List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/7329585/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Effect of apparent temperature on hospitalization from a spectrum of cardiovascular diseases in rural residents in Fujian, China. Environmental Pollution, 2022, 303, 119101.	3.7	7
2	Effect of Exposure to Paternal Smoking on Overweight and Obesity in Children: Findings from the Children Lifeway Cohort in Shenzhen, Southern China. Obesity Facts, 2022, 15, 609-620.	1.6	3
3	Efficacy of antifungal drugs in the treatment of oral candidiasis: A Bayesian network meta-analysis. Journal of Prosthetic Dentistry, 2021, 125, 257-265.	1.1	26
4	Breakfast preferences and consumption location among children at a median age of 7 in Shenzhen: Implications for managing overweight and obesity. Appetite, 2021, 156, 104851.	1.8	1
5	Anthropometry did not approach adequate predictive accuracies for detecting elevated fasting plasma glucose or hemoglobin A1c levels among Chinese children aged 7–9Âyears. Journal of Diabetes Investigation, 2021, 12, 781-789.	1.1	2
6	Assessing PM2.5-associated risk of hospitalization for COPD: an application of daily excessive concentration hours. Environmental Science and Pollution Research, 2021, 28, 30267-30277.	2.7	5
7	Size-specific particulate air pollution and hospitalization for cardiovascular diseases: A case-crossover study in Shenzhen, China. Atmospheric Environment, 2021, 251, 118271.	1.9	14
8	Short-term impacts of ambient fine particulate matter on emergency department visits: Comparative analysis of three exposure metrics. Chemosphere, 2020, 241, 125012.	4.2	18
9	Association of body mass index with serum alanine aminotransferase in Chinese adolescents: a school-based cross-sectional study. Gastroenterology Report, 2020, 8, 119-124.	0.6	5
10	Age- and season-specific effects of ambient particles (PM1, PM2.5, and PM10) on daily emergency department visits among two Chinese metropolitan populations. Chemosphere, 2020, 246, 125723.	4.2	25
11	Short-term effects of ambient PM1 and PM2.5 air pollution on hospital admission for respiratory diseases: Case-crossover evidence from Shenzhen, China. International Journal of Hygiene and Environmental Health, 2020, 224, 113418.	2.1	111
12	Diagnostic performance of individual characteristics and anthropometric measurements in detecting elevated serum alanine aminotransferase among children and adolescents. BMC Pediatrics, 2020, 20, 131.	0.7	3
13	Years of life lost with premature death due to ambient temperatures in a southwest plateau region of China: a cause-specific and individual characteristics stratified mortality study. International Journal of Biometeorology, 2020, 64, 1333-1341.	1.3	1
14	Prevalence of Elevated Alanine Aminotransferase by Diagnostic Criterion, Age, and Gender among Adolescents. Gastroenterology Research and Practice, 2020, 2020, 1-11.	0.7	3
15	SNAI1 is a prognostic biomarker and correlated with immune infiltrates in gastrointestinal cancers. Aging, 2020, 12, 17167-17208.	1.4	12
16	Mortality risk and burden associated with temperature variability in China, United Kingdom and United States: Comparative analysis of daily and hourly exposure metrics. Environmental Research, 2019, 179, 108771.	3.7	31
17	Hourly associations between exposure to ambient particulate matter and emergency department visits in an urban population of Shenzhen, China. Atmospheric Environment, 2019, 209, 78-85.	1.9	34
18	Burden of non-accidental mortality attributable to ambient temperatures: a time series study in a high plateau area of southwest China. BMJ Open, 2019, 9, e024708.	0.8	14

#	Article	IF	CITATIONS
19	Socio-geographic disparity in cardiorespiratory mortality burden attributable to ambient temperature in the United States. Environmental Science and Pollution Research, 2019, 26, 694-705.	2.7	35
20	Prevalence of prediabetes by the fasting plasma glucose and HbA1c screening criteria among the children and adolescents of Shenzhen, China. Journal of Diabetes, 2018, , .	0.8	8
21	Temperature change between neighboring days and mortality in United States: A nationwide study. Science of the Total Environment, 2017, 584-585, 1152-1161.	3.9	77
22	Association of cold temperature and mortality and effect modification in the subtropical plateau monsoon climate of Yuxi, China. Environmental Research, 2016, 150, 431-437.	3.7	20
23	High diurnal temperature range and mortality: Effect modification by individual characteristics and mortality causes in a case-only analysis. Science of the Total Environment, 2016, 544, 627-634.	3.9	56
24	Impact of diurnal temperature range on mortality in a high plateau area in southwest China: A time series analysis. Science of the Total Environment, 2015, 526, 358-365.	3.9	69
