#	ARTICLE	IF	CITATIONS
1	Weak Slater Constraint Qualification in Nonsmooth Multiobjective Semi-infinite Programming. <i>Advances in Intelligent Systems and Computing</i> , 2020, , 702-710.	0.6	0
2	First-Order Optimality Conditions for Lipschitz Optimization Problems with Vanishing Constraints. <i>Iranian Journal of Science and Technology, Transaction A: Science</i> , 2020, 44, 1853-1861.	1.5	2
3	Weak Slater Qualification for Nonconvex Multiobjective Semi-infinite Programming. <i>Iranian Journal of Science and Technology, Transaction A: Science</i> , 2020, 44, 417-424.	1.5	3
4	Characterization of the weakly efficient solutions in nonsmooth quasiconvex multiobjective optimization. <i>Journal of Global Optimization</i> , 2020, 77, 627-641.	1.8	6
5	Stationarity Condition for Nonsmooth MPVCs with Constraint Set. <i>Lecture Notes in Computer Science</i> , 2020, , 314-321.	1.3	1
6	Estimating the Fréchet Normal Cone in Optimization Problems with Nonsmooth Vanishing Constraints. <i>Iranian Journal of Science and Technology, Transaction A: Science</i> , 2019, 43, 2299-2306.	1.5	10
7	Optimality conditions for semi-infinite programming problems involving generalized convexity. <i>Optimization Letters</i> , 2019, 13, 113-126.	1.6	3
8	Optimality, scalarization and duality in linear vector semi-infinite programming. <i>Optimization</i> , 2018, 67, 523-536.	1.7	11
9	Necessary and Sufficient Conditions for (Weakly) Efficient of Non-Differentiable Multi-Objective Semi-Infinite Programming Problems. <i>Iranian Journal of Science and Technology, Transaction A: Science</i> , 2018, 42, 1537-1544.	1.5	10
10	On gap functions for nonsmooth multiobjective optimization problems. <i>Optimization Letters</i> , 2018, 12, 273-286.	1.6	3
11	Constraint Qualifications and Stationary Conditions for Mathematical Programming with Non-differentiable Vanishing Constraints. <i>Journal of Optimization Theory and Applications</i> , 2018, 179, 800-819.	1.5	19
12	\mathbb{R}^n -Jordan homomorphisms and pseudo \mathbb{R}^n -Jordan homomorphi. <i>Mediterranean Journal of Mathematics</i> , 2017, 14, 1.	0.8	1
13	Necessary and Sufficient Conditions for Optimality of Nonsmooth Semi-infinite Programming. <i>Iranian Journal of Science and Technology, Transaction A: Science</i> , 2017, 41, 923-929.	1.5	2
14	Optimality conditions in convex multiobjective SIP. <i>Mathematical Programming</i> , 2017, 164, 167-191.	2.4	24
15	Slater CQ, optimality and duality for quasiconvex semi-infinite optimization problems. <i>Journal of Mathematical Analysis and Applications</i> , 2016, 434, 638-651.	1.0	15
16	On strong KKT optimality conditions for multiobjective semi-infinite programming problems with Lipschitzian data. <i>Optimization Letters</i> , 2015, 9, 1121-1129.	1.6	24
17	Optimality conditions for nonsmooth semi-infinite multiobjective programming. <i>Optimization Letters</i> , 2014, 8, 1517-1528.	1.6	42
18	Constraint Qualifications in Semi-Infinite Systems and Their Applications in Nonsmooth Semi-Infinite Problems with Mixed Constraints. <i>SIAM Journal on Optimization</i> , 2014, 24, 559-572.	2.0	26

#	ARTICLE	IF	CITATIONS
19	Lagrange multiplier rules for non-differentiable DC generalized semi-infinite programming problems. Journal of Global Optimization, 2013, 56, 417-430.	1.8	6
20	ON FIRST-ORDER NECESSARY CONDITIONS FOR OPTIMALITY OF REGULAR GENERALIZED SEMI-INFINITE PROGRAMMING. Asian-European Journal of Mathematics, 2012, 05, 1250054.	0.5	0
21	Necessary optimality conditions for nonsmooth semi-infinite programming problems. Journal of Global Optimization, 2011, 49, 713-725.	1.8	36
22	On stationarity for nonsmooth multiobjective problems with vanishing constraints. Journal of Global Optimization, 0, , 1.	1.8	6
23	Stationarity in Nonsmooth Optimization with Switching Constraints. Iranian Journal of Science and Technology, Transaction A: Science, 0, , .	1.5	1
