#	ARTICLE	IF	CITATIONS
1	Clinical impact of molecular point-of-care testing for suspected COVID-19 in hospital (COV-19POC): a prospective, interventional, non-randomised, controlled study. <i>Lancet Respiratory Medicine</i> , 2020, 8, 1192-1200.	5.2	99
2	Increased prevalence of anti- α TNF therapy in paediatric inflammatory bowel disease is associated with a decline in surgical resections during childhood. <i>Alimentary Pharmacology and Therapeutics</i> , 2019, 49, 398-407.	1.9	35
3	Clinical characteristics, symptoms and outcomes of 1054 adults presenting to hospital with suspected COVID-19: A comparison of patients with and without SARS-CoV-2 infection. <i>Journal of Infection</i> , 2020, 81, 937-943.	1.7	29
4	SARS-CoV-2 viral load at presentation to hospital is independently associated with the risk of death. <i>Journal of Infection</i> , 2021, 83, 458-466.	1.7	11
5	High incidence of glucocorticoid-induced hyperglycaemia in inflammatory bowel disease: metabolic and clinical predictors identified by machine learning. <i>BMJ Open Gastroenterology</i> , 2020, 7, e000532.	1.1	10
6	Analysis and Hierarchical Clustering of Blood Results Before Diagnosis in Pediatric Inflammatory Bowel Disease. <i>Inflammatory Bowel Diseases</i> , 2020, 26, 469-475.	0.9	9
7	Children and young people with inflammatory bowel disease attend less school than their healthy peers. <i>Archives of Disease in Childhood</i> , 2020, 105, 671-676.	1.0	9
8	Wave comparisons of clinical characteristics and outcomes of COVID-19 admissions - Exploring the impact of treatment and strain dynamics. <i>Journal of Clinical Virology</i> , 2022, 146, 105031.	1.6	9
9	Routine molecular point-of-care testing for SARS-CoV-2 reduces hospital-acquired COVID-19. <i>Journal of Infection</i> , 2022, 84, 558-565.	1.7	9
10	Febrile host response point-of-care testing improves patient triage for coronavirus disease 2019 (COVID-19) in the emergency department. <i>Infection Control and Hospital Epidemiology</i> , 2022, 43, 979-986.	1.0	8
11	Distribution of High-Sensitivity Troponin Taken Without Conventional Clinical Indications in Critical Care Patients and Its Association With Mortality*. <i>Critical Care Medicine</i> , 2021, 49, 1451-1459.	0.4	6
12	Cervical spinal degenerative disease in multiple sclerosis. <i>European Journal of Neurology</i> , 2021, 28, 2497-2502.	1.7	5
13	Secondary haemophagocytic lymphohistiocytosis in hospitalised COVID-19 patients as indicated by a modified HScore is infrequent and high scores do not associate with increased mortality. <i>Clinical Medicine</i> , 2021, 21, e543-e547.	0.8	3
14	Incidence and 1-year outcome of periprocedural myocardial infarction following cardiac surgery: are the Universal Definition and Society for Cardiovascular Angiography and Intervention criteria fit for purpose?. <i>European Journal of Cardio-thoracic Surgery</i> , 2022, 62, .	0.6	3
15	Cohort Profile: The National Institute for Health Research Health Informatics Collaborative: Hepatitis B Virus (NIHR HIC HBV) research dataset. <i>International Journal of Epidemiology</i> , 0, , .	0.9	2
16	OTU-26...Data driven service evaluation of an IBD helpline. , 2019, , .		1
17	Growth failure is rare in a contemporary cohort of paediatric inflammatory bowel disease patients. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021, 110, 326-334.	0.7	0
18	P284...Pre-operative and post-operative nutritional management in inflammatory bowel disease: a case for a dietetic pathway. , 2021, , .		0

#	ARTICLE	IF	CITATIONS
19	Impact of the COVID-19 pandemic on routine surveillance for adults with chronic hepatitis B virus (HBV) infection in the UK. Wellcome Open Research, 0, 7, 51.	0.9	0
20	FebrIDx host response point-of-care testing improves patient triage for coronavirus disease 2019 (COVID-19) in the emergency department " ADDENDUM. Infection Control and Hospital Epidemiology, 2022, , 1-1.	1.0	0
