#	Article	IF	CITATIONS
1	Perceptions of Residents in Relation to Smartphone Applications to Promote Understanding of Radiation Exposure after the Fukushima Accident: A Cross-Sectional Study within and outside Fukushima Prefecture. Journal of Radiation Protection and Research, 2022, 47, 67-76.	0.6	0
2	Antenatal and postnatal association of maternal bonding and mental health in Fukushima after the Great East Japan Earthquake of 2011:The Japan Environment and Children's Study (JECS). Journal of Affective Disorders, 2021, 278, 244-251.	4.1	8
3	Living conditions and health status of populations living in territories impacted by nuclear accidents – Some lessons for developing health surveillance programme. Environment International, 2021, 147, 106294.	10.0	10
4	Trends in Suicide Mortality in 10 Years around the Great East Japan Earthquake: Analysis of Evacuation and Non-Evacuation Areas in Fukushima Prefecture. International Journal of Environmental Research and Public Health, 2021, 18, 6005.	2.6	7
5	Long-term Follow-up of Affected Residents After Lifting Evacuation Orders in Fukushima Prefecture, Japan: Findings from an Interview-Based Psychological Survey. Disaster Medicine and Public Health Preparedness, 2021, , 1-7.	1.3	0
6	Panel Session toward Improved Communication and Engagement with the Public after the Fukushima Daiichi Nuclear Power Plant Accident: Study Reports and Discussion with Specialists from Relevant Fields. Journal of Radiation Protection and Research, 2021, 46, 134-142.	0.6	1
7	Review of engagement activities to promote awareness of radiation and its associated risk amongst the Japanese public before and after the Fukushima Daiichi Nuclear Power Plant accident. Journal of Radiological Protection, 2021, 41, 1258-1287.	1.1	1
8	Relationship between Psychological Factors and Social Support after Lifting of Evacuation Order in Fukushima Prefecture, Japan. Behavioral Sciences (Basel, Switzerland), 2020, 10, 149.	2.1	4
9	Associated factors related to participation in general health checkup and survey of the effect of low-dose radiation exposure on health of residents of Fukushima Prefecture after the Fukushima Daiichi nuclear power plant accident. Preventive Medicine Reports, 2020, 20, 101214.	1.8	6
10	The Association between Utilization of Media Information and Current Health Anxiety Among the Fukushima Daiichi Nuclear Disaster Evacuees. International Journal of Environmental Research and Public Health, 2020, 17, 3921.	2.6	13
11	Panel Session toward Improved Communication and Engagement with Publics after the Fukushima Dai-ichi Nuclear Power Plant Accident. Japanese Journal of Health Physics, 2020, 55, 257-263.	0.1	1
12	Development of radiation education in schools after the Fukushima Daiichi nuclear power plant accident ― a study from the perspectives of regionality, multidisciplinarity and continuity. Radioprotection, 2020, 55, 317-324.	1.0	4
13	Examples of practical activities related to public understanding of radiation risk following the Fukushima nuclear accident. Radioprotection, 2020, 55, 297-307.	1.0	7
14	Living in the Restoration Public Housing after the Great East Japan Earthquake Correlates with Lower Subjective Well-Being of Older Adults. International Journal of Environmental Research and Public Health, 2019, 16, 2696.	2.6	14
15	Lingering health-related anxiety about radiation among Fukushima residents as correlated with media information following the accident at Fukushima Daiichi Nuclear Power Plant. PLoS ONE, 2019, 14, e0217285.	2.5	32
16	Recovery from radiation anxiety and posttraumatic growth among community dwellers after the nuclear disaster in Fukushima. Cogent Psychology, 2019, 6, .	1.3	7
17	Thinking and Acting with School Children in Fukushima: Implementation of a Participatory Theater Approach and Analysis of the Experiences of Teachers. JMA Journal, 2019, 3, 67-72.	0.8	2
18	The role of radiological protection experts in stakeholder involvement in the recovery phase of post-nuclear accident situations: Some lessons from the Fukushima-DaĀ ⁻ chi NPP accident. Radioprotection, 2019, 54, 259-270.	1.0	33

#	Article	IF	CITATIONS
19	Efficacy of group intervention involving physical activity on subjective wellâ€being of elderly returnees after evacuation following the Great East Japan Earthquake. Psychogeriatrics, 2019, 19, 246-254.	1.2	4
20	Risk Factor for Incident Functional Disability and the Effect of a Preventive Exercise Program: A 4-Year Prospective Cohort Study of Older Survivors from the Great East Japan Earthquake and Nuclear Disaster. International Journal of Environmental Research and Public Health, 2018, 15, 1430.	2.6	15
21	Association between Health Literacy and Radiation Anxiety among Residents after a Nuclear Accident: Comparison between Evacuated and Non-Evacuated Areas. International Journal of Environmental Research and Public Health, 2018, 15, 1463.	2.6	28
22	Communicating With Residents About Risks Following the Fukushima Nuclear Accident. Asia-Pacific Journal of Public Health, 2017, 29, 74S-89S.	1.0	75
23	Measuring and assessing individual external doses during the rehabilitation phase in litate village after the Fukushima Daiichi nuclear power plant accident. Journal of Radiological Protection, 2017, 37, 606-622.	1.1	23
24	Occurrence of depressive tendency and associated social factors among elderly persons forced by the Great East Japan Earthquake and nuclear disaster to live as long-term evacuees: a prospective cohort study. BMJ Open, 2017, 7, e014339.	1.9	21
25	Japanese translation and linguistic validation of the US National Cancer Institute's Patient-Reported Outcomes version of the Common Terminology Criteria for Adverse Events (PRO-CTCAE). Journal of Patient-Reported Outcomes, 2017, 1, 8.	1.9	44
26	The Current State and Problems of Radiation Risk Communication: Based on the Results of a 2012 Whole Village Survey. PLOS Currents, 2017, 9, .	1.4	4
27	Views on life and death of physicians, nurses, cancer patients and general population in Japan. PLoS ONE, 2017, 12, e0176648.	2.5	3
28	A report that Fukushima residents are concerned about radiation from Land, Food and Radon. Journal of Radiation Research, 2016, 57, 418-421.	1.6	8
29	Views on death with regard to end-of-life care preferences among cancer patients at a Japanese university hospital. Palliative and Supportive Care, 2015, 13, 969-979.	1.0	1
30	The importance of good death components among cancer patients, the general population, oncologists, and oncology nurses in Japan: patients prefer "fighting against cancer― Supportive Care in Cancer, 2015, 23, 103-110.	2.2	22
31	Views on death and life of medical doctors involved in cancer treatment. The Proceedings of the Annual Convention of the Japanese Psychological Association, 2015, 79, 1PM-034-1PM-034.	0.0	0
32	The effect of knowledge of cancer and radiation on the risk perception. The Proceedings of the Annual Convention of the Japanese Psychological Association, 2014, 78, 1EV-1-019-1EV-1-019.	0.0	0
33	Effectiveness of using clinical guidelines for conducting palliative care family meetings in Japan. Supportive Care in Cancer, 2013, 21, 53-58.	2.2	13
34	Chemotherapy with low-dose capecitabine as palliative treatment in a patient with metastatic breast cancer: a case report. Cases Journal, 2009, 2, 9081.	0.4	4
