#	ARTICLE	IF	CITATIONS
1	Clinicodemographic features of mixed vitiligo: a case‐control study. International Journal of Dermatology, 2022, 61, 982-987.	1.0	1
2	Catecholamines‐™ accumulation and their disturbed metabolism at perilesional site: a possible cause of vitiligo progression. Archives of Dermatological Research, 2022, , 1.	1.9	1
3	Dopamine toxicity contributes to melanocyte loss via melanocytorrhagy: an in‐vitro study. International Journal of Dermatology, 2022, , .	1.0	0
4	A Delphi consensus on the nomenclature and diagnosis of lichen planus pigmentosus and related entities. Indian Journal of Dermatology, Venereology and Leprology, 2022, 89, 41-46.	0.6	9
5	Melanocyte Adhesion and Apoptosis in Vitiligo: Linking Puzzle Blocks. Current Molecular Medicine, 2022, 22, .	1.3	5
6	Oral mycophenolate mofetil as a stabilizing treatment for progressive non-segmental vitiligo: results from a prospective, randomized, investigator-blinded pilot study. Archives of Dermatological Research, 2021, 313, 357-365.	1.9	17
7	A prospective, randomized clinical study to compare the efficacy of recipient site preparation using dermabrasion, cryoblister, and dermaroller in autologous noncultured epidermal cell suspension in stable vitiligo. Dermatologic Therapy, 2021, 34, e14683.	1.7	9
8	Acquired dermal macular hyperpigmentation: An update. Indian Dermatology Online Journal, 2021, 12, 663.	0.5	13
9	Dendritic cells sub-sets are associated with inflammatory cytokine production in progressive vitiligo disease. Archives of Dermatological Research, 2021, 313, 759-767.	1.9	9
10	Immune‐modulatory effects of lenalidomide inhibited the progression of lesions in a vitiligo mouse model. Pigment Cell and Melanoma Research, 2021, 34, 918-927.	3.3	1
11	Oral mycophenolate mofetil in the treatment of acquired dermal macular hyperpigmentation: An open‐label pilot study. Australasian Journal of Dermatology, 2021, 62, 278-285.	0.7	6
12	Surgical Interventions for Patients With Vitiligo. JAMA Dermatology, 2021, 157, 307.	4.1	34
13	Vitiligo: Translational research and effective therapeutic strategies. Pigment Cell and Melanoma Research, 2021, 34, 814-826.	3.3	14
14	Oral cyclosporine is effective in stabilizing active vitiligo: Results of a randomized controlled trial. Dermatologic Therapy, 2021, 34, e15033.	1.7	14
15	Teledermatology during the <scp>COVID</scp> ‐19 pandemic: Experience at a tertiary care centre in North India. Dermatologic Therapy, 2021, 34, e15022.	1.7	16
16	Electrofulguration‐assisted dermabrasion is comparable to manual dermabrasion in patients undergoing autologous non‐cultured epidermal cell suspension for treatment of stable vitiligo: A randomized controlled trial. Journal of Cosmetic Dermatology, 2021, , .	1.6	2
17	Fatty acid synthase inhibition ameliorates diabetes induced liver injury in rodent experimental model. European Journal of Pharmacology, 2021, 901, 174078.	3.5	5
18	Dermatoscopic assessment of treatment response in patients undergoing autologous non‐cultured epidermal cell suspension for the treatment of stable vitiligo: A prospective study. Dermatologic Therapy, 2021, 34, e15099.	1.7	4

#	ARTICLE	IF	CITATIONS
19	Clinico-epidemiological profile and long term follow up in melasma. <i>Dermatologic Therapy</i> , 2021, 34, e15143.	1.7	4
20	Clinical, biochemical, and serologic predictors of drug reaction with eosinophilia and systemic symptoms syndrome: A prospective case-control study. <i>Journal of the American Academy of Dermatology</i> , 2021, 85, 901-909.	1.2	10
21	Causal relationship between D-dimers and disease status in chronic spontaneous urticaria and adjuvant effect of oral tranexamic acid. <i>Indian Dermatology Online Journal</i> , 2021, 12, 726-730.	0.5	2
22	Prurigo Pigmentosa: Dermoscopic Evaluation. <i>Dermatology Practical and Conceptual</i> , 2021, 11, e2021115.	0.9	2
23	Dermatoscopic features of dermatoses of acquired dermal hyperpigmentation: Is there a difference?. <i>International Journal of Dermatology</i> , 2021, , .	1.0	1
24	Factors Predicting the Outcome of Stevens-Johnson Syndrome and Toxic Epidermal Necrolysis: A 5-Year Retrospective Study. <i>Indian Dermatology Online Journal</i> , 2021, 12, 258-265.	0.5	1
25	A clinico-demographic study of 344 patients with lichen planus pigmentosus seen in a tertiary care center in India over an 8-year period. <i>International Journal of Dermatology</i> , 2020, 59, 245-252.	1.0	18
26	Comparison of follicular unit extraction vs. plucking of hair follicles as technique of harvesting hair follicles in non-cultured hair follicular cell suspension in vitiligo. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2020, 34, e34-e36.	2.4	2
27	Therapeutic options for management of Hori's nevus: A systematic review. <i>Dermatologic Therapy</i> , 2020, 33, e13167.	1.7	3
28	Expression of Th17- and Treg-specific transcription factors in vitiligo patients. <i>International Journal of Dermatology</i> , 2020, 59, 474-481.	1.0	10
29	Effect of Different Methods of Trypsinization on Cell Viability and Clinical Outcome in Vitiligo Patients Undergoing Noncultured Epidermal Cellular Suspension. <i>Dermatologic Surgery</i> , 2020, 46, 1307-1314.	0.8	6
30	Immune modulatory effects of lenalidomide on the cultured peripheral blood mononuclear cells from vitiligo patients. <i>Dermatologic Therapy</i> , 2020, 33, e14473.	1.7	0
31	A prospective study to assess the efficacy of various surgical modalities in treatment of stable vitiligo patches over resistant sites. <i>International Journal of Dermatology</i> , 2020, 59, 837-842.	1.0	11
32	Urticaria in the times of COVID -19. <i>Dermatologic Therapy</i> , 2020, 33, e13817.	1.7	11
33	Emerging role of dermal compartment in skin pigmentation: comprehensive review. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2020, 34, 2757-2765.	2.4	22
34	Chemical induced pathognomonic features observed in human vitiligo are mediated through miR-2909 RNomics pathway. <i>Journal of Dermatological Science</i> , 2020, 100, 92-98.	1.9	4
35	Comparison of recipient-site preparation by electrofulguration-assisted manual dermabrasion versus conventional manual dermabrasion in non-cultured epidermal cell suspension procedure for stable vitiligo: an open-label comparison study. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2020, 34, e337-e339.	2.4	7
36	Emerging drugs for the treatment of vitiligo. <i>Expert Opinion on Emerging Drugs</i> , 2020, 25, 7-24.	2.4	44

#	ARTICLE	IF	CITATIONS
37	Aberrant ETS α 1 signalling impedes the expression of cell adhesion molecules and matrix metalloproteinases in non α segmental vitiligo. <i>Experimental Dermatology</i> , 2020, 29, 539-547.	2.9	9
38	Clinico-epidemiological features of chronic urticaria in children: A retrospective analysis of 296 children from a tertiary care institute in Northern India. <i>Indian Journal of Dermatology, Venereology and Leprology</i> , 2020, 86, 50.	0.6	4
39	Periorbital Acquired Dermal Macular Hyperpigmentation: A Distinctive Clinical Entity in Young Adults-Observational Case-Control Study. <i>Indian Dermatology Online Journal</i> , 2020, 11, 590-593.	0.5	0
40	A retrospective study of lichen planus pigmentosus with focus on palmoplantar involvement. <i>Clinical and Experimental Dermatology</i> , 2019, 44, 190-193.	1.3	4
41	Role of IL α 7A receptor blocking in melanocyte survival: A strategic intervention against vitiligo. <i>Experimental Dermatology</i> , 2019, 28, 682-689.	2.9	14
42	Decreased expression of neuregulin1 in the lesional skin of vitiligo patients. <i>International Journal of Dermatology</i> , 2019, 58, 242-249.	1.0	3
43	Giant variant of acquired reactive perforating collagenosis in diabetic nephropathy. <i>Postgraduate Medical Journal</i> , 2019, 95, 52-53.	1.8	5
44	Use of disposable blade for harvesting epidermal skin graft. <i>Journal of the American Academy of Dermatology</i> , 2019, 81, e35-e36.	1.2	2
45	Efficacy and safety of basic fibroblast growth factor (bFGF) related decapeptide solution plus Tacrolimus 0.1% ointment versus Tacrolimus 0.1% ointment in the treatment of stable vitiligo. <i>Dermatologic Therapy</i> , 2019, 32, e13109.	1.7	11
46	Dermoscopy of palisaded neutrophilic and granulomatous dermatitis. <i>Clinical and Experimental Dermatology</i> , 2019, 44, e34-e38.	1.3	3
47	Electrofulguration-assisted dermabrasion for recipient-site preparation in noncultured epidermal cell suspension type vitiligo surgery. <i>Journal of the American Academy of Dermatology</i> , 2019, 80, e149-e150.	1.2	3
48	Comparing azathioprine with cyclosporine in the treatment of antihistamine refractory chronic spontaneous urticaria: A randomized prospective active-controlled non-inferiority study. <i>World Allergy Organization Journal</i> , 2019, 12, 100033.	3.5	19
49	Significant reduction in the expression of interleukins-17A, 22 and 23A, forkhead box p3 and interferon gamma delineates lichen planus pigmentosus from lichen planus. <i>Archives of Dermatological Research</i> , 2019, 311, 519-527.	1.9	10
50	Intravenous cyclosporine in treatment of Stevens α Johnson syndrome/toxic epidermal necrolysis: A case series. <i>Dermatologic Therapy</i> , 2019, 32, e12957.	1.7	3
51	Generalized Hailey α Hailey disease with flexural keratotic papules: An interesting presentation and remarkable response with minocycline. <i>Dermatologic Therapy</i> , 2019, 32, e12945.	1.7	5
52	Contact sensitization to hair colours in acquired dermal macular hyperpigmentation: results from a patch and photo α patch test study of 108 patients. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, 1349-1357.	2.4	24
53	An infiltrated vulvar plaque. <i>American Journal of Obstetrics and Gynecology</i> , 2019, 221, 279.	1.3	0
54	Exaggerated epidermal pigmentation in acquired dermal macular hyperpigmentation: an important finding. <i>Clinical and Experimental Dermatology</i> , 2019, 44, e211-e211.	1.3	2

#	ARTICLE	IF	CITATIONS
55	Proposition of a comprehensive score to assess the disease severity and activity of cutaneous lichen planus. <i>International Journal of Dermatology</i> , 2019, 58, e140-e142.	1.0	4
56	Ticagrelor induced neutrophilic eccrine hidradenitis: a unique adverse effect of a new antiplatelet drug. <i>Postgraduate Medical Journal</i> , 2019, 95, 279-280.	1.8	9
57	Reliability assessment and validation of the dermal pigmentation area and severity index: a new scoring method for acquired dermal macular hyperpigmentation. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, 1386-1392.	2.4	8
58	Comparison of efficacy of cold trypsinization versus warm trypsinization in preparation of autologous non-cultured epidermal cell suspension for treatment of stable vitiligo. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, e237-e239.	2.4	6
59	Trichloroacetic Acid 25% Peel to Facilitate Dermabrasion at Difficult Sites in Vitiligo Surgery. <i>Dermatologic Surgery</i> , 2019, 45, 750-752.	0.8	1
60	Asymptomatic Macrocheilia in an Adult Woman. <i>American Journal of Gastroenterology</i> , 2019, 114, 1022-1022.	0.4	0
61	A global consensus statement on ashy dermatosis, erythema dyschromicum perstans, lichen planus pigmentosus, idiopathic eruptive macular pigmentation, and Riehl's melanosis. <i>International Journal of Dermatology</i> , 2019, 58, 263-272.	1.0	59
62	Four compartment method as an efficacious and simplified technique for autologous non-cultured epidermal cell suspension preparation in vitiligo surgery: A randomized, active-controlled study. <i>Journal of the European Academy of Dermatology and Venereology</i> , 2019, 33, 185-190.	2.4	8
63	Efficacy of Transplantation of Combination of Noncultured Dermal and Epidermal Cell Suspension vs Epidermal Cell Suspension Alone in Vitiligo. <i>JAMA Dermatology</i> , 2019, 155, 204.	4.1	23
64	Flexural Hyperpigmentation With Reticulation in an Adolescent Girl. <i>JAMA Dermatology</i> , 2019, 155, 377.	4.1	1
65	Coexisting cutaneous disorders in vitiligo: a retrospective analysis. <i>Clinical and Experimental Dermatology</i> , 2019, 44, e30-e32.	1.3	1
66	Vitiligo surgery: A journey from tissues via cells to the stems!. <i>Experimental Dermatology</i> , 2019, 28, 690-694.	2.9	12
67	Mitochondrial respiration is restricted by miR-2909 within human melanocytes. <i>Pigment Cell and Melanoma Research</i> , 2019, 32, 584-587.	3.3	6
68	Everything is in the name: Macular hyperpigmentation of uncertain etiology or acquired dermal macular hyperpigmentation of varied etiologies?. <i>Indian Journal of Dermatology, Venereology and Leprology</i> , 2019, 85, 85.	0.6	7
69	Does rapamycin induce melanin formation? An in vitro study assessing the effect of rapamycin on normal cultured melanocytes. <i>Indian Journal of Dermatology, Venereology and Leprology</i> , 2019, 85, 330.	0.6	1
70	Coexistence of linear and inversus variants of lichen planus pigmentosus: A rare occurrence. <i>Indian Journal of Dermatology</i> , 2019, 64, 152.	0.3	1
71	Annular Skin Lesions on the Chest. <i>American Family Physician</i> , 2019, 99, 517-518.	0.1	0
72	Involvement of flexures in an adolescent patient with dermatomyositis: extension of inverse Gottron papules?. <i>Clinical and Experimental Dermatology</i> , 2018, 43, 639-641.	1.3	2

#	ARTICLE	IF	CITATIONS
73	Melanocyte abnormalities and senescence in the pathogenesis of idiopathic guttate hypomelanosis. International Journal of Dermatology, 2018, 57, 559-565.	1.0	16
74	Resveratrol-induced thrombocytopenia: Inadvertent side-effect of a commonly used antioxidant. Dermatologic Therapy, 2018, 31, e12578.	1.7	5
75	Dermatofibrosarcoma protuberans-A rare lesion on breast. Breast Journal, 2018, 24, 664-665.	1.0	2
76	Image Gallery: Folliculocystic and collagen hamartoma: a lesser-known presentation of tuberous sclerosis. British Journal of Dermatology, 2018, 178, e276-e276.	1.5	5
77	Lichen planus pigmentosus “ An appraisal. International Journal of Dermatology, 2018, 57, 748-750.	1.0	8
78	Recent Advances in Pathogenesis and Medical Management of Vitiligo. Updates in Clinical Dermatology, 2018, , 123-138.	0.1	2
79	A prospective right“left comparative study to evaluate the efficacy and tolerability of combination of <scp>NB</scp>“<scp>UVB</scp> and topical bimatoprost 0.03% eye drops versus <scp>NB</scp>“<scp>UVB</scp> given alone in patients of vitiligo vulgaris. Journal of the European Academy of Dermatology and Venereology, 2018, 32, e330-e331.	2.4	10
80	Effect of Dickkopf1 on the senescence of melanocytes: in vitro study. Archives of Dermatological Research, 2018, 310, 343-350.	1.9	15
81	Combination of Follicular and Epidermal Cell Suspension as a Novel Surgical Approach in Difficult-to-Treat Vitiligo. JAMA Dermatology, 2018, 154, 301.	4.1	29
82	A novel scale for measurement of acquired dermal macular hyperpigmentation severity. Journal of the European Academy of Dermatology and Venereology, 2018, 32, e251-e253.	2.4	12
83	Vulvar vesicles in an elderly female: cutaneous manifestation of a past malignancy. American Journal of Obstetrics and Gynecology, 2018, 218, 455-456.	1.3	1
84	Cellular transplantation procedures in vitiligo: what is in a name?. International Journal of Dermatology, 2018, 57, e36-e37.	1.0	0
85	Clinical, dermoscopic, and trichoscopic analysis of frontal fibrosing alopecia associated with acquired dermal macular hyperpigmentation: A cross sectional observational case-control study. Journal of the American Academy of Dermatology, 2018, 79, 588-591.	1.2	14
86	Efficacy of oral tranexemic acid in refractory melasma: A clinico-immuno-histopathological study. Dermatologic Therapy, 2018, 31, e12704.	1.7	12
87	Teneligliptin-associated bullous pemphigoid in an elderly man with diabetes. Postgraduate Medical Journal, 2018, 94, 662-663.	1.8	7
88	Clinical and Molecular Aspects of Vitiligo Treatments. International Journal of Molecular Sciences, 2018, 19, 1509.	4.1	51
89	Velvety Hyperpigmentation on Hands and Feet of a Young Girl: Acral Acanthosis Nigricans. Journal of Cutaneous Medicine and Surgery, 2018, 22, 323-323.	1.2	3
90	Superficial granulomatous pyoderma: A great mimicker. Indian Journal of Dermatology, Venereology and Leprology, 2018, 84, 374.	0.6	4

#	ARTICLE	IF	CITATIONS
91	Hypopigmented and acneiform lesions: An unusual initial presentation of adult-onset multisystem Langerhans cell histiocytosis. Indian Journal of Dermatology, Venereology and Leprology, 2018, 84, 621.	0.6	0
92	Hyperkeratotic fissured plaques on both hands: Mechanicâ€™s hands. Cleveland Clinic Journal of Medicine, 2018, 85, 268-269.	1.3	1
93	Zosteriform Lichen Planus Pigmentosus Altering Segmental Vitiligo. Skinmed, 2018, 16, 133-135.	0.0	2
94	Phototherapy using narrowband ultraviolet B and psoralen plus ultraviolet A is beneficial in steroidâ€‘dependent antihistamineâ€‘refractory chronic urticaria: a randomized, prospective observerâ€‘blinded comparative study. British Journal of Dermatology, 2017, 176, 62-70.	1.5	30
95	Increased systemic and epidermal levels of IL-17A and IL-1Î² promotes progression of non-segmental vitiligo. Cytokine, 2017, 91, 153-161.	3.2	45
96	Senescence in the lesional fibroblasts of non-segmental vitiligo patients. Archives of Dermatological Research, 2017, 309, 123-132.	1.9	24
97	Combined epidermal and follicular cell suspension as a novel surgical approach for acral vitiligo. Journal of the American Academy of Dermatology, 2017, 76, 564-567.	1.2	7
98	Commentary on Effect of Procedural-Related Variables on Melanocyte-Keratinocyte Suspension Transplantation in Nonsegmental Stable Vitiligo. Dermatologic Surgery, 2017, 43, 236-237.	0.8	1
99	Dermatoscopic evaluation and histopathological correlation of acquired dermal macular hyperpigmentation. International Journal of Dermatology, 2017, 56, 1395-1399.	1.0	49
100	Repigmentation in vitiligo: position paper of the Vitiligo Global Issues Consensus Conference. Pigment Cell and Melanoma Research, 2017, 30, 28-40.	3.3	38
101	Trachyonychia in juvenile dermatomyositis: nail as a mirror to disease activity. Rheumatology, 2017, 56, 254-254.	1.9	2
102	Autologous serum and plasma skin tests in chronic spontaneous urticaria: A reappraisal. Indian Dermatology Online Journal, 2017, 8, 94.	0.5	7
103	The 22nd international pigment cell conference, Singapore. Journal of Cutaneous and Aesthetic Surgery, 2017, 10, 180.	0.3	0
104	Cholinergic urticaria: Clinicoepidemiological paradigms from a tertiary care center in North India. Indian Journal of Dermatology, Venereology and Leprology, 2017, 83, 599.	0.6	1
105	Scapular rash and endocrine neoplasia. Cleveland Clinic Journal of Medicine, 2017, 84, 831-832.	1.3	1
106	Lowâ€‘dose oral isotretinoin therapy in lichen planus pigmentosus: an openâ€‘label nonâ€‘randomized prospective pilot study. International Journal of Dermatology, 2016, 55, 1048-1054.	1.0	47
107	Glabrous lesional stem cells differentiated into functional melanocytes: new hope for repigmentation. Journal of the European Academy of Dermatology and Venereology, 2016, 30, 1555-1560.	2.4	8
108	Lichen planus pigmentosus: a retrospective clinicoâ€‘epidemiologic study with emphasis on the rare follicular variant. Journal of the European Academy of Dermatology and Venereology, 2016, 30, e142-e144.	2.4	22
