#	ARTICLE	IF	CITATIONS
1	Characterization of Transport Activity of SLC11 Transporters in <i>Xenopus laevis</i> Oocytes by Fluorophore Quenching. <i>SLAS Discovery</i> , 2021, 26, 798-810.	2.7	1
2	Detection of erythroblast antibodies in mitogenâ€stimulated bone marrow cultures from patients with myelodysplastic syndromes. <i>Transfusion</i> , 2016, 56, 2037-2041.	1.6	12
3	The D-amino acid transport by the invertebrate SLC6 transporters KAAT1 and CAATCH1 from <i>Manduca sexta</i> . <i>Physiological Reports</i> , 2016, 4, e12691.	1.7	8
4	Detection of red blood cell antibodies in mitogenâ€stimulated cultures from patients with hereditary spherocytosis. <i>Transfusion</i> , 2015, 55, 2930-2938.	1.6	14
5	<i>Dictyostelium</i> Nrap1, structurally and functionally close to mammalian DMT1 transporter, mediates phagosomal iron efflux. <i>Journal of Cell Science</i> , 2015, 128, 3304-16.	2.0	32
6	Toll-like receptor 4 and 9 expression in B-chronic lymphocytic leukemia: relationship with infections, autoimmunity and disease progression. <i>Leukemia and Lymphoma</i> , 2014, 55, 1768-1773.	1.3	20
7	Sustained response to lowâ€dose rituximab in idiopathic autoimmune hemolytic anemia. <i>European Journal of Haematology</i> , 2013, 91, 546-551.	2.2	50
8	Increased prevalence of autoimmune phenomena in myelofibrosis: Relationship with clinical and morphological characteristics, and with immunoregulatory cytokine patterns. <i>Leukemia Research</i> , 2013, 37, 1509-1515.	0.8	35
9	Low-dose rituximab in adult patients with idiopathic autoimmune hemolytic anemia: clinical efficacy and biologic studies. <i>Blood</i> , 2012, 119, 3691-3697.	1.4	118
10	Hereditary red cell membrane defects: diagnostic and clinical aspects. <i>Blood Transfusion</i> , 2011, 9, 274-7.	0.4	53
11	Expression of TLRs in B-CLL: Relationship with Disease Activity. <i>Blood</i> , 2011, 118, 4597-4597.	1.4	0
12	Comparison of traditional methods and mitogen-stimulated direct antiglobulin test for detection of anti-red blood cell autoimmunity. <i>International Journal of Hematology</i> , 2010, 91, 762-769.	1.6	24
13	Low-Dose Rituximab In Idiopathic Autoimmune Hemolytic Anemia: Biological Studies. <i>Blood</i> , 2010, 116, 3206-3206.	1.4	0
14	Anti-erythroblast autoimmunity in early myelodysplastic syndromes. <i>Haematologica</i> , 2007, 92, 19-26.	3.5	31
15	Hematological, molecular and cytokine changes after reduced intensity bone marrow transplantation for paroxysmal nocturnal hemoglobinuria. <i>Leukemia and Lymphoma</i> , 2007, 48, 2251-2254.	1.3	1
16	P054 Anti-erythroblast autoimmunity in early MDS. <i>Leukemia Research</i> , 2007, 31, S69-S70.	0.8	0
17	Analysis of JAK2 V167F Mutation in Myelodysplastic Syndromes.. <i>Blood</i> , 2007, 110, 4591-4591.	1.4	4
18	Anti-Erythroblast Autoimmunity in Pediatric Myelodysplastic Syndromes.. <i>Blood</i> , 2007, 110, 4596-4596.	1.4	0

#	ARTICLE	IF	CITATIONS
19	Bone Marrow Erythroid Maturation and Cytokine Production in Refractory Anemia Patients with Positive Mitogen-Stimulated-Direct Antiglobulin Test.. Blood, 2005, 106, 4898-4898.	1.4	0
20	Anti-Erythroblast Antibodies and Defective Apoptosis in Bone Marrow of Early Myelodysplastic Syndrome Patients.. Blood, 2004, 104, 4705-4705.	1.4	0
21	Increased resistance of PIG-A- bone marrow progenitors to tumor necrosis factor a and interferon gamma: possible implications for the in vivo dominance of paroxysmal nocturnal hemoglobinuria clones. Haematologica, 2004, 89, 651-6.	3.5	14
22	Cytokine modulation of nuclear factor- κ B activity in B-chronic lymphocytic leukemia. Experimental Hematology, 2003, 31, 185-190.	0.4	48
23	In vitro production of anti-RBC antibodies and cytokines in chronic lymphocytic leukemia. American Journal of Hematology, 2002, 71, 177-183.	4.1	38
24	Increased Mycobacterium tuberculosis growth in HIV-1-infected human macrophages: role of tumour necrosis factor- α . Clinical and Experimental Immunology, 2001, 123, 435-442.	2.6	39
