#	ARTICLE	IF	CITATIONS
1	Extrusion of pilosebaceous units into blisters of patients affected by a new variant of endemic pemphigus in El Bagre, Colombia, South America. <i>Journal of Cutaneous Pathology</i> , 2022, , .	0.7	0
2	Lichen simplex chronicus positive for C5b-9/MAC, IgD and C3c as a result of recurrent bacterial hair follicular unit infection. <i>Nasza Dermatologia Online</i> , 2020, 11, 385-388.	0.0	0
3	Involvement of the Areae Compositae of the Heart in Endemic Pemphigus Foliaceus. <i>Dermatology Practical and Conceptual</i> , 2019, 9, 181-186.	0.5	1
4	Cardiac rhythm and pacemaking abnormalities in patients affected by endemic pemphigus in Colombia may be the result of deposition of autoantibodies, complement, fibrinogen, and other molecules. <i>Heart Rhythm</i> , 2018, 15, 725-731.	0.3	6
5	Autoantibodies to full body vascular cell junctions colocalize with MYZAP, ARVCF, desmoplakins I and II and p0071 in endemic pemphigus in Colombia, South America. <i>International Journal of Dermatology</i> , 2018, 57, 291-298.	0.5	2
6	Subclinical oral involvement in patients with endemic pemphigus foliaceus. <i>Dermatology Practical and Conceptual</i> , 2018, 8, 252-261.	0.5	2
7	Patients affected by endemic pemphigus foliaceus in Colombia, South America exhibit autoantibodies to optic nerve sheath envelope cell junctions. <i>Dermatology Practical and Conceptual</i> , 2018, 8, 1-6.	0.5	2
8	Cell junction protein armadillo repeat gene deleted in velo-cardio-facial syndrome is expressed in the skin and colocalizes with autoantibodies of patients affected by a new variant of endemic pemphigus foliaceus in Colombia. <i>Dermatology Practical and Conceptual</i> , 2017, 7, 3-8.	0.5	2
9	Palmar and plantar lichen planus: a case report and review of the literature. <i>Anais Brasileiros De Dermatologia</i> , 2015, 90, 175-177.	0.5	9
10	Tumor-suppressor genes, cell cycle regulatory checkpoints, and the skin. <i>North American Journal of Medical Sciences</i> , 2015, 7, 176.	1.7	53
11	Markers for sebaceoma show a spectrum of cell cycle regulators, tumor suppressor genes, and oncogenes. <i>North American Journal of Medical Sciences</i> , 2015, 7, 275.	1.7	6
12	Immunofluorescence patterns in selected dermatoses, including blistering skin diseases utilizing multiple fluorochromes. <i>North American Journal of Medical Sciences</i> , 2015, 7, 397.	1.7	3
13	HLA-DPDQDR is expressed in all lesional skin from patients with autoimmune skin diseases. <i>Nasza Dermatologia Online</i> , 2014, 5, 125-128.	0.0	1
14	Central centrifugal cicatricial alopecia amalgamated with alopecia areata: immunologic findings. <i>Nasza Dermatologia Online</i> , 2014, 5, 287-291.	0.0	1
15	N-traps and C-ancas in a lupus erythematosus-scleroderma overlap syndrome with vasculitis and panniculitis. <i>Nasza Dermatologia Online</i> , 2013, 4, 83-86.	0.0	0
16	Immunohistochemistry versus immunofluorescence in the diagnosis of autoimmune blistering diseases. <i>Nasza Dermatologia Online</i> , 2013, 4, 585-589.	0.0	7
17	Autoimmune epidermal blistering diseases. <i>Nasza Dermatologia Online</i> , 2013, 4, 631-646.	0.0	6
18	In situ immune response evaluation via immunohistochemistry in skin biopsies from patients affected by autoimmune blistering diseases. <i>Nasza Dermatologia Online</i> , 2013, 4, 606-612.	0.0	4

#	ARTICLE	IF	CITATIONS
19	Cyclo-oxygenase 2 is present in the majority of lesional skin from patients with autoimmune blistering diseases. <i>Nasza Dermatologia Online</i> , 2013, 4, 476-478.	0.0	5
20	Ribosomal protein s6-ps240 is expressed in lesional skin from patients with autoimmune skin blistering diseases. <i>North American Journal of Medical Sciences</i> , 2013, 5, 604.	1.7	9
21	Tissue inhibitor of metalloproteinase 1, matrix metalloproteinase 9, α -1 antitrypsin, metallothionein and urokinase type plasminogen activator receptor in skin biopsies from patients affected by autoimmune blistering diseases. <i>Nasza Dermatologia Online</i> , 2013, 4, 275-280.	0.0	10
22	Merkel cell carcinoma versus metastatic small cell primary bronchogenic carcinoma. <i>Nasza Dermatologia Online</i> , 2013, 4, 64-71.	0.0	5
23	Immunohistochemistry studies in a case of dermatitis herpetiformis demonstrate complex patterns of reactivity. <i>Nasza Dermatologia Online</i> , 2013, 4, 627-630.	0.0	3
24	Immune reactivity in psoriatic Munro-Saboureaux microabscesses, stratum corneum and blood vessels. <i>North American Journal of Medical Sciences</i> , 2012, 4, 257.	1.7	4
25	CD45/CD8 myeloid histioid antigen and plasma cell antibody immune response in a case of malignant melanoma. <i>North American Journal of Medical Sciences</i> , 2012, 4, 507.	1.7	0
26	Collagen IV in normal skin and in pathological processes. <i>North American Journal of Medical Sciences</i> , 2012, 4, 1.	1.7	103
27	Cytotoxic and antigen presenting cells, and non-basement membrane zone pathology in a case of bullous pemphigoid. <i>Nasza Dermatologia Online</i> , 2012, 3, 93-99.	0.0	0
28	Dermatitis herpetiformis bodies and autoantibodies to noncutaneous organs and mitochondria in dermatitis herpetiformis. <i>Nasza Dermatologia Online</i> , 2012, 3, 283-291.	0.0	3
29	Endobutton fixation of distal biceps tendon injuries. <i>Current Orthopaedic Practice</i> , 2012, 23, 38-41.	0.1	0
30	Varicella-zoster virus (VZV) and alpha 1 antitrypsin: a fatal outcome in a patient affected by endemic pemphigus foliaceus. <i>International Journal of Dermatology</i> , 2012, 51, 809-816.	0.5	9
31	Antibodies to pilosebaceous units along their neurovascular supply routes in a new variant of endemic pemphigus foliaceus in Colombia, South America. <i>European Journal of Dermatology</i> , 2011, 21, 371-375.	0.3	13
32	Autoantibodies to melanocytes and characterization of melanophages in patients affected by a new variant of endemic pemphigus foliaceus. <i>Journal of Cutaneous Pathology</i> , 2011, 38, 710-719.	0.7	2
33	Neural System Antigens Are Recognized by Autoantibodies from Patients Affected by a New Variant of Endemic Pemphigus Foliaceus in Colombia. <i>Journal of Clinical Immunology</i> , 2011, 31, 356-368.	2.0	27
34	Cardiac Autoantibodies from Patients Affected by a New Variant of Endemic Pemphigus Foliaceus in Colombia, South America. <i>Journal of Clinical Immunology</i> , 2011, 31, 985-997.	2.0	21
35	Bullous allergic drug eruption with presence of myeloperoxidase and reorganization of the dermal vessels observed by using CD34 and collagen IV antibodies. <i>North American Journal of Medical Sciences</i> , 2011, 3, 82-84.	1.7	4
36	An inflamed trichilemmal (pilar) cyst: Not so simple?. <i>North American Journal of Medical Sciences</i> , 2011, 3, 431-434.	1.7	8

#	ARTICLE	IF	CITATIONS
37	Overexpression of linker for activated T cells, cyclooxygenase-2, CD1a, CD68 and myeloid/histiocyte antigen in an inflamed seborrheic keratosis. North American Journal of Medical Sciences, 2011, 3, 161-163.	1.7	4
38	Activation of the signaling cascade in response to T lymphocyte receptor stimulation and prostanoids in a case of cutaneous lupus. North American Journal of Medical Sciences, 2011, 3, 251-254.	1.7	4
39	HAM56 and CD68 antigen presenting cells surrounding a sarcoidal granulomatous tattoo. North American Journal of Medical Sciences, 2011, 3, 475-7.	1.7	4
40	Formalin deposition as artifact in biopsies from patients affected by a new variant of endemic pemphigus foliaceus in El Bagre, Colombia, South America. Journal of Cutaneous Pathology, 2010, 37, 835-842.	0.7	8
41	Diagnosis and treatment of cutaneous paraneoplastic disorders. Dermatologic Therapy, 2010, 23, 662-675.	0.8	57
42	Broad histopathologic patterns of non-glaborous skin and glabrous skin from patients with a new variant of endemic pemphigus foliaceus—part 1. Journal of Cutaneous Pathology, 2010, 37, 222-230.	0.7	27
43	Palm tissue displaying a polyclonal autoimmune response in patients affected by a new variant of endemic pemphigus foliaceus in Colombia, South America. European Journal of Dermatology, 2010, 20, 074-081.	0.3	15
44	Human eyelid meibomian glands and tarsal muscle are recognized by autoantibodies from patients affected by a new variant of endemic pemphigus foliaceus in El-Bagre, Colombia, South America. Journal of the American Academy of Dermatology, 2010, 62, 437-447.	0.6	22
45	Endemic pemphigus over a century: Part II. North American Journal of Medical Sciences, 2010, 2, 114-25.	1.7	2
46	Vimentin compartmentalization in discoid lupus. North American Journal of Medical Sciences, 2010, 2, 106-10.	1.7	1
47	Endemic pemphigus foliaceus over a century: Part I. North American Journal of Medical Sciences, 2010, 2, 51-9.	1.7	11
48	Autoreactivity to sweat and sebaceous glands and skin homing T cells in lupus profundus. Clinical Immunology, 2009, 132, 420-424.	1.4	12
49	Autoantibodies to sweat glands detected by different methods in serum and in tissue from patients affected by a new variant of endemic pemphigus foliaceus. Archives of Dermatological Research, 2009, 301, 711-718.	1.1	28
50	Presence of neutrophil extracellular traps and antineutrophil cytoplasmic antibodies associated with vasculitides. North American Journal of Medical Sciences, 2009, 1, 309-13.	1.7	19
51	Dyshidrotic eczema: relevance to the immune response in situ. North American Journal of Medical Sciences, 2009, 1, 117-20.	1.7	4
52	A new variant of endemic pemphigus foliaceus in El-Bagre, Colombia: the Hardy-Weinberg-Castle law and linked short tandem repeats. North American Journal of Medical Sciences, 2009, 1, 169-78.	1.7	3
53	Deposition of immunoreactants in a cutaneous allergic drug reaction. North American Journal of Medical Sciences, 2009, 1, 180-3.	1.7	3
54	Antigen presenting cells in the skin of a patient with hair loss and systemic lupus erythematosus. North American Journal of Medical Sciences, 2009, 1, 205-10.	1.7	5

#	ARTICLE	IF	CITATIONS
55	Histologic Study of Depressed Acne Scars Treated with Serial High-Concentration (95%) Trichloroacetic Acid. Dermatologic Surgery, 2006, 32, 985-990.	0.4	44
