. Multivariate Behavioral Research, 1989, 24, 41-57.	3.1	62
63	The Impact of Specification Error on the Estimation, Testing, and Improvement of Structural Equation Models. Multivariate Behavioral Research, 1988, 23, 69-86.	3.1	132
64	On structural equation modeling with data that are not missing completely at random. Psychometrika, 1987, 52, 431-462.	2.1	711
65	A comparison of some methodologies for the factor analysis of nonâ€normal Likert variables. British Journal of Mathematical and Statistical Psychology, 1985, 38, 171-189.	1.4	1,201
66	Multilevel Latent Variable Modeling: Current Research and Recent Developments. , 0, , 592-612.		29
67	On Exogeneity. , 0, , 410-425.		2
